

Child Support Services and You

Let's Work Together

Welcome to the
child support
office

The child support program works with ***parents just like you*** across the country.

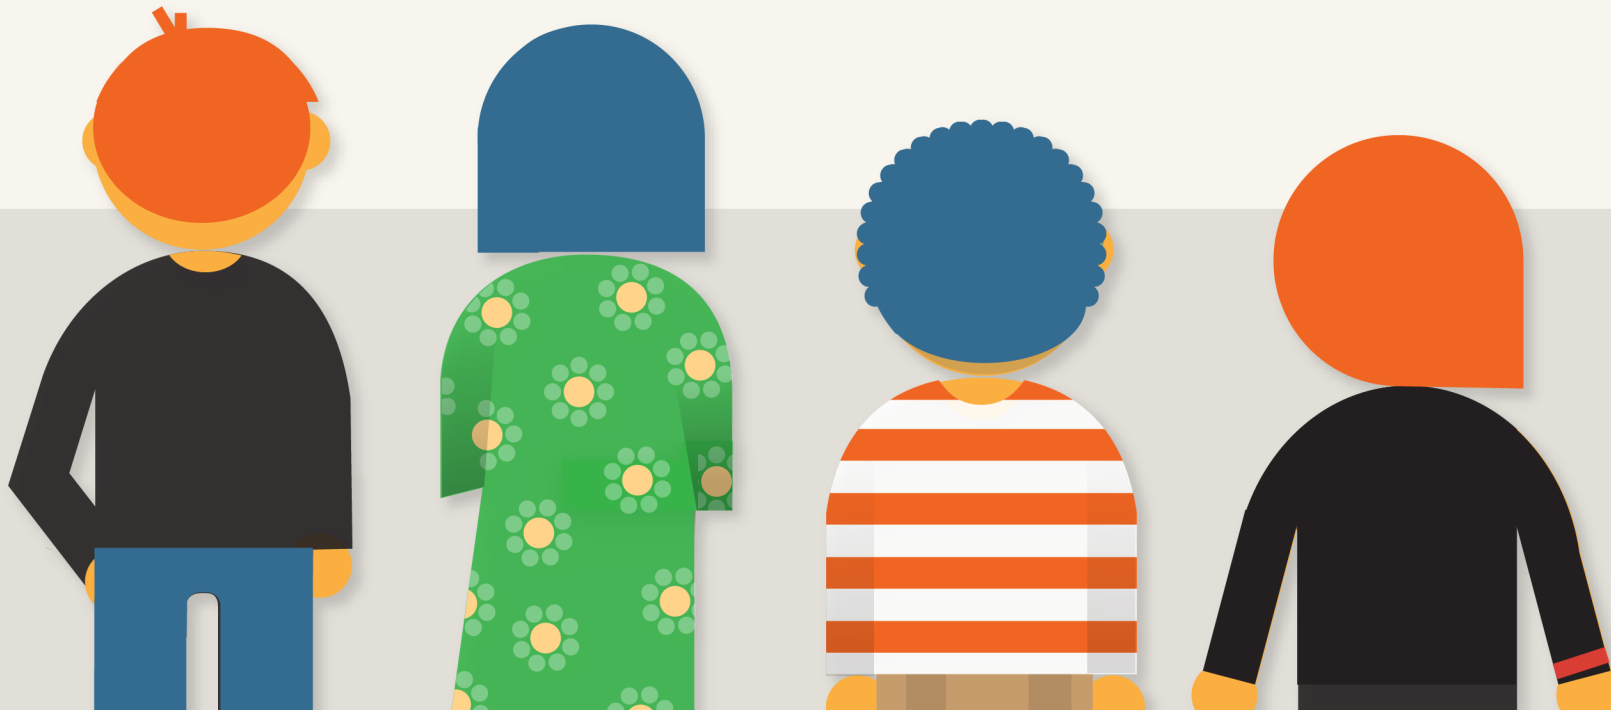

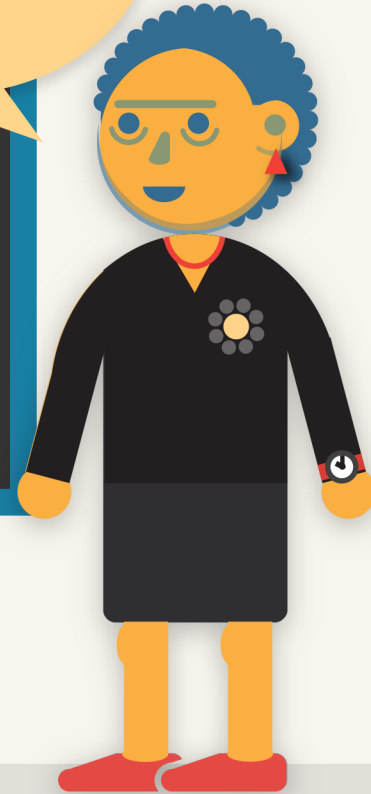

We understand that not all families are the same.

Some parents come to us to establish paternity. Others need help finding a job or setting a realistic child support order.

The Child Support Office Offers Many Services

- Locates parents
- Establishes paternity
- Establishes and enforces orders
- Connects you to health care coverage
- Refers you to other services

How can I help you today?

We work with both mom and dad because children do better when both parents are involved, even when you are no longer together.

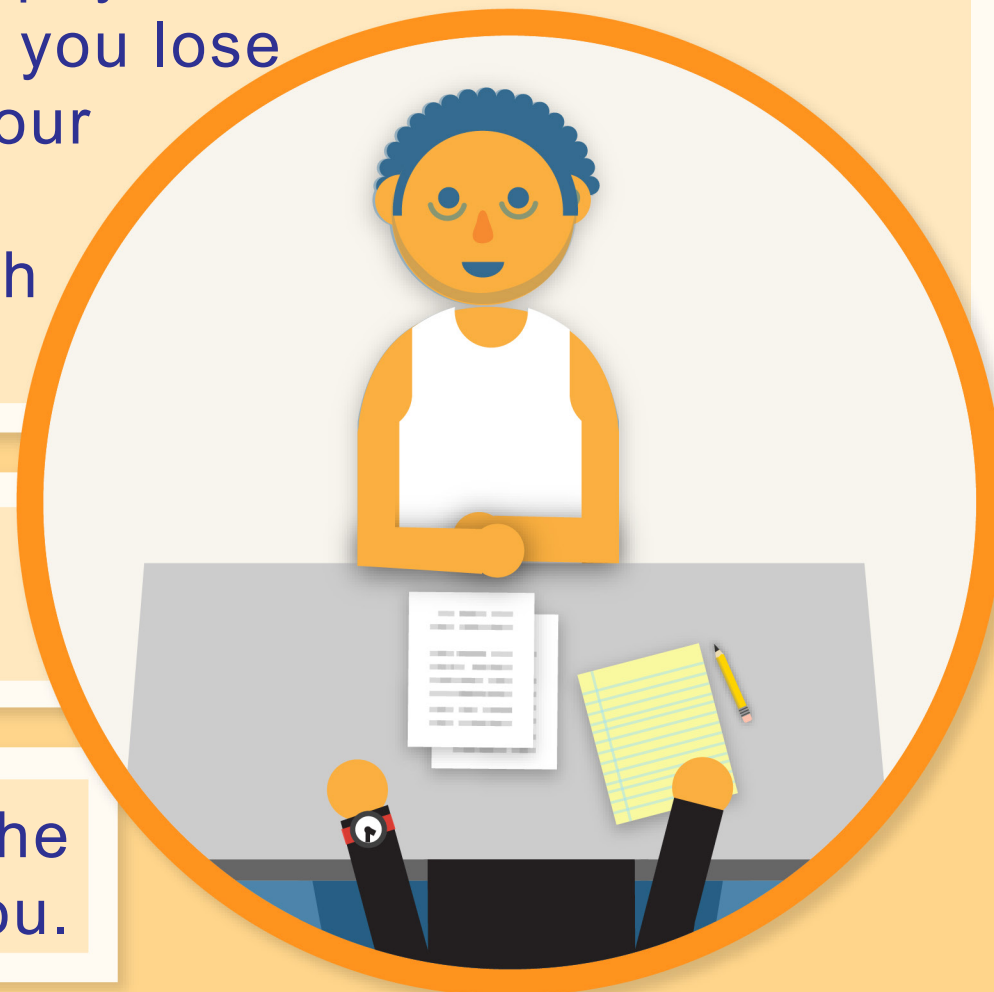

We can ***help you in several ways***. We establish paternity and right-sized child support orders, and enforce those orders.

And when the payments are not made we ask ***why?*** Did you lose your job? Is your child support order too much to pay?

We can also connect you to other programs for food, health care, and other needs.

Working together, we can help you identify the problem and ***find a solution*** that works for you.

Your child support agency may have ***partnerships*** with employment programs, health care services, parenting programs, family violence centers, and other social service agencies ***to help you support your children.***

*Let's start working
together!*
