Note--The estimated U.S. median income for 4-person families is \$74,964 for the period covered by this memorandum.

¹Prepared by the Administration for Children and Families, Office of Community Services, Division of Energy Assistance. In accordance with 45 CFR 96.85, 60 percent of each State's estimated median income for a four-person family is multiplied by the following percentages to adjust for household size for LIHEAP: 52 percent for one person, 68 percent for two persons, 84 percent for three persons, 100 percent for four persons, 116 percent for five persons, and 132 percent for six persons. For each additional household member above six persons, add three percentage points to the percentage for a six-person household (132 percent), and multiply the new percentage by 60 percent of the State's estimated median income for a four-person household.

²Prepared by the U.S. Census Bureau, U.S. Department of Commerce (Census Bureau) from the 2008 through 2010 American Community Surveys (ACSs). For further information, see Table B19119 for the three-year estimates of the 2008 through 2010 ACSs. One can find this table by undertaking the following steps: (1) going to the webpage <http://factfinder2.census.gov/faces/nav/jsf/pages/searchresults.xhtml?refresh=t>; (2) entering "B19119" in the "Search for:" box; and (3) selecting the "2010 ACS 3-year estimates" dataset. Alternatively, one can contact the Census Bureau's Social, Economic and Housing Statistics Division (SEHSD) at (301) 763-3243.
