EXECUTIVE Summary

The Office of Child Support Enforcement (OCSE) is part of the Administration for Children and Families (ACF) within the Department of Health and Human Services (HHS). HHS is the principal agency for protecting the health of all Americans and providing essential human services, especially for those who are least able to help themselves. ACF's mission is to foster health and well-being by providing federal leadership, partnership, and resources for the compassionate and effective delivery of human services. The ultimate ACF vision is that children, youth, families, individuals, and communities are resilient, safe, healthy, and economically secure.

OCSE's core mission is to:

- Establish paternity
- Obtain child support in order to encourage responsible parenting, family self-sufficiency and child well-being
- Recognize the essential role of both parents in supporting their children

The national child support program helps children receive support by:

- Locating parents
- Establishing paternity
- Establishing and modifying support obligations
- Monitoring and enforcing support obligations

The child support program is a federal/state/tribal/local partnership that operates under Title IV-D of the Social Security Act. The program functions in 54 states and territories, and 60 comprehensive tribes.

The OCSE Annual Report to Congress highlights financial and statistical child support achievements based on data reported by state and tribal child support agencies. The content of the annual report is mandated by Section 452(a) under Title IV-D of the Social Security Act to give congressional members information that relates to the overall operations and success of the national child support program.

In fiscal year (FY) 2017, OCSE worked collaboratively and collectively with state and tribal programs and a variety of public and private partners. OCSE's work focused on engaging both parents in the lives of their children, increasing the economic stability of both parents, and strengthening family relationships.

The child support program made solid progress in its mission to increase family self-sufficiency and meet the needs of children and their families. These accomplishments are discussed further in the Highlights section of the report and supported by the data in the tables found in the Appendix.

HIGHLIGHTS of the year

ACHIEVEMENTS

Total Child Support Collections for FY 2017

\$32.4 billion

Non-IV-D
\$3.8 billion

IV-D
\$28.6 billion

OCSE promoted effective approaches and excellent customer service to achieve the program goal of ensuring children receive consistent financial support from their parents living apart from them. OCSE, states, and tribes identified proven strategies, including setting accurate orders to improve payment compliance rates and intervening early when payments stop. OCSE emphasized to states and territories the need for technology modernization and employer outreach to increase income withholding and new hire reporting compliance. OCSE also emphasized the importance of partnering with private and public programs that nurture healthy relationships between both parents and their children and with employment programs that can increase the capacity of parents to earn and provide child support. These strategies contributed to improvements in program performance, reliable payments for children, and provided help to parents struggling to support their families.

PROGRAM PERFORMANCE

The child support program measures its successes in helping families become self-sufficient through a variety of outcome-based measures. This section describes the statistical performance of the national, state, and tribal programs.

Performance-Based Incentives and Penalties

The child support program has a strong outcome-based performance management system established by the Child Support Performance and Incentive Act of 1998 (CSPIA). Under CSPIA, states are measured in five program areas:

- Paternity establishment
- Support order establishment
- Current support collections
- Cases paying towards arrears
- Cost effectiveness

This performance-based incentive and penalty program is used to reward states for good or improved performance and to impose penalties when 1) state performance falls below a specified level and has not improved, 2) state data used to compute incentive measures are found to be incomplete or unreliable, or 3) states are found to be non-compliant with certain federal child support requirements. Performance data maintained by states are regularly audited for completeness and reliability. For FY 2016 one state/territory received a penalty letter for having two consecutive failures.

From FY 2016 to FY 2017, the IV-D caseload paternity establishment percentage (PEP) remained at 102 percent,¹ while the statewide paternity establishment percentage remained at 94 percent. Over this same period, the percent of cases with support orders established increased from 86 to 87 percent, the current support collection rate remained at 65 percent, and the proportion of cases paying towards arrears remained at 64 percent. Cost effectiveness decreased from \$5.33 to \$5.15 collected for every dollar spent on the program in FY 2017.

DATA RELIABILITY AUDITS

Child support performance data are audited to ensure that they are reliable. Congress mandates OCSE to conduct annual data reliability audits and reviews to evaluate completeness, accuracy, security, and reliability of the data reported and produced by state reporting systems. These data reliability audits, performed by the OCSE Office of Audit, help ensure that incentives are earned and paid on the basis of verifiable data only and that the incentive payment system is fair and equitable. In FY 2017 and part of FY 2018, data from states and territories for FY 2016 was audited. Fifty-two states and territories passed their data reliability audits, and two failed the audits for FY 2016. No state/territory received a penalty letter due to failing the audits. There is an automatic corrective action year, and if data reliability audits are passed and performance measure thresholds are achieved no penalties are assessed. One state/territory that failed the audit for FY 2015 received a congratulatory letter

¹ Based on the formula used to determine the PEP, it is possible for a state to report a number over 100% if the number of paternities established in a given year exceeds the number of non-marital births during the preceding year.

for reporting complete and reliable data in FY 2016.

COST AUDITS

OCSE is required by Section 452(a)(4)(C) of the Social Security Act to evaluate the adequacy of the financial management of each state's child support program. Specifically, OCSE is mandated to perform reviews of expenditures claimed by states for federal reimbursement. The primary objectives of a cost audit are to determine whether the claimed child support costs are allowable, allocable, and reasonable, and to ensure that states bear their fair share of child support costs. Financial audits are performed after the data reliability audits are completed, to the extent that resources permit. Audit did not issue any cost reports in FY 2017.

FEDERAL SYSTEMS

OCSE has an expansive portfolio of Information Technology (IT) services and programs, referred to as Federal Systems, that help states and tribes effectively and efficiently achieve the core mission of the program, which is to provide child support to millions of our nation's children. Federal Systems are composed of multiple systems, including three that are critical to the business mission of the child support program:

- National Directory of New Hires (NDNH), a database of employees, their quarterly wages, and unemployment benefit information
- Federal Case Registry (FCR), a national database of child support participants, cases, and orders
- Debtor File, a database of noncustodial parents who owe past-due support that helps states and tribes collect through the Administrative and Federal Tax Refund Offset and Passport Denial programs, and the Multistate Financial Institution Data Match (MSFIDM) and Insurance Match programs.

OCSE expanded this portfolio to provide IT services and programs that assist child support and other critical program partners – employers, financial institutions, insurers, and other federal agencies – in their efforts to support the child support program in cost-effective and efficient ways. To assist with intergovernmental child support case management, OCSE and state child support systems are interoperable exchanging information daily through batch processing and leveraging a web-based interactive portal that allows for location services, case and participant inquiries, and document exchange. Currently all 54 states and territories and two tribes, Muscogee Creek Nation, and White Earth Nation are using the Child Support Portal. Additionally, OCSE continued the task of modernizing its systems, which were developed in 1996. Changes include upgrading to relational databases and object oriented code languages. These changes will allow for streamlined system enhancements in the future and more secure systems.

While Congress established the NDNH to help state child support agencies locate parents and enforce child support orders, Congress has authorized certain state and federal agencies to receive NDNH data for authorized purposes, primarily to reduce improper payments from needs-based public benefit programs. Below are outcomes

from these data matches in FY 2017:

- Bureau of the Fiscal Service used a combination of NDNH and other data to recover \$80.9 million in federal non-tax debt and collect \$14.8 million on payment agreements.
- Department of Labor estimated that State Workforce Agencies saved \$199 million in prevented and recovered Unemployment Insurance benefit overpayments through NDNH and State Directory of New Hires data matching.
- Twenty-one states reported avoiding a combined \$30 million in improper Supplemental Nutrition Assistance Program payments by using NDNH data.
- Temporary Assistance for Needy Families agencies in eight states reported avoiding a combined \$2 million in erroneous costs by using NDNH data.

STATE AND TRIBAL SYSTEMS

States continued to try to replace or enhance their legacy statewide automated case management computer systems in FY 2017. In nearly all states, the systems are obsolete, and in some states, the systems are close to the end of their usable lives. However, state budget constraints continue to delay most enhancement and replacement efforts.

Despite these challenges, several States and a Territory began to conduct planning and feasibility studies to examine a path forward to replace their systems. These were:

- Arizona
- Kentucky
- New Hampshire
- South Carolina
- Guam
- Massachusetts
- New Mexico
- Tennessee
- Indiana
- Nevada
- Oregon

In addition to the states that are conducting the feasibility study, some States like Ohio, Idaho and Utah are re-platforming to change from an obsolete mainframe environment to a more distributed platform. The re-platforming projects are essentially a low-cost alternative to developing a new system.

To reduce the federal costs of automating tribal programs, OCSE developed the Model Tribal System in FY 2013. The Model Tribal System is a comprehensive, highly configurable child support system available for implementation by tribal programs. By FY 2017, 13 tribes had completed full installation:

- Cherokee Nation of OK
- The Chippewa Cree Tribe of the Rocky Boys Reservation
- Confederated Tribes of Colville Reservation
- Eastern Band of Cherokee Indians of NC
- Eastern Shoshone of WY
- Forest County Potawatomi Community of WI
- Lac Courte Orielles
- Mille Lacs Band of Ojibwe
- Modoc Tribe of OK
- Prairie Band of Potawatomi Nation
- Sisseton Wahpeton Oyate
- The Suquamish Tribe
- White Earth Nation

Other ongoing significant work with state and tribal systems included the continued management of the National Information Exchange Model's Human Services Domain on behalf of the Administration for Children and Families Interoperability Initiative. This included collaborative, interdisciplinary IT projects designed to promote horizontal integration, facilitate shared services, and improve the exchange of data across systems supporting health and human services programs. Some of these projects included development and publication of the National Human Services Interoperability Architecture, the ACF Confidentiality Toolkit, and an updated Cost Allocation Methodology Toolkit.

The updated State Systems Certification Guide that provides requirements for all state child support systems was released in September 2017.

PROGRAM INNOVATION

Competitive Grants and Initiatives

OCSE awards competitive grants under two sections of the Social Security Act.

- Section 1115(a) authorizes OCSE to fund research and demonstration grants to promote Title IV-D purposes with a goal of improving the operation of the child support program.
- Section 452(j) authorizes OCSE to fund projects that support disseminating information and technical assistance to states, training of state and federal staff, staffing studies and related activities, as well as research, demonstration, and special projects of regional or national significance relating to the operation of IV-D programs. OCSE did not award any Section 452(j) awards in FY 2017.

OCSE awarded FY 2017 continuation funding to the recipients of the following Section 1115(a) grants:

- National Child Support Noncustodial Parent Employment Demonstration grant program (CSPED), a five-year project awarded in FY 2012
- Behavioral Interventions for Child Support Services (BICS), a five-year project awarded in FY 2014
- Procedural Justice-Informed Alternatives to Contempt (PJAC), a five-year project awarded in FY 2016

Access and Visitation

OCSE administers grants to states for the Access and Visitation Program to support and facilitate noncustodial parents' access to and visitation with their children by means of activities including: mediation, counseling, parenting education, developing parenting time schedules, visitation enforcement (monitoring, supervision, and neutral drop-off and pick-up), and developing guidelines for alternative custody arrangements. The annual appropriation for this program is \$10 million total, and each state and territory receives a portion of this funding based on the formula in the authorizing statute.

OCSE Program Partnerships

Program partnerships are critical to fulfilling OCSE's goal of improving child support outcomes for all children. Partnerships are a low-cost effective way to increase the consistency of child support payments in those cases where there are barriers by addressing the reasons parents are not paying, such as unemployment, incarceration, parental conflict, or lack of access to their children. Partnerships also benefit other stakeholders in accomplishing their mission and goals. Examples of FY 2017 partnerships included:

- Department of Veterans Affairs to identify veterans with child support issues, address child support debt, improve employment prospects, and restore family connections.
- Office of Family Assistance (OFA) on their Healthy Marriage and Responsible Fatherhood grants to plan for building local child support collaborations and to improve services and outcomes for fathers participating in the OFA grants.

POLICY

International Child Support Program

HHS is the U.S. Central Authority for international child support and the Secretary has designated OCSE to carry out the Central Authority duties. The United States implemented the Hague Convention on the International Recovery of Child Support and Other Forms of Family Maintenance. The Hague Convention provides for a comprehensive system of cooperation between the child support authorities of contracting states, establishes procedures for recognition of foreign child support decisions, and requires effective measures for prompt enforcement.

In FY 2017, in addition to providing technical assistance and policy guidance, OCSE conducted extensive training on the Hague Convention to caseworkers, attorneys, and judges. With the new Hague Convention and our existing bilateral arrangements, the U.S. partnered with over 50 countries and Canadian provinces/territories to ensure that child support obligations are enforced. OCSE also responded to over 800 customer service inquiries on international child support from families, states, and foreign countries.

Revision and Implementation of OMB-Approved Intergovernmental Forms

OCSE disseminated the revised set of 13 OMB-approved intergovernmental forms, including new forms for the protection of sensitive data, and provided extensive training and technical assistance to help states implement the revised forms during 2017.

Final Rule

The Flexibility, Efficiency, and Modernization in Child Support Enforcement Programs final rule was published on December 20, 2016, in the Federal Register on page 93492, Volume 81, Number 244. This rule made changes to strengthen the child support enforcement program and updated current practices to increase regular, on-time payments to families, to increase the number of noncustodial parents supporting their children, and to improve program operations. OCSE presented training on the rule at national, regional, and state child support conferences, and held a national

webinar for state child support staff. OCSE also developed several fact sheets on specific topics for the rule and made them available on the OCSE website.

State Plan

As a condition of receiving federal funding, state child support agencies must have an approved state plan that describes the nature and scope of their child support program and meets all federal requirements. In FY 2017, OCSE issued policy guidance on revising and resubmitting state plan pages to comply with the new Flexibility, Efficiency, and Modernization rule and notified states of OMB's re-approval of state plan forms to expire July 31, 2020.

TRIBAL PROGRAMS

Funding for tribal IV-D grants is authorized under Section 455(f) of the Social Security Act. In order to demonstrate the capacity to operate a tribal child support program, tribes or tribal organizations must include the following tribally determined performance targets in a tribal IV-D plan: paternity establishment, support order establishment, amount of current support to be collected, and amount of past-due support to be collected. Tribal child support programs may also submit any other performance measures they wish.

- OCSE oversaw 60 comprehensive tribal child support programs and an additional three start-up tribal programs in FY 2017.
- Comprehensive tribal child support programs provide full child support services.
- Start-up tribal programs are in the developmental stages of operation and are working to demonstrate their capacity to operate as a comprehensive program; however, start-up funding and statistical data are not covered in this report.
- Most tribal child support programs are relatively new and have challenging caseloads due to a number of factors such as a smaller scale, higher unemployment, and higher poverty rates on reservations than in states.
- Sixty comprehensive tribes reported collections of over \$54 million on nearly 59,000 cases.

60 Comprehensive Tribal Programs

Three start-up programs with applications in review to become comprehensive:

- Apache Tribe of Oklahoma, OK
- Shinnecock Indian Nation, NY
- Sokaogon Chippewa Community, WI

CUSTOMER COMMUNICATIONS

During FY 2017, OCSE managed and disseminated key communications for the national child support program to inform and engage OCSE customers, partners, stakeholders and the public. Highlights of customer communications included:

- OCSE supported plain language guidelines to ensure information from the federal office is easy to read, understand, and use.
- Parents, program partners, and child support professionals visit the OCSE website for policy documents and contact and program information. Child support populations including military service members and veterans, and incarcerated parents could find specific information targeted for those groups.
- OCSE managed communication campaigns to disseminate timely information through the appropriate social media channels.
- OCSE managed two blogs:
 - *Commissioner's Voice* featured messages from our commissioner highlighting important OCSE initiatives.
 - *Analyze This* provided in-depth analysis of child support data to inform child support professionals and other stakeholders about national child support trends.
- Customers also learned about OCSE, state, local and tribal initiatives promoting the well-being of children and families in our monthly e-newsletter, *Child Support Report*. Our newsletter's reach is one of the largest in the agency, with distribution to more than 4,800 subscribers each month.
- Using OCSE's Customer Inquiry Management system, OCSE responded to thousands of customer inquiries from the public, parents, Congress, the White House, HHS Office of Inspector General, and other officials and advocates.

PERFORMANCE

The Office of Child Support Enforcement recognizes the unique relationship between the federal government and federally recognized Indian Tribes. The direct federal funding provisions in Section 455(f) of the Social Security Act provides Tribes with an opportunity to administer their own IV-D programs in a manner that meets the needs of children and their families.

¹ The Total Number of Records Posted to the NDNH includes records submitted by both states and federal agencies. Therefore, the national totals are higher than the totals reported in the state-by-state report because that report does not include any records posted by federal agencies.

² The Total Number of Unique Persons in the FCR is derived by unduplicating SSNs across all participant types. The figures for the individual participant types are unduplicated within that category but not between them--i.e., an individual may appear in more than one category, but is only counted once within that category and only once in the total. As a result, the counts for the individual participant types may not add up to the Total Number of Unique Persons in the FCR. In addition, an individual can be a child support case participant in more than one state but is only counted once in the nationwide total.

³ The Total Number of Unique Persons (NCPs and PFs) Matched is derived by unduplicating SSNs located across all data types (NH, QW, UI). The figure is unduplicated within each data type but not between them--i.e., an individual may appear in more than one category but is only counted once in that category and once in the total. As a result, the individual NH, QW, and UI counts may not add up to the Total Number of Unique Persons Matched.

⁴ The MSFIDM match is performed quarterly. If an obligor has an account open over two quarters, the match would be duplicated each quarter. To compensate for this, the average of the four quarters during the fiscal year was used. Since an obligor can have more than one account, there are always more accounts than obligors located.

⁵ States use the Child Support Enforcement Network (CSENet) to communicate case data and requests to other states automated systems in order to process interstate cases more effectively. A valid transaction involves the complete process of one state initiating and forwarding a request, and the appropriate state receiving this request. An Exchange agreement allows one state to forward a request to another state using CSENet. The total number of exchange agreements that an individual state has reflects the number of other states that it can send requests to. The national total is the sum of exchange agreements in all states.

¹ Processing Year, the calendar year the collections actually took place.

² Tax Offsets are based on intercepts of Federal Tax Refunds, while Administrative Offsets are based on intercepts of certain federal payments such as vendor and miscellaneous payments (that is, expense reimbursement payments and travel payments) and federal retirement payments. The tax and administrative figures add up to the Total figures and include both TANF and Non-TANF.

³ The TANF and Non-TANF figures add up to the Total figures and include both Tax and Administrative Offsets.

⁴ A certified case may be representative of an individual debt or an accumulation of TANF or Non-TANF debts. The criteria for certification of a debt for Federal Income Tax Refund Offset are as follows:

In TANF or Title IV-E foster care cases: the amount of past-due support must be at least \$150.

In Non-TANF or Medicaid-only cases: the amount of past-due support must be at least \$500.

The criterion for certification of a debt for Administrative Offset is the amount of past-due support must be at least \$25.

¹ The Total Unique Persons in the FCR is derived by unduplicating SSNs across all participant types. The figures for the individual participant types are unduplicated within that category but not between them --i.e., an individual may appear in more than one category, but is only counted once within that category and only once in the total. As a result, the counts for the individual participant types may not add up to the Total Unique Persons in the FCR. In addition, an individual can be a child support case participant in more than one state; in these situations they are counted in the total for each individual state in which they are a participant but are only counted once in nationwide total. As a result, the individual state totals add up to more than the nationwide total.

² Some states code their Putative Fathers as NCPs when submitting them to the FCR. For those states Putative Fathers are included in the NCP figure instead of the PF figure, which is NA.

¹ The Unique NCPs and PFs Matched is derived by unduplicating SSNs located across all data types (NH, QW, and UI). The figure is unduplicated within each data type but not between them--i.e., an individual may appear in more than one category but is only counted once in that category and once in the Unique Persons Matched column. As a result, the individual NH, QW, and UI counts may not add up to the Unique Persons Matched figure.

² These totals are summations of the individual state totals. Since an individual may be involved in child support cases in more than one state, there may be duplicates between the states. Therefore, these totals are higher than the unduplicated totals that are reported at the national level.

Program Collections

Table 4 - Total Distributed Collections (Form OCSE-34A - Part 1, line 8, column G. Beginning fiscal year 2015, form OCSE-34 - Part 1, line 8, column G)

Total amount of collections distributed during the year on behalf of both TANF (Temporary Assistance for Needy Families) and non-TANF families. Total collections are calculated as the sums of Current IV-A and IV-E Assistance, Former IV-A and IV-E Assistance, Medicaid Never Assistance, and Other Never Assistance.

Table 8 - Distributed Medicaid Never Assistance Collections (Form OCSE-34A - Part 1, line 8, column E. Beginning fiscal year 2015, form OCSE-34 - Part 1, line 8, column E)

The amount of collections received and distributed on behalf of children who are receiving Child Support Enforcement services under Title IV-D of the Social Security Act, and who are either currently receiving or who have formerly received Medicaid payments under Title XIX of the Act, but who are not currently receiving and who have never formerly received assistance under either Title IV-A (TANF or AFDC) or Title IV-E (Foster Care) of the Act.

It would include collections from various sources such as per capita payments and Tribal casinos.

Tribal Unemployment Rate (Optional Reporting)

This is an optional reporting line, and may be obtained from an actual study or report such as the Bureau of Indian Affairs (BIA) Labor Force Report, or other Tribal calculations based on Tribal members, Tribal child support caseload, or other appropriate group.

Tribal Joblessness Rate (Optional Reporting)

The joblessness rate is an alternative measure of unemployment. No standard definitions were provided. Tribes may choose how to calculate this measure.

How an Incentive Payment is Determined

Because of the complexity of the incentives formula set forth in section 458 of the Social Security Act, we have included an example of how the system would work in a particular year for State A. Let's make the following assumptions regarding State A (See Table A):

- State A's paternity performance level is 93 percent, making its applicable percentage 100 percent (see Table C)
- State A's order establishment performance level is 74 percent, making its applicable percentage 88 percent (see Table C)
- State A's current support collections performance level is 59 percent, making its applicable percentage 69 percent (see Table D)
- State A's arrearage support collections performance level is 60 percent, making its applicable percentage 70 percent (see Table D)
- State A's cost-effectiveness ratio is \$4.40, making its applicable percentage 80 percent (see Table E)
- State A's collections base is \$50 million (determined by 2 times the collections for Current Assistance, Former Assistance, and Medicaid Never Assistance plus Never Assistance collections and fees retained by other states)
- The maximum incentive for State A is:
 - \$50 million collections base for paternity (\$50 mil. times 1.00), plus
 - \$44 million collections base for orders (\$50 mil. times 0.88), plus
 - \$34.5 million collections base for current collections (\$50 mil. times 0.69), plus
 - \$26.25 million collections base for arrearage collections (\$50 mil. times 0.75¹ times 0.70) plus
 - \$30.0 million collections base for cost-effectiveness (\$50 million times 0.75¹ times 0.80) equals
 - Resulting in a maximum incentive base amount of \$184.75 million for State A.

¹ Because the measure has less weight.

Table A

Measure	State A's Performance Level	Applicable Percentage based on Performance	Weight	State A's Collection Base (assumed to be \$50,000,000)
Paternity Establishment	93%	100%	1.00	\$50,000,000
Order Establishment	74%	88%	1.00	\$44,000,000
Current Collections	59%	69%	1.00	\$34,500,000
Arrearage Collections	60%	70%	.75	\$26,250,000
Cost-Effectiveness	\$4.40	80%	.75	\$30,000,000
State A's Maximum Incentive Base Amount	--	--	--	\$184,750,000

We must now make some assumptions regarding the other States. Let's assume that there are only two other States in our country--and the maximum incentive base amount is \$84 million for State B and \$50 million for State C, making the total maximum incentive base amount \$318.75 million for all three States (See Table B).

- We must now determine what is State A's share of the \$318.75 million. It is 58 percent (\$184.75 divided by \$318.75).

Table B

State	Maximum Incentive Base Amounts	State's Share of \$318,750,000	Incentive Payment Pool \$461,000,000
A	\$184,750,000	0.58	\$267,199,216
B	\$84,000,000	0.26	\$121,487,059
C	\$50,000,000	0.16	\$72,313,725
Totals	\$318,750,000	1.00	\$461,000,000

- Let us assume it is FY 2003, so the incentive payment pool for the FY is \$461 million (see Table F).
- Since State A's share is 0.58, this state has earned 58 percent of the \$461 million incentive payment pool that Congress is allowing, or \$267.2 million ($\$461 \text{ mil.} \times 0.58$) incentive payment for this particular fiscal year.

Table F

Incentive Pool Payment, FYs 2001-2017

The incentive payment pool is:

- \$429,000,000 for fiscal year 2001
- \$450,000,000 for fiscal year 2002
- \$461,000,000 for fiscal year 2003
- \$454,000,000 for fiscal year 2004
- \$446,000,000 for fiscal year 2005
- \$458,000,000 for fiscal year 2006
- \$471,000,000 for fiscal year 2007
- \$483,000,000 for fiscal year 2008
- \$504,000,000 for fiscal year 2009
- \$504,000,000 for fiscal year 2010
- \$513,000,000 for fiscal year 2011
- \$526,000,000 for fiscal year 2012
- \$538,000,000 for fiscal year 2013
- \$547,000,000 for fiscal year 2014
- \$556,000,000 for fiscal year 2015
- \$558,000,000 for fiscal year 2016
- \$563,000,000 for fiscal year 2017

The incentive payment pool after FY 2008 is the amount of the incentive payment pool for the preceding FY, multiplied by the percentage by which the Consumer Price Index (CPI) for that preceding FY exceeds the CPI for the second preceding FY.

The CPI for a FY is the average of the CPI for the 12 month period ending on Sept. 30 of the FY. The CPI means the last CPI for all-urban consumers published by the United States Department of Labor. The NOT seasonally adjusted CPI numbers are used.

The percentage increase between the preceding FY (FY 2008) and second preceding FY (FY 2007) is about 4.44%. So, \$483 million (the FY 2008 incentive pool amount) plus 4.44% equals about \$504 million (the FY 2009 incentive pool amount).
