## APPENDIX 1-GLOSSARY

*Table A1-1 Table of Terms and Acronyms*

<b>Term/Acronym</b>	<b>Definition</b>
1981 allocation percentage	A state's share all states' LIHEAP funds under the formula for allocating LIHEAP funds to states that was established by Congress for FFY 1981 through FFY 1984
1981 formula	The formula for allocating LIHEAP funds to states, as established by Congress for FFY 1981 through FFY 1984
1984 formula	The formula for allocating LIHEAP funds to states, as established by Congress for FFY 1985 through FFY 2008
1984 Formula base	The distribution of funds through the 1984 formula under a hypothetical appropriation of exactly \$1.975 billion
ACF	Administration for Children and Families
ACS	American Community Survey
Allotment percentage	A state's share of all states' expenditures by low income households for space heating and space cooling
Breakeven point	The appropriation level at which the 1984 formula returns the maximum number of states whose allocations are based directly on their current low income home energy percentages
C&I	Commercial and Industrial
CARES Act	The Coronavirus Aid, Relief, and Economic Security Act (Public Law 116-136)
CDD	Cooling degree-day
Ceiling	The maximum that, under the 1984 formula, a state may receive if it's not held harmless
Ceiling ratio	A factor, calculated by an iterative process, in the 1984 formula that ensures that the appropriate states are ratably reduced enough to fund the states that are held harmless
Cooling	Activities by households for space cooling
Cooling degree-day	The extent, in degrees Fahrenheit, to which the daily average temperature exceeds 65 degrees Fahrenheit
DC	District of Columbia
DEA	Division of Energy Assistance
DOE	Department of Energy
EIA	Energy Information Administration
Federal maximum income-eligibility guidelines	The greatest of (1) 150 percent of the poverty income guidelines and; (2) 60 percent of state median income
FY	Federal Fiscal Year
FPG	Federal Poverty Guidelines (also called HHS Poverty Guidelines)
HDD	Heating degree-day
Heating degree-day	The extent, in degrees Fahrenheit, to which the daily average temperature falls below 65 degrees Fahrenheit
HH	Hold harmless
HH Level	Hold harmless Level
HH Rate	Hold harmless Rate
HHS	Department of Health and Human Services
Hold Harmless Level	The hold harmless provision that prevents any state from receiving less than the amount of funds it would have received in FFY 1984 if the total appropriation for FFY 1984 had been \$1.975 billion
Hold Harmless Rate	The hold harmless provision that prevents any small state from having its allotment percentage reduced from the percentage it would have received from an appropriation of \$2.14 billion when the total appropriations equals or exceeds \$2.25 billion
Hold-harmless provision	A provision that prevents states from experiencing a large year-over-year or grantee-over-grantee change that the LIHEAP formula would otherwise generate

<b>Term/Acronym</b>	<b>Definition</b>
Home energy expenditures	Expenditures by households for space heating and space cooling
Home heating expenditures	Expenditures by households for space heating
Hybrid formula	The formula for allocating LIHEAP funds to states, as established by Congress for FFY 2009 through FFY 2019
Leveraging	Leveraging incentive program
Leveraging incentive program	A program that awards formula grants to grantees that demonstrate the raising of non-federal resources for LIHEAP purposes
LIEAP	Low Income Energy Assistance Program
LIHEAP	Low Income Home Energy Assistance Program
LIHH	Low income household
Low income	At or below the federal maximum income-eligibility guidelines
Net allocation	As applied to a state, the state's allocation after deducting funds for tribal grantees in that state's area
NOAA	National Oceanographic and Atmospheric Administration
OCS	Office of Community Services
OLAB	Office of Legislative Affairs and Budget
P.L.	Public Law
PADD	Petroleum Administration for Defense District
Poverty income guidelines	The income levels, by household size, below which a household is considered to be in poverty for the purposes of federal program administration
Ratably reduced	Reduced (as in a state's allocation) in a fashion that prevents other states from experiencing a large year-over-year or grantee-over-grantee change that the LIHEAP formula would otherwise generate
REACH	Residential Energy Assistance Challenge program
RECS	Residential Energy Consumption Survey
Residential Energy Assistance Challenge program	A program that awards competitive grants to LIHEAP grantees for innovative practices in meeting home energy needs
Residential energy expenditures	Expenditures by households for consumption of energy for all purposes
SEDS	State Energy Data System
Small state	A state (when used in the 1984 formula) whose allotment percentage out of funds available to states from a total appropriation of \$2.25 billion would have been less than one percent
SMI	State median income
SNAP	Supplemental Nutrition Assistance Program, the successor to Food Stamps
STEO	Short-Term Energy Outlook
T&TA	Training and Technical Assistance
Training and Technical Assistance	A set aside of federal LIHEAP funds for grantee training; grantee technical assistance; and reduction of waste, fraud, and abuse

**APPENDIX 2-COMPARISON BETWEEN ALLOCATION SHARES AND 1984 FORMULA PERCENTAGES—FY 2018 – FY 2020**

Appendix 2 consolidates Table 2, Table 3, and Table 4 of the report’s body. It shows each state’s percentage deviation between its net allocation and its allotment percentage for each and all FFY 2020 appropriations.

<sup>1</sup> States marked with an asterisk, in this table and the others in Appendix 3, have estimated data for the Number of Recipient Households Served with Any Type of LIHEAP Assistance due to this data not being collected or reported. The estimated data was calculated by estimating a ratio for the state of the number of recipient households served to the sum of households assisted with each type of assistance for years where data was available, and applying the state’s average ratio value to the sum of households assisted with each type of assistance during this particular year.

<sup>2</sup> Total LIHEAP funds allocated to the state includes the net block grant allocation, emergency contingency funds, and reallocation funds allocated in the fiscal year. It does not include funds carried over by states from the previous year.

<sup>3</sup> Percentage of funds obligated to bill payment assistance may be greater than 100 percent if the state carried over funds from the previous fiscal year and obligated those funds to bill payment assistance.

<sup>4</sup> HHS required states to submit energy burden data beginning in 2017. This data is shown in the tables for FFY 2017 to FFY 2019. States with a value of NA in those years did not submit sufficient data for reporting.

#### APPENDIX 4-FFY 2008 – 2020 SELECTED LIHEAP OUTCOME DATA FOR STATES

Appendix 4 shows, for each state, selected LIHEAP funding, energy expenditure, and LIHEAP coverage data. They summarize the extent to which LIHEAP achieves its statutory goal of “[...]assist[ing] low-income households, particularly those with the lowest

incomes, that pay a high proportion of household income for home energy, primarily in meeting their immediate home energy needs.” These tables start in FFY 2008, which is the year before the hybrid formula took effect.

<sup>5</sup> This table and the others in Appendix 4 show *gross* allocations, before set-asides to Indian tribes and tribal organizations. By contrast, the tables in Appendix 3 show *net* allocations, after those set-asides. This is because the other data in Table 3, unlike that of Table 4, derives from data that excludes Indian tribes and tribal organizations.
