Introduction

This booklet summarizes information on the Children’s Bureau Training and Technical Assistance (T&TA) Network, within the Administration for Children and Families (ACF), U.S. Department of Health and Human Services. This directory offers information on the specific focus of each of the 23 T&TA Network members.

The mission of the T&TA Network is to provide a seamless array of services that build the capacity of States, Tribes, territories, and courts to achieve sustainable, systemic changes that will result in improved outcomes for children, youth, and families. To do so, the Network members provide training, TA, research, information and referral, and consultation on the full array of Federal requirements administered by the Children’s Bureau.

T&TA Network members also assist State, local, Tribal, and other publicly administered or publicly supported child welfare agencies and family and juvenile courts to achieve conformity with the outcomes and systemic factors defined in the monitoring reviews conducted by the Children’s Bureau.

The T&TA Network provides both on-site and off-site T&TA. On-site assistance might cover several weeks or months and comprise multiple visits; off-site assistance might consist, for example, of conducting a policy review or responding to a request for materials in a specific practice area. The Network has an open-door policy for making T&TA requests. Requesters may do any of the following to seek assistance:

- Contact the Training and Technical Assistance Coordination Center (TTACC), which coordinates the Network’s T&TA requests (see the contact information on page 9)
- Talk directly with one of the T&TA Network members
- Contact an ACF Regional Office (for a list of ACF Regional Offices and the States they serve, visit the ACF Web site: http://www.acf.hhs.gov/programs/oro)
- Complete the On-Site T&TA Standard Request Initiation Form, which appears on the TTACC Information Portal at https://www.ttaccportal.org

This directory is also available on the Children’s Bureau Web site: http://www.acf.hhs.gov/programs/cb/tta/index.htm.

The Children’s Bureau Training & Technical Assistance Network

Training and Technical Assistance Coordination Center (TTACC)
https://www.ttaccportal.org

The Training and Technical Assistance Coordination Center (TTACC) supports the Children's Bureau (CB) in coordinating intensive, individualized, on-site training and TA services provided to States, Tribes, territories, and courts through the T&TA Network. TTACC facilitates conversations to gain a better understanding of the identified needs; coordinates T&TA Network responses to these needs; improves assessment of the readiness and capacity of the requesting jurisdiction to engage in the work; and facilitates discussions intended to support integration and collaboration. In addition, TTACC ensures that assistance is provided in response to findings from Federal reviews, previous T&TA recommendations, and other major initiatives that may be occurring. This coordination encourages those requesting assistance and those providing it to access and use appropriate and coordinated T&TA approaches that will promote and sustain long-term systemic change while building the capacity of the jurisdiction to maintain that change.

GOAL
Provide a single point of coordination for intensive, individualized, on-site T&TA services provided through the T&TA Network

HOW WE HELP
- Coordinate T&TA by receiving and tracking T&TA requests, facilitating assessment and planning calls, developing T&TA workplans, and monitoring the progress of assistance delivered by Network members
- Develop and manage an online Information Portal containing State, Tribal, and Network provider profiles; T&TA activities for each jurisdiction receiving services; a calendar of general T&TA Network events and Children’s Bureau events that might affect the delivery of T&TA; and a repository of T&TA information and resources

National Quality Improvement Center on Differential Response in Child Protective Services (QIC-DR)
http://www.differentialresponseqic.org

The QIC-DR supports knowledge development on the effectiveness of differential response (DR) in child welfare. After identifying knowledge gaps and research priorities, the QIC-DR supported three research and demonstration sites that have implemented and are evaluating differential response in Colorado, Illinois, and Ohio. The QIC-DR also supported dissertation research. Finally, the QIC-DR develops and disseminates information through various publications and Webinars, providing the latest data to practitioners, policymakers, administrators, and researchers.

GOAL

HOW WE HELP
- Develop knowledge about improving outcomes for children and families in the child welfare system by implementing a DR-organized CPS system
- Promote collaborative problem-solving among the research and demonstration sites as well as doctoral students receiving dissertation support
- Design and support the implementation of DR research and evaluation in the three sites and through a cross-site evaluation that analyzes implementation, outcomes, and costs

National Quality Improvement Center on the Representation of Children in the Child Welfare System (QIC-ChildRep)

The QIC-ChildRep’s role is to gather, develop, and communicate knowledge on child representation; promote consensus on the role of the child’s legal representative; and provide one of the first empirically based analyses of how legal representation for the child might best be delivered. Its hypothesis is that improved child representation will benefit case management and access to services for children and ultimately improve child safety, permanency, and well-being.

GOAL
Gather, develop, and communicate knowledge on child representation that presents the strengths and weaknesses of varying methods of representing children, promotes consensus on the role of the child’s legal representative, and provides an empirically based analysis of how legal representation for the child might best be delivered

HOW WE HELP
- Compiled a national assessment of the state of representation of children in the child welfare system as of 2010
- Identified a best-practice representation model for delivering good results for children and achieving overall systemic goals of safety, permanency, and child well-being
- Developed the first-ever random assignment experimental design research project on the legal representation of children, now being implemented in Georgia and Washington State
- Promote certification of lawyers as specialists in child welfare law
