

EARLY CHILDHOOD DEVELOPMENT

The Office of the Deputy Assistant Secretary and Interdepartmental Liaison for Early Childhood Development (ECD) promotes a joint approach at the federal level to improving the availability of high quality early learning and development programs. We are made up of the Office of Child Care, the Office of Head Start, and the Interagency Team.

In addition to providing coordination across the Offices of Child Care and Head Start, including the Early Head Start-Child Care Partnerships, a new approach to expand access to high-quality care for infants and toddlers and their families, we manage early childhood development efforts with other offices within the Department of Health and Human Services. We also work with other federal agencies, state and tribal councils and administrators, and a wide range of national organizations and non-profit partners. These interagency, collaborative programs and communications help ensure a complete and integrated approach to improving the nation's childhood learning and development.

Within all of our programs and projects, we strive to achieve the following goals:

- Build successful Early Learning and Development Systems across Head Start, child care, and pre-K.
- Promote high quality and accountable early learning and development programs for all children.
- Improve the health and safety of early learning and development programs.
- Ensure an effective early childhood workforce.
- Promote family support and engagement in a child's development.

ECD also works with other programs within the U.S. Department of Health and Human Services. One of these is the Maternal

and Child Health Bureau, which administers and coordinates the Maternal, Infant, and Early Childhood Home Visiting Program. ECD administers the Tribal Maternal, Infant, and Early Childhood Home Visiting (Tribal MIECHV) program that provides grants to tribal organizations to develop, implement, and evaluate home visiting programs in American Indian and Alaska Native communities.

ECD also serves as the liaison and support to a range of other federal agencies, particularly the U.S. Department of Education, including but not limited to coordination of the Race to the Top Early Learning Challenge, Preschool Development Grants, Birth to 5: Watch Me Thrive!, Reducing Suspension and Expulsion Practices in Early Childhood Settings, and expanding early care and education for homeless children.

Given the importance of state and local activities in early childhood development, ECD works closely with state partners such as State Advisory Councils, State Child Care Administrators, and State Pre-K Directors.

Other Interagency Initiatives:

- Reducing Suspension and Expulsion Practices in Early Childhood Settings
- Early Childhood Workforce
- Increasing Early Care and Education (ECE) Services for Homeless Children
- Family Engagement
- Bridging The Word Gap and Supporting the Development of Dual Language Learners in Early Childhood Programs.
- Promoting Inclusive High-Quality Early Childhood Programs

Finally, the ECD team continues to reach out to a wide range of national organizations and philanthropic partners to ensure that we are collaborating and learning together.
