

Instructions for *LIHEAP Household Report for FY 2018 – Short Form*

Division of Energy Assistance/OCS/ACF

February 15, 2019

The Paperwork Reduction Act of 1995

This Information collection (OMB Control No. 0970-0060; Expiration Date: (02/28/2022)) is conducted in accordance with the Low Income Home Energy Assistance Program (LIHEAP) statute (Public Law 97-35, as amended), and 45 CFR 96.82. Information received from this collection provides data to the Administration and Congress in its oversight of grantees' performance in administering the LIHEAP program.

Public reporting burden for this information collection (*LIHEAP Household Report for Federal Fiscal Year (FY 2018)–Short Form*) is estimated to be an average burden of 1 hour per respondent. The estimate includes the time for reviewing instructions, and gathering, editing, maintaining, and reporting the data.

The responses to this collection are required in order to obtain LIHEAP funding in accordance with Section 2605(c)(1)(G) of the LIHEAP statute [42 U.S.C. § 8624(c)(1)(G)]. Specifically, this information collection is required of Indian Tribes/Tribal Organizations.

This information is not considered confidential; therefore, no additional safeguards are considered necessary beyond that customarily applied to routine government information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Introduction

Section 309 of the Human Services Amendments of 1994, Public Law 103-252, amended Section 2605(c)(1)(G) of the LIHEAP statute [42 U.S.C. § 8624(c)(1)(G)] to require grantees, as part of their annual LIHEAP grant application, to report certain data on households which apply for LIHEAP assistance and on households which receive LIHEAP assistance in the most recent Federal Fiscal Year.

Federal LIHEAP funds

Households could be assisted in FY 2018 with the following Federal LIHEAP funds:

- FY 2018 LIHEAP regular block grant funds,
- LIHEAP funds carried over from FY 2017,
- LIHEAP funds obligated in FY 2017 that were expended in FY 2018,
- FY 2017 LIHEAP block grant funds reallocated to FY 2018,
- Assurance 16 funds, and
- Oil overcharge (Petroleum Violation Escrow) funds, if any, designated for LIHEAP.

The purpose is to report on the number of households assisted with **all** available LIHEAP funds during FY 2018, including those LIHEAP funds obligated in FY 2017, but not expended until FY 2018.

Basic Types of LIHEAP assistance

LIHEAP grantees have the flexibility to choose which types of LIHEAP assistance best meet the needs of their low income households. Federal LIHEAP funds are used to provide the following basic types of assistance to households:

- heating assistance,
- cooling assistance,
- winter/year round crisis assistance,
- summer crisis assistance, and
- weatherization and energy-related home repairs.

LIHEAP grant applications will not be considered complete without submission of the data in the *LIHEAP Household Report*, including the identifying information. Consequently, a FY 2019 LIHEAP grant will not be awarded to a grantee until its completed *LIHEAP Household Report* for FY 2018 is received, and all other application requirements have been completed.

Given that the *LIHEAP Household Report for FY 2018* needs to be included as part of the LIHEAP grant application for FY 2018, estimated counts of household data have been accepted for any of the *LIHEAP Household Report's* data elements so as not to delay the awarding of LIHEAP grants for the following fiscal year. ***Final*** LIHEAP household data for FY 2018 must be submitted to ACF via the OLDC system no later than **Friday, March 15, 2019**.

General Requirements

Your understanding of the reporting instructions will minimize our need to contact you for clarification or correction of your tribe's reported data, saving both our agencies time and effort.

Identifying Information

LIHEAP household data are submitted through ACF's Online Data Collection (OLDC) system, a component of Grants Solutions. After signing on to OLDC, select the *LIHEAP Household Report-Short Form for FY 2018*.

Please include the following identifying information in your agency's *LIHEAP Household Report for FY 2018*: the name, email address, and telephone number of the person to be contacted if we need to follow up with your agency about its *LIHEAP Household Report for FY 2018*. OLDC will not accept your Report if this information is not included.

Reporting Period

Household data are to be reported for Federal Fiscal Year 2018 (October 1, 2017 - September 30, 2018). Grantees may operate their programs on a different program year (e.g., starting January 1 or July 1). However, complete household data still need to be reported for Federal Fiscal Year 2018.

Definition of Household

The unit of LIHEAP counting is the household; not the head of household or persons in the households. LIHEAP household counts need to be consistent with Section 2603(5)[42 U.S.C. § 8622(5)] of the LIHEAP statute that defines the term "household" as “any individual or group of individuals who are living together as one economic unit for whom residential energy is customarily purchased in common or who make undesignated payments for energy in the form of rent.”

Given the above definition, a homeowner, a renter whose home energy costs are not included in its rent, and a renter whose home energy costs are included in its rent are counted as separate households. Also, a boarder who rents from a homeowner a basement with its own heating or cooling system is counted as a separate household.

Households Assisted with Federal LIHEAP Funds

Count all households assisted in FY 2018 with **Federal** LIHEAP funds, as indicated above. Include all households that received LIHEAP weatherization assistance even if those funds were used under the Department of Energy’s Low Income Weatherization Assistance Program.

Unduplicated Household Counts

Report unduplicated counts of household counts that received LIHEAP assistance, by type of LIHEAP assistance provided in FY 2018. The concept of unduplicated counts means that an item, such as a household, is counted only once for a specific category. For example, a household receives two heating assistance benefits and three winter crisis assistance benefits. Count that assisted household once under the category of heating assistance and once under the category of winter crisis assistance.

Submission

September 3, 2018 was the deadline for all grantees to submit their *LIHEAP Household Report for FY 2018* as part of their LIHEAP plans for FY 2019. (This date may have been extended for tribal grantees if the state(s) in which the tribe is located agreed to a later date.

After signing on to OLDC, select the LIHEAP Household Report Short Form for FY 2018. When completing the Report in OLDC, changes and updates will only be recorded when “Save” is clicked. Therefore, it is important to regularly click “Save” to retain newly recorded information and prevent the loss of information. The instructions for completing the Report are built into the Report itself through hyperlinks.

Please submit the completed Household Report in OLDC. Final LIHEAP household data for FY 2018 must be submitted to ACF via the OLDC system by **Friday, March 15, 2019**.

OLDC can be accessed [here](#). If you have not yet created an account in OLDC, contact your [LIHEAP regional liaison](#) for assistance.
