

Table IV-1. Percent of states selecting various maximum LIHEAP income eligibility standards, FY 2016ⁱ

LIHEAP income eligibility standards (by percentage intervals of 2015 HHS Poverty Guidelines)	Heating assistance	Cooling assistance	Winter crisis assistanceⁱⁱ	Year-round crisis assistanceⁱⁱⁱ	Summer crisis assistance^{iv}	Weatherization assistance^v
Number of states	51	19	30	21	7	48
Household income at or above 150% (percentage of States)	78%	79%	77%	90%	71%	98%
Household income between 111%–149% (percentage of States)	18	16	23	5	29	2
Household income at 110% (percentage of States)	4	5	0	5	0	0

ⁱ The data in this table are current as of May 31, 2017. These data are derived from *LIHEAP Performance Data Form for FY 2016-Grantee Survey Section*. Percentage distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱ Refers to winter crisis assistance only. The number of states and percentages includes two states (Alaska, Massachusetts) that provided expedited heating assistance for winter crisis fuel situations through heating assistance funds only. Percentage intervals exclude other types of crisis assistance that mostly involved furnace repair or replacements.

ⁱⁱⁱ Refers to year-round crisis assistance only. Percentage intervals exclude other types of crisis assistance that mostly involved furnace repair or replacement.

^{iv} Refers to summer crisis assistance only. Percentage intervals exclude other types of crisis assistance that mostly involved air conditioner repair or replacements.

^v Percentages do not include states which weatherized households in FY 2016 only with weatherization funds obligated but not expended in FY 2015. Percentages include the District of Columbia, which served weatherization households in FY 2017 with FY 2016 weatherization funds.

Wyoming	197%	--	197%	--	--	197%

ⁱ (1) Maximum annual income cutoffs for 4-person households were obtained from the *LIHEAP Performance Data Form for FY 2016 - Grantee Survey Section*. These data are current as of May 31, 2017. The income cutoffs were converted into percentages of the 2015 HHS Poverty Guidelines (HHSPG). The table does not reflect different income cutoffs in place for households with elderly, disabled, or young children, or other crisis assistance, as set by states. (2) The federal maximum LIHEAP income eligibility guidelines for FY 2016 were based on the greater of 150 percent of 2015 HHSPG or 60 percent of state median income (SMI) for use in FY 2016, based on household size. Optionally, states were permitted to adopt the 2016 HHSPG in place of the 2015 HHSPG to set their maximum income eligibility guidelines for FY 2016. In addition, states were permitted to use the federal maximum LIHEAP income eligibility guidelines or the federal maximum Weatherization Assistance Program (WAP) income eligibility guidelines (200 percent of HHSPG) to set their maximum income eligibility standards for weatherization assistance in FY 2016. States with maximum income eligibility standards listed that are greater than 150 percent of 2015 HHSPG are verified as being at or below the federal maximum LIHEAP income eligibility guidelines for FY 2016. (3) A designation of "--" indicates that these data are not applicable for states which did not provide that type of assistance.

ⁱⁱ Refers to winter crisis fuel assistance only. Household income cutoffs exclude other types of crisis assistance that mostly involved furnace or air conditioner repair or replacements.

ⁱⁱⁱ Refers to year-round crisis fuel assistance only. Household income cutoffs exclude other types of crisis assistance that mostly involved furnace or air conditioner repair or replacements.

^{iv} Refers to summer crisis fuel assistance only. Household income cutoffs exclude other types of crisis assistance that mostly involved furnace or air conditioner repair or replacements.

^v Expedited heating assistance was provided to households in crisis fuel situations in Alaska, Kansas, Maryland, Massachusetts, New Hampshire, and Washington.

^{vi} Combined heating and cooling assistance was provided in California and Nevada; and energy assistance was provided in Hawaii, with no differentiation made between heating and cooling assistance. These states reported funds obligated and households served under heating assistance. A cooling assistance eligibility standard of "--" is thus applied to each state.
