

LIHEAP Report to Congress for Fiscal Year 2019: Part III. Household Data
Supplemental Tables: Assisted Households with Detailed Footnotes

Table III-1. Number of LIHEAP-Assisted Households and States Providing Assistance, by Type of Assistance, as Reported by States, FY 2019ⁱ

Type of LIHEAP Assistance	Number of States	Number of Assisted Households
Heating	51	4,896,990
Cooling ⁱⁱ	22	724,071
Winter crisis ⁱⁱⁱ	27	740,617
Year-round crisis	24	452,819
Summer crisis	6	127,177
Weatherization	49	68,990
Any type ^{iv v}	51	5,781,626

ⁱ These data are collected from the *LIHEAP Household Report for FY 2019*. They are current as of September 15, 2020.

ⁱⁱ The total number of states providing cooling assistance benefits to households (22) differs from the total number of states that obligated funding to cooling assistance (21, see Table I-6) because one state (North Dakota) assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported such households under cooling assistance.

ⁱⁱⁱ The total number of states providing winter crisis benefits to households (27) includes data for households assisted by two states (Alaska and Massachusetts) that did not obligate FY 2019 funds for winter crisis assistance. Instead, the state provided winter crisis fuel assistance solely by expediting heating assistance within a statutorily required crisis response timeframe.

^{iv} West Virginia's unduplicated count of households receiving any type of assistance excludes households that received only Emergency Furnace Repair and Replacement and/or Weatherization Assistance because the state has not developed procedures for comparing LIHEAP bill payment assistance beneficiaries with LIHEAP-funded weatherization and/or emergency repair and replacement beneficiaries.

^v Indiana's unduplicated count of households receiving any type of assistance may include a small number of households counted more than once because the state faced challenges in comparing LIHEAP bill payment assistance beneficiaries with LIHEAP-funded weatherization.

West Virginia ^{iv xviii}	47,464	0	2,975	0	0	603	48,786
Wisconsin ^{iv xix}	190,723	0	0	19,515	0	2,637	195,986
Wyoming ^{iv}	8,132	0	1,173	0	0	361	8,132

ⁱ The data in this table are current as of September 15, 2020.

ⁱⁱ A designation of “--” applies to those states that did not provide a separate count for cooling assistance because: (1) their heating assistance household counts include, and cooling assistance counts exclude, households that received combined heating and cooling assistance (Nevada); or (2) households received energy assistance with no differentiation made between heating and cooling assistance (Hawaii). These states reported these households under heating assistance.

ⁱⁱⁱ Households in winter fuel crisis situations (Alaska, Kansas, Massachusetts, New Hampshire, Washington) or year-round fuel crisis situations (Maryland) were assisted solely through expedited heating assistance. Alaska and Massachusetts reported these household counts under the type of crisis assistance but reported the funding obligated under heating assistance (Table I-7).

^{iv} The following states provided emergency heating/cooling repairs or replacements to households as part of their energy crisis benefits. These households are excluded from the crisis assistance counts from Table III-2: Alaska (34), California (4,155), Colorado (1,694), District of Columbia (70), Idaho (43), Illinois (904), Indiana (101), Iowa (854), Maine (25), Maryland (340), Michigan (852), Minnesota (4,954), Mississippi (1,560; done on an emergency or non-emergency basis), Missouri ([Emergency Furnace Repair & Replacement – 59] and [Air Conditioner Purchase – 87]), Montana (985), New Jersey (881), New York (2,346), North Dakota (1,038), Ohio (131), Oregon (215), Pennsylvania (8,533), Rhode Island (377), South Carolina (184), South Dakota (544), Texas (1,326), Utah (485), Vermont ([furnace repair/replacement – 332] and [tank replacement – 131]), Virginia (2,515), Washington (406), West Virginia (984), Wisconsin (720), and Wyoming (358).

^v California’s year-round crisis assistance counts exclude 549 households served with the state’s Severe Weather Energy Assistance and Transportation Services (SWEATS).

^{vi} The following states provided nominal benefits for SNAP households and reported the number of households assisted. These households are not included in the household counts in Table III-2: Connecticut, 81,514 - \$20.01 benefits; Maine, 8,017 - \$21 benefits; Massachusetts, 115,540 - \$21 benefits; Michigan, 85,401 - \$20.01 benefits; Montana, 953 - \$25 benefits or 5% of the amount of a regular LIHEAP benefit; New York, 277,089 - \$21 benefits; Oregon, 43,324 - \$21 benefits; Pennsylvania, 280,840 - \$21 to \$24 benefits; Rhode Island, 24,387 - \$20.01 benefits; Washington, 212,144 - \$20.01 benefits.

^{vii} 8,455 of the households assisted by Connecticut’s winter crisis assistance program also received Safety Net Assistance.

^{viii} The following states provided non-emergency cooling installations, repairs, or replacements to households as part of their cooling assistance benefits. These households are included in the cooling assistance counts in Table III-2: Delaware (450).

*LIHEAP Report to Congress for Fiscal Year 2019: **Part III. Household Data***
Supplemental Tables: Assisted Households with Detailed Footnotes

- ^{ix} Florida's winter crisis assistance and summer crisis assistance counts exclude 662 households that received other crisis assistance, including blankets, fans, heaters, or minor energy related repairs; and 96 households that received weather related assistance.
- ^x Indiana's unduplicated count of households receiving any type of assistance may include a small number of households counted more than once because the state faced challenges in comparing LIHEAP bill payment assistance beneficiaries with LIHEAP-funded weatherization.
- ^{xi} Indiana's winter crisis assistance and summer crisis assistance counts exclude 149 households that received emergency services.
- ^{xii} Nebraska's year-round crisis assistance counts exclude 199 households that received deposit assistance.
- ^{xiii} The following state provided non-emergency heating repairs or replacements to households as part of their heating assistance benefits. These households are included in the heating assistance counts in Table III-2: Nebraska (1).
- ^{xiv} Nevada's year-round crisis assistance count excludes 10 households assisted through the state's Crisis Intervention Program.
- ^{xv} North Dakota assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported such households under cooling assistance.
- ^{xvi} South Carolina's year-round crisis assistance count excludes 92 households that received window air conditioners.
- ^{xvii} Washington's winter crisis assistance count excludes 1,058 households that received Shelter Assistance and 33 households that received other emergency services.
- ^{xviii} West Virginia's unduplicated count of households receiving any type of assistance excludes households who only received Emergency Furnace Repair and Replacement and/or Weatherization Assistance because the state has not developed procedures for comparing LIHEAP bill payment assistance beneficiaries with LIHEAP-funded weatherization and/or emergency repair and replacement beneficiaries.
- ^{xix} Wisconsin's year-round crisis assistance count excludes 5,804 households that received assistance through the Keep WI Warm Fund.
