<sup>i</sup> These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2020*. These data are current as of August 1, 2021. Sources of these funds are shown in Table I-2.

<sup>ii</sup> Percentage distribution of uses of LIHEAP funds may not add up to 100 percent due to rounding.

<sup>iii</sup> The total number of states that obligated funds to heating assistance (50) differs from the total number of states that served households with heating assistance (51, see Table III-1) because 1 state (Kentucky) assisted households with heating assistance during FY 2020 using only FY 2019 funds.

<sup>iv</sup> The total number of states that obligated funds to cooling assistance (23) differs from the total number of states that served households with cooling assistance (24, see Table III-1) because 1 state (North Dakota) assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported these households under cooling assistance.

<sup>v</sup> The number of states and estimated obligations excludes 2 states (Massachusetts and New Hampshire) that provided expedited heating assistance benefits to households in winter fuel crisis situations because the funding was obligated under heating assistance.

<sup>vi</sup> 47 states obligated funds for weatherization assistance. This total includes states that obligated funds during FY 2020 but did not expend all of the funds to weatherize homes until FY 2021.

<sup>vii</sup> In FY 2015, OCS specifically instructed grant recipients to separate SNAP nominal payment obligations and beneficiary households from their heating assistance data. This is consistent with the guidance in FY 2020.

<sup>viii</sup> Less than 0.1 percent.

<sup>ix</sup> Funds obligated for Assurance 16 activities consisted of LIHEAP funds used to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.

<sup>x</sup> 'Other' refers to LIHEAP Management Information System (MIS) funds obligated by Kansas, Minnesota, Montana, North Carolina, and Pennsylvania.

<sup>i</sup> These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2020*. They are current as of August 1, 2021. Sources of these funds are shown in Table I-3.

<sup>ii</sup> Includes funds obligated in FY 2020 but not expended to weatherize homes until FY 2021.

<sup>iii</sup> In FY 2015, OCS specifically instructed grant recipients to separate SNAP nominal payment obligations and beneficiary households from their heating assistance data. This is consistent with the guidance in FY 2020.

<sup>iv</sup> Development of leveraging resources consists of LIHEAP funds used to identify, develop, and demonstrate leveraging incentive programs. Grant recipients may spend up to 0.08 percent of funds payable or \$35,000, whichever is greater, to conduct such activities each fiscal year.
