## LANGUAGE BENEFICIARIES

End-of-Project Site Visits 2011-2015

### SCHOOLS

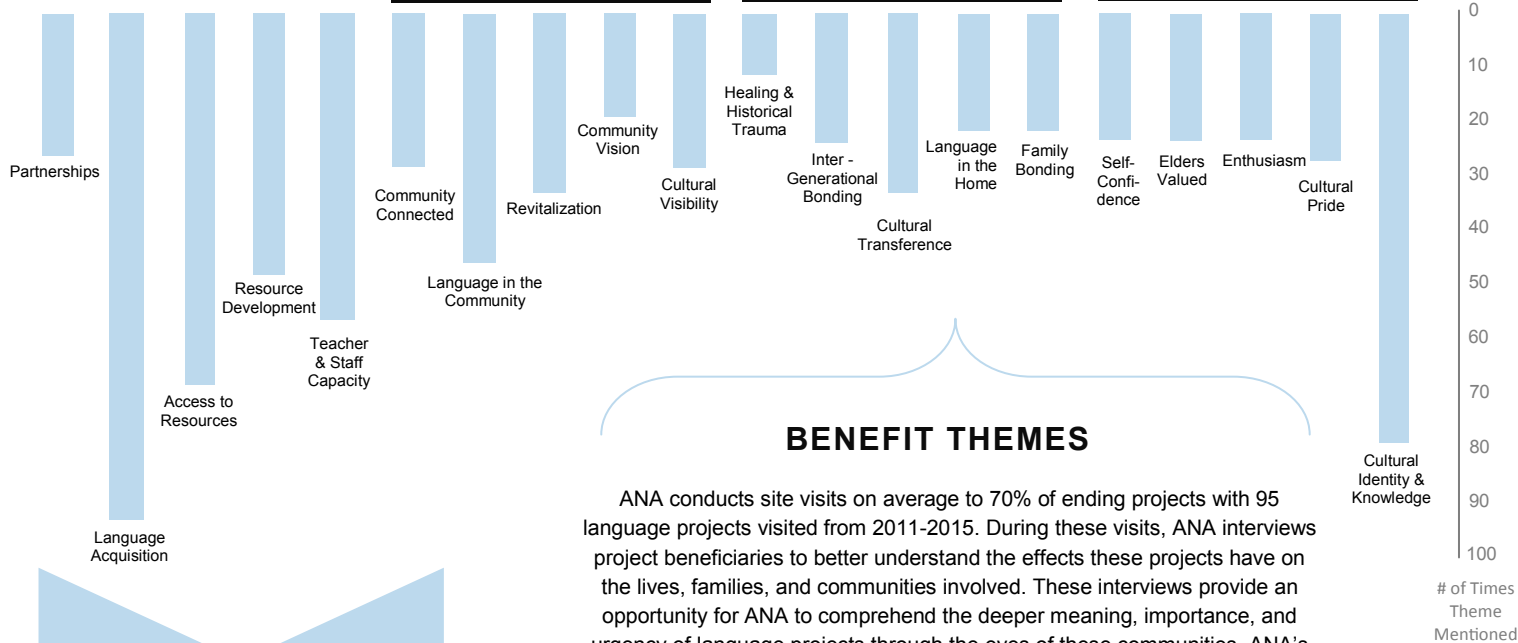

### COMMUNITIES

### FAMILIES

### INDIVIDUALS

## BENEFIT THEMES

ANA conducts site visits on average to 70% of ending projects with 95 language projects visited from 2011-2015. During these visits, ANA interviews project beneficiaries to better understand the effects these projects have on the lives, families, and communities involved. These interviews provide an opportunity for ANA to comprehend the deeper meaning, importance, and urgency of language projects through the eyes of these communities. ANA's Program Evaluation and Planning team reviewed the interview text collected, identified themes that emerged, and then determined which themes were mentioned the most frequently as shown in the above chart.

## Language Projects 2011-2015

**2011-2015 Visited Language Project Fluency Outcomes:**  
**612 New Fluent Speakers**  
**72% of New Fluent Speakers were Youth**  
**28% of New Fluent Speakers were Adults**
