How many children in foster care had their parental rights terminated for all living parents? 65,000

As of September 30, 2004, how many months had elapsed since the parental rights of these foster children were terminated?

Mean Months	28.3
Median Months	16.8

How many children were adopted with public agency involvement in FY 2004? 52,000

SOURCE: Adoptions can be reported to the AFCARS adoption database at any time after the adoption has been finalized. This report includes adoptions finalized in FY 2004 reported in regular and revised submissions by June 1, 2006.

NOTES: The number of adoptions reported here do not equal the number of adoption discharges reported under foster care exits because the adoptions reported here include adoptions of some children who were not in foster care but received other support from the public agency. In addition, states have historically underreported adoption discharges. In contrast, states tend to more accurately report the adoptions to the AFCARS adoption database because those are the adoptions used to calculate adoption incentive awards. Missing data are not used in the calculation of the percentages.
