ⁱ These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2021*. These data are current as of August 19, 2022.

ⁱⁱ The total number of states that obligated funds to a specific type of assistance may differ from the total number of states that served households with that type of assistance (see ARP Act Table III-1) because states may have obligated their LIHEAP Supplemental ARP Act funds in FY 2021 but not expended those funds to serve households until FY 2022.

ⁱⁱⁱ Percentage distribution of uses of LIHEAP funds may not add up to 100 percent due to rounding.

^{iv} In FY 2015, OCS specifically instructed grant recipients to separate SNAP nominal payment obligations and beneficiary households from their heating assistance data. This is consistent with the guidance in FY 2021.

^v Less than 0.1 percent.

^{vi} States were allowed to obligate their LIHEAP Supplemental ARP Act allotment during FY 2021 or FY 2022. States could optionally carry over any amount of these funds to FY 2022 for later obligation.

^{vii} Funds obligated for Assurance 16 activities consisted of LIHEAP funds used to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.

LIHEAP Report to Congress for Fiscal Year 2021
Supplemental Tables: LIHEAP Supplemental ARP Act Funding and Households

ⁱ These data are compiled from the *LIHEAP Performance Data Form – Grantee Survey Section for FFY 2021*. They are current as of August 19, 2022.

ⁱⁱ States were allowed to obligate their LIHEAP Supplemental ARP Act allotment during FY 2021 or FY 2022. States could optionally carry over any amount of these funds to FY 2022 for later obligation.

ⁱⁱⁱ Development of leveraging resources consists of LIHEAP funds used to identify, develop, and demonstrate leveraging incentive programs. Grant recipients may spend up to 0.08 percent of funds payable or \$35,000, whichever is greater, to conduct such activities each fiscal year.

^{iv} Funds obligated for Assurance 16 activities were used to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.

^v LIHEAP Supplemental ARP Act funds provided for energy crisis assistance benefits include funds for emergency heating/cooling repairs or replacements for the following states: California (\$16,375,399), District of Columbia (\$551,607), Illinois (\$1,124,722), Iowa (not specified), Oregon (\$26,725 for Heating Equipment; \$146,411 for Cooling Equipment), and Washington (not specified).

^{vi} California's energy crisis assistance funds include \$608,406 for Severe Weather Energy Assistance and Transportation Services (SWEATS) and \$1,001,782 for Safety Power Shutoff.

^{vii} Delaware's energy crisis assistance funds include \$2,047,416 for supplemental crisis benefits.

^{viii} Georgia obligated LIHEAP Supplemental ARP Act funds for weatherization but did not expend the funds until FY 2022. These weatherization benefits are estimated.

^{ix} Louisiana allowed all income eligible households to receive a benefit of up to \$1,200 using ARP Act funding. This benefit could be applied to heating and/or cooling vendors. Louisiana reported these obligated funds under crisis assistance.

^x Maine obligated LIHEAP Supplemental ARP Act funds for weatherization but did not expend the funds until FY 2022.

^{xi} Washington obligated \$6,091,201 of LIHEAP Supplemental ARP Act funds as energy crisis assistance benefits for Other Emergency Services (OES) including Emergency Furnace Repair and Replacement, Temporary Shelter Assistance, and other emergency services. OES funds are obligated as direct service dollars.

ⁱ Household average benefits were gathered from state estimates reported on the *LIHEAP Performance Data Form for FY 2021 - Grantee Survey*, as described in Appendix A of this report. The data in this table are current as of August 19, 2022. State-reported household average benefit amounts from LIHEAP Supplemental ARP Act funds may reflect actual benefits during FY 2021 and anticipated average benefits as states prepared to expend these funds during subsequent fiscal years. States were not asked to estimate household average benefits for weatherization assistance because estimates would not be comparable to estimated household average benefits for other types of LIHEAP assistance due to the relatively larger role of labor and other support costs involved in weatherization and wide variations in how states define low-cost weatherization. In addition, average benefits are not comparable to calculations of the amount of obligated funds per household due to states obligating funds in 1 federal fiscal year but expending them in the next federal fiscal year.

ⁱⁱ Average benefits do not include funds used to provide nominal benefits to SNAP households or households assisted with these benefits as grant recipients were required to break out these obligations and households for FY 2021.

ⁱⁱⁱ A designation of "--" indicates for winter crisis assistance that these states did not provide a separate count because they provided households in winter crisis assistance with expedited heating assistance (Massachusetts).

^{iv} Louisiana's values exclude an average benefit of \$679 for households that received ARP Supplemental assistance as part of Louisiana's other crisis assistance.

^v North Dakota's values exclude an average benefit of \$663 for households that received Pandemic LIHEAP (P - LIHEAP) supplemental benefits.

^{vi} The designation of "--" for Texas is because the state was unable to provide an accurate estimate due to partial reporting by subrecipients.

^{vii} Washington's values exclude an average benefit of \$541 for households that received "Other Emergency Services," including blankets, space heaters, and minor repairs/replacement to heating units, and an unspecified amount for households that received Shelter Assistance.

Over 150%	26.8	2.5	20.0	18.5	1.9	25.4

ⁱ These data are derived from the *LIHEAP Household Report for FY 2021*. These data are current as of August 19, 2022. National percentages are calculated for those states that reported complete data, by type of LIHEAP assistance. Uniform data on households receiving assistance from LIHEAP Supplemental ARP Act funds and classified by intervals of the 2020 HHS Poverty Guidelines (HHSPG) was 100 percent for all types of assistance. Percent distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱ Poverty percentages are computed using gross household incomes adjusted by household size. However, there are states that use net household income in determining income eligibility. For those states, the distribution of poverty percentages could be skewed towards the higher end of the poverty level.

Older adult, member with a disability or young child	69.2	69.4	55.1	64.5	60.8	66.2	68.2

ⁱ These data are derived from the *LIHEAP Household Report for FY 2021*. They are current as of August 19, 2022. (1) Definitions of “older adult,” “member with a disability,” and “young child” are as follows: “older adult” refers to a member who is 60 years old or older, “disability” varies from state-to-state, and “young child” refers to a member who is 5 years old or younger. A household could have members that were reported in more than 1 of the 3 groups of vulnerable households. (2) National percentages are calculated for those states that reported complete data, by type of LIHEAP assistance. Uniform data on households receiving assistance from LIHEAP Supplemental ARP Act funds and classified as vulnerable was 100 percent for all assistance types.

ⁱ (1) The data in this table are current as of August 19, 2022. (2) Older adult is defined as a household member 60 years or older and young child as a household member 5 years old or under. Definitions of “disability” vary among the states. (3) A designation of “--” indicates that the data are not applicable for states that did not provide separate summer crisis assistance.

ⁱⁱ The following states provided emergency heating/cooling repairs or replacements to households as part of their energy crisis benefits using LIHEAP Supplemental ARP Act funds. These households are not included in the household counts reported in the table: District of Columbia (40), Illinois (21), Iowa (21), Oregon (4), and Washington (10).

ⁱⁱⁱ Louisiana provided additional crisis assistance to 1,056 households that received ARP Supplemental assistance benefits.

^{iv} North Dakota provided additional crisis assistance to 3,231 households that received Pandemic LIHEAP (P - LIHEAP) supplemental benefits.

^v Washington provided additional crisis assistance to 4 households that received Shelter Assistance and to 588 households that received “Other Emergency Services,” including blankets, space heaters, and minor repairs/replacement to heating units.

ⁱ (1) Maximum annual income cutoffs for 4-member households were obtained from the *LIHEAP Performance Data Form for FY 2021 - Grantee Survey*. These data are current as of August 19, 2022. The income cutoffs were converted into percentages of the 2020 HHS Poverty Guidelines (HHSPG). The table does not reflect different income cutoffs in place for households with older adults, members with a disability, or young children; or other crisis assistance, as set by states. (2) The federal maximum LIHEAP income eligibility guidelines for FY 2021 were based on the greater of 150 percent of 2020 HHSPG or 60 percent of state median income (SMI) for use in FY 2021, based on household size. Optionally, states were permitted to adopt the 2020 HHSPG in place of the 2020 HHSPG to set their maximum income eligibility guidelines for FY 2021. In addition, states were permitted to use the federal maximum LIHEAP income eligibility guidelines or the federal maximum Weatherization Assistance Program (WAP) income eligibility guidelines (200 percent of HHSPG) to set their maximum income eligibility standards for weatherization assistance in FY 2021. States with maximum income eligibility standards listed that are greater than 150 percent of 2020 HHSPG are verified as being at or below the federal maximum LIHEAP income eligibility guidelines for FY 2021. (3) A designation of "--" indicates that these data are not applicable for states that did not provide that type of assistance using LIHEAP Supplemental ARP Act funds.

ⁱⁱ Refers to winter crisis assistance only. Percentage intervals exclude other types of crisis assistance that mostly involved furnace repair or replacements.

ⁱⁱⁱ Refers to year-round crisis assistance only. Percentage intervals exclude other types of crisis assistance that mostly involved furnace repair or replacement.

^{iv} Refers to summer crisis assistance only. Percentage intervals exclude other types of crisis assistance such as air conditioner repair or replacement.
