Supplemental Tables: Assisted Households by Poverty Level

Table III-7. Percent of Assisted Households, Classified by 2019 HHS Poverty Guideline Intervals, by Type of LIHEAP Assistance, Nationally, FY 2020ⁱ

Over 150%	9.0	4.1	8.1	5.7	2.0	27.1

ⁱ These data are derived from the *LIHEAP Household Report for FY 2020*. These data are current as of August 1, 2021. National percentages are calculated for those states that reported complete data, by type of LIHEAP assistance. Table A-1 in Appendix A indicates the percentages of assisted households for which uniform data are provided. Uniform data on households classified by intervals of the 2019 HHS Poverty Guidelines (HHSPG) was 100 percent for heating, cooling, winter crisis, year-round crisis, and summer crisis assistance. Uniform data was 99.9 percent for weatherization assistance. Percent distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱ Poverty percentages are computed using gross household incomes adjusted by household size. However, there are states that use net household income in determining income eligibility. For those states, the distribution of poverty percentages could be skewed towards the higher end of the poverty level.

ⁱⁱⁱ 1 state (Rhode Island) was unable to provide income data for a total of 65 households that received weatherization assistance. As a result, percentages of households receiving weatherization assistance by 2019 HHSPG add up to less than 100 percent.

ⁱⁱⁱ Households in winter fuel crisis situations (Alaska, Kansas, Massachusetts, New Hampshire, Washington) or year-round fuel crisis situations (Maryland) received expedited heating assistance.

^{iv} The following states provided nominal benefits for SNAP households and reported the number of households assisted. These households are not included in the household counts reported in the table: Connecticut, 84,661 - \$20.01 benefits; Maine, 7,307 - \$21 benefits; Massachusetts, 118,759 - \$21 benefits; Michigan, 90,171 - \$20.01 benefits; Montana, 1,320 - \$25 benefits or 5% of the amount of a regular LIHEAP benefit; New York, 299,532 - \$21 benefits; Oregon, 39,986 - \$21 benefits; Pennsylvania, 286,281 - \$21 to \$24 benefits; Rhode Island, 38,637 - \$20.01 benefits; Washington, 212,393 - \$20.01 benefits.

^v Counts and the percentage distributions include households that received combined heating and cooling assistance in Nevada and households that received energy assistance in Hawaii, where no differentiation is made between heating and cooling assistance. These states reported these households under heating assistance.

^{vi} Virginia's count of heating assisted households by poverty level was based on the most recent poverty level classification available for FY 2020 beneficiary households at the time the FY 2020 Household Report was completed, rather than the classification at the time of client application in FY 2020.
