Supplemental Tables: Assisted Households by Poverty Level

Table III-7. Percent of assisted households, classified by 2016 HHS Poverty Guideline intervals, by type of LIHEAP assistance, nationally, FY 2017ⁱ

2016 HHS Poverty Guideline intervalsⁱⁱ	Heating assistance	Cooling assistance	Winter crisis assistance	Year-round crisis assistance	Summer crisis assistance	Weatherization assistanceⁱⁱⁱ
Under 75%	38.9%	49.5%	49.3%	54.3%	50.4%	25.0%
75%-100%	27.2	27.7	21.2	20.1	22.1	19.4

126%-150%	9.5	6.2	9.3	7.8	8.8	14.5
Over 150%	8.3	3.1	6.4	5.2	4.3	23.5

ⁱ These data are derived from the *LIHEAP Household Report for FY 2017*. These data are current as of August 10, 2018. National percentages are calculated for those states which reported complete data, by type of LIHEAP assistance. Table A-1 in Appendix A indicates the percentages of assisted households for which uniform data are provided. Uniform data on households classified by intervals of the 2016 HHS Poverty Guidelines (HHSPG) was 99 percent for weatherization assistance and 100 percent for heating, cooling, winter crisis, year-round crisis, and summer crisis assistance. Percent distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱ Poverty percentages are computed using gross household incomes adjusted by household size. However, there are states that use net household income in determining income eligibility. For those states, the distribution of poverty percentages could be skewed towards the higher end of the poverty level.

ⁱⁱⁱ One state (West Virginia) was unable to provide income data for a total of 669 households that received weatherization assistance.

ⁱ The data in this table are current as of August 10, 2018. A designation of "--" indicates that the data are not applicable for states which did not provide weatherization assistance.

ⁱⁱ Percentage distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱⁱ District of Columbia reported that its weatherization program ran under an extension period from FY 2016 to FY 2017. Both those households assisted in FY 2016 and those assisted in FY 2017 were reported in FY 2017.

^{iv} West Virginia was unable to report a reliable count of households receiving weatherization assistance by poverty level because the state has not developed effective procedures for tracking LIHEAP-funded weatherization assistance recipients. Therefore, these data are suppressed and the percentages by type of vulnerability are indicated as 'NA'.
