Notes applicable to this table:

1. The source for this table is ACF-801 data for FFY 2003.
2. The "adjusted" numbers were obtained by multiplying the respective "unadjusted" numbers by the reported pooling factor percentage that was applicable to the ACF-801 data.
3. The reported results shown above have been rounded to the nearest 100 . The national numbers are simply the sum of the State and Territory numbers.
4. All states provide an actual count of families served. However, the number of children served is not a direct count based on the fact that
some States elect to submit sample data versus full population data. For States that submit samples, the ratio of children-to-families is determined and then multiplied by the number of families served to obtain an estimate of the number of children served.
5. Puerto Rico and the Virgin Islands were unable to report ACF-801 case-level data before report preparation.
6. On an ongoing basis, CA serves a significant number of families and children through State funds. Beginning in FY 2002, CA recognized and corrected their reporting to show that only $86 \%$ of families and children are being served through CCDF (as opposed to 100\%). The other $14 \%$ are actually being served by non-CCDF funds. Prior to FY 2002, NY reported children based on a payments system which allowed for a child to be counted more than once. Beginning with FY 2002, NY revised their reporting system. This has had the effect of eliminating double-counting. These changes lowered the national child counts by nearly 100,000 for FY 2002 and FY 2003 as compared to what was reported for FY 2001

Notes applicable to this table:

1. The source for this table is ACF-800 data for FFY 2003.
2. A " $0 \%$ " indication often means the value is less than $0.5 \%$ rather than actually zero.
3. In a few instances, the sum of the categories may not appear to add up to exactly $100 \%$ because of rounding
4. New York reports monthly averages rather than the disaggregated annual totals reported by all other states.
5. Oklahoma has not yet submitted an ACF-800 for FFY 2003

## Notes applicable to this table:

1. The source for this table is ACF-800 data for FFY 2003.
2. New Hampshire did not report the number of children by setting type.
3. A " $0 \%$ " indication often means the value is less than $0.5 \%$ rather than actually zero.
4. In a few instances, the sum of the categories may not appear to add up to exactly $100 \%$ because of rounding.
5. In some States there were no children served in Unregulated settings.
6. New York reports monthly averages rather than the disaggregated annual totals reported by all other states.
7. Oklahoma has not yet submitted an ACF-800 for FFY 2003.

## Notes applicable to this chart:

1. The source for this table is ACF-801 data for FFY 2003.
2. National percentages are based on the "adjusted" national numbers unless otherwise indicated. In other words, the national percentages are equivalent to a weighted average of the State percentages, where the weights are the "adjusted" number of families or children served as appropriate.
3. Puerto Rico and the Virgin Islands were unable to report ACF-801 case-level data before report preparation
4. Alaska's population reported does not accurately reflect the population served due to sampling difficulties the State is trying to resolve
5. In some instances, the Total may appear to be slightly more or less than $100 \%$ because of rounding.

## CCDF FFY 2003 Percentage of Children Served By Reason for Care

Notes applicable to this chart:

1. The source for this table is ACF-801 data for FFY 2003.
2. National percentages are based on the "adjusted" national numbers unless otherwise indicated. In other words, the national percentages are equivalent to a weighted average of the State percentages, where the weights are the "adjusted" number of families or children served as appropriate.
3. The Invalid/Not Reported only includes family records with an invalid or missing number for ACF-801 element 6 .
4. Several States only capture the primary reason for receiving services and therefore do not report any families in the Both Employment and Training/Education category.
5. Inconsistencies in income reporting appear in several States between ACF-801 element 6 (reason for receiving a subsidy, element 9 (total income for determining eligibility), and elements 10 through 15 (the sources of income). Records containing such inconsistencies are included in the measures above.
6. Puerto Rico and the Virgin Islands were unable to report ACF-801 case-level data before report preparation.
7. Alaska's population reported does not accurately reflect the population served due to sampling difficulties the State is trying to resolve.
8. In some instances, the Total may appear to be slightly more or less than $100 \%$ because of rounding.
