Question 1

Are you planning, or have you done, an evaluation of your current system to determine what modifications will be needed to meet the CCWIS requirements and collect required CCWIS data?

Question 2

Are you planning, or have you done, an evaluation of your current system to determine how your system meets the needs of your users?

Question 3

The new CCWIS regulations require the implementation of new data exchanges and data quality standards. Besides these new requirements, are there other enhancements to your current system that will need to be completed to meet CCWIS compliance?

Question 4

What do you see as the pros and cons of implementing or transitioning to a CCWIS versus a non-CCWIS?

Question 5

What cost and resource drivers have you considered in determining the feasibility of implementing a CCWIS?
