ACF Policy for Applicants Experiencing Federal Systems Issues

The grant application submission process requires applicant organizations to register and interact with several federal electronic systems, including Grants.gov and the System for Award Management (SAM.gov). On occasion, technical problems with one of these systems could result in an applicant failing to meet the application submission deadline. This document clarifies the Administration for Children and Families (ACF’s) policy regarding the submission of late applications if a systems issue beyond an applicant’s control is the cause of the late application.

Applicants experiencing issues with a federal system that may prevent the on-time submission of their application must follow these guidelines for reporting the issue. Systems issues are defined as technical problems with federal systems that prevent an applicant from successfully submitting their application by 11:59 p.m., ET on the due date listed in the Notice of Funding Opportunity (NOFO). Problems with computer systems at an applicant organization or with a non-federal third party (e.g., an organization partnering with the applicant) are not considered federal systems issues; nor is the applicant’s failure to complete required registrations by the submission deadline.

Applicants are strongly encouraged to complete the electronic application submission process several days before the application due date to ensure the application is successfully accepted by Grants.gov. Applicants should consider that some application due dates will have a high volume of submissions, which may slow down federal systems and increase the time needed for applications to be received and time stamped at Grants.gov. Applications must be received and time stamped on or before the deadline. Applicants must take this processing time into consideration by allowing enough time to make any necessary corrections prior to the deadline. For more information see Section IV.2. Application Submission Options, Electronic Submission via Grants.gov and Timely Receipt Requirements and Proof of Timely Submission in the NOFO.

Guidelines for Applicants Experiencing Systems Issues

To confirm a federal systems issue, contact the appropriate system support service as soon as possible after experiencing an issue. Systems issues must be fully documented as outlined below by 4:30 p.m. ET, on the federal business day immediately following the application submission due date.
For Grants.gov system issues:

1. Contact [Grants.gov Support](#) to document and receive help to resolve any Grants.gov related submission issues. Applicants will receive a Grants.gov Contact Center ticket number. **This ticket number should be retained by the applicant as** part of their documentation of the issue.

2. Document and explain the issue preventing submission in an email to the following address: [ogmappissue@acf.hhs.gov](mailto:ogmappissue@acf.hhs.gov) The email must include:
   a. The subject line must include the Funding Opportunity Number (FON) and include “Systems Issue.”
   b. The full name of and contact information for the applicant organization;
   c. The Data Universal Numbering System (DUNS) and/or Unique Entity Identifier (UEI) number;
   d. The name of the Authorized Organizational Representative (AOR) and E-Biz POC;
   e. Grants.gov tracking number, if applicable;
   f. The full title and FON of the NOFO to which the applicant is attempting to apply;
   g. A detailed description of the system issue preventing the application’s on-time submission;
   h. A description of the applicant’s request (e.g., to submit an application after the deadline);
   i. The Grants.gov support ticket(s) number;
   j. Any emails or correspondence with the Grants.gov Support as an email attachment.

For SAM.gov system issues:

1. Contact the [SAM.gov Federal Service Desk](#) (FSD) to document and help resolve any SAM.gov related registration issues.

2. Document and explain the issue preventing submission in an email to the following address: [ogmappissue@acf.hhs.gov](mailto:ogmappissue@acf.hhs.gov) The email must include the following information:
   a. The subject line must include the FON and include “Systems Issue.”
   b. Full name of applicant organization, address, email address of the Point of Contact and telephone number;
   c. The DUNS and/or UEI number;
   d. The name of the AOR and E-Biz POC;
   e. Grants.gov tracking number, if applicable;
   f. The full title and FON of the NOFO to which the applicant is attempting to apply;
   g. A detailed description of the system issue that has prevented the completion of the registration process;
   h. A description of the applicant’s request (e.g., to submit an application after the
i. The FSD support ticket(s) number;
j. Any emails or correspondence with the FSD as an email attachment.

Note: SAM registration/renewal can be a lengthy process. Please allow at least 10 business days after you submit your registration for it to become active in SAM and at least an additional 24 hours before that registration information is available in other government systems, i.e. Grants.gov. Failure to allow enough time for registration or renewal is not considered a system issue.

Additional Requirements

ACF expects applicants to respond quickly, that is, within one business day, to federal systems’ Support/Help Desk requests for actions necessary to resolve issues with completion of registration or application submission.

Reports of systems issues will be investigated on a case-by-case basis. If ACF confirms that an applicant experienced a systems issue which was beyond their control, their application will not be considered late and disqualified as long as the applicant works diligently with the appropriate federal system Support/Help Desk to resolve their problem quickly.

Any application that is allowed to be submitted after the deadline because of a confirmed federal systems issue must include a cover letter documenting the confirmed system issue(s), Support and/or Help Desk ticket(s) number(s), and the action(s) taken to resolve the issue(s). Applications must be submitted within five business days from when the designated Grants Management Officer sends a written notification that a systems issue was confirmed and resolved.

Late applicants that fail to document their federal systems issues before 4:30 p.m. ET, on the federal business day immediately following the application submission due date will be disqualified from the competitive review and from receiving an award under the funding opportunity.

Problems with computer systems at the applicant organization (barring a widespread or regional electrical failure), failure to follow instructions in the opportunity, or failure to complete required registrations by the submission due date and deadline ARE NOT considered to be federal systems issues.

Paper Format Applications

For those applicants that have received approval for an exemption from required electronic application submission at Grants.gov, if they are having a systems issue with SAM.gov, please refer to the instructions provided for SAM.gov issues. SAM.gov registration is required of all applicants. The deadline for paper format applications with an exemption is 4:30 p.m., ET, on the due date specified within the published NOFO.

Examples of events that may be considered federal systems issues:
- Significant [Grants.gov](https://grants.gov) service interruption on deadline day lasting multiple hours.
- Failure of [Grants.gov](https://grants.gov) to acknowledge receipt of an application within half a business day.
- Inability to complete SAM registration or renewal due to a technical problem at [SAM.gov](https://sam.gov).

**Examples of events that would NOT be considered federal systems issues:**

- Failure to follow the instructions in the NOFO.
- Failure to complete required applicant registrations prior to the application due date and deadline.
- Failure to correct [Grants.gov](https://grants.gov) errors/warnings by the application due date and deadline.
- Failure to re-submit a corrected application by the application due date and deadline when the application fails the validation process at [Grants.gov](https://grants.gov).
- Local internet problem at applicant organization except for widespread or regional electrical failures.
- The [Grants.gov](https://grants.gov) AOR is not authorized to submit applications for the organization.
- The applicant organization has forgotten its credentials.
- Failure to notify the grants management contact listed in *Section VII. HHS Awarding Agency Contact(s)* of the NOFO of submission issues before the deadline.
- The applicant did not receive the [Grants.gov](https://grants.gov) notification when the application’s status is available at [Grants.gov](https://grants.gov).
