

*LIHEAP Report to Congress for Fiscal Year 2021: Part I. Fiscal Data*  
*Supplemental Tables: Uses of Funds*

**Table I-6. National estimates of states' uses of federal LIHEAP funds, FY 2021<sup>i</sup>**

Uses of LIHEAP funds	Number of states	Estimated obligations	Percent of funds <sup>ii</sup>
Total	51	\$8,558,334,990	100.0%
Heating assistance	51	2,877,308,245	33.6
Cooling assistance <sup>iii</sup>	24	564,444,609	6.6
Energy Crisis assistance <sup>iv</sup>	49	1,271,991,322	14.9
Weatherization assistance <sup>v</sup>	49	515,772,264	6.0
Nominal payments <sup>vi</sup>	10	25,520,526	0.3
Carryover to FY 2022	50	2,724,202,040	31.8
Development of leveraging resources	2	95,000	0.0 <sup>vii</sup>
Assurance 16 activities <sup>viii</sup>	24	54,161,305	0.6
Administrative and planning costs	51	518,275,276	6.1
Other <sup>ix</sup>	4	6,564,403	0.1

<sup>i</sup> These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2021*. These data are current as of August 19, 2022. Sources of these funds are shown in Table I-2.

<sup>ii</sup> Percentage distribution of uses of LIHEAP funds may not add up to 100 percent due to rounding.

<sup>iii</sup> The total number of states that obligated funds to cooling assistance (24) differs from the total number of states that served households with cooling assistance (25, see Table III-1) because 1 state (North Dakota) assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported these households under cooling assistance.

<sup>iv</sup> The number of states and estimated obligations excludes 2 states (Massachusetts and New Hampshire) that provided expedited heating assistance benefits to households in winter fuel crisis situations because the funding was obligated under heating assistance.

<sup>v</sup> 49 states obligated funds for weatherization assistance. This total includes states that obligated funds during FY 2021 but did not expend all of the funds to weatherize homes until FY 2022. The total number of states that obligated funds to weatherization (49) differs from the total number of states that served households with weatherization (50, see Table III-1) because 1 state (Mississippi) did not obligate funds in FY 2021 but assisted households using funds that were obligated during FY 2020 but not expended until FY 2021.

<sup>vi</sup> In FY 2015, OCS specifically instructed grant recipients to separate SNAP nominal payment obligations and recipient households from their heating assistance data. This is consistent with the guidance in FY 2021.

<sup>vii</sup> Less than 0.1 percent.

<sup>viii</sup> Funds obligated for Assurance 16 activities consisted of LIHEAP funds used to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.

<sup>ix</sup> 'Other' refers to LIHEAP Management Information System (MIS) funds obligated by Kansas, Minnesota, Montana, and North Dakota.

*LIHEAP Report to Congress for Fiscal Year 2021: Part I. Fiscal Data*  
*Supplemental Tables: Uses of Funds*

**Supplemental Table I-7. Estimates of states' uses of federal LIHEAP funds, by state, FY 2021<sup>i</sup>**

(Table I-7 with detailed footnotes)

<sup>i</sup> These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2021*. They are current as of August 19, 2022. Sources of these funds are shown in Table I-3.

<sup>ii</sup> Includes funds obligated in FY 2021 but not expended to weatherize homes until FY 2022.

*LIHEAP Report to Congress for Fiscal Year 2021: Part I. Fiscal Data*  
*Supplemental Tables: Uses of Funds*

---

<sup>iii</sup> In FY 2015, OCS specifically instructed grant recipients to separate SNAP nominal payment obligations and beneficiary households from their heating assistance data. This is consistent with the guidance in FY 2021.

<sup>iv</sup> Development of leveraging resources consists of LIHEAP funds used to identify, develop, and demonstrate leveraging incentive programs. Grant recipients may spend up to 0.08 percent of funds payable or \$35,000, whichever is greater, to conduct such activities each fiscal year.

<sup>v</sup> Funds obligated for Assurance 16 activities were used to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.

<sup>vi</sup> 'Other' refers to LIHEAP Management Information System (MIS) funds obligated by Kansas, Minnesota, Montana, and North Dakota.

<sup>vii</sup> Households in winter or year-round fuel crisis situations (Alaska, Kansas, Maryland, Massachusetts, New Hampshire, and Washington) received expedited heating assistance.

<sup>viii</sup> Energy crisis assistance benefits include funds for emergency heating/cooling repairs or replacements for the following states:

California (\$28,056,887), Colorado (\$6,200,521), District of Columbia (\$3,976,160), Idaho (\$169,494), Illinois (\$2,580,438), Indiana (\$644,227), Iowa (not specified), Maine (\$2,057), Michigan (not specified), Minnesota (\$7,252,030), Mississippi (not specified), Missouri ([furnace repair/replacement – \$14,023] and [air conditioner repair/replacement – \$42,522]), Montana (\$1,547,367), New Jersey (not specified), New York (\$6,729,636), North Dakota (not specified), Ohio ([furnace repair – \$25,458] and [air conditioner repair/replacement – \$39,593]), Oregon ([furnace repair/replacement \$728,023] and [air conditioner repair/replacement - \$160,964]), Pennsylvania (\$25,864,163), Rhode Island (\$1,467,153), South Dakota (\$874,793), Texas (not specified), Utah (\$900,000), Vermont ([furnace repair/replacement – \$1,015,323] and [tank replacement – \$460,804]), Virginia (not specified), West Virginia (\$5,923,036), Wisconsin (\$2,600,000), and Wyoming ([furnace repair/replacement – \$1,524,106] and [operational furnace replacement to prevent heat loss emergency – \$260,000]).

<sup>ix</sup> California, Maine, Montana, Ohio, and Wyoming received a waiver for FY 2021 that increased the maximum amount of LIHEAP funds available for weatherization or other energy-related home repairs from 15% up to 25%.

<sup>x</sup> California's energy crisis assistance funds include \$837,271 for Severe Weather Energy Assistance and Transportation Services (SWEATS) and \$1,001,782 for Safety Power Shutoff.

<sup>xi</sup> Connecticut's energy crisis assistance funds include \$2,907,701 for Safety Net Assistance for households in a life-threatening situation that were unable to secure shelter with adequate heat.

<sup>xii</sup> Delaware's energy crisis assistance funds include \$2,119,420 for Epidemics crisis benefits.

<sup>xiii</sup> Combined heating and cooling assistance were provided in Nevada, and energy assistance was provided in Hawaii, with no differentiation made between heating and cooling assistance. Nevada and Hawaii reported these obligated funds under heating assistance.

<sup>xiv</sup> Indiana's energy crisis assistance funds include \$1,000 for emergency services.

<sup>xv</sup> Louisiana's energy crisis assistance funds include \$38,516,131 for ARP Supplemental benefits.

<sup>xvi</sup> Nebraska's energy crisis assistance funds include \$19,640 for deposit assistance.

<sup>xvii</sup> Nevada's energy crisis assistance funds include \$6,669 for the state's Crisis Intervention Program.

<sup>xviii</sup> North Dakota obligated funds to assist households with non-crisis cooling equipment repair and replacement services (air conditioning installations) under emergency cooling equipment repair and replacement (energy crisis assistance) but reported serving these households under cooling assistance.

<sup>xix</sup> South Carolina's energy crisis assistance funds include \$40,025 for window air condition units.

<sup>xx</sup> Washington obligated \$6,091,201 in energy crisis assistance funds for Other Emergency Services (OES) including Emergency Furnace Repair and Replacement, Temporary Shelter Assistance, and other emergency services. OES funds are obligated as direct service dollars.
