Marshall Islands: Efforts to Combat Human Trafficking
U.S. Department of Health and Human Services Region IX

This state profile summarizes regionally specific data to help promote collaboration and inform and enhance the response to human trafficking in the Marshall Islands. Information was reported to the National Human Trafficking Hotline from December 2012 to December 2016.

Fewer than three cases of human trafficking were reported to the National Human Trafficking Hotline from the Marshall Islands, so a heatmap indicating the general locations of the cases can not be produced.

**Types of Calls to the National Human Trafficking Hotline in 2016**

The National Human Trafficking Hotline did not receive enough calls from the Marshall Islands in 2016 to create a graph indicating the types of calls received.

**TOP SEX TRAFFICKING VENUES**

All sex trafficking venues reported fewer than three times.

**TOP LABOR TRAFFICKING VENUES**

All labor trafficking venues reported fewer than three times.

The data contained in this document are based on aggregated information learned through signals—phone calls, emails, and online tip reports—received by the National Human Trafficking Hotline. The data do not represent actual numbers of cases identified or processed, nor do they represent the entire scope of human trafficking.

Human Trafficking Hotlines

888–373–7888  
The National Hotline serves victims and survivors of human trafficking and the anti-trafficking community across the United States and its territories, 24/7, in more than 200 languages. Contact the confidential hotline to report tips, seek services, ask for help, or receive information and statistics related to human trafficking.

This document was developed by Polaris with assistance from Health, Education, Advocacy, Linkage (HEAL) Trafficking through a subcontract with the National Human Trafficking Training and Technical Assistance Center.
