2.7.3. Market Rate Survey

Lead Agencies must complete a local Market Rate Survey (MRS) no earlier than two years prior to the effective date of the Plan (no earlier than October 1, 2011). The MRS must be completed prior to the submission of the CCDF Plan (*see Program Instruction CCDF-ACF-PI-2009-02* <http://www.acf.hhs.gov/programs/occ/resource/pi-2009-02> for more information on the MRS deadline).

- a) Provide the month and year when the local Market Rate Survey(s) was completed (§98.43(b)(2)): _____.
- b) Provide a **summary of the results** of the survey. _____ The summary should include a description of the sample population, data source, the type of methodology used, response rate, description of analyses, and key findings.

2.7.4. Describe the payment rate ceilings in relation to the current MRS using the tables below.

Because of the flexibility that Lead Agencies have in setting payment rate ceilings, the following tables have been developed to simplify Lead Agency reporting on how their payment rate ceilings compare to their most recent MRS. These tables are not meant to collect comprehensive payment rate ceilings within a State/Territory and ACF recognizes that Lead Agencies are not required to set their payment rate ceilings at the 75th percentile. These tables allow Lead Agencies to use a common metric – the 75th percentile – as a reference point against which the Lead Agency can report their percentiles for three selected age groups in two geographic areas for licensed child care centers and licensed family child care homes.

In table 2.7.4a and 2.7.4b, highest rate area refers to the State or Territory's area or geographic region with the highest maximum payment rate ceiling for child care centers (2.7.4a) and family child care homes (2.7.4b). Identify the highest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75th percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the

monthly maximum payment rate ceiling is lower than the 75th percentile of the most recent MRS.

*Note - Report the “base” maximum reimbursement rate ceiling, not including any rate add-ons or tiered reimbursements. For example, if maximum reimbursement rate ceilings are tiered based on level of quality (e.g., **accreditation, or rating within a quality rating system such as** gold, silver and bronze), report the rates for the lowest level in the tables below (e.g., bronze), **only if there is no lower “base” rate paid for child care services by providers not participating in the quality rating system.***

*If your State/Territory has hourly, daily **and**/or weekly maximum payment rate ceiling, **Lead Agencies can** use the following assumptions to calculate monthly maximum payment rate ceiling for column (b) – 9 hours a day, 5 days per week, 4.33 weeks per month.*

OCC recognizes that States and Territories use a wide variety of age ranges and categories in setting payment rate ceilings. In these charts, report rates for the following ages only – 11 months, 59 months, and 84 months of age – regardless of what that age category may be called in your State/Territory.

Reminder - CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. In the next three questions, Lead Agencies are asked to describe how their payment policies reflect the affordable copayments for families' provision of equal access (i.e., minimizing additional fees to parents), how payment practices are implemented consistent with the general child care market to be fair to providers (see Information Memorandum on Continuity of Care for examples <http://www.acf.hhs.gov/programs/occ/resource/im2011-06>), and the summary of facts describing how payment rates are adequate to ensure equal access to the full range of providers.

CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. To demonstrate equal access, the Lead Agency shall provide at a minimum a summary of facts describing: (§98.43(a))

- a) How a choice of the full range of providers, e.g., child care centers, family child care homes, group child care homes and in-home care, is made available (§98.43(a)(1)) _____

- b) How payment rates are adequate based on the most recent local MRS (§98.43(a)(2)) _____

- c) How family co-payments based on a sliding fee scale are affordable (§98.43(a)(3)) _____

- d) Any additional facts the Lead Agency considered to determine that its payment rates ensure equal access, including how the quality of child care providers is taken into account when setting rates and whether any other methodologies (e.g., cost estimation models) are used in setting payment rates _____

2.8 Goals for the next Biennium

In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium *and are encouraged to identify no more than five priority goals total*. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). *Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.*

What are the Lead Agency’s goals for the administration of the CCDF subsidy program in the coming Biennium? For example, what progress does the State/Territory expect to make on continuing improved services to parents and providers, continuity of care for children, improving outreach to parents and providers, building or expanding information technology systems, or revising rate setting policies or practices).

Note – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

Goal 5 -

PART 3
HEALTH AND SAFETY AND QUALITY IMPROVEMENT ACTIVITIES

In this section, Lead Agencies are asked to describe their goals and plans for implementation of child care quality improvement activities. Under the Child Care and Development Block Grant Act, Lead Agencies have significant responsibility for ensuring the health and safety of children in child care through the State/Territory's child care licensing system and establishing health and safety standards for children who receive CCDF funds. Health and safety is the foundation of quality, but is not adequate to ensure that programs and staff are competent in supporting all areas of child development and promoting school success.

Quality investments and support systems to promote continuous quality improvement of both programs and the staff who work in them are a core element of CCDF. Lead Agencies have been reporting on their efforts to support program quality improvement and professional development since their initial Plans in 1999. This section allows Lead Agencies to continue to describe the steps that they are taking toward continuous quality improvement with a goal of having high quality child care options across settings for all families. While one of the key goals for CCDF is helping more low-income children access higher quality care, the Lead Agency has the flexibility to consider its goals and strategic plans for a child care quality improvement system for all families, not just those receiving assistance under CCDF.

Part 3 is organized around a template of four key components of quality which encompass most of the quality investments and initiatives undertaken by Lead Agencies over the past decade:

1. Ensuring health and safety of children through **licensing and health and safety standards**
2. Establishing **early learning guidelines**
3. Creating pathways to excellence for child care programs through **program quality improvement activities**
4. Creating pathways to an effective, well-supported child care workforce through **professional development systems and workforce initiatives.**

For each component, Lead Agencies are asked to conduct a three-step process. First, in this section, Lead Agencies will conduct a self-assessment of their programs by responding to the questions in Part 3 that describe the current status of their efforts, using common practices and best practices to list characteristics that build off those that have been reported in previous plans. Second, Lead Agencies then are asked to identify goals for making progress during the FY 2014-2015 biennium and describe their data, performance measure and evaluation capacity for each component. Third, Lead Agencies will report progress on their goals using the Quality Performance Report which is included and described in Appendix 1. The QPR will not be submitted until December 31, 2014.

Draft for 2nd Public Comment – February, 2013

Based on information reported in past plans, it is expected that the Lead Agency will describe in these first two steps how they will continue to make systematic investments towards child care quality improvement across its early childhood and school-age spectrum – including all settings, geographic coverage and age range – that will help show progress toward these outcomes and goals. Ultimately, these child care quality improvement elements should be fully implemented and integrated. Each State/Territory is expected to fall on a continuum of progress as a result of these first two steps. Lead Agency's individual progress will reported using the Quality Performance Report.

3.1. Activities to Ensure the Health and Safety of Children in Child Care (Component #1)

This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.

First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced. *Questions related to licensing requirements are in sections 3.1.1 and 3.1.2.* Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. *Questions related to CCDF Health and Safety requirements are in sections 3.1.3 and 3.1.4.*

3.1.1. Compliance with Applicable State/Territory and Local Regulatory Requirements on Licensing

Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced.

Definition: Licensing requirements are defined as regulatory requirements, including registration or certification requirements established under State, local, or tribal law, necessary for a provider to legally operate and provide child care services in a State or locality (§98.2). This does not include registration or certification requirements solely for child care providers to be eligible to participate in the CCDF program. Those requirements will be addressed in 3.1.2.

Draft for 2nd Public Comment – February, 2013

The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF-eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing *as defined by the State/Territory*. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. (§98.40(b)(1)) (658E(c)(2)(F), §98.41).

The CCDF definition for each category is listed below. For each CCDF category of care, please identify which types of providers are **subject to licensing and which providers are** exempt from licensing in your State/Territory in the chart below. *Note: OCC recognizes that each State/Territory identifies and defines its own categories of care. OCC does not expect States/Territories to change their definitions to fit the CCDF-defined categories of care. For these questions, provide responses that closely match the CCDF categories of care but consistent with your reported 801 data.*

- c) **Evaluation.** What, if any, are the State/Territory’s plans for evaluation related to licensing and health and safety? Evaluation can include efforts related to monitoring implementation of an initiative, validation of standards or assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically.

3.1.7 Goals for the next Biennium –

In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium *and are encouraged to identify no more than five priority goals total.* ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies are not required to establish a goal for each sub-section of 3.1. *Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.*

What are the Lead Agency’s goals for the licensing and health and safety system in the coming biennium? What progress does the State/Territory expect to make on core areas (e.g. licensing standards, monitoring visits or other effective enforcement, improved technical assistance, or fewer serious non-compliances?)

Note – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

Goal 2 -
Goal 3 -
Goal 4 -
Goal 5 -

CCDF has a number of performance measures that are used to track progress for key aspects of the program at the national level. These performance measures are included in budget materials submitted to Congress and other documents. Please follow this link <http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures> to see the CCDF performance measures. A number of these performance measures rely on information reported in the State and Territorial Plans as a data source. We have added a ruler icon

in Section 3.2 through 3.4 in order to identify the specific questions used in

the performance measures. When answering these questions, Lead Agencies should ensure that their answers are accurate and complete in order to promote the usefulness and integrity of the performance measures.

3.2 Establishing Voluntary Early Learning Guidelines (Component #2)

For purposes of this section, voluntary early learning guidelines (*also referred to as early learning and development standards*) include the expectations for what children should know (content) and be able to do (skills) *at different levels of development. These standards provide guidelines, articulate developmental milestones, and set expectations for the healthy growth and development of young children.* The term *early learning guidelines* (ELGs) refers to age-appropriate developmental learning guidelines for infants and toddlers and school-age children. These early learning guidelines are voluntary because States/Territories are not required to develop such guidelines or implement them in a specified manner.

3.2.1 Has the State/Territory developed voluntary early learning guidelines for children? Check any early learning guidelines the State/Territory has developed.

- Birth-to-three
- Three-to-five
- Five years and older
- None. **Skip to 3.2.6.**

If yes, insert web addresses, where possible:

Which State/Territory agency is the lead for the early learning guidelines?

3.2.2 Do the early learning guidelines cover a range of domains across physical, cognitive, and social and emotional development?

Check all that apply for each age group as applicable in the chart below. Because States vary in their domain names and which domains to include, we have used the domains identified in the Head Start Child Development and Early Learning Framework for reference purposes.

3.3 Creating Pathways to Excellence for Child Care Programs through Program Quality Improvement Activities (Component #3)

Many States have chosen to use targeted quality funds and other resources to develop a systematic framework for evaluating, improving, and communicating the level of quality in early childhood programs (i.e. QRIS). States and Territories will provide a self-assessment on current program quality improvement activities by responding to questions in this section and then describe their goals for the

upcoming Biennium.

For purposes of this section, States and Territories will respond according to a Quality Rating and Improvement System (QRIS) framework. QRIS refers to a systematic framework for evaluating, improving and communicating the level of quality in early childhood programs and contains five key elements:

1. Program standards
2. Supports to programs to improve quality
3. Financial incentives and supports
4. Quality assurance and monitoring
5. Outreach and consumer education

While not all States and Territories have developed or implemented a formal QRIS, all are pursuing quality improvement strategies that can be described within this framework (based upon previous CCDF Plans). Using this framework to organize this section allows States/Territories to report on their quality improvement activities systematically whether they have a QRIS or not. Over time, States and Territories are encouraged to work on linking their quality improvement initiatives and strategies across all of these elements, culminating in a comprehensive Quality Rating and Improvement System with adequate support for providers to attain higher levels of quality and transparency for parents and the community regarding the quality of child care.

a) Describe which entities are involved in planning and administering the program quality improvement activities in 3.3, including State/Territory entities and local or community level entities. _____

3.3.1 Element 1 – Program Standards

Definition – For purposes of this section, program standards refers to the expectations for quality, or quality indicators, which identify different levels of and pathways to improved quality. Minimum licensing standards and health and safety requirements provided in section 3.1 are also program standards but in this section, we focus on those standards that build upon and go beyond those minimum requirements.

 a) Does your State/Territory's have quality improvement standards that include indicators covering the following areas beyond what is required for licensing? Check any indicators, if any, that your State/Territory has chosen to establish.

- Licensing is a pre-requisite for participation
- Licensing is the first tier of the quality levels
- State/Territory license is a "rated" license.
- Other. Describe
- Not linked.

d) Do your State/Territory's quality improvement standards align with or have reciprocity with any of the following standards? Check any alignment, if any, between your State/Territory's quality standards and other standards.

AMENDMENTS LOG

CHILD CARE AND DEVELOPMENT FUND PLAN FOR: _____
FOR THE PERIOD: 10/1/11 – 9/30/12

Lead Agencies are required to request approval from Administration for Children and Families (ACF) whenever a “substantial” change in the Lead Agency’s approved CCDF plan occurs. Please refer to the ACF Program Instruction regarding CCDF Plan amendments for more information

<http://www.acf.hhs.gov/programs/occ/resource/pi-2009-01>

Plan amendments must be submitted to ACF within 60 days of the effective date of the change. Under the regulation, the plan amendment must be approved no later than the 90th day following the date on which the amendment is received by ACF unless the Lead Agency and ACF mutually agree in writing to extend the period. (§98.18 (b)).

ACF encourages Lead Agencies to contact the Child Care program staff in the appropriate ACF Regional Office to discuss any proposed amendment as early as possible.

Instructions for Submitting Amendments:

Complete the first 3 columns of the Amendment Log and send a copy of the Log (showing the latest amendment sent to ACF) and the amended section(s) to the ACF Regional Office contact. Lead Agency also should indicate the Effective Date of the amended section in the footer at the bottom of the amended page(s). A copy of the Log, showing the latest amendment pending in ACF, is retained as part of the Lead Agency's Plan.

ACF will complete column 4 and returns a photocopy of the Log to the grantee following its review and approval of the amendment. The Lead Agency replaces this page in the Plan with the copy of the Log received from ACF showing the approval date.

Note: This process depends on repeated subsequent use of the same Log page over the life of the Plan. At any time the Log should reflect all amendments, both approved and pending in ACF. The Lead Agency is advised to retain "old" plan pages that are superseded by amendments in a separate appendix to its Plan. This is especially important as auditors will review CCDF Plans and examine effective date of changes.

APPENDIX 1
QUALITY PERFORMANCE REPORT

This annual report will be submitted to ACF no later than **December 31, 2014** and will reflect the period **October 1, 2013 through September 30, 2014**. Lead Agencies will leave this report blank when the Plan is initially submitted.

In this report, Lead Agencies are asked about the State/Territory's progress in meetings its goals as reported in the FY 2014-2015 CCDF Plan, and provide available data on the results of those activities. At a minimum, Lead Agencies are expected to respond to the first question in each section of the Quality Performance Report (QPR) which asks for their progress toward meeting their goal(s) articulated in **Part 2 and** Part 3 of the CCDF Plan for this Biennium.

Because of the flexibility in administering the CCDF program, it is expected that Lead Agencies may not have information and data available to respond to all questions. *A Describe box is provided for each question for Lead Agencies to provide descriptive context for data reported and narrative updates in each data section, including any plans for reporting data in the future, if actual data is not currently available or if specific questions are not applicable. Lead Agencies may use data collected by other agencies and entities (e.g., CCR&R agencies or other contractors) as appropriate. The term Lead Agency is used in questions when the data relate to a CCDF-specific activity, otherwise the term State/Territory is used when another entity may be responsible or involved with an activity (e.g., licensing).*

The purpose of this annual report is to capture State/Territory progress on improving the quality of child care. Specifically, this report will:

- Provide a national assessment of State's and Territory's progress toward improving the quality of child care, including a focus on program quality and child care workforce quality;
- Track State's and Territory's annual progress toward meeting high quality indicators and benchmarks, including those that they set for themselves in their CCDF Plans and those that are of interest to the U.S. Department of Health and Human Services in measuring CCDF program performance;
- Assist national and State/Territory technical assistance efforts to help States/Territories make strategic use of quality funds; and Assist with program accountability

This report collects progress on the five goals identified in Part 2 and Part 3 of the Child Care and Development Fund (CCDF) Plan for FY2014-2015 along with key data in relation to the four components of child care quality used as a quality framework in Part 3 of the Child Care and Development Fund Plan for FY 2014-2015:

Draft for 2nd Public Comment – February, 2013
