

Public Comments relating to Child Protective Services Submitted Regarding the National Advisory Committee on Sex Trafficking of Children and Youth in the United States meeting, held on October 3-4, 2019.

Note: Comments submitted to the Committee referencing specific citizens have been redacted to protect the privacy of those individuals. In addition, no attachments included in email submissions were added to this document, including photos.

[redacted]

We want the entire fraudulent system abolished & all the bad actors of family court, cps, foster care & forced adoption- medical child kidnap ARRESTED!! This will save our Country. I am a National advocate and an expert on this topic. Please watch our child trafficking briefing.

4 The Children Child trafficking briefing

[redacted]

Good evening,

I am a mother of 5 who is endanger of the attempt of Texas Department of Family and Protective Services desire to keep my children and abuse them in trafficking. Several parents lose their children to loose interpretations from this agency to abuse their children and keep them which allows then to be placed with pedophiles and criminal who sign up to be foster parents. Each and every state including mine needs to be stopped from continuing abusive behavior. They are profiting off of this abuse and their Federal funding must be stopped. Please do something.

Thank you,

Dear Trump Administration,

I am your constituent in Houston, TX and I have been writing continuously to invoke assistance due to my Texas Constitutional Rights and United States Constitutional Rights being violated. The matter involves The Department Of Family And Protective Services/Child Protective Services (Region 6) here in Houston, TX. They continue to file false reports, commit fraud and perjury under oath to the Harris County's 315th Court with the assistance of the County Attorney's office. It is a major concern that my children have been kidnapped due to perjury and false reports to make my children wards of the state for Title IV-E Foster Care funding. This matter should be a concern to you as it is being funded by the Social Security Act. I have attempted to rectify the Department of Family and Protective Services and they have admitted to firing the employee for false reports, yet they still have my children and unlawfully kidnapped one with the aid of Houston Police Department. I need your assistance in any way possible in regards to this troubling matter.

My family has become a victim of misconduct by public servants. They are misappropriating funds, forging and tampering with government records, securing execution of documents by deception, abusing their official capacity, violating my rights, ignoring governing state laws, and ignoring The Constitution. Their baseless allegations and lack

of investigation has divided and torn my family apart. The United States, The State of Texas and Harris County all have the responsibility to protect my family from tyrannical crimes towards my family and our fundamental rights. I have documents as evidence of these heinous crimes done by the Department of Family and Protective Services in hopes of your assistance in any manner. Thank you for taking the time out to read my letter. I appreciate your time.

I am writing regarding CPS caseworkers who lied to The County Attorney and Judge to get orders granted illegally to remove children and gain Temporary Managing Conservatorship. I have attached screenshots of court transcripts where the caseworkers lied under oath contradicting information from the original petition and also CPS case file . This is a violation of my 4th and 14th Amendment Rights. This also violates Civil Rights 1983 and conspiracy against rights covered under 1985.

[redacted] presented misleading information to the judge to have Temporary Managing Conservatorship granted to the Texas Department of Family and Protective Services for children

In the initial petition filed on 6/15/2018, [redacted] on page 2:

[redacted] stated that, "This court has emergency and/or home state jurisdiction under the Uniform Child Custody Jurisdiction and Enforcement Act." but she contradicts that by stating on page 14

1. "At this time, all the places where the children have lived during the last five years and all the names and present addresses of the persons with whom the children have lived during the period are currently not reasonably ascertainable. The Department will continue their investigation to discover the information." **How were they able to determine Jurisdiction over children in a petition that live out of state with their father and have been for the past two years?**

On the attached screenshots from the court transcripts, She contradicts being inside the home and essentially observing the children

In June according to the testimony of [redacted], there were two other children in my home page 3 line 19 to 21.

On page 4 line 24 and 25 she states she has been out to the home on several occasions, but not inside the home.

How was she able to verify any allegations or make more allegations if she never had access to my home? According to her petition she was not able to verify where the children have lived for the past five years.

She also stated in her substitute care form dated 07/24/2018 that she observed the children in deplorable conditions in paragraph 5 she states that, **"inside the home was alleged the conditions of the home in which the children were found to be living were deplorable: there was trash and clutter observed throughout the home and the beds were mattresses on the floor in one room and an air mattress in another".**

Page 6 line 8 to 14 [redacted] states she left a detailed message for both myself and the children's father with court specific details, yet the only voicemail provided from [redacted] on this day was a voicemail at 12:38 pm 6/15/2018 stating, " Hello [redacted] this is [redacted] with CPS, I'm calling you to notify you that there is a hearing held today in court regarding your children umm I'll be more than happy to provide you the information or call you to leave you the information um so you can attend the hearing scheduled for today umm [redacted] Please give me a return call.

Nowhere in this message she left was any details regarding this court information and of course when she was called back, she did not answer.

On page 6 she stated that my children were placed with a relative at one point in time, a paternal cousin [redacted]; she meant [redacted]. **That was also incorrect, due to her lack of investigation she incorrectly reported untruths, none of my children have ever been placed in care of another relative.**

July 16th page 22 line 2 to 11 [redacted] stated she went out to an address but could not remember the address, she also stated no one was there.

Line 16-22 [redacted] stated she went to another address provided and no one was at the address nor did me or the father ever live there. **I never was investigated nor have I ever stated to her that I had lived at that address or with their father.**

On page 25 line 5 to 8 she admitted she saw the children only with their father

Line 9 to 11 she was asked if the children looked malnourished but she could not provide an answer and said they looked like they had not taken a bath in a few days, the children were in the NICU waiting room of Memorial Hermann Southwest with their father blocked off by a wall. She never entered the waiting room to view them or speak with the father who was with them.

On page 29 line 18 to 23 she said that she attempted to speak with me and I stated I did not use Marijuana, but her entire initial testimony stated June 15th on page 4 line 4 to 10 states that I was being evasive and not answering questions so how did that change from June to July?

June 15, 2018 page 4 line 18 she states the father and I grabbed the order children and we're trying to leave.

July 16, 2018 she stated on page 30 line 9 to 11 she stated the father was in the lobby with the children exiting as if she wasn't talking to him, but prior to that she testified that we both grabbed the children and tried to leave.

July 16, 2018 page 31 line 12 to 17 she stated she received an address but that would indicate she either spoke with me or the father and she stated neither one of us would speak to her in previous testimony. **How did she receive the addresses if she never initiated an investigation with me or the father about anything at all?**

Page 32 line 5 to 7 she stated she went to an address no one was home and she knocked...when did she ever get a chance to fully investigate the home and why has she never been able to state what address(es) she went to? Why did she not have the information from the investigative findings?

July 16, 2018 page 36 lines 13 to 21 she was not able to provide any proof of the hospital drug test she stated she has seen.

page 37 line 11 to 17 she stated she did not have the results of any test and the hospital would not provide it to her.

page 38 line 23 to 24 she states she asked me to take a drug test but prior to that she stated she could not ask me any questions because I was being evasive and then I was trying to leave...when did she ask me to do so if she was unable to speak with me?

page 42 line 6 to 14 Judge [redacted] stated he has not seen anything that indicates kids were harmed. Which is a big deal because if there are no signs of abuse or neglect when did she find them?

September 10, 2018 page 5 lines 22 to 25 she was told to redact her family service plan to take out paragraph 5 of her service plan printed 9/10/2018 states that, "inside the home was alleged the conditions of the home in which the children were found to be living were deplorable: there was trash and clutter observed throughout the home and the beds were mattresses on the floor in one room and an air mattress in another".

Page 11 line 21 to 25 states [redacted] agreed to redact because she admitted she had not accessed the home and was referring to the side of town she implied she visited.

November 26, 2018 CVS caseworker [redacted] testified that [redacted], the same relative that was CPS approved to be a MONITOR not a PCSP stated that the father was in town, but they had no actual proof did not provide any proof other than alleged hearsay even after in page 7 line 20 to 22 she stated she spoke with the father. The only report of his being in Houston was an allegation that only [redacted] stated and has been stating with bias upon reading previous erroneous case information from [redacted]. (and the attached citations show that they have never been able to serve us at these addresses because we do not live there)

Page 10 line 19 to 25 [redacted] accused the paternal aunt who passed the preliminary home study of lying about contact with her brother, although [redacted] did admit she spoke with him in the beginning of the case being initiated and has never denied that. (and I also attached screenshots from the father and [redacted] who claims to have never spoken to the custodial father either)

Page 11 line 19 to 22 [redacted] stated she didn't have the Facebook proof the night she accused the paternal aunt, but she included it in case files she did not conveniently have in court to show evidence of the correspondence that the aunt admitted to.

Page 12 line 5 to 13 [redacted] admits to bias against the paternal aunt due to her belief of information that has no valid evidence, and that her car was too small. Is that even something you can deny a home study for? Bias and judgement?

Page 12 line 20 to 25

Ms. [redacted] admits she is biased to my mother because of her age and the judgement that she is not my mother. Page 13 line 1 to 8 she stated my mother may be 46 in lines 22 to 25 I'm 31, that would have made my mother 15 not 11 and she went on to imply my mother is not my mother based off said bias based off of her miscalculation of my mother to have been 11.

Page 16 line 18 to 21

It was stated as long as I continue to test negative I could probably see my twins more and that has also been denied, I have requested longer visits, frequent visits and nothing has changed. The twins are infants and there is a policy that states children under 1 can have more visits.

By seeking children illegally in violation of Title IV-E requirements, then filing false documents in secrecy through the courts to obtain federal funding, CPS is defrauding the federal government with intent. CPS should be subject to investigation and prosecution by the U.S. Attorney's office. They should be held liable for the restriction of all illegally obtained funds, and prosecuted for perjury, obstruction of justice and the fraudulent collection of federal funds under False Statements and Accountability Act of 1996. P.L. 104-292 Stat 3459, 42 U.S.C.S. 670-679a; P.L. 96-272, C.F.R. part 1356; and Title IV-E

Please look into this matter because as of this point this is being requested and the previous complaint was closed with the conclusion no investigation was needed. There is a serious concern for allowing state workers to commit fraud, perjury and legally kidnap children and it should be taken seriously. Please do not forward this to the Office of Consumer Relations because I already have an open complaint with them and they only handle policies and procedures. I am complaining about abuse of state funds from the government, fraud and perjury initiated by a caseworker.

Thank you,

[redacted]

Hii sir president Trump. My name is [redacted] and ii have three amazing kids [redacted], [redacted] and [redacted], who ive been taken away from wrongfully by cps and the court commissioners. Please my kids are in danger cps gave my two lil ones to the two real abusers [redacted] and [redacted] and have been beating them, pour vinegar down their throats

and told them im not their mom anymore that [redacted] is now mom who has really been beating my kids and [redacted] my oldest daughter has been forced to stay away now from her siblings by cps even tho Superior court has an parenting order that has been changed without due process and violated our rights and maliously falsed accused and charged me to get protection orders to keep my from my children which all three are allowed to have visits with me together which is not happening and cps and the courts want to place my 12 yr old daughter [redacted] with her biological dad [redacted] who has a criminal record of selling drugs, drive by shootings, eluding police, has a bad temper and has abused me ii have the marks to prove this man beat me up for three yrs and abandon our daughter [redacted] for 9yrs and now that she is 12yrs old and not caring about her best interest and how traumatied she is in not wanting to know him or even go to into his custody. cps is forcing her to move and change custody all to him and to get rid of me so they can keep thier money. Please sir mr president please ii have all proof of documents to prove my nightmare of desperation to save my three children and to bring them back home to me thier mom ii did not commit those false allegations prosecution sir mr president. Please let me show u all proof that my words are true and help save my three kids please they are being abused and one is wanting to kill herself please she does not want to go with that man who never wanted her all three kids of mine want so badly to come home to mom me. Please please let me show u proof that cps and the courts have seriously failed their oath of due process and violating my kids and my rights and stole/kidnapped my three children all for cash and to lie about me to take my rights to my children away from me please sir mr president please hear my words they are truth just like all proof ii have to show please

Hi,

Read an article about your organization on the Epoch Times. It is sad how this world has taken advantage and profit off our children in this world, and how foster kids are targeted because they are less likely to be looked for if missing. I think it explains a lot about why the left ignores our border protection because a child or woman with no background records in our country will not be missed. I have no answer for this in the US as the system is corrupt and many politicians are involved in it.

I would however like to address the problem of foster kids who reach the age of 18 and are emancipated from the system. Not only are they a target for human trafficking, but for drug use, gangs, homelessness. I suggest we set up a program to where we provide them with life skills and job skills so that they can have hope of surviving in our great country. Perhaps offer job training, paid Junior College, housing if they stay in the program until finished, tax breaks for companies that participate, and counseling/mentorship in the area they are interested in. I know this won't work for everyone, but we need to resolve these issues and give these kids a hand and hope for a better life and a future.

Thank you

[redacted]

With all the human errors and overworked employees, I think the child should have a gps chip put in them like a dog or a cat. Have a system that logs them to and from home or school. Have an alarm go off whenever the child doesn't reach destination or goes outside designated area. Have chip taken out when they turn 18.

Thank you

[redacted]

This is my country! This my home!! I support the punished 4 protecting cause!! I'm tired of the abuse from family court and CPS!!! Illegal court orders and stealing children like mine with absolutely no evidence of abuse/neglect!!! Destroying families in our country.....I want my child returned so please please please do the right thing!!!! Bring

our babies home they are abused and trafficked by CPS!!!! 2 weeks ago they stole my 4 year old baby girl. I cry everyday and cry myself to sleep if I even do sleep!!! I'm in PAIN and DESPAIR!! I beg you please!!!

CPS and Corrupt court is destroying my family right now. 3 weeks ago they removed my 4 year old daughter illegally and even refuse to place her with immediate family and are keeping her in foster care. Attached is my affidavit and I apologize because it was scanned upside down and appears that way on screen. Because it is so urgent I just sent it on to you because I am unable to recant it at this time. Please please please help us. I am so scared and my baby is so scared crying to come home. I have the video of the illegal removal. The judge is allowing false evidence perjury and issuing illegal court orders. We are accused of outlandish things they cannot prove but we can totally prove they are lying and the judge is refusing our factual evidence as truth. They are separating me and my child father causing severe hardship on our finances purposely because we have to live in 2 separate places. Oh I beg you to help us quick.....I don't know what to do! Save our baby please!

[redacted]

In the adage of a cliff there is the options of a guard rail at top vs. an ambulance at the bottom. The risk of high damage or even death that may be unrecoverable at the bottom force the guard rail atop. Guard rail #1: enforcement and accountability for following proper protocol to even prevent children from getting to the cliff without a parent or next of kin. This raises the question of what investment or effort was exercised to ensure the child and biological parent/s relationship was encouraged and supported first and foremost? This is priority #1 that is both treated and financed in lip service if you are fortunate. #2 should then come into play only after #1 is exhausted first. Every protocol for a child removal from a biological parent/s situation should look hard for a next of kin that can maintain family care and identity. Both of these priorities in actual practiced are not just skipped over, but purposefully avoided. Why? Plain and simple is other actions, more akin to the ambulance at the bottom of the cliff are supported via funding and profits. Many have even been so bold to say that the children are actually first trafficked 'legally' by the governmental system before going over the second cliff to illegal trafficking. Or the first system exploiting the child for funding set the child up for the second. Consider that there are huge federal Grants and Title IV funding via ASFA to the 'Local Community' through the state totaling almost a \$trillion per year to skip priority #1 and #2! This is easily over a \$ trillion industry when you add in all the other public and private 'services' that exploit the child via the system. Services, public and private, that are dependant on children going over cliff one, so much so that hologram like guardrail is installed to bait children over the cliff in increasing numbers with no ability to ever return to normality. Profits drive trafficking, both legal first cliff and illegal second cliff. Lack of profits for strengthening biological parents and or supposed required next of kin priorities are feigned false store fronts of entrapment. Justice, DV, Best Interest of the child, GAL, Therapy and Phycology constructs, etc. Have all become hollow hollagrams to fool the general public while maximizing profit. Incentivised laws have usurped all other laws, rights and aggeceis as a means to their ends PERIOD. The only real fix is to urgently restore priority #1 and #2 by placing the funding as close to the parents or next of kind hands as possible without 'middle men's government agencies. And accountability for actual measurable Return on Investment (ROI) to replace current unaccountable systems that are rewarded for growing the number of problem children served i.e. making pseudo hollagram guardrails so local community can profit from ambulance below, and even buy more ambulances. An ounce of prevention is worth a \$ trillion in cure! To get fed funding school systems currently have protocall that must be met without fudging numbers i.e. accountable! This currently does not exist at all in the systems that are supposed to help children! Until the ambulance system is motivated to work itself out of a job the unconscionable consequences will be the second cliff of exploitation via illegal trafficking.

Anonymous

There truely needs an investigation across the Usa as requested during hearings back in April 2019. All sides in hearing agreed that there were many counties not following the federal family 1st act an needed to find away yo fix this issue. This week 10 foster kids killed by foster parents. Instead of being w family or w there iwn parents. I have seen dhs post pictures of children in systen on websites like a catalog. I have reporyed w full details to Doj.

The bio parents had to call taken them off this site. Taken down a few weeks later kids ba k on this catalog site.

I know for a fact 3 children case clised long ago nothing found on the 59th day of the 60 day gap just swooped in took kids again. Went to admin court after a certain master well thats another part but the judge in August said these kids need to be home by september 25th 2019. Still hasnt bappened. Change is needed. One day a family member or parent will be to afraid to speak out an our children will be lost or dead like these other foster care children dying by hands or neglect abused. Its happening to much. Theyll end up still being on this catalog an how much lining of these pockets of dhs will be lined. Several judges have already been fired in pa alone. In orehon a worker was caught on tape drugging the bio parents drink. How far is this going???

Anonymous

I can attest to the corruption in Michigan. See the article below.

[redacted]

[redacted]

MR.TRUMP .

I raised my greatgrand daughter from birth to three yrs old, cps came in and took her out of my house because of her mom being on drugs, who was not living with me and baby , but would come get her from time to time , take her places, .i took drug test and passed and the cps lady passed my home but later took the baby and signed her to other grand parents, which she did know them, every time i got to see her which wasnt often since Jan 2019 4 times for short periods, Baby cried for me and wanted to come home and wanted her bed, with tears in her eyes, for she was not allowed to cry if she did i was cut off competely, well i was the only mom she ever knew, this is the kind of stuff cps does , they took her with out court order also lied and said they had moms permission for me to take her for drugs test, The thing that worries me now is the stiff stipulations on her mom, with no education, has to have own place, job ,of course means a car , utilites, and now they say if she gets baby back after class after class, baby will be under cps until she is 18 yrs old this is like living in Russia,or Hilter, We need your help in closing down CPS AND FAMILY COURT, IF they get wind of this letter they may not let us have our baby back , i have cried ever since January 2019, im 79 soon will be 80 and may not live to see my baby again,.If you can change any of this , will be appreciated , esp in our lives until baby is 18 yrs old,she is a little over three now , Thank you so much for all the things you are doing for AMERICA , we are not alone in this battle, Thanks again [redacted]

[redacted]

I would like the National Advisory Committee on the Sex Trafficking of Children & Youth in the U.S. to consider following;

Human and Civil Rights violations occurring in courtrooms across the country, and the trafficking of children through those courts, are the number one human and civil rights issue of the last several generations, surpassing the suffrage movement and MLKs civil rights movement.

1. Social workers are incentivized to remove children from their parents.
 - a. Since social workers are incentivized in many states, this leads to children being removed based upon false and unsupported allegations.
2. State governments are incentivized though federal Title IV funding to remove children.
 - a. Since state government are incentivized, states enact legislation to facilitate removals such as;
 - i. Providing incentives for social workers
 - ii. Requiring training of doctors, nurses, teachers, dentists, etc. to recognize “signs” of child abuse such as small insignificant bruises.

- iii. Doctors, nurses, teachers, dentists, etc are required by state statute to report “signs” of child abuse.
- iv. Under state statute, Court ORDERS are no longer required for search and seizure, and parents homes are unlawfully and unconstitutionally inspected to contrive evidence of abuse or neglect.
- v. Doctors, nurses, etc. are encouraged to test pregnant mothers for drugs, and those tests are sometimes contrived to remove newborns.

1. Refusal by mothers to take drug tests causes removals.

3. Legal professionals are incentivized to engage in litigation regarding removals. As part of the litigation process, citizens are harassed in our courts, and the process is more about extorting parents for various “evaluations” and to pay attorney fees, often bankrupting them and causing them incredible financial and emotional devastation.

4. During the litigation process citizens are denied due process and denied trial by jury.

5. As a result of items 1 – 3 above, about 70% of children removed are wrongfully and unlawfully removed from loving parents.

6. A small percentage of those children removed are targeted for specifically for trafficking, or targeted for the purpose of vendetta by the social worker, teacher, or targeted by a doctor whose treatment protocol is disregarded

These incredible problems could not occur if due process were provided to the parents in termination of parental rights proceedings. In my opinion that is the heart of the problem and due process must be restored to our state and federal courts. As a result of my research, and to combat this problem, I filed the first Petition of Remonstrance since the year 1850 (see attached), received and recorded into the journals of both houses of the Tennessee General Assembly demanding reform of our corrupted legal system and judiciary.

I hope you will take time and read how to get to the root of this incredible problem.

[redacted]

Geetings to you Congressmen and Congresswomen,

I'd like you to know I'm a CVA trained and it's because of Child Protective Services I became a legally trained Advocate for Victims, see I survived being trafficked by the agency is why.

I've long stood in the open a long time exposing CPS issues of system gone rogue. Even had the help of former Senator [redacted] from G.A expose the issues.

Recently I've seen your article w Epoch Times and wanted you to know what I survived as a foster child the most horrific experiences a child should never experience under the best interest of child saying long used by Family Courts with agency named Child Protective Services.

I'm not a young child any longer but the scars have not left from my Child Foster Care experiences during being trafficked.

I as a Child even as a 54 year old adult today, have never unpacked completely boxes in any home I have been in. Not once have ever felt I belonged or should feel as such in any home.

It's been that way since I was 4 and can remember [redacted] home I was placed into by CPS (child protective services). I can tell you all about the play room etc from that placement exactly up to the only one I ever truly knew as family.

I can even remember my non English speaking foster family of Mexican decent I lived w so I could tend to their lil ones at age 9. Yes you read that correct and I have picture that shows it too.

37 placements I'd endure as a child. 37 times of never being that right child. Yes that leaves a imprint of dehumanizing agony in a child's heart I can say from first hand experience. Reality is that's all foster care is though right? An experiment by the government in a twisted hoax.

Can you imagine yourself as a child being placed 37 times? Probably not, but I can't imagine what its like to even be on the outside of a government funded blender as a child or adult after having survived so much turmoil by the agency I've grown to call, and I might add even media has done coverage claiming, unprotective services.

See I had instilled in me as a child by your gov funded parenting agency, I was only worth a check.

Rarely unless there was a reason did I see a SW. Saw lots of medical ppl. But rarely ever unless placed back in my family unit did I ever see one gov agent care enough to look inside where I was placed at.

Nothing's changed there for 20th century even or you'd not have so many [redacted] with [redacted] in this world hidden by the agency you call Child Protective Services.

At age 4 I wasn't the only child in the [redacted] home. I was afforded the chance just once in this placement by CPS to be with a sister. I think with truly feel from looking back at the situation that was done due gov experimenting on us for resilience purposes.

After that lil experiment I would always be the only child for a time the agency took from my family to place into the system.

Each home each time I was replaced back into mine, I became more in tune; I was just a slave to get a check from. Can still remember a foster mom [redacted] having said plain as day, "You better hope that check comes tomorrow. If not [redacted] is going to have to take you to JDC till it's straightened out."

37 times I was trafficked for Title 4 Funding but it was not just me as my bloodline would remain trafficked even after being a child, you see I see it as My congressmen and congresswoman Sold Me W Millions of Other Americans Out to the Highest Bidders known as the States Parenting System under CPS, how pathetic is that I ask you?

Growing up in CPS as a states child w state as my parent was worse than if I'd just been left alone to grow up within my own family unit. Hell just being a parent made life worse if you were one of the state's children. As we were are who keeps the revolving door moving. You know I'm correct in my statement to the government intrusions for millions of lives in the past 50 years. Even [redacted] fore told of this day forth coming to Congress, yet not one then listened to him.

By 15 as a foster child I was a RAPE SURVIVOR and CPS wanted that baby.

They wanted my baby not because I'd abused him. Nope it was needed I sign him away to CPS only to cover up with the honorable [redacted] help I'd been placed in a 9 time convicted sex offenders care and molested.

When I refused after my 38th placement to consent to give up child only then was I with my son placed with a aunt and uncle.

With that placement came a fight. My mother wanted us returned to her. Only because we now had two checks that made us valuable again. As my father had passed away and now not only was their a welfare check but social security attached to us now as well.

In that battle I would be married off to a total stranger and I had no adult skills let alone did I know what being a wife meant as a child now becoming a bride. After all I'd been through in my era as a Foster Child I was no longer viable if I wouldn't give up my baby. That awakened me to not having meaning or being seen as human by anyone including Washington D.C.

I went from being worth a check to being horrifically abused as a child mother and bride.

I'd been married off to hide everything and I'd still be a pawn to everyone involved.

My child stood no chance at being my child, actually none of three from 5 birthed did.

CPS would hound and hound me as a mother now in attempts to just get my boys.

Juvenile Case [redacted] would help them at CPS profit more off my bloodline. It's a revolving door for us as foster children becoming parents. We're already destined to being pre-labeled upon entry into the system and so are our children.

There's no doubt Congress and the systems creating dangerous situations or ruining children's lives via their state failed parenting known as Child Protective Services.

In all I lived through experienced from child to adult I had no clue our creator had such a journey laid out for me.

I never understood my being raped as a foster child had a lesson to teach from or meant I'd one day have a voice. I never knew, that one day long after the case I've sighted for you, I'd come to know exactly why I was holding protest on street side walks for making it harder on sexual deviants for residency even registering guidelines. I assure you I never knew I'd be standing in my own State Capitol or any other giving testimony on Bills needing to become Law for ones like me, the rape VICTIMS as SURVIVOR. Yet I did and still do.

I may have lost a lot as being a foster child, child bride, and child mother. However there's INE thing I never lost and that's my voice to fight for others.

My children would become pawns for Title 4 Funding. Not only would they but one would turn out to be exactly what I spent hours praying he wouldn't become, a sex offender.

Had the system left my children alone they'd have become different for men. I know this because my fourth son grew up me w his father raising him and not once had he nor does he now show himself to be as his state raised siblings are for adults.

Let me give you insight on this as my children's parent who does know best for my child/ren.

My [redacted] was raised to have courtesy to others by always using may I have or get this. He was taught to respect your elders and say yes sir yes ma'am. He definitely attended Catholic School, Mass, and Confession time. In his life time he never had a criminal case nor was involved with wrong crowds. He even joined the Army at 18. Not bad for my end as his mother who raised him, wouldn't you agree?

Now there's no doubt my [redacted] had challenges. He did because he had lots of losses due loss of his siblings. He lost having his family unit of siblings aunts uncle even grandma in my bloodline. Not so on his dad's side did he lose though. Still only having half of your life's bloodline, doesn't make a child whole either, that I can as mother assure you!

The three children the state would take from me under [redacted] turned out opposite of the one I reared.

They grew up to be totally opposite of what my [redacted] had been raised to be.

The state separated my boys. One would be placed with the [redacted]. The other two with the [redacted].

The [redacted] in adopting my son challenge was my child mentally was already broken after his step-father while I was at a grocery store scalded him half to death due he was angry I was 15 minutes late getting home and wanted to teach me a lesson. Yes I lived through this as did my baby. They would coddle my child due fear of discipline he needed. In their mind my son needed nothing but love and he would be just fine. In mine and never having met them I knew my child needed more than just a new mom w dad. I knew in my heart he'd fall through the cracks just as I had.

And he did. My victim child was now the state's convict child. All because the state parenting failed him with his family.

He's got a life to live as a sexual deviant because he wasn't given a chance to heal or have his true lineage. That's why creator set me on a path. Creator was preparing me for that moment I'd be standing in front of my thought being a reality, yes my son became his father's genetics, and none of mine. Imagine being a mother having to live with no know the best interest of child for state meant my child becoming his father that made him. Still think theft of children for profit off Title 4 Funding is pretty do you? I don't and I'll never except it as such either.

The other two well let me tell you didn't fair any better as foster children either. Each of them I see their father in and none of me. I hurt for my children not so much me or the loss anymore.

I know I can't change things for them or me as I once thought I could if they should return. The systems long erased me as any thing to my boys. Their outcomes in life tell me our family unit is forever lost as being one.

While one abandons his children with raises those he choses to from womanizing as his father loved to do. To the other losing a son from also being as father was, physically abusive to women, I know I must fight for my next generation from my bloodline and say to you, Enough is Enough you must stop the madness of states profiting and children being trafficked through a system broken.

It's time to put the money given CPS to better use than what it is used for when tearing families apart. It's time family before strangers was implemented and done so without complications of hoop jumping CPS does to keep child in system and not with family. That's the stuff honestly the foster parents need applied to them not a childs natural biological lineage.

It's time to say keep families intact if wanting funding.

It's time to put back what in the 80's was cut out that worked, home makers into lives of those facing children to be removed. It's time to apply common sense and know within all of government family before strangers is what in best interest of child/ren not strangers.

With Family First Act becoming law I see many states not wanting to implement it.

They don't want Family First or anything like it because it'd mean the bank on Title 4 D-E will close and the state won't have commodity to gain off of children such as it has my bloodline for centuries.

I'm a survivor of foster care telling you my story of horror. Telling you how of my children's horror. If your dead set on making a difference for this subject and lives you seek written about, consider this, what if you were me or the thousands of others just like me.

Could you sit back and say oh well then move on knowing you with your children had been enslaved by a unjust system even moment of time, and not stand up against it with voice on all levels? I doubt you could because I didn't.

Today I don't voice for just me and my children or even my grandchildren. I voice for ones just like us.

There's plenty of me's in this equation I stand up for seeking change of a broken system thriving off ones like myself.

You Congress don't know it but I stand beside these Families Destroyed by CPS in America like [redacted], [redacted], [redacted], [redacted], and [redacted]. These families are who I seek with need you to change the functioning of child protective (unprotective) services for. You can't fix the damages to my family done. However, you can fix the problems for those I've now mentioned in my writings to you.

You need as over sight to the issues now seeking voices on the issues from one's like me to instill some new venues.

Here's a few I'd like to see happen for child protective services:

1. An Accountability method such as a citizenry panel needs implemented. Not judges lawyers but real citizens should be the over sight committee. It should report to the county state and federal levels findings in a hearing before Congress.

2. Funding in regards to Title 4 D-E should only be given to Child Protective Services if it keeps family with bloodlines intact.

3. There should be no immunity for social workers or child protective services agencies let alone should guardian adlitems or judges have immunity where due judicial process is denied to those accused of child abuse but not charged as should be under the color of law they practice within. Thus you'll need to implement a means for venues to fix this epidemic happening to the American Families and they are as follows:

- A. Real charges of crime involving abuse neglect and dependency of child need brought forth before ANY removal of a child takes place legally on a national scale. As well as Jury Trials are a must with need implemented if child/ren are to be removed from any home in this nation for the court handing out that exparte of a child from its home to Child Protective services.

- B. All closed courts deemed Family or Juvenile need ended as a closed court if such court is to function as a court. There must be implementation such as municipal even common pleas functions under if checks and balance are to be seen by those the court serves.

- C. Courts of this nature dealing with removal of children will need told that just words alone claiming what's in RC's for states as a law without a trial or charges forth coming isn't going to just cut it within the court system under the hear say rule being ignored and used for removal of children. No other court functions on hearsay therefore neither should the juvenile courts function in such a fashion.

- D. Congress will need to create laws that protect the American Family with Children Rights being violated to meet the requirements afforded within our constitution of due judicial process.

- E. If children upon removal fall under the kinship law or even if don't need removed due risks not that high then they (Children) need immediately placed without hindrance inside their family lineage they've always known and the agency of children services needs to implement a home maker to help change the situation for a better outcome when a child/ren isn't removed. That program in the 80's worked but was cut due states couldn't get Title 4 D-E funding in high quantity if not removing children.

Footnote: [redacted] even stated that to be the case within W.V media in an interview. I found it to be deplorable for a statement in regards to why millions of children with families suffered was due greed of a state and it's agents. I also found it at the same to be validation I'd stood on this principle and it was now told I was correct.

You Congress need to change that.

I believe We The People should be given a hearing on a Congressional level. I believe the victims like myself deserve OUR Congress to hear us. Problem is you won't give me or those needing a hearing the opportunity to be heard that invite. Or will you?

Thank you for your time as I know your busy and have many things of importance in politics going on beside this one issue. I appreciate your time and only ask that I get a reply back you've read my letter. I also pray with hope you'll give invite to a hearing that's much needed on the issues of children protective services for this issue.

[redacted]

My name is [redacted], I am a former ward of the state of Iowa. I became part of the system on the day of my birth. I was sexually abused from infancy. At age 6 I was finally removed from my mothers care. Went to live with family. At age 13 i was raped by a detention center social worker, in foster care i was recorded in the bedroom, bathroom and shower facilities and they uploaded the videos to the web. I wound up in group home care just after my 14th birthday. I reported my social worker. I worked the program and successfully completed it, took all the mind control meds without argument, had no choice but to allow them to implant me with birth control and after that was sent to the Iowa juvenile home for a 90 day evaluation, I spent 4 years locked up only to later learn that the rapey social worker was the final recommendation in my case. I aged out of the system at 18. I was ritually sexually abused and groomed as a child on the black hawk armory base in Waterloo iowa. I was shown the body of a dead girl at age 5 who I believe to be a victim of a cold case by the name of [redacted]. [redacted] family were friends of our family and the evansdale cousins lyric and [redacted] I believe were killed by the same people that operated in Waterloo in the 80's- 90's. My father was a paperboy in the 70's and claims to have been raped by [redacted] during his route. That is more random and I cannot confirm his story but [redacted]did reside in Waterloo and was on my fathers paper route. I have tried everything to get the paperwork from social services and the group homes but hit dead ends, finally they informed me all records were destroyed conveniently. They told me the name of my detention center rapist is confidential and I have since read the law prohibits me from ever seeking justice or attempting to file suit against the social worker as well as the group home that covered up his crime as mandatory reporters. I have repeated my story ad nauseam to anyone who will listen. For this, I have been targeted. I have had several instances of being investigated by DHS. I was founded for neglect and abuse under fabricated evidence, I did appeal for 2 years to the Iowa state supreme court representing myself as counsel and won my case against Iowa. I have been targeted since by the IRS and child support from the florida dept of revenue has been cut and they are not collecting the amount owed or due making it very hard to cover [redacted]. I have a disabled son and the SSI is what pays the rent and mortgage but beyond that many instances of strange happenings have taken place such as being denied benefits I qualify for. There is entirely too much to go into detail at this time. I have only my own experiences to go by. Technically, I should be dead but only by the grace of God am I here. I have watched others I came up with in group homes fall into drugs, depression, end up in prison or worse dead. I am a walking statistic that checks a multitude of boxes where I have been disadvantaged but I am thankful for my experiences because I now support others who have survived similar circumstances. I am willing and able to go on record, testify in any venue in any capacity. I have no fear or shame what was done to me, it is not about revenge, I have since forgiven my perpetrators, that said, there are so many still byproducts of a curropt system that are faltering. I am only one voice but I add it to a collective, I speak for myself, but more for those who have been forever silenced. I pray this email finds someone who will see it and take it in. So many have had it so much worse than I, so I understand if this isn't what you are aiming for. Just know that I am willing to do the right thing no matter the cost to myself. Thank you for your time. If you have any question, want details please feel free to contact me at your convenience.

[redacted]

I support the Child Trafficking Briefing and the Congressional affidavits. To start both I and my wife were severely set up by Cps and the Foster Parents who have our three children [redacted],[redacted],and [redacted]. Along with Wayne

Elementary School here in Wayne WV where we reside. The teacher [redacted] helped in the Cps set up. The Social Workers involved were [redacted] and [redacted] and [redacted]. Stealing our children wasn't enough so they went to even drastic extreme measures. We have an older child who aged out of Foster Care and a baby boy as well three months old now [redacted] who was also taken away from us. We need immediate help thank you so much for your time. Sincerely, [redacted]

[redacted]

I don't know for sure if they still do this however when i was a teenager at saint judes ranch for children in Boulder City Nevada they used to get requests from the Detroit auto show every year for kids. They only took the best looking kids behavior and other typical reasons to earn a trip didn't matter. I had a girlfriend she and her little brother were chose to attend. When she came back she was acting very strange and was very depressed. Finally after weeks she told me she and her brother and the other kids were all raped by the rich people who attended the show. Investigate the Detroit auto show. Also i have been hearing a lot of talk about children being held under the getty museum in Los Angeles. For child sex trafficking. You must see if there is any truth to this because its making noise on the net. Thank you. I hate pedophiles I wish the law stated to execute them.

[redacted]

To whom it may concern,

Ny is a cesspool of trafficking filtering child from fit parents to the sex trade, facilitated by family court, corrupt judges, clerks and all related services. 2004 [redacted] on vacation [redacted] caselaw prohibits children witnessing domestic violence from being removed yet that is the only reason a "case" was opened for my daughters. As well as a second case I know of currently open on the same unlawful grounds. Wyoming county is aware as I have alerted the board of supervisors including attorney [redacted] ocfs OTDA hhs ss and scr among others. All agencies are intertwined with corruption and stipends keeping all hands dirty. My number. Is [redacted]

Both cases previously referenced were non removals tho same county I know of several cases where children were removed and placed outside the home. I have fifty pounds of proof

[redacted]

Got all info on kids4cash if trump wants it foreign affairs DOD vs HHS and HHS I got the 2 cases that committed treason commerce clause in Mississippi vs DC

[redacted]

Our son is still nonverbal after being brutalized by CPS, so called medical professionals, and the foster care system. From the fake judge to the agency's coercion, we never had any recourse. And since this happened Hawaii, we also had no recourse in district court due to the corruption between state and federal actors.

Our case is well documented from recordings to court transcripts (which were altered at times).

I really hope someone takes a look at the system of torture otherwise known as CPS. Those who spoke out in the past are now silent or deceased. If only our son could speak out.

[redacted]

me:

[redacted]

[redacted]

Hello,

let me introduce myself. My name is [redacted]. I grew up in your criminal child protective services organization in LA California during the years of 1977 through 1991.

I was kidnapped from my father under false allegations on October 7, 1977 by a [redacted]. Her allegation was that my father supposedly raped me.

I was then sent to a foster home where I was brutally raped by a 12-year-old boy and I had to go to the hospital to have my female parts surgically repaired and guess who got the bill? My father! He took this evidence to the judge, who did not care! The judge gagged and sanctioned my father and moved me to a worse place, Children's Village in Beaumont California, where I was brutally raped for another four years. My father had no criminal charges and there was no proof that my father did any awful thing to me. My rapes began while foster care. The social workers took it upon themselves to kidnap me from my father, lie, and sell me to child traffickers and pornographers who not only practiced Satanism but used me in ritual, the satanic abuse.

Not only was I raped in this place. I was sold to other people along with 40 other children. They used us for satanic ritual abuse and child pornography. They made us do nasty things with animals. They did horrific things to us and yet nobody seems to care. Nobody cared then and nobody cares now!

At seven they deemed to be adoptable and so I was moved to a foster home where my behavior at this point was out of control. They had neglected to tell the [redacted] that I had been raped for four years and so they gave me up after year.

I then was moved to another foster home. [redacted] had no idea what she'd gotten herself into at this point. I was unmanageable but yet she still adopted me because she loved me but when I disclosed the abuse to her at children's Village, Guess what happened then? They kidnapped me from my foster mom and sent me to the mental hospital where they tied me down to beds and shot needles in my ass full of dangerous psychotropic drugs. They used to lock me in a room by myself for hours at a time with nothing in it but a bed to tie me down to.

After I finally got out of that place, I went to McLaren Hall in LA California, a very dangerous place for kids. It is a warehouse full of kids, languishing, until they can find homes or placements for them. Most of these kids were not abused by their families. Most of these kids were abused in a foster home or a group home.

Finally, I left McLaren Hall and I went to a group home and then after that group, went to another group home and then after that group, went to another group home. Then after that group, went to another group. Finally, I did something really stupid and I landed myself in juvenile hall. This is where I was able to ask the judge to emancipate me when I turned 16. He agreed and after I turned 16 I was emancipated to the streets.

That year, I emancipated from the system. I found a boyfriend I found my family. I had a baby and I moved out of state of California. I found out every single lie that my social workers told me about my father's was a lie. I found out that my mother was trying to get me back, but they refused to let her have me. I found out everything they told my foster mom was a lie as well. I hope that social worker is brought to prison and rots in hell for the things that she's done to my family

I found out every single thing that the system told my family was a lie. They told my father that I was dead. What is sick evil system it is. The people who run the system are the sickest on the planet. Anyone that can break the child and steal them from their family and adopt them out while lying, cheating and stealing these child's innocence, alienating them from everyone who is ever loved them, including their extended family home. The system keeps these children from. You will love grandparents or extended family to have these children because they want to make money, so they adopted out to someone else.

These evil pigs deserve the deepest darkest prison that there is. There is no doubt that families need help sometimes. But the system that we have today is a disgusting representation of any kind of help a family would get. The system is not about helping families. Its is about making money.

There are plenty of advocates, former foster children, former attorneys, current attorneys, former foster parents, current foster parents, judges, social workers, ex-social workers that believe that the system is corrupted from the ground up. And why won't you listen to us??? The survivors. I have only been screaming about my story for 40 years. The system is disgusting and it needs to be abolished. There is no doubt that there are families that need help and that people that hurt their children. But if the system only helps those children there would be only 1/3 of the children in the system. The back door money that's being created by adoption trafficking, Oregon trafficking, abortion, sex trafficking, medical trafficking, and a host of other evil things is sick and we are going to put an end to it.

I have to tell you if any one of these evil people were to take my child you would have to lock me up for the rest of my life because I would not rest until I found my child. I would not rest until I put that evil pig where it belongs. I would not rest until my child was safely back in my arms and do you think that us Americans are so stupid is to allow these people to continue doing what they're doing??? Absolutely not!!!!!!

If you think I'm furious....wait until these children grow up. Look at our country today is an absolute mess!!!! Thousands upon thousands of families and children are ruined because of criminals that run social services. It's going to be 100 times worse. Coming up, these children are bad. They're tired of being lied to, drugged up, locked up. They're tired of being stolen from their families and their parents are mad. Everybody's pist off and you know deserve the electric chair???...It's these criminals. They deserve prison. They deserve the electric chair. They deserve every evil thing that comes to them but yet the United States of America protects them with immunity While they are happily making crimes against children and their families.

I know people that you give testimony. There are thousands upon thousands of stories. The evidence is clear and has been for a long time. These social workers sell these children to whoever pays the most. These adoption agencies are making so much back door money on these children. They are private agencies. Not only getting federal dollars, ,but getting dollars from the underground to sell these children and the child sex trafficking, adoption trafficking, the medical trafficking and so much more. If you really want to do what's right, you will investigate every single state and do something to stop this today. Otherwise, anything short of that. You're not doing anything to help because these criminals will continue doing what they do unabated.

These criminals steal children from their families with the help of judges, attorneys that work for the states, guardian ad litem's and GALS -both of which have no training whatsoever in the legal field or in the area of child protective services other than a six hour course that they take and they follow the direction of the criminal social worker on almost every case.

The judge should not be listening to uneducated monkeys making decisions, life altering decisions for children.... on false allegations no proof needed. Just somebody's word. Even in criminal court. there must be a trial. When will you people wake up and realize that this is been going on for a very long time unabated. It will continue to go on if you don't do something. There is no fix here other than to change the laws where the social workers will not be able to steal people's children on false allegations. In many of these cases there is no criminal charges against the parents. Yet the children are stolen from the family sold to someone else with their parental rights terminated. The cash is flowing. You can bet that.

I have another person that would like to bring to your attention too. Her name is [redacted] a US Georgia Senate member who brought up a report against criminal CPS for child sex trafficking and adoption trafficking. She was a hero. She spoke out against criminal CPS which is a very strong agency that will do anything to continue doing what it's doing. They murdered her in her home in the summer of 2010 and called it a murder suicide with her husband. Now I know some of the people that knew her and they told me that she would never have been killed by her husband because they were in this together, they were Christians and they loved their community. She was about to introduce a law 410 that would have changed the incentives for criminal CPS and it disappeared from her home along with the report against criminal CPS.

Recently another Senate member also died by suspicious circumstances in the state of Arkansas .

"A former Arkansas state senator, [redacted] was found murdered in her home last week in Pocahontas, Arkansas. According to reports, [redacted] was closing in on a child trafficking ring which was being run by the Arkansas government."

So you can see the anybody that tries to come against his criminals. Either end up dead were excommunicated from the community.

The only reason I survived is because I have God. He saved me is to expose, criminal CPS and my mission on this earth is to expose and dispose of criminal CPS. Call me crazy, but I'm a tell you this, I will not rest until this system is brought to its knees and every single person involved goes to prison for their involvement in adoption and child sex trafficking schemes against children and their families. This is not a joke. These children will be back, and they will be taking out their pain and suffering on society. They may not be lucky like me because I was saved by God. They may come back with an automatic shotgun because this is the mindset that they will have. So you either do something about these criminals or we will. If criminal CPS doesn't destroy America than these children may because they are going to be so angry they will do anything to get back at the criminals that did this to them and mark my words, it is not going to be pretty. And we as a society will deserve it because we did nothing to stop them from hurting these children.

So you fancy-pansy suits can sit up there all day pretending to do something, but if you don't do something for real, it's on your head. You are just as much a criminal as they are because you know that this is going on, the evidence and the research is there but you're not doing nothing to stop it. And that is criminal. I speak for us survivors. I speak for the families. And I promise you this, we will not give up.

Anonymous

End cps cps is the number one people behind child trafficking

My kids who were 1&3 at the time were forced adopted by two gay men.after there adoption I was sent to live with a wanna be thug who sold me for drugs in slc utah when I been a resident of ny my entire life till ending up in foster care then exiting foster care

[redacted]

sir my name is [redacted] on or about sept 2018 my son was placed in jail by his wife of 16 years and step daughter on false allocations and lies claiming my son had beat his 2 year old son who is now 15 so bad he stop breathing for 45 minutes in which cause that child would be a true miracle of god she also claim she was a prison for 15 years and other things the dcs came to the home took my son and my grandchildren from him he has never been in trouble with the law never did drugs he was a poor farmer. he took his kids to reg. doctor appt.s that did well in school done of the charges was even investigated as they claimed they took the would of a mental housewife and a bipolar child who tied her 8 year old autism brother of and gag him and beaten him with a friend she had over my son loved her he reported and this and to the doctor but he did not want to press chareges on the step daughter. my son was put in jail for 8 months scraped up 15 thousand dollars for a lawyer to didnt try to get the proof for my son my son took a plea on the step child he didnt do nothing he just wanted out of jail mean while dcs had a no contact order put on me and i live in indiana they found out the chrilden mother is a nut cause way back in feb 2018 and stopped her from seeing the kids in which im talking about 6 kids in all but yet i have countless messages stating from his wife she just wanted to sue the state of tenn. as of this day Oct 2019 no body has seen or heard from the kids sumner county gallatin tenn. my son [redacted]. my name is [redacted] there is so many things wrong in this case and my son need help he loves his kids even his step daughter. please help the people of american this is the worse crime ever to be happening the stealing of the american peoples kids save our children. i cant help i was told that grandparents have no rights.

[redacted]

As the former General Counsel of the Illinois Department of Children and Family Services and former General Counsel at the National Center for Missing and Exploited Children (NCMEC), I have a wide range of experience regarding the exploitation of children in foster care as sex trafficking victims.

At my direction, the first federal prosecution of sex traffickers involving children from the Illinois foster care system occurred around 2004-5 in Chicago. The nature of this highly complex investigation and prosecution highlighted the flaws and serious gaps in the child welfare system. The defendants were indicted by a federal grand jury, went to trial and were convicted. However, there seems to be little interest at the state and federal level to prosecute these cases. Because of the extraordinary commitment of a Chicago FBI agent, Asst. U.S Attorney and Illinois DCFS, this prosecution brought significant prison time to these traffickers. Most notably, the federal investigation uncovered that the defendants sexually trafficked these Chicago foster girls out of the U.S. on a number of occasions.

I would strongly urge that federal HHS regulations require all state and county child welfare delivery systems immediately establish:

1. A missing foster care child unit embedded in every child foster care system. The missing children unit must include a missing foster children database, which requires caseworkers to enter information on missing children in real time. This unit should employ ex law enforcement, rather than social workers to investigate and recover missing wards.
2. Update and modernize SACWIS to trigger alerts and proactive investigative techniques when a child in foster care goes missing.
3. Require all DCFS caseworkers to immediately notify law enforcement and NCMEC when a foster child goes missing.
4. Train all DCFS caseworkers when an AMBER alert is appropriate for an endangered runaway.
5. Many "ERU" are not runaways, but abducted foster children, unintentionally lured into sex trafficking.
6. Proactive media campaigns for missing foster children.
7. Every state should create and operationalize a Missing Child Task Force that includes local, state, and federal law enforcement, social service agencies and non profits. This task force should be organized to locate, investigate and charge known trafficking rings. This requires intensive man hours on the street to identify traffickers, their area of operation, and the trafficking victims. In Chicago, there is a highly organized structure of organized street gangs operating as sex traffickers, as well as single traffickers procuring victims. Additionally, our investigation uncovered that most traffickers were familiar with the location of DCFS group homes. The traffickers would case out these neighborhoods and group homes, looking for foster children on the run. These children were easily identifiable and manipulated by these criminals. The traffickers would offer rides to the foster children and then would immediately engage them into a sex trafficking ring. The children would be held captives, as literal sex slaves, with drugs and unimaginable violence. The victims also disclosed that they were victims of child pornography, as their traffickers almost immediately upon their capture started filming them.
8. NCMEC needs to greatly improve its response, attention, and resources for missing foster care children. There needs to be better coordination between the states and NCMEC to ensure that the investigative resources used for parental abduction are also provided to endangered runaways, and missing foster children. Media attention, poster distribution, and response time is woefully inadequate. Statistically, the vast number of missing children are runaways yet very few resources are dedicated to these children, as a category of missing children.

These are my general observations and comments based decades long supervisory experience in missing and exploited children. Additionally, there needs to be more safeguards, more stringent background checks on potential foster parents. The quality of foster parenting remains pathetically substandard and prone to attracting individuals who physically and sexually abuse their foster children. Foster care children are the highest category of children susceptible to human trafficking. These children repeatedly and historically rank on the bottom rung of the social services ladder.

Even the language employed surrounding these children reflects the lack of care, respect and attention to their vulnerability and exploitation. The system dismisses them as “runners” or “prostitutes” and seldom intervenes in their lives with meaningful services and interventions.

Here is a very recent article about Illinois foster parents who were abusing their foster children which highlights my ongoing concern for safe and high quality foster parents:

[redacted]

**Additionally, I would strongly urge you to review the Chapin Hall research that was commissioned by Illinois DCFS when I was General Counsel there. Although somewhat dated this study still resonates and provides a street level view of the problem of missing children from foster care.

[redacted]

There is little interest and/or resources to track, look for, and recover runaway children from foster care. As a result, there is very little information and data regarding the breadth and depth of sex trafficking in the U.S.

Many of these wards end up in human trafficking rings. They are lost forever in an underground world of unimaginable abuse and exploitation.

Thank you for your serious attention to this request. If you want further information, I would encourage you to contact me at the phone number below.

Best regards,

[redacted]

My name is [redacted] I have been fighting for my Children for over 26yrs.(since 1993)..I have submitted my File to Attorney General of the State of Minnesota, Same File I submitted to Minneapolis FBI Agent [redacted] n Agent [redacted] in Feb 2009-- Admitted to me and my siblings..the Saint Louis County Stole my Children And Frauding my Name of Child Abuse.And again Frauding my name again on May 21st,2007...Recently,I have submitted Same File to Saint Louis County Sheriff's Office in Hibbing,Minnesota,on September 24th 2019..I'm still Awaiting a Response but I've run out of Depts and Offices to Please Help me Protect my Children that are Falsley taking from me By Health and Human Social services Depatment.3 Counties are Involved in taking my Children based on what The CPS of Saint Louis County states to CHIPPS COURT..and Itasca County Court..I can Prove Fraud on 5 Children n again in may 2007..I suffer from P.T.S.D .. Due to the Loss of my Babies...Children and Families are Indded Not Safe and Laws are Not being Upheld...Please Please...I'm not very smart with the internet but If,You Sir,have An Address I May Submit my File to...I will send you What I been holding onto for many years..I can prove with actual factual documents showing fraud and Minnesota Federal Law had been Violated-Under the Minnesota Maltreatment and Reporting Act.Failing To Report/Protect..Illegal Kidnapping and Adoption...where my childs sexual assault was NEVER Reported and in fact Covered up by the Parties Involved...I'm on SSI...and I need Help Please!!! On my oldest Child [redacted] - Adopted out ([redacted] adopted Name)..and wher they are NOW...taking her Children has 3 away from her Care and two children at home..And History is Repeating itself on Children being Taking by State of

Minnesota..and their Affiliates....Please...Send me An Address and, or if you have The President of UNITED STATES Address,where he would Definitely Recieve my File..PLEASE SEND ME ADDRESS so I can Prove my Innocence and

Have The RIGHT to Protect my Children and Myself...My Apologies to you for not knowing how to go bout this...You can Reach me thru my Gmail and You may reach me at (message Number) cell number: [redacted]. I AM SCARED, for my youngest 2 Children that have been in F.Care..there my 2 children left outta 5 they Stolen that are still Minors..10- 14 ages..

Thank You for Listening and for Your Time and Patience..If You have Any Information Please let me know..Thank You. A Concerned Mother For Her Children

[redacted]

I have thought about writing someone for a long time and was not sure who I needed to contact. I knew there were foster care but did not realize that children were aged out of the system when they were 18 years old until about 3 years ago. The Church I went to had built a home for some of these children.

This is what I have found out since that time:

1. Most foster parents are only doing it for the money.
2. Most foster children are not taught any skills to help them live when they age out of system
3. Most facilities built for children that are aged out of the system are for boys not girls.
4. Most girls that are aged out of system end up pregnant.
5. Most foster children have never had birthday parties or recognized for their accomplishments.

My daughter started working with these children. It is a shame most don't understand the basics of living.

I know there was a problem with orphanages in the past. Even though I am 76, I am sure there was a reason for doing away with orphanages years ago and the foster system was started. The problem with the foster system is there is not enough people to supervise the foster parents. We have put these children in homes with out providing the follow up to insure the parents are fulfilling their duties.

There is a home in Brookshire, Texas called Brookwood. This is a home for mentally and physical challenged people. They go to school they teach them a skill, they work and get paid. They can live there at a cost or they can come on a daily basis. The people are so proud of their jobs and don't want to go on vacation because they have a job to do. They sell beautiful pottery and are the biggest grower of poinsettias. It is a wonderful Christian place. Why can't we do something like this for foster children. I think something like this would be helpful not only to these children but also would help the human trafficking. This might not be the answer but we need to do something to help these children get prepared to live on their own. Maybe we could set up programs to do this and require foster parents to get the foster children to the programs or they will be fined or something.

Thank you for listening.

[redacted]

My name is [redacted] from Utah. I have been fighting for the eradication of CPS and for the Rights of Parents and Children at the Utah State Capitol for 20 years.

I am the 1st woman in history to have a Legislatove Audit on a single CPS case. I have met with 2 Governor's, 2 Attorney's General and 2 Lt Governor's all the way down to CPS/ DCFS Personnel. My 2 youngest children were kidnapped from me by a CPS/ DCFS Caseworker, [redacted]. He did not have a Court Order, Emwrgency or

Warrant to take my Son, [redacted], who was a 7 yr old Juvenile Diabetic at the time. My Son had NEVER GONE INTO THE HOSPITAL OR INSULIN SHOCK IN MY CARE. I WAS METICULOUS ABOUT HIS J-DIABETES Aand spent a week up at Primary Children's Hospital when he was diagnosed at 11 Months. I then came home and taught his 2 older Brothers- [redacted] and [redacted] how to take care of him as well. [redacted] was kidnapped from our family on September 28,

2000. We were at my best friend's house- her Son [redacted] was best friends with my Son's and we were family. The DCFS/ CPS Caseworker threatened ALL OF US WITH JAIL TIME IF WE DIDN'T " HAND HIM OVER". He drove around with my Son for an hour and 45 minutes because he didn't know what to do with him. Years later I found out (and I have the evidence to prove it) that the DCFS Caseworker, [redacted] " TOOK THE WRONG [redacted]". He was supposed to take another [redacted] whose Parents were both in JAIL. The State of Utah and it's Corrupt Government spent the next 20 years keeping me from getting Justice for my Son and my 2 year old blond haired Beautiful Daughter, [redacted].

When the Assistant Attorney General, [redacted], found out I had a beautiful daughter- He himself waited for the Judge to get off the bench after a hearing to keep [redacted] in Custody (He had Juvenile Diabetes which gives the State MORE MONEY. because he was a Special Needs Child), Ordered my daughter to be taken from me because he told me " She's Marketable"! AAG [redacted] has kept my children from me for many years. I still have not seen my daughter, [redacted], since she was 2 yrs old. I believe and have heard that she was adopted by one of [redacted] Relatives. I have reached out to her on FB to no avail.

[redacted] was later adopted by the Doctor wh had alleged Medical Neglect on me because she needed a " Lab Rat" for her new insulin ! She was the one who made the initial DCFS referral to CPS. [redacted] and I had never MET her, she had never EXAMINED HIM before she made the referral to CPS.[redacted] longtime Diabetes Doctor, [redacted], broke his hip and had to retire.

From that point on my entire family has gone through HELL. The 2nd day [redacted] went into custody he was raped in Foster care and Sexually Abused - for a year. I did not find that out til I could see him and he told me, he was 18 yrs old when I found out.The Doctor who alledged Medical Neglect on me ended up adopting my Son, [redacted], and taking him to Houston, Texas. My Son, told her he wanted to go home to me and she put him in a Mental Institution in Houston- he was 10 yrs old.

There have been soooo many laws have been broken on this case- this Corrupt State leaders HAD to keep my children from me because they couldn't give the "Appearance of ANY WRONGDOING-GIVING THEM BACK TO ME WOULD SHOW THEY WERE WRONG IN TAKING THEM !! I FPUGHT ALL THE WAY TO THE TOP OF ITAH GOVERMENT TO GETY CHILDREN BACK TO NO AVAIL. For a Mothwr who had taken care of her Son's Juvenile diabetes since he was 11 months old with the disease and a STRANGER KIDNAPS HIM AND MY 2 YR OLD DAUGHTER IS THE MOST CRUEL AND HEINOUS THING TO HAVE HAPPEN TO A PARENT/ FAMILY.

I have a few suggestions for you and for President Trump:

- 1) Eradicate CPS- just abolish it. It has a bad reputation anyway.
- 2) Stop giving money to the States due to [redacted]'s Child Sex Trafficking/ Child Kidnapping- Adoption and Safe Family's Act of 1997. The State's don't need to have Family's DESTROYED !! I called the White House and Trump's Campaign and stated, " President Trump can't make America Great Again without" Eradicating CPS First". Family's have to get their children back and the money States have been given to kidnap children- can make family's WHOLE AGAIN. LET DCFS, DCF, ACF WORK WITH FAMILIES WHO NEED HELP AND SUPPORT LIKE THEY WERE INTENDED TO DO IN THE FIRST PLACE !! NO CPS !! GET RID OF IT AND ABOLISH AND STRIKE [redacted]'S ADOPTION AND SAFE FAMILY'S ACT OUT OF THE BOOKS! SO TO SPEAK. SHE IS EVIL.

- 3) Have the State Actor's and Corrupt Politician's in EACH STATE WHO WERE INVOLVED IN THE ILLEGAL KIDNAPPING OF CHILDREN BE TRIED AND GO TO PRISON. CORRUPT JUDGES, CASEWORKERS, AAG'S - EVERYONE INVOLVED WHO COLLUDED AND CONSPIRED AGAINST PARENTS WHO FOUGHT TO GET THEIR CHILDREN BACK. I WAS JAILED (FOR 48 DAYS) BY AAG [redacted] FOR NO REASON EXCEPT FOR THE FACT THAT I WAS FIGHTING HIM FOR MY CHILDREN. MY HOUSE WAS BLOWN UP THE DAY BEFORE I WAS TO MEET WITH THE HEADS OF STATE. MY HOUSE BLEW 4 FEET OF IT'S FOUNDATION AND THE MIDVALE FIRE INVESTIGATOR FPUND C4 UNDER MY HOME. MY HOUSE ACTUALLY IMPOLODED.

I WENT TO THE MEETING THE NEXT DAY WITH GLASS CUTS AND BRUISES. IF I HADN'T HAVE GOTTEN OUT OF THE HOUSE- I WOULD HAVE DIED.

.4) Parent's are often " PUNISHED" for trying to PROTECT THEIR CHILDREN AND FIGHTING THE CORRUPT STATES TO GET THEM BACK.

5) AS USUAL " FOLLOW THE MONEY". IF WE ELIMINATE CPS AND STOP THE MONEY AND CORRUPTION- WE WILL HAVE BETTER GOVERNMENT AND HAPPY AMERICAN'S. "AMERICA WILL BE GREAT AGAIN". WE HAVE TO STOP THE DESTRUCTION OF FAMILIES- FORST- IN ALL STATES. IT STARTS WITH THE ABOLISHMENT OF CPS.

I HAVE ALOT OF GREAT PEOPLE I NETWORK AND AM FRIENDS WITH THAT HAVE GREAT IDEAS AND STRENGTH AS I DO(IN FACT ALOT OF PEOPLE ARE GENUINELY AMAZED THAT I AM STILL ALIVE AFTER I HAVE BEEN BATTERED BY THIS CORRUPT. STATE GOVERNMENT.

6) HAVE THE STATES SETTLE WITH PARENTS WHO HAVE HAD THEIR CHILDREN KIDNAPPED. THESE PARENTS HAVE LOST THEIR CHILDREN, THEIR HOMES, MARRIAGES, JOBS, ALOT HAVE LOST THEIR LIVES. FAMILY'S NEED TO BE RESTORED. CPS AND CORRUPT STATE OFFICIAL'S AND GOVERNMENT AGENCIES MAKE IT THEIR. " MISSION IN LIFE" TO DESTROY" THE NATURAL, BIOLOGICAL PARENTS OF CHILDREN WHO HAVE BEEN STOLEN FROM THEIR BIOLOGICAL PARENTS. THE BEST DREAM I HAVE EVER HAD IN MY LIFE WAS RETURNING CHILDREN TO THEIR BIOLOGICAL FAMILIES AND HANDING THEM A CHECK TO RESTORE THE ENTIRE FAMILY. WISFUL THINKING OF COURSE.

7) I BELIEVE PRESIDENT TRUMP TO BE A GOOD, HONEST, DEDICATED PRESIDENT THAT WILL DELIVER HIS AMERICAN FAMILIES FROM THE HELL THEY HAVE EXPERIENCED SINCE [redacted] COINED THE PHRASE, " IT TAKES A VILLAGE TO RAISE A CHILD" . DID IT TAKE A VILLAGE TO RAISE HER CHILD?? I DON'T KNOW ANY FAMILY WHO NEEDS OUTSIDE GOVERNMENT INTERFERENCE TO RAISE THEIR CHILD !!

LET'S TOGETHER STOP CPS, GET OUR AMERICAN CHILDREN BACK TO THE FAMILIES WHO LOVE THEM AND " MAKE AMERICA GREAT AGAIN".

PLEASE TELL THE PRESIDENT HE IS DOING AN AWESOME JOB AND ALOT OF US HERE IN UTAH SUPPORT HIM- ALL THE WAY AS LONG AS HE WANTS TO BE PRESIDENT !!

ALSO, NO IMPEACHMENT NECESSARY TOO MANY CORRUPT INDIVIDUALS IN DC.WE NEED TO GET RID OF CORRUPTION EVERYWHERE INCLUDING DC !!

U.S. Institute of Sciences

In Re: HUMAN TRAFFICKING HAPPENING IN OUR COURTS/ JURY ACCOUNTABILITY/ COURT-CORRUPTION / DUE PROCESS TASKFORCE-----U.S. LAW ENFORCEMENT/EDUCATORS/ PRESS: STOP THE THEFTS FROM AMERICAN CITIZENS, & ENFORCE OUR RIGHTS TO TRIAL BY JURY

Dear Honorable Law Enforcement Officers/ US Citizens,

I would like to bring your attention to the "Juryless Process Abuse Epidemic", that is currently plaguing our country, and unlawfully stripping away assets from some of our most vulnerable citizens/seniors/parents/divorcees/property-owners...a situation that we have become aware of---and seen the evidence. Too often "juryless" courts are being used as a tool to racketeer/steal assets from American hard working citizens & families, and intentionally wrongly award them to probate networks including "attorneys", "guardians", "fiduciaries", etc., via cooperating "probate/juryless judges", acting in contravention to law. These racketeering uses of our court facilities, "federally and state defined felonies" (of the corruption, obstruction, grand theft/embezzlement, jury, witness, & evidence tampering, etc. varieties), are immensely adding-to/creating the civil unrest, chaos, crime & debt rates on the streets....which in turn is endangering, harming, and KILLING

POLICE OFFICERS and the general citizenry alike, this very day. Just recently, then Attorney General [redacted] reported a 61% increase in police officers killed that very year...NOW IS THE TIME TO PROSECUTE!

I am of the great hope that you, from your position and dedication to support and defend the Constitution of the United States, and your personal stake herein, will take the necessary steps to ensure that these abuses are stopped and due process is in fact being provided and protected, including minimally:

1. Identify courts operating without juries in your area & jurisdiction, detailing those sitting without a jury in the courtroom, as well as those without sufficient jury review and oversight of "proposed findings" and litigant objections, etc.

2. Ensure that in your department, as well as on a state/federal level, that there is an adequate task force apprised and charged with identifying and prosecuting any/all illegal exploitation of juryless court facilities/functions, which would include the wrongful removals of proper grand/trial jury function and the facilitation/enabling of organized crime/wrongdoing, "court"/"attorney"/"bar" exploitation of litigants, assets, etc.; and personally ensuring that those findings are presented to the district grand jury for process, minimally

It has long been proven that Juryless Governance is a breeding ground for organized crime, racketeering, and crime in general---preventing the same being one of the main reason for the establishment of this country. As these are urgent matters that expand and exaggerate unnecessarily the crime and debt rates on our streets this very day, they are well within your authority and best interest to investigate and bring to justice. I look forward to your efforts in stopping these CRIMES & UNCONSTITUTIONAL activities, RESTORING PROPER GRAND/TRIAL JURY FUNCTION. As always, my staff and I are available to assist you in any way possible. Please stay safe as you protect our communities, and may God Bless you and the United States of America.

[redacted]

On November 29th I had a Child Protection Service come to my hotel room and said that she was here to talk to me and to see my daughter

she came with the police they came in search my room found nothing and left.

on December 2nd they tried to get a emergency removal to have my daughter removed and put into foster care and

well the judge denied it close the case

One Dec 10/18 Claremont police department sent out a report stating that the case is UNFOUNDED. And they told Dcfs over 4 times the case is closed.

But the ER WORKER didn't care she took it upond her self making up lies on a report about me saying i was arrested on 11/30/18 when i was not she made up a false drug test where it said i took one on Dec 17/18 when i never did i havent even spoke to her since she lefted on 11/29/18 when they left and said there was no case

Out of nowhere

on December 21th the case worker comes to my parents house banging on the door I open the door a they said they had a warrant to remove my daughter from my custody

The Er worker grabbed my daughter ripped her from my arms and ran with her to the car. the police told me that if I were to get involved I will be going to jail

They wouldn't leave her with family they told me they were not gonna allow anyone to take my daughter and that she was going to foster care and there isn't anything i can do about they would not tell me anything on why they removed her or anything about court let alone i couldn't even say i love you to my liltle girl they just left me in the

dark and on the floor griving and crying from the horror i just went thru of them kidnapping my little girl. I went to my first court date which was December 27th the judge relasesd my daughter back to me and said I was going to get my daughter back before 18th of January

well my daughter was never given back to me so then I go to court on January 18th to find out why my daughter wasn't back home i had a new judge she completely ignored me wouldn't listen to a word or give me a chance to show my evidence they told me I had no rights at all in the courtroom and I do not get my daughter back so now I am calling attorney after attorney after attorney getting information they asked me what my court case number was and said that I'm not in the system they asked me if I had paperwork I said yes so I start going through it I see that there's a police report so I called the police and I asked them if they had this police report they confirmed that they did not write a police report on me and they dropped it then finding out through an attorney that the 401 isnt a court room why am i even in there

The judge i see told me and my private attorney that she cant do anything that this is not in her hands and that dcfs can only make the decision on what will happen what i will do and when i can have my daughter back or not to this day ive showed everyone the paper work i had with all the lies and wrong doing the Cws workers have done and they all agree that i am right but ignore it and tell me i will have my daughter back in August and just wait they want to keep telling me its my fault and i need to find closer no i wont im a goood mom my daughter was alswys number 1 she has never been sick very healthy very smart we never watched tv i spent 1 on 1 time with her every day she was talking. We were never apart until dcfs took her and caused so much hurt pain in my life and left me feeling completely empty how how on earth could someone be so evil and do this to someone who was a preschool teacher pet groomer and loved her daughter more then life she is my lil mini me to peas in one pod

Please i need my baby and she needs her mommy she crys every time after i see her and i have to leave with out her every time i see her she runs to me and in my arms every night when i call her she gets so excited to hear my voice she screams with excitement and laughs kisses the phone and it hurts so bad not having her here please God gave me her to love and to cherish every moment and ive missed so much already she is growing up so fast and this time dcfs stole away from me i can never get back ever please take this serious and look at my point and see where im coming from make this awful nightmare stop and bring back my Angel God has giving me

i went to the passadena court house at 10:30am 4/8/19

They tried to help me but there wasn't much they could do since we aren't in the system at all i asked so dose that mean my daughter was indeed kidnapped by dcfs plz help me its been 5 months and it tears me apart I can't focus I sit in my room and I Cry and cry and every time my daughter sees me or talks to me on the phone she cries please bring my daughter home back to her loving mother where she belongs we are two peas in a pod and me and her have never been separated all up until [redacted] the emergency worker ripped my baby girl out of my arms and ran away with her with the help by the la Verne Police Department threatening me I'm going to go to jail saying that I am on probation when I'm not on probation and other threats that were made to me I was scared for my own life that day and they all run out the door as they step over me on the floor.. in tears crying begging for my daughter back ..

nobody would understand what I felt like and how violated as a US citizen could ever be violated I was treated like dirt in my own house I fear stepping outside into my own front yard because of how I have been treated by these police officers.

please help me

—

Good morning [redacted],

Thank you for contacting the Los Angeles County Fraud Hotline. We are in receipt of your complaint, which has been entered as Case [redacted].

You may check the status of your case by going to our website at www.fraud.lacounty.gov and selecting "Check Status." You will then need to enter your assigned case number. You may check to see if a case is open or closed. However, no specific details of any on-going investigation will be provided.

You may also submit supporting documentation by emailing the Hotline at fraud@auditor.lacounty.gov or by visiting our website at www.fraud.lacounty.gov and selecting "Add to Case". Please enter only the numeric portion of your case number.

Should you have any questions or concerns, please feel free to contact our Hotline at 1-800-544-6861.

Thank you in advance for your assistance.

Los Angeles County Fraud Hotline
500 West Temple Street, Suite 515
Los Angeles, CA 90012
Hotline Tel: 1-800-544-6861 | Fax: 213.633.0991
E-mail: fraud@auditor.lacounty.gov

Subject: Here r the names of the people

First. We got [redacted] she works for the Pomona and Children Services what she did is she came to my parents house after the case was unfound waited three weeks came knocking at the door ripped my one year old from my arms and took off running as the police held me down on the ground telling me I'm going to go to prison if I do anything

The second one is [redacted] AKA [redacted]

He is also works for Child Protection Services she has used my daughter as punishment against me for trying to seek help he has lied many times and guarding my daughter he has tried to remove my daughter from foster care and adopt her out he is also Italian the foster mom that she needs to take off my daughter's clothes and he sits there and stares at my daughter reminding you she's only one and I'm not okay with that I have lots of documentation on him from the abuse and the emotional abuse that he has done to me he tells me I'm not allowed to record him anymore and that I am not allowed to take pictures of my daughter let alone I'm not allowed to go to any doctors visits with my daughter the third one [redacted] she claims to be a supervisor and she is caught lying I'm not recording you numerous of times and trying to blame me 4 things and keeping my daughter from me and taking away my visits multiple times you could hear in the recordings I am in tears begging for my daughter number for the people that work at Edmonds Children's court one is [redacted] he is DCFS attorney she has sat there and lied with false allegations against me Falls drug screenings against me chill her name is [redacted] she is my daughter's attorney based on her she has lied multiple times crossed obligations and false drug test then the fake judge she is a biased I'm not in a real courtroom I'm in a kangaroo court and the judge was paid off by CPS to side with her I didn't get a fair share regarding my daughter and then when I put and my affidavit and open my record I found out they lied to me about my feelings they told me it was denied and it was pending for 4 months they tried to get me to withdraw my appeal by telling me that my appeal wasn't for my daughter it was for other things which I have proof I recorded the court hearing which way is August 9th when it changed and the judge claim to be a judge but then I recorded a previous one six months prior and you could totally tell the difference cuz she saying that she has no say and it's all up to CPS and she's downgrading me and not even letting me speak I offered to go into a drug rehab just to get my daughter back she denied me going when supposedly the case is because I'm a druggie I have given multiple negatives and my drug test and I have done everything I was supposed to and yet I still don't have my daughter the first judge I saw December 27th she returned my daughter back to my custody well she was never returned and I went show a different courtroom

with the so-called judge I was told I have no rights whatsoever in this courtroom and I will do whatever they told me I need to do no questions asked

[redacted]

One of the biggest challenges in training professionals whether healthcare, social workers, CPS workers, law enforcement, etc. is that the MAJORITY of people in the US do NOT believe sex/human trafficking (HT) actually happens and most of the Human Trafficking Awareness training that exists only provides 1-2 victim stories. The only way to change people's attitudes and actions towards HT victims is to share many real life stories.

If you have 3 minutes to spare, check out this free preview ([redacted]) of a HT Awareness program that provides 20 victim stories in a 1-hour eLearning program (20 lessons, each 3 minutes long). It changes how people think and act!

[redacted]

Myself and my husband for approx. 9 months (I'll provide details when needed), were temporary foster parents for acquaintances through a Extended Family program. I personally experienced that after the initial placement visits and contact, though encouraged to call the case worker at any time, found upon repeated efforts my phone calls were not returned. When later finally a call was returned, I explained that both the school and hospital were orchestrating unauthorized visits with the mother. Further, since CPS only provided counseling, accountable to CPS, only to the children, there was no CPS counselor direct observation of ourselves as foster parents and no addressing the unauthorized visits or behavior of the parent during unsupervised authorized visits. When we left a message that we wanted to withdraw from the program, our phone call was not returned. We actually had no little authority to protect and guide the children, only a reimbursement check for expenses. The brother was again removed from the mother to a foster home in the country. I have no idea if or where he is at this point. Very sad the sister/daughter after she was returned to the mother became a drug dealer, had an abortion, and in her teens, death by overdose.

[redacted]

Hello... I grew up in children's homes from '74 to '90. 10 kids at any one time and I could tell you some things that would make you sick. One was that we had houseparents that were (I found this out much later) wanted in another state for money laundering from an elderly couple, they had kidnapped a girl as an infant (calling her their daughter) and would dye her hair and eyebrows brown and lied to the agency and school about her birth certificates. Younger kids than I would disappear and we were told the typical "They went home". They were never seen or heard from. Teenagers who "age out" of the system are no longer a responsibility of the state. Sad thing is, there isn't anyplace to go. No home, no money, no job, no food. Nothing but clothes that you carry in a trash bag. I'll let you guess where they end up. This is the going thing in every state. Regardless. The system is just as bad as DC and has been that way for decades.

[redacted]

There are thousands of families, that have had their children & grandchildren, stolen. They lie and connive. Just to make a dollar. One pissed off grandmother in TX. Ireland & Zealand [redacted]. Please fix the corruption.

[redacted]

We've been adopting and fostering domestically and internationally for 14 years now in multiple states.

A couple of suggestions and observations.

1) In our experience, the guardian ad litem (GAL) has always been the weakest, laziest link in the chain of the foster system, which is saying a lot when you consider what a colossal failure the system is. A few months ago, not surprisingly, I got a call from a GAL inquiring about the welfare of a child that left our home 12 months prior.

Suggestion, make it a 3rd degree felony (federal) for a GAL to not be able to accurately account for the chain of custody of a child allegedly in their care. Make GALs accessory to prosecution of offenses where they fail to notify law enforcement or the court that a child in their care is unaccounted for if that the chain of custody can't be substantiated for the last 30 calendar days. At the very least they should be disbarred.

2) Our foster system and academic community of experts is adversely dominated run by people who:

- a) have never been a child's legal guardian or parent, or
- b) are divorced, or
- c) have had their own children removed from their custody due to a wide spectrum of causes but nevertheless have lost permanent custody, or
- d) rely on a third party outside their residence and family unit for the daily care of their children (day care), enabling them to be in the work force

Yet, their opinions and judgement weighs more heavily than anyone who isn't a permanent fixture in this corrupt system. It's an unpopular and doesn't tickle the ears but there is something to be said for what happens to a person who becomes responsible for the care of a child, perseveres in that and is committed to the institution of marriage.

Let's dis-incentivize (with federal money) the hiring and retention of case workers and supervisors that have demonstrated family histories that propagate and/or perpetuate at risk behaviors.

Form a committee for the reformation of the entire social services system with people who have never been vocationally dependent on that system and you'll see actual progress. They have to be given the teeth to shape policy. We need foster parents, first responders, CASAs, and business minds to elevate care, decrease administrative burdens and figure out a way to overlay the equivalent of a community policing model with eyeball to eyeball accountability. We don't need more academics with social theory. Social theory has proven its ineptitude. It's time to start advocating for families and children rather than advocating for administrative insitutions.

[redacted]

Dear Child Sex Trafficking Committee,

I am a single disabled parent in Washington State. When my child was 3 years old he was taken by a CPS social worker into foster care for 2 days. I was able to get him back by making remedies, but they charged me with child neglect and I now have it on my record as CPS has refused to give me all of the records and remove the charge. So we are stuck living in public housing even when finances have been able to afford a better life, I can no longer pursue my career as a care provider, or volunteer at my childrens' schools. I was even denied a lot lease in a cheaper trailer park because of the CPS charge. I still live in the same poor, crime ridden neighborhood as then, where there are thefts, gang initiations for young children, shootings outside my house, teenagers mugging and brutally beating lone adults at night, and the police refuse to charge for any crimes against us because our landlord (HUD) pays for our property taxes. I can't move out because I am too poor to buy a house and I can't rent any normal apartment with this one mark on my record. I still provide some care to my friends and neighbors, allowing me to feel some satisfaction in life, however it goes unpaid.

During my child's stay in foster care (really less than 24 hours), he was forced to eat food he was allergic to or go hungry even though CPS was aware of his conditions, and otherwise starved as he refused to eat the first offering. He was allowed to roam around the foster parent's ranch property unsupervised that had rusty farm equipment, giant water filled holes, and an open gate. He ran away from the foster house and made it miles away, alone on a

long farm road in a town he was unfamiliar with, where he was found by a mailman and returned to the foster parent. At the same time, I was desperately securing my home with the mandated remedies so that my child could return to my care before the COS office closed. These were costly remedies that I had to borrow money and pay for a ride to purchase at the hardware store at the end of the month, while on zero income. The foster parent was late by an hour returning my child to the CPS office because she didn't have my child.

Finally I could provide him with much needed love and care as he was severely neglected and traumatized by the callous treatment during his short stay in foster care. He had bed wetting, nightmares and was terrified of police, social workers, and of being kidnapped and placed in foster care for years after this one occurrence (current and chronic). The foster parent was investigated by CPS and lost her fostering license and custody of her own biological child for the many hazardous conditions at her house worse than my own, for failure to supervise my child, and for trying to force my child to eat food that could've killed him.

The charge of neglect I received was for not having an alarm on my door and a realtor's lock on the inside doorknob. That's right, I was forced with my child by CPS to place a realtor's lock that could only open with a master key on the inside of my front door, which is a fire hazard as in the case of a fire we would all die before I could find the key and unlock the knob cover. This is all because we visited my late grandfather who had dementia in the nursing home and he told a story of him and 2 other patients escaping in their birthday suits and walking up the parkade to the casino. We came home and that night after we both fell asleep, my son woke up and left the house to walk to my father's house (he knows the way), only he stopped at the apartment complex playground to play with the neighbors. She waited until 10pm and put her children inside, called the police, and they placed him in a cruiser to wait for CPS to take my child. My child never left the property until police took him, I wasn't using drugs or remotely neglecting him at all. He just tried to go to my father's house because of my grandfather's story.

Also my 25% Hawaiian boyfriend at the time was planning a custody battle with another unborn child, and he knew a Hawaiian social worker at CPS that was able to have her supervisor sign off on the neglect charge to help build up his case. Infact, the court denied my response to his parenting plan and request for limitations and restrictions on his custodial rights based on his commission of domestic violence against me and my older child, because of this one neglect charge and a tiny scratch I gave him while successfully defending our daughter's and mine's lives and my property when he carjacked me and I threw him out of the car in the rain and sped away, only to turn myself into the police and leaving my infant daughter with them. Even though I gave the court my reams of medical evidence for the permanent injuries he inflicted upon my body, the one false CPS charge carried more weight. The only reason my ex boyfriend doesn't have both of my children is because my sundance leader whose mother created Indian Child Welfare, [redacted], stood up in the secret custody hearing that I was unaware of and told them I am 1/2 Cherokee Indian. If that were not the case that I have the constitutional right to my children, I would have no job, no house, and no family. I would've probably killed myself over this one CPS charge, and my children would either be in foster care getting raped and used for satanic rituals, living with my abusive ex boyfriend fulltime, or even dead if my son had eaten that foster parent's allergy food.

Nobody at CPS or DSHS cares what they've done to my family all so that my abusive ex boyfriend could get joint custody of our at the time unborn daughter. He doesn't love her and has begun abusing her just like the rest of us, but CPS doesn't care because she is too young to testify (4 yo). Thank you for your time. I hope that my story can help you to protect other law abiding citizens who are only trying to raise their children in this sometimes hate filled world.

[redacted]

President Trump, please, for your investigation,

This email below was sent to your attention on October 3rd, 2019 and the others included, scroll down with many links attached. Mr. President this is about child trafficking set up in our crooked courts through the collusion of the British Accreditation Registry, foreign B A R. attorneys in Divorce and Family Court in collusion and conspiracy. A

congressional panel spoke on Divorce and Child trafficking below I was involved with, [redacted] and [redacted]- click on the link. I have gone to Washington D.C. too and met with multiple Congresspeople, Senators, and their legislative assistants including our NYC public servants Schumer's office and [redacted] assistants too. Please read this and see the attached links... and included which I forgot is the [redacted] interview. Click here, please [\[redacted\]](#)

I have not included [redacted] interview and she is really amazing and talks about our slavery, Strawman, Cestui Que Vi Trust, and she was arrested and jailed for 8 years from being a successful real estate woman in the Republic of Florida. This was just mindboggling for me also being a real estate salesperson who saw you speak at the Hilton years ago at the International Shopping Center Show (ICSC).

You requested information to be sent to the above email.... adonald@nhttac.org. So, again I have copied my NYC Public Servants. Attorney General [redacted] and [redacted] I suggest you need a serious meeting. What will be done here?

Also for my local public servants what is the Mayor thinking to stop parking and traffic on 14th St. to save 5 more minutes of travel time? All those businesses located on 14th Street will lose money and we need places to park to load merchandise. What a freaking mess.

Thank you all for your attention.

[redacted]

Date: Thu, Oct 3, 2019 at 7:02 PM

Subject: I am sharing the book 'StrawManProof.pdf' with you. This is involving our Social Security enslavement and our Birth Certificate fraud. My Void Divorce Judgement which was not filed by any clerk (attachments not included), & FOIL Demand, Cease and Disist are also attached and have not been filed by any clerk I know of, more obstruction of justice in a crime Judicial and BAR syndicate system of lawlessness. There is also a remedy doctrine suggested below.

Good afternoon all, (this was ready to send Friday but Jewish Holidays happened and I was exhausted from my TBI feeling dizzy, having back and shoulder chronic pain, and was busy with my social worker and Physical therapist yesterday- getting older is hard),

This email focuses on the Child Trafficking abuse happening everyday in NYC and all over the USA and globe. Please see below the Congressional Panel presentation. Everything can be clicked on. And, the flip side of the coin in destroying families with trafficking kids is Divorce Rico premeditated Racketeering depleting property and assets under the veil of total deception by our Judicial and BAR Lawyers. There is a large document attached, The StrawMan Book, 109 pages, and my smaller personal legal correspondence too regarding the cease and desist of the crooked corrupt NYC Judge [redacted] and a \$9,000,000 claim and complaint in Southern District Federal Court Case no. 19 CV7439-UA; though there are 5 or 6 more Judges and plenty more B.A R., British Accreditation Registry private club lawyer members, and other employees who have Jobs at 60 Center Street in New York City, and with our State and Federal Government, who have denied me my constitutional rights and more listed below in my 10 years biased divorce of no Jurisdiction, extortion, false documents, collusion, coercion, no due process, forged or mistaken Banking documents used to steal my money, short sales on commercial real estate, IRS laundering and setting me up to owe taxes with a lien for money I never received, gross bias against me being sanctioned by this corrupt Judge.

I am a whistleblower who tells the truth, where there are only retaliatory sanctions against me, ME! -the less moneyed, disabled spouse. In addition, I am not a Corporation and am a spiritually an alive woman on the Land and not a STRAWMAN in Admiralty court out at sea. This illegal deception for 10 years has been destructive to me financially and my health especially. I hope you will read this and read over 100+ pages of the Strawman. Copied

are friends, advocates, media, journalists, and politicians, with the staff of politicians copied above, (who most definitely know me), congressmen and women, whose offices I have visited in Washington D.C. and all have ignored this fraud since I wrote to many of them and spoke to them about the legal abuse, treason, tyranny, false documents, IRS laundering, fraud & extortion in my 10 years Divorce alone and with advocate friends also speaking about children being taken from homes, and parent alienation. .

Please Note: Return receipt requested packages were sent on July 10th, 2016 about the legal abuse and racketeering fraud, and I have also talked to my Public Servant Representatives at town meetings, at the Democratic Clubs, and at protests in NYC and Greenwich Village as well. I am, "we the people" being ignored, and have been tortured to be set up to be penniless and homeless by the corruption and RICO Ponzi criminals, who are crooked Judges and Lawyers OPERATING WITH NO JURISDICTION. This has all been premeditated from a Pendente lite written in 2010, which includes the term "reallocation". This means fraud and a dictatorship Judge basically rides rough shot to do whatever he or she wants. This was a set up asset theft from the beginning. The mafia like protection and collusion of all the BAR members and the crooked Judges who feed them are ignored by all our public servants and even congress. Nothing is done. **It is as if we are paying those in government for also covering up and aiding and abetting these terrorist crime syndicate crushing activities to harm children and families.**

My ex-spouse is a personal injury lawyer, part of the inside club, which is a total conflict of interest, to begin with, AND IN collusion with a corrupt Judge who has given him everything from 2 Commercial Property escrow accounts, one investment residential escrow account, paid off his taxes leaving me exposed and set up to owe the IRS money BY MORE CORRUPT BANKING LAWYERS TOO. All of them use the tools of law to extort and abuse in what looks like to be a sport for them all, laughing that they cannot be caught, as they all cover up for each other, and are trying to force the sale of my 34 year co-op home again with sanctions to leave me penniless from a property my parents put cash down on for me to be safe and have a home forever, not be forced to be homeless by corrupt garbage. Clean this swamp Mr. President.

I want to make clear what has happened to me in Divorce Court (and Family Court Sua Ponte'd away from being represented in Domestic Violence and gaslighting), is happening all over the USA, and if there are typos, I apologize, I have a TBI (traumatic brain injury from a car accident), and this note has taken me 3 weeks to write as a result. Most of my court documents are cut and paste. I have help and support from many friends also all over the USA who have also been crushed by their own crooked judges and have lost children to CPS- Child Pedophilia Services, or through Parent Alienation again by Judges not doing their jobs, instead, insubordination rules. Many amazing advocates lost their homes, cars, or had kids placed in Forced Foster Care, and lost custody of their kids in forced adoptions too -all these courtrooms are a child trafficking businesses in the USA where Judges direct the stealing of cash from all our Social Security Trust accounts giving the state and CPS bonuses for kids removed from their homes, ergo kids4cash. It is diabolical.

There is no best interest of any child and none for senior women abused by these Divorce Court Judicial vampires or for the elderly as well. Guardians work for the court too and their pockets. The system is beyond hope. If you have court and legal connections or are a lawyer and have money, this determines outcomes too as my spouse automatically won everything as a lawyer and insider. (Unless you challenge these Nazi dictator Judges, then you are beaten up in all ways they know how; jail. Psych wards, sanctions for cash, take your drivers license etc.. It is a free for all of crushing torture abuse. There is no impartiality.

The destruction of our families has been taking place for over 40 years!!!! College Students better pay attention. Millennials better pay attention or there will be no Social Security at all with all the cash the states take and child agencies like CPS get as bonuses. My 10-year divorce had no custody issues, but the ongoing [redacted] theft of all my assets and perhaps my home needs to stop and **I want to lead a class-action lawsuit against all these criminals.**

If there is no remedy and restitution, then there is no law. There is no law. If judges protect each other using immunity referenced cases they devised and established codes and sanctions for, which the Judges, voted for themselves in their private clubs, to protects themselves as they steal, gag order, jail, psych evaluate, and reap havoc with zero checks and balances, forcing trials with zero juries, SO then, this Divorce, my Divorce was a premeditated judgment from day one also needs to be void too with many many others cases in Family and Divorce courts. There is no jurisdiction, only personal biased decisions made under the color of law. I am an alive person, a New Yorker, in our unincorporated 50 states. I am not an employee or member of THE UNITED STATES INCORPORATED some fake set up to fleece the public without them knowing it. NO MORE.

This is my Rogue Judge: take a look.

[\[redacted\]](#)

I just got back from my 3rd visit to Washington D.C. where I supported my fellow advocates from 4 The Children Educational & Punished 4 Protection's Congressional panel presentation on child trafficking (1 hour video) and divorce discussion. People were there from [redacted] Family Forward Project and she was arrested recently for referencing constitutional law defending a case, Like [redacted]. who led the DC trip to [redacted]'s office May 1-3 2019, where 10 of us had a meeting about all these issues, and a protest march down Pennsylvania Avenue. What has been done?

Many other Mothers & Fathers Rights Groups, and Grandparents groups were there too.

We all are requesting abolishing Family Court, CPS, Foster Care, Forced Adoptions, **involving Divorce and Family Court corruption and abuse**. No more D Title IV funding, and no more ASFA Clinton's Safe Family Act funding. I want to see the entire system abolished, no more Family Court, and the Divorce Courts done too, Mediators with a 6-month cap can happen. Enough extortion and racketeering. Ten, (10) years, 12 years to be in a divorce is a Rico scam to hold families hostage to steal assets, create \$550 per hour billing, and emotionally scar people. **All lawyers ask for a net worth statement to see how much property and assets they can steal**. Who knows if Divorce is even Constitutional or even a marriage license in Common Law (on the land) is constitutional as well. The entire house of cards could fall and investigations with arrests of Judges, CPS, and Lawyers using the tools of law to commit crimes against humanity need to stop.

If marriage, for example, is not constitutional, and a good friend of mine has been exploring this in court on Long Island, then all these Judgements are void and all money, assets, and kids need to be returned with damages. The crooked Judges, at the head, are trafficking our kids all over the USA as administrators in Admiralty Courts. Divorce Court is a Crime Syndicate of forced property sales, theft of assets in escrow accounts, conflicts of interest, crushing oppression, biased retaliatory fake orders creating homelessness and poverty and destroying kids inheritances through made up statutes, codes, and whatever the Judge says who I have found out is an imposter; Not a Judge but is masquerading and is really an administrator with no Judicial powers at all.

Both these Courts, Family and Divorce have crooked Judges and lawyers causing conflict for their own sport to separate kids, parents, grandparents, friends, and these Judges instigate depression, anxiety, and suicides, traumatizing families and trafficking our kids in PTSD and legal abuse syndromes. There is no law. There is a dictatorship of abuse with zero accountability. There is no winning. Appellate Court Judges also are part of the problem of collusion, protecting the judicial, not our constitution. There is just more deception. In NYC they eat Chinese Food together! All kids are harmed in these [redacted] 10, 14 years Divorces, adult kids too, damaged by the theft of trust, no serenity, garbage conversations about future plans with zero assets from 23-year to 35 year marriages drowning in worry and again causing tremendous anxiety in adult children. These Judges are

crazy; power and control narcissists. *This video was shot on Capitol Hill DC in the Agricultural Room at the Longworth Building by my advocate warriors, at a Congressional Panel, and I was there to assist. Watch and Listen to our video presentation:*

[\[redacted\]](#)

EVERYTHING YOU NEED TO [#OccupyCongress](#) is right here and we do want this to keep going VIRAL in #OccupyCongress as it CONTINUES- we put congress on Notice & we are serving thousands of affidavits we are asking all families and advocates to call all congress members. Prepare your list of congress members to call & follow this script [\[redacted\]](#) suggestion:

Rep [\[redacted\]](#) (STAFF) my name is __ and I am calling on behalf of the Child trafficking briefing, and Divorce abuses at the Agricultural Offices of the Longworth Building, on Capitol Hill DC where our congressional panel presentation took place on Sept 9th, 2019.

Please offer : you want this system ABOLISHED & THE ACTORS ARRESTED AS PER TITLE 18 SECTION 241 & 242. ANY member of Congress who says they did not see this briefing please get their email & cc

[\[redacted\]](#) so we can keep track of this. Here is the link to the approximately 1-hour panel.

[\[redacted\]](#) please feel free to forward this email.

The Judicial, Political and BAR members listed below received my correspondence about abuse, no due process, and biased fraud dated July 10th, 2016: [\[redacted\]](#) , AG USA, [\[redacted\]](#) US Attorney's Office, Southern District

(8/6/2019, a 9 Million Dollar complaint & claim is in the Southern District Court now against [\[redacted\]](#), Administrator; never ever a Judge, trading securities and works for a corporation, so no immunity here at all, and who has crushed me in deception, and collusion and not answered my demand for his oath of office, security bonds and license not the B.A.R. Card.

More names will be added to this complaint, or I may file separately for over 10 lawyers, law firms the State, City, and other Court Judges who had turned a blind eye to me being tortured by these professionals who operate in Fraud), [\[redacted\]](#), received my package 7 /10/2016 too, the Governor of NYS and City, with FBI Director [\[redacted\]](#) at that time, [\[redacted\]](#) , the New York State Attorney General at that time, whose office said I could not sue [\[redacted\]](#), [\[redacted\]](#), Referee who clearly could not think for herself seeing all my medical back up on my disability and also ignored it, and chose to collude with her buddy Judge

[\[redacted\]](#), agreeing I was not disabled and to bulldoze me forward in a Trial with no jury, and also [\[redacted\]](#) was sued here too in Federal Court, who is now my ex-spouse as of 4/29/2019. They were Sued for Disability Discrimination to stop a forced emotionally crushing trial without a jury, **and no attorney representing me**, because I was told in writing, it was not their area at the Southern District Federal Court, and dismissed me and sent me back to the abuser, corrupt, biased, evil, dictator psychotic Administrator, masquerading in a costume black robe without jurisdiction, [\[redacted\]](#). I was sent back to this sick, non impartial, deranged and cruel imposter, [\[redacted\]](#) who continued to sanction me and give me nothing from made up statutes and codes and his own premeditated evil manipulations. SEE ROGUE JUDGE REFERENCE ABOVE.

[\[redacted\]](#) Divorce judgment is so biased and corrupt with sanctions against me, and whatever "paper decisions" are too, as they are hidden, HIDDEN, not on any record to further crush and abuse me, so here is more obstruction of his sick cruel manipulated Administration, not revealing the true facts of theft of all my assets and home, creating an IRS bill for me to owe from a forced sale, duplicating the same textbook fraud that left me with a lien on my name for taxes owed previously on another apartment sold, with no cash received by me at all, from my alleged forced property sale, which my lawyer ex-spouse has prepared nothing on selling when I had acquired a signed agent from Sotheby's, being respectful. Why? I was trying to follow rules. BUT THERE ARE NO JUDICIAL POWERS OR CONSTITUTION HERE. Psycho [\[redacted\]](#) has given away over \$300,000 more of my money, half of my money held from previous property sales in escrow accounts back to [\[redacted\]](#) the lawyer. This has been done before to pay off [\[redacted\]](#) income taxes owed in 2012, 2013, 2014. This psycho insane decision could have paid off the mortgage so I could live in my 34 yr home, and get this, he gave to my lawyer ex a

receivership, after [redacted] was recused! -and After a cease and desist recused him! See attached documents. There is no receiver here.

[REDACTED] still wants me to pay for the mortgage and insurance disabled with no job, so there is zero support or any cash AT ALL, from a 23 yr marriage to a lawyer left even after the closing.... just another IRS tax bill owed by me. It is fraud. It is Collusion... see all the Federal references below.

This is a total fraud set up. [redacted] is at this for a long long time. He knows exactly what he is doing and how to instruct lawyers to behave. This is fraud and retaliation. It is all personal.

Here is some legal information:

Cost of Living Adjustments to the Maintenance and Child Support Formulas | Divorce: New York

[\[redacted\]](#)[redacted] used nada. Nothing.

If these formulas were used in 2010 I was to receive over \$12,000 per month, but [redacted] was allowed to pay insurance and mortgage maintenance phone, etc Bill's, however, to control me and my use of Air conditioning or use of lights, he was abusive, and he chronically did not pay [redacted] (eventually causing me to fall and need back surgery - which no lawyer did anything about this form of domestic violence too) or he did not pay for my meds and co-pays for doctors and dentists, and though I was given \$5,000 per month all my expenses were not paid for the car, tolls too, cleaning expenses, and I am still owed for years of abuse living on credit cards, \$60,000. There were heirlooms taken, my grandfather's hand carved frames, jewelry, and a lot of my legal documents too.

This Judge saw the charts of expenses not paid and ignored them for years with the lawyers. The textbook fraud control to oppress financially was perfected for generations of Divorce and Family court control by these sinister characters.

I then had to write an apology to the Federal Judge, [redacted] (who was involved in some Zappin Decision too (see rogue judge above), so this was my Judge for my bullied halted federal disability suit too). I had to apologized to [redacted], bullied by [redacted] offices, again, same Zappin oppressors, with my Traumatic brain injury, and other physical disabilities, but was also simultaneously denied a last requested emergency stay by [redacted] too in collusion with Judge, [redacted], and ended up being forced into a trial of legal abuse by what are now just administrators with no Judicial power of anything, giving away everything I own , ALL MY net worth, to [redacted], my ex a personal Injury attorney and member of the private foreign B.A.R club with 2 office locations and staff ([redacted] was at this forced Referee mock trial, [redacted] paralegal, who indicated she follows me diligently on Facebook because it is public, and she used this information to assist in the \$6 Million slander lawsuit against me by [redacted] and watches me every day to report to my ex- **So,[redacted] was paid to find evidence to use against me in her job , when I am sharing the 100% truth on Facebook for myself and support team all over the USA and globe. AS part of her responsibility to my ex and for [redacted], [redacted] Marriage lawyer, Facebook was used against me to squash my first amendment rights! frivolously! These are lawyers. (Don't they know about our amendments and wasting the courts time?), and [redacted], who sued a private exclusive, expensive, health club in downtown NYC sued them too, because he did not get a hot oatmeal breakfast, and lost in court too, clearly more wasting the courts time, (sued me for \$6Million in a slander lawsuit to keep me scared, quiet, and drowning in paperwork with a brain injury. Richard had to pay their legal fees and was sanctioned too for the health club law suit. Where were my reimbursed fees for my time, and any sanctions for my time and anxiety against all of these corrupt people? This was all a result of her social media spying skills where I slam the Courts and Lawyers for gross law breaking, constitutional violations, and corruption as I am doing here as well.**

I still cannot read legal or any newspaper for long periods of time. This letter has taken me three weeks to write. All my paperwork in court is cut and paste. I cannot read it all, with back up. I have been calling congress again this week to follow up on the congressional panel presented. I still have not seen all the 100 fake set up court articles presented to lock down a forced trial and twist the law to make me appear to be guilty.

The conflict of interest is beyond astonishing by cruel Narcissists, in collusion all behaving above the law. This entire divorce is void in fraud, no due process, and based on a total inside job!!!

Here is my 2016 mailing list continued from 2016 about the fraud: [redacted] New York County District Attorney's Office received a 2016 return receipt requested package about fraud, [redacted], Assistant District Attorney, Senators [redacted], [redacted], & [redacted], NYC Public Advocate [redacted] who is the Attorney General now, [redacted], who was a District 3 Councilmember, and now speaker, Congressman [redacted], all, ignored my 1,000 dollar mailing involving fraud, treason, a crime syndicate, with State Supreme and Appellate Court crooked Judges racketeering in Rico collusion with the B.A.R British Foreign Registry

(which many of them are members too).

All were in that mailing then, remain in conflict of interest also, and did nothing, and need to be attached to this 9 Million Dollar complaint for not investigating or reporting fraud and multiple other violations I listed 9 Million, but this is too low. All politicians, who are also lawyers ignored me or did not reach out. All are private club BAR members with no license or oath. What is everyone's oath?, Foreign registration to the British Crown? Where is the licensing for securities trading in these courts of inequity? [redacted] office returned the file at that time as well. I have talked to many political office assistants too and attended downtown Democratic meetings and town halls. Some political public service office assistants are copied here as State and Federal employees too.

Additionally, I have e-mailed [redacted], head of Appeals and Chief Judge of New York State (who ignored everything, and I requested her Job description, and multiple 60 Centre Street Court Judges and personnel too, such as Judge [redacted], Judge [redacted], Judge [redacted], Judge [redacted]), (the \$6 Million Slander Judge in my ex-spouses frivolous lawsuit), who all have seen me write about corruption, fraud, Rico racketeering and crimes against me and no one reported any of the fraud to anyone in collusion, crushing me and denying me my constitutional rights masquerading in Admiralty Courts of commerce and contracts. [redacted], Clerk to [redacted] too, all clerks as perpetrators, are guilty of not reporting fraud. [redacted] did nothing and watched 3 lawyers bully me in front of him to pay a \$200,000 tax bill, including my own lawyer [redacted] too, which was not my responsibility. 10 years I have been held captive at 60 Centre Street as Judges and lawyers extorted all my money and half my escrow accounts cash or withheld money from the sales of commercial and residential property for themselves, and their collusion pocketed salaries and my ex-spouse always got all the remaining cash.

Lawyers, earn more than Doctors who save lives, not destroy and crush people, kids, families, and steal property. I was held captive like the holodeck term which was coined by former murdered Georgia State Senator [redacted], another advocate, a whistleblower who exposed the corruption in the Family and Divorce Courts, the Child trafficking and gross injustices taking place in custody, alienation, and massive abuses taking place in Divorce & Family Court cases in GA, but all over too.

So here is the Strawman Book that everyone denies. This makes me hopeful that more will be revealed. This idea of PUBLIC and Private names are a reality, of ADMIRALTY SEA (CORPORATIONS), and Land in common law, and a matrix of fraud and deception. Many of my friends, who are also advocates and whistleblowers telling the truth, have been raped and abused by this corrupted narcissistic system of deception, treason, and fraud with crushing civil rights, and constitutional liberties evaporated, and ignored, including all Disability Title II rights along

with obstruction of discovery, filings of false documents, And zero Bill of rights or our Constitution. So this STRAWMAN book validates this manipulated umbrella of deceptive and intended fraud.

Nothing has stopped the decimation of everyone's inalienable God-given rights. There are two government matrices. It is real. There is PUBLIC and Private. See the attached book. Who owns my SS# my private spiritually alive person? I am alive not a DEAD ALL CAP STRAWMAN CORPORATION. My name is not in all cap letters. (The Undeniable Fact That Artificial Entities (Corporations) Cannot Take Oaths, They Cannot Make Affidavits. See, E.G., In Re Empire Refining Co., 1 F. Supp. 548, 549 (Sd Cal. 1932) ("It Is, Of Course, Conceded That A Corporation Cannot Make An Affidavit In Its Corporate Name. It Is An Inanimate Thing Incapable Of Voicing An Oath"); Moya Enterprises, Inc. V. Harry Anderson Trucking, Inc., 162 Ga. App. 39, 290 S.E.2d 145 (1982); Strand Restaurant Co. V. Parks Engineering Co., 91 A.2d 711 (D.C. 1952); 9a T. Bjur C. Slezak, Fletcher Cyclopedia Of Law Of Private Corporations § 4629 (Perm. Ed. 1992) ("A Document Purporting To Be The Affidavit Of A Corporation Is Void, Since A Corporation Cannot Make A Sworn Statement") - (Footnote Omitted). Rowland V. California Men's Colony • 506 U.S. 194, 203 (1993).") And also I have written return request response demands to all my lawyers and judges challenging them below too and they have ignored my FOIL requests. So,

Challenges to Judge: Universal to all cases.

A judge who refuses our law is loyal to some other authority. Ask the "Judge" if he/she is a member of the "STATE BAR ASSOCIATION". If so, challenge the "Judge" under 22 USC 611 as a "Foreign Agent". All "Judges" are lawfully required by 28 USC 372 to have an "Oath of Office". Ask the "Judge" if he/she has an "Oath of Office". If yes, accept the "Oath of Office" in "Admiralty Jurisdiction". Now the "Judge" is subject to criminal prosecution and civil litigation for any injury he/she may cause you. If no, the attorney is not a judge and has no lawful authority to proceed. Your State Representative should be informed by "Petition for Impeachment of Judge". Present the facts of the case, the law is not necessary. Have it notarized and send it by Certified Mail. As we remove the unlawful judges, lawful judges will take their place

My divorce should have been easy and not all my assets are given away to the more moneyed abusive spouse. The last time I was in court on a cease and desist, all of this was asked of [redacted], not on his Vessel, not giving him consent. All I wanted was my 34-year co-op home, my parents put money down, for me to have a place to live always, and my equitable share of the marital distribution where I started my spouses legal practice and gave him multiple loans and refinanced two apartments for him to take \$300,000 in equity from two apartments, for his law practice, because my corrupt accountant [redacted] CPA requested this and also manipulated me. "[redacted] business was in trouble", [redacted] said. "You have to refinance two apartments". Who can you trust? I have not received that equity back too. Ironical [redacted] had a \$450,000 line of credit at HSBC then, and another 911 loan for \$100,000 too at that exact time we refinanced. He was just fine. So that was a lie, I saw this in HSBC discovery which [redacted] blocked me on for the last over 2 years before the fake force Trial I never wanted ever. When I challenged [redacted] with this information of earlier fraud he said "oops, too late now. "

Instead, I may see a forced sale of my home with whatever legal paperwork my lawyer ex-spouse and this corrupt biased [redacted], gave him. None of that forced trial was real, it was a show AND SET UP, for them to have whatever tools they needed to use to create a fraud with fake paperwork, one-sided, as I could not show up with no attorney and being ill.

All OF THIS SCAM Divorce needs to be voided with no Jurisdiction too and also not giving me any response on my FOIL. I provide a Voided Judgement order to show cause, which was ignored and denied by the prejudice [redacted] against me. But most important, this was not filed on the record with an affidavit of truth, for any type of appeal, so there is no e file by [redacted], and the clerk, obstructing justice further. Missing files are common. Where is the authority to do this under our constitution? Where is paper files? **NO ONE CAN GIVE AWAY CHILDREN AND PROPERTY. IT IS UNCONSTITUTIONAL. It interferes with life liberty and the pursuit of happiness.**

This administrator with no medical degrees forced me into a trial and said I was not disabled with my letters by the best doctors in NYC from Rusk NYU Concussion and Professional PT and social workers with my PCP and more. [redacted] needed sworn authenticated medial letters. But not for [redacted] or any IRS, Banking, or insurance sworn authenticated papers, just copies or xeroxes were shown. [redacted] operates as a banker with no regard for the Constitution, Bill of Rights or disability rights and gave everything away all under total duress for me not able to go to any trial, and being set up by my own 5 lawyers who worked for who? Not me.

All were paid way too well, and I need damages from them all and the state, or city, and The United States Incorporated. This still needs to be sorted out.

There is no immunity here at all in fraud, deception, and collusion. My money was given to the Plaintiff Lawyer spouse from every escrow account and there was fraud in giving away half of my money in 2 commercial and one investment property and now my home is in question too. No Judge has any authority to force the sale of anyone's home, especially a masquerading administrator, with no Judicial Authority.

NOW, What do we all do with this information printed here? We now see a form of proof about the STRAWMAN rules, our DEAD CORPORATION PUBLIC SELF dated from 2008 which was sent to me. I called the IRS a few months ago and their recording stated that the Cestui Que Vi Trust, our Private upper, and lower case name and SS# were not real. I guess this is now wrong.

How can we all benefit from this knowledge now? A Class action lawsuit? Who will take this on? Any of my local politicians in New York copied here? Anyone in Congress? in the Senate? Who will go to jail or not? Is anyone willing to abide by the constitution?

I need support in Federal Court. Who is Afraid of being disbarred? Why? There are no law licenses anyway, the BAR, it is a private foreign club, with zero regulations, they watch themselves. If you go against the judges, then lawyers are not able to make a living again, seems to be the go-to... but if there is a \$900,000,000 million dollar class action suit....well you be the judge.

Also here is information about the real 13th amendment, [\[redacted\]](#) the ANTI-LAWYER Amendment, basically preventing anyone who had a BAR membership, to accept a title of nobility from a foreign King, Prince, Power from even being a US Citizen, much less holding any OFFICE. These people are voting too, how and in what basis? In 1812, at least 6 states ratified the ANTI-LAWYER amendment. This has been hidden since President Abe Lincoln erroneously named the Anti-Slavery Amendment the 13th when actually that one from the Civil War was the 14th ratified amendment. Watch this video above.

Half of Congress, the Senate, and our courts should not be representing the people in public office who somehow get to be millionaires, trade securities without paying taxes, don't pay for their kids college education telling them he plans on going bankrupt, have different medical insurance and get lifetime salaries, pensions and more, then crush families and traffic kids, as we the people have our homes taken and go hungry. No more!

Something drastically needs to change! There has to be restitution. I will not be penniless and homeless and in debt from a psycho administrator, actor, with too much power and control and zero checks or balance working to 110 % benefit my personal injury lawyer ex-spouse still settling his own cases. This is not complaining or" just not being happy with a decision", as judges will say. I am a warrior, I am not a victim, this is being victimized by total satanic evil and corruption.

BRITISH ACCREDITATION REGISTRY – CROWN TEMPLE B.A.R. [\[redacted\]](#)

Check out all the Corporations here: Everything is Corporate and no one wants any of us to know our private side, because the courts operate in Admiralty Law, with all of us being CORPORATIONS, dead STRAWMAN in commerce and contracts;

EINs for the United States, Inc and Child Corporations | Governmental Services Corporation Watch

[\[redacted\]](#)

******Mr. President pay attention, please. Our Military needs to pay attention too. I am not a lawyer. I am just standing up for my 34-year-old Co-op HOME, and need to remain living in Greenwich Village COMMUNITY and preserving my life from the racketeering Judge(s) and the Criminal BAR. I want to live in peace. I have been tormented as my friends have been too******

Who will take on the huge pink elephant mess in our government and unincorporated states with the Injuries caused, deaths caused, homes lost, massive money & wealth extorted, with children taken, depression, anxiety, and suicides? Who?

There are egregious Injuries all over, not just for me by the Administrator bankers in equity Admiralty Courts, who are masquerading as Judges in deception and have entrapped many of us by the likes of a [redacted] in New York City 60 Centre Street and all our lawyers too in collusion who are **con artists of trust all over the USA, as they rape you as well with zero integrity, and no morality or ethics.** This is happening all over the USA. It is all about power, control, money, destruction, textbook fraud, decimation, deprivation, and greed with no accountability! With no remedy! With no restitution! = no law. Jail is not enough. All property and assets need to be confiscated for restitution by these criminals.

My ex, a lawyer [redacted] and [redacted] made sure I received no support from an ex who has 2 law offices and gets 1/3rd of a real estate trust who told his son, he declares bankruptcy right after he forces the sale of my 34 year home because his trust is protected. A 34 yr marriage with no support, disabled, no disability SS (my lawyer [redacted], told me not to make money or work!!!!, and am now on food stamps, because who knew this divorce would take 10 years and I had medical issues too.) [redacted], denied me marital support because he made up no HIPAA medical was presented (which was my lawyer's job to get done, not mine), in the fake court of no jurisdiction.

I had back surgery first in 2016, and a Traumatic Brain Injury from a car accident in 2016-2017, and was being treated at New York University Rusk Concussion too, - there were no issues about Hospitals or expertise or HIPPA. [redacted] wanted me in deprivation with no money to fight back, xerox or even see my children. Further \$60,000 is still owed to me in expenses not paid from Pendente Lite contracted expenses from the ex-lawyer spouse, with multiple taxes paid for him, by corrupt conflict of interest lawyer friends of the Plaintiff spouse, without my permission and credits owed to me, with checks written by [redacted] lawyers, representing Citibank at one closing that went directly to [redacted] for over \$213, 878 that he pocketed too and more that should have been deposited in escrow. His family leased a building in Astoria to Citibank, so there is a huge relationship here and at one time [redacted] had 23 bank accounts at Citibank, moving around all sorts of money in a \$750,000 line of credit in preferred banking where the bank moves around money every month, three months, 45 days etc as a service to help confuse everyone in all these accounts. Really.

The stolen orchestrated criminal activity using the lawyer insider tools of law to steal has been crushing, chronically leaving me in deprivation, living on credit cards. **I was left exposed to IRS liens for money I never received! as all of the ex's taxes are totally covered so he can pocket all his multimillion-dollar income and offer his office employees bonuses for ripping me off. I have never seen their salary and pay information in discovery too. This was conveniently hidden by my own attorney's not working for me ever and even the Referee hid [redacted]'s salary. I wonder what her Christmas bonus is this year. [redacted] has given American Express Gift card Bonuses in the past hidden to be written off as business expenses. I remember.**

There are no checks and balances here at all. There is only 18 USC 1001-fraud \$10,000 per occurrence, 18 USC 3571-violations of oaths of office \$250,000 per lawyer and public servant, 18 USC 3571 - denial for discovery by [redacted] protecting my spouse, denial of truth and evidence, by clerks not filing my paperwork in e file, 18 USC 351 - evidence for me was never presented sworn and authenticated by the IRS for [redacted] EIN accounts, W-2's, or Foreign Trusts lied to me by Accountants and forensics as well \$250,000, 18 USC 3571-slavery, being held hostage with forced compliance under duress always \$250,000, 18 USC 3571 -denied provisions in the constitution \$250,000, 18 USC 3571- collective Treason, on all of the above combined. Then there is 18 USC 241 Conspiracy \$10,000 per occurrence, 18 USC 872 -Extortion \$5,000 per, 10 USC 1001 Falsification of Federal tax Documents \$10,000 per person, 10 USC 1621 Perjury about finances-\$2,000, 18 USC 3571 Racketeering (criminal) \$25,000 per, 18 USC 1964 Racketeering (civil) with damages for all stealing my network and attempting to force the sale of my 34 yr co op home is 3x. 37 or more counts =

\$ 9,000,000, which is my complaint in Southern District Federal Court for just [redacted], and my Federal Judge is [redacted] as of September 13th, 2019. But, Defendants are not just automatically guaranteed immunity. See

[\[redacted\]](#)

However, there are over 20 people or more involved in ignoring me and the violations, which fraud vitiates all prior pleadings in a court of no law. I am important, I have shown up in my community and been a good unincorporated New Yorker participant, and raised two wonderful young men who have been so damaged as adults in this 10 yr hostage mess. It is a mess. All these people are not guaranteed immunity. Again see here; [\[redacted\]](#)

I am in debt, with no money or resources to fight back, can't afford to xerox, travel to court, or have cash to visit and see my kids, in thousands and thousands of dollars in debt from lawyers and this nightmare Judge.

[redacted] also sanctioned me in the most biased way possible in retaliation, total evil arrogant non impartial retaliation by also trying to make me sick, further destroy my health, in forced depression, and to isolate me by having no money to live. This Divorce Judgement was voided by me, but most importantly, [redacted] has assisted in laundering IRS money and stolen my equitable cash owed to me on the sales of property and allowed collusion conflict of interest lawyers to tell the IRS to place a lien on an escrow account to steal all half my cash to pay off [redacted] income taxes for the lawyer spouse, who pocketed his total income anyway; more than half a \$million dollar income in cash was given to the IRS by [redacted]. I, therefore, live in a co op, where we own equal "shares", have found myself in a situation where lawyers and bank lawyers in closing the real estate sales made sure I was left owing IRS taxes. This is textbook and planned fraud. **I owe taxes on Money I never received.**

[redacted] gave away my half of equitable money to the IRS for the sale of an investment residential apartment. This is textbook fraud and this Divorce Judgment as of 4/29/2019 is setting me up again to owe taxes on the money I will not receive from a judge sanctioning me for throwing my ex out, due to domestic and emotional violence where I was denied family court protection by this same sick [redacted]. He sanctioned me based on his Sua Ponte, by denying me a permanent restraining order in Family Court to control me by not having representation in Family Court! This is based on a manipulative text book cunning fox Judge, administering his own obstruction of justice! I had no protection from years of psychological, emotional, and legal abuse, stealing my heirlooms, jewelry, legal paperwork for a PI, and police coming to my home.

I am very very tired of being extorted and crushed by judges and lawyers in deception, lies, fraud, piracy, legalese fake language, and poverty now. I am on food stamps disabled with **no support or income from [redacted] biased [redacted] in retaliation for this 2017 Millionparentmarch interview, where I did not even know what I had said, due to my traumatic brain injury, and I was marching 3 blocks or more behind everyone else. I could not keep up physically from balance and mobility issues... [redacted] lead this march.**

[redacted] shot this, and miraculously I made sense though some higher power. I did not understand zero Jurisdiction and the Administrator banking role of all of the spiritually dead PUBLIC vs Private duel government deception then at all. I was just held captive and supporting all the parents who lost kids and were held captive in these vampire bloodsucking courts of family destruction.

This was the interview. Here is the link. It is 12 minutes long and was used against me by 3 Judges in Collusion and by my lawyer spouse in his \$6Million dollar frivolous [redacted] researched slander suit yet with another Judge, Administrator(I was protected by the first amendment telling the truth here and they just continued to crush me). This was used against me in the forced fake no jurisdiction administrative Sugaman actor Referee trial too (a joke another biased agent of doom), (with no Jury, denial of the 7th Amendment). All doctor notes indicted I was disabled and could not attend a long trial. Today it is the same thing.

[\[redacted\]](#) [redacted] crooked Judges 2017 millionparentmarch interview.

I have been censored on Facebook multiple times for telling the truth, and there were over a thousand views here above on this interview, not (11) eleven.... okay, so I needed to clear this up now when you click on the link. Facebook is removing numbers and removing the content as well for many advocates and friends online who are challenging a very distorted system of vigilante deception under huge duress.

There is massive censorship to keep all these Admiralty vessels afloat, and us as dead cargo in ALL CAP LETTERS in their fake courts as slaves trafficking our kids and abusing us to hold us down. We are all spiritually alive and on the land under God. We have been deceived and there needs to be punishment and restitution.

[redacted] should have been recused through 5 lawyers who represented me, and each one I made this request due to bias. They were all in collusion and did nothing, and my "imitation trial "Referee was also a simple administrator, not a Judge with what oath of office? Also, mail fraud has taken place here, as I never got her return requested receipt card back. That also needs to be investigated. There were gross conflicts of interest all over in some forced trial without a jury, and I had no attorney too. This was all torture. I fired my 4th attorney for not doing her job and was very sick from the anxiety, stress, and my physical issues from the car accident too.

However, money was given by this Judge [redacted] to PAY my 4th attorney with no trial contract signed by me, and, without my permission, who also over billed me too and kept too much money. How can these criminals be allowed to manipulate half my money always? This Judge has and had a vendetta against me and it was personal for too long. HE GAVE AWAY MY ESCROW MONEY TO PAY FOR A TRIAL I NEVER AGREED TO HAVE OR TO SIGN ANY AGREEMENT ON.

THE lies written by [redacted] are absurd, stating I never wanted to negotiate. This is Wrong. **I wanted my home, and my 50 50 fair share and not crumbs offered by lawyers and Judges!!! This Divorce judgment will attest to all the biased abuse, and whatever Judge, Administrator [redacted] tried to rule on August 7th, 2019 was also completely void as he was ceased and desisted, and a nobody. But, he still behaved above any law. Judge, Administrator [redacted] needs to be removed from his fake court and has been beyond cruel, setting me up to be penniless and homeless. [redacted] did not allow an emergency stay as well, Telling me I was not disabled with the best medical documentation and still with a team of people helping me from the traumatic brain waiver program in January 2019 as well as now too. My social worker just left here yesterday. I had physical therapy. I had an aide helping me today.**

[redacted] is supposed to be the law, the head, and forced his own solutions to make sure to sanction me to steal all my assets and give my life away to my corrupt lawyer spouse who plans on going bankrupt so he will keep everything hidden. Where is his bond, oath, foreign registration, securities trading license in my demand letters which were sent to all the lawyers too including [redacted], [redacted] only attorney? This video interview above should have been enough for him to be recused. Further Judge? Referee Sugarman was the other

person mentioned who harmed a friend, too, and she was scared to come forward. We all need to come forward in the truth about this vile corrupt abusive dictatorship of crushing oppression.

The JUNE 24TH 2016 mailing to- all politician's listed above, had received documentation about Judge [redacted] removing me from domestic violence in family court. He Sua Sponted me without a motion or due process and wilfully deprived me of my rights as I needed a permanent restraining order and he lacked the Jurisdiction to give me this in Divorce Court. I requested a recusal motion 100 3E and 100 3F from my lawyer, [redacted] who also ignored me and did not perform. In the 4 29 2019 divorce Judgement, [redacted] sanctioned me over \$150,000 for me locking my ex out of the home in fear from that DV occurrence, and multiple other Police actions. [redacted] used this against me after denying me due process in Family Court. There are more and more biased damages by a corrupt crooked Judge with total prejudice by protecting the lawyer spouse who threw a box of knives at me standing in front of him while using my Walker at home. What was I supposed to do in complete fear? He was locked out. I locked him out. So what does [redacted]do?

[redacted] gives him cash out of my forced property sale in his Judgement which is to be used by him to credit himself, [redacted] for his rent expenses, with no receipts presented at all but beyond that no one has authority to give away money from the forced sale of my home. I am still here. I am disabled. [redacted] GAVE AWAY ALL REMAINING ESCROW CASH TO [redacted] TOO WITH NO E FILING ON THE RECORD, THAT WOULD HAVE Paid OFF THE FRAUD MORTGAGE TOO from the remaining escrow accounts held by the Plaintiff's conflict of interest lawyer escrow friends who testified always against me too!!!! After he was recused! In a cease and desist attached.

Actually no money is owed to any bank that uses my million dollar home equity, to BORROW federal dollars (which have zero value), to bundle using my private name to trade securities on my private name is identity fraud too without my permission. Look, lawyers all cover each other. Our government needs a total investigation of Judges and Lawyers and a reset.

The diabolical behavior of these people needs to be investigated, all their cases, evaluated, and there needs to be accountability for their cruel actions and punishment.

No pension, no more administrators in fraud fake courts of treason and tyranny, and all their corporate investment accounts managed by the clerks, these millions and millions of dollars, need to be given back to Social Security. These people have tried to destroy me and have destroyed many many many more people over the years trading securities for their cush retirement corporate accounts and security funds, using the money for professional AFCC vacations, new cars and more. **FOLLOW THE MONEY. Where are the CUSIP account numbers and what are the EIN Corporations, LLC's and foreign trusts engaged in?**

There is a Court Registry Investment System in place, this is not done by any law at all (CRIS), which is pursuant to Local Rule 67.1 which is an interest-bearing cash management tool administered by the Administrative Office of the U.S. Courts that provides Clerks with an easy, efficient and safe way to comply with Federal requirements concerning the handling of Court Registry Funds. COURT REGISTRY FUNDS! The CRIS funds are pooled and used to purchase U.S. Treasury securities. These securities are held to maturity, and the sufficient securities mature each week to **pay out funds for all Registry cases settled during the week.** Funds are invested in Government Account Series (GAS) securities under the Bureau of Public Debt's Federal Investment Program. **Where are these balanced book payouts? All clerks need to present these our traded private social security money signatures forged, and used in our names. They get paid twice. It is double-dipping.**

Money is sent to the court for deposit into the CRIS requires a court order. CM/EXF filers should use the motion for interpleader Deposit event code if the deposit relates to an interpleader action pursuant to 28 U.S.C SS 1335. In all other instances, the Motion to Deposit Funds event should be used to docket motion.

So to present my constitutional questions, constitutional challenges, statutory challenges in their non-technical form to be addressed point by point, to be rebutted with facts and conclusions of actual law, and not some administrative determination,..... I remind this body and all of you copied above, that Jurisdiction can be challenged at any time and it is at this point in time I choose, wish, desire, to challenge the courts Jurisdiction and demand the court that the court prove with specificity the exact nature of its jurisdiction with respect to the Constitution of the United States of America, and the constitution for the great state of New York. The question is not whether or not the court has jurisdiction, the question is not whether or not the court has statutory jurisdiction, the question and challenge to jurisdiction are specified with reference to the nature of the jurisdiction. The name of the Jurisdiction, the type of the jurisdiction, and the delegation of authority for such jurisdiction.

It is important to remember **"the court engages in commercial business and because it engages in commercial business it abandons its sovereign capacity and shall be treated like any other corporation", The Clearfield doctrine**. Since this Supreme Divorce court engages in commercial business on a daily basis as proved by its **COMPREHENSIVE ANNUAL FINANCIAL REPORTS, the court has no jurisdiction to sit and or operate as a court over any matter presented. Because it willfully abandons its claim to represent the sovereign, and thus is no court, not without jurisdiction, how say you all?**

A suggestion was made by a friend as to REPORTING THE COMMERCIAL COURT CASE TO IRS:

"In commerce, whoever creates the liability has to bring the remedy." It appears that the corporate commercial courts and foreign BAR attorneys are not providing a remedy pursuant to PUBLIC LAW or public policy so why not create our own. We can Exercise our own due diligence, be in compliance with Title 26/26 CFR if we choose and report the transaction as a taxable transaction to our accountants in the PUBLIC (IRS).

It appears that the so-called "judges" in America tend not to honor congressional mandates or House Joint Resolution 192, Public Law No.10 of the 73rd Congress or 48 Stat., Ch. 48 Statutes At Large pages 112-113 and Title 31 U.S.C. § 5118: US Code - Section 5118 (money and finance) or explain to us the resulting "discharge" of the obligation to pay under the bankruptcy of the United States. (Using our cases, case numbers, and SS numbers).

We all have a right to transparency, liberty, freedom, ownership of our properties, not having our children removed, and a right to live in peace without having to try to become lawyers for ourselves after we have been scammed and manipulated to run out of money under deception and duress.

10 years of this divorce, with no custody, and I am now in Federal Court with a 9 million dollar claim filed against Judge [redacted]... so what happens here? It needs to be 10 fold on this amount, \$90,000,000 if I include all the lawyers, office staff, clerks, partners in law firms, politicians ignoring this is fraud which is treason and jail for all involved.

The list is huge with many spokes on the wheel. Right? All are in collusion allowing for fraud, and the theft of my identity too. This is all treason. I have a copyright on my ALL CAPS NAME, which will be presented in more lawsuit paperwork too.

Are our Federal Judges going to uphold the constitution for declaratory remedy and relief here for me? I demand relief from this [redacted] 10 year Fraud. This Judge gave away escrow accounts for over \$300,000 too in a void paper only judgment, where he ceased and desisted from what should have been a recusal. Instead the above the law biased circus with loyalties to my ex B.A.R member continued, as [redacted] still behaved above anything that represented law on 8 7 2019 as well in a courtroom he dismissed for lunch, except [redacted]! This dollar amount would have paid off my mortgage. I could live forever in my home disabled and not be thrown out with no cash from being worth over \$ 1.5 Million, instead of living on Medicaid and food stamps.

Are the same mafia protected systems the Judges use in the lower courts, (Judges all know each other) in their bonds of greed, power, control, and protection of themselves located in the District Federal Southern Court

too? Could the Federal court be the same Rico fraud, money laundering IRS scam as Supreme, Appellate and Family Court is? The buildings are right next to each other as well, just near Chinatown in New York City, where everyone meets to share a meal. Where is the impartiality, jury and constitution??? How will this [redacted] Chief Federal United States District Judge perform?

I have no clue. BUT, Federal complaint file [redacted] was opened on 8/6/2019 in the Southern District Federal Court in New York City where I was granted IFP Application. Whatever Divorce Judgement these administrators made in collusion based on a bulldozed, railroaded trial with another imposter actor Referee([redacted], masquerading as a Judge and Referee in her private office as well, which she called her court!) is totally moot, void, and there was zero jurisdiction with lies and misrepresentations here too. She actually gave my spouse and his entourage (law support team), more laws she researched for them, on the spot during this fake trial, which was noted in the transcript to offer them greater biased support and she said to "let's get this over with" to crush me even further, disabled. She needs to be removed from the bench and [redacted] to obeying no law. There is zero impartiality. It is Nazism, sadism, and these Judges are holding hostages, and enslaving people to chronically be working and working to catch up in legal paperwork, stressed, in legal abuse work, researching, reading, and spending all our cash on massive xeroxing, scanning for lawyers, living on peanut butter and thank God for food stamps. It is emotional, physical, and psychological entrapment on so many levels. REMEDY and RESTITUTIONS, AND DECLARATORY JUDGEMENTS needs to happen.

Many of us would starve without support from our advocate allies. This has been torture. Let's see how much more oppressive, cruel, harm and loss can be created, is what these Judges must ask themselves working daily in the public trust? This seems to be their focus---- I think it is a sport, who can win more abuse and deprivation. I guess forcing suicide with life insurance policies must be their goal to split in return too, as my spouse has a \$1 Million dollar policy in my name with him, [redacted] as the beneficiary in an irrevocable trust that Judge [redacted] made sure in his Divorce Judgement to insist not be changed at all!!!! I think there is a huge Psychosis with gross greed, personality disorders that reveal themselves with these Judges, and addictions, where there is zero checks and balance here to get away with their bullied oppression with people always under duress. There is too much power, with no accountability, and made up codes and statutes to confuse me and the entire population that has nothing to do with our constitution or inalienable rights.

So, is accountability, remedy, and restitution possible? Is this possible? I do not know. All I can tell you is 5 other Judges are included in this for me with the Actor [redacted], and 10 more BAR attorneys in collusion who were not working for me, always leaving me just enough to get by, but otherwise, in debt and deprivation chronically focused on my net worth statement to steal from me.

10 attorneys everyone! My own 5 attorneys were paid by other conflicts of interest attorneys working for [redacted] with my assets released, which were controlled in escrow accounts from the commercial and residential sales of marital property. This was my half of the money stolen by lawyers and [redacted]. I never had control of my money or my assets at all. Everything has been taken. The scamming, delay of due process, engagement in ex PARTE, collusion, and breach of confidentiality agreements were used by my own attorney's to throw me under the bus to look good for the Judge. this was the 2nd attorney [redacted]! Lies were used to harm and manipulate and bully me and many others in these courts of administration and no jurisdiction.

There has to be restitution. Our government is a scam without it. Not all people are corrupt in government. I have to believe this, but the status quo is horrendous in New York City. Who will step up here? If no one does, then, you are all part of this enormous Rico Scam. I am just one person, but, how many more men women and kids go through this daily on the court conveyor belt of asset theft, gaslighting, legal abuse, kids4cash, parent alienation, gag orders, debtors prison, and extortion? I do not know.

If there is no remedy there is no law.

I do know this. **We should not ALL Be in fear of getting arrested in court, or thrown in jail for contempt, or being thrown into a psych ward for telling the truth about our lawless deceptive cases, arrogant con artist lawyers, courts, clerks, CPS, and about masquerading Judges who are really administrators who have entrapped us all, creating a conflict to bill all our assets away, and even double bill as there is a trust here too that is taken for their corporate retirement funds. We are the creditors, not debtors. I have a copyright on my name and anyone using this in any court has serious trouble here too.**

You can all see this deception now in this strawman attachment. Money is taken out of our private funds to pay the courts too, (to trade as securities) as if our own cash and property vanishing with no justice are not enough cash to line these perpetrators' pockets!

Money is removed out of our Private side, from the Cestui Que Vie Trust and when we state who we are in court as "strawmen, spiritually dead in ALL CAP LETTERS, it allows for the Judge And his clerk to do this, we are dead and have not claimed our private side (Follow the money). These "public servants " are operating through a massive Rico dictatorship in our courts of the criminal theft of everyone's net worth, trafficking kids and destroying families. So now what? This is about the BAR, foreign agents to the British Crown, and all our politicians, lawyers, Congress, Senators, Council members are also BAR members. Who is in collusion with Judges and each other? I don't know.

I had to have friends come to court with me as witnesses on 8 7 2019, to show up for me in court for total fear of being arrested or being thrown in jail or a psych ward for **not consenting to no jurisdiction and using common law, and Constitutional law to demand FOIL information from my Administrator biased corrupt Judge [redacted]. I asked the Judge who are you here? No response. I am [redacted] of the [redacted] family, who are you? I am here for your oath of office and Surety bond. Do you have an oath, where is it? He ignored this, and the transcript had none of my comments taken down by the court reporter, as he ordered the court reporter to leave it blank. I am still addressing this transcript and getting sworn affirmations from my witnesses in paperwork to follow up too.**

The transcript and orders are all moot, void, without any Jurisdiction and he needed to recuse himself immediately that moment from the cease and desist presented to his Clerk. He is a criminal with no job, he has provided no oath to the constitution and all that I demanded in a return receipt demand letter April 29th, 2019.

I did get to sit with [redacted] , for some of that Wednesday morning, and let him know all the best actors are right here in that courtroom, not in Hollywood. He was kind to my friend [redacted] who came to support me too as a witness, but Judge [redacted] attempted to give [redacted] everything (which is now moot and lawless), after receiving a void Judgement, a cease and desist, and demand for his bond, oath, foreign registration, securities trading license and more, etc but he ignored it all, cleared his courtroom for lunch but, kept the court reporter [redacted] there, and moved forward without me on the record for not consenting, I did not, "do not, consent". He needed to recuse himself!! He was sued in District Southern Court the day before. The cease and desist documents were handed to him by [redacted], his clerk early in the morning (witnessed by 3 friends and [redacted]). [redacted] the law clerk, tried to negotiate, and I did not consent, he was given paperwork to hand to the Judge to stop. To cease.

The judgment in my Divorce is so biased and retaliatory, no one understands how this is possible; going from \$1.5 to \$2 Million in assets (might have been more, but discovery information was not presented by my lawyers for me, and I was stopped from Discovery for years against full Discovery of [redacted] (ex-spouse) real hidden finances, his IRS EIN information, and trust account information, by [redacted]- who made up one-sided rules here, as well. Discovery was permitted by my lawyer ex-spouse until the month before a forced trial, with no Jury, so all of my rights were ignored where I was disabled and still am today. So from \$1.5 to \$2 Million was my worth, to then being held hostage on food stamps and in debt, with an IRS lien, where the lawyers used the tools of law to commit fraud and set up this lien through forged and fake IRS paperwork, which was copied and

xeroxed. These documents were not sworn or authenticated. My name was added to paperwork in a different font and my SS# too, by a conflict-of-interest lawyer friend of my ex or perhaps someone in collusion at the IRS.

There is an IRS questionable relationship here too that needs investigation. No cover letter was produced for who received a \$480,101 check from [redacted]. at the IRS. He held the money. He testified against me to give it away in court while I was home in bed disabled from back surgery, to pay off [redacted] income and other taxes, not mine. These were not my taxes and filed separately in 2014. Further, this amount was wrong, and more money was missing from the sale of an investment apartment, that [redacted] gave away to who? Where are the EIN financial numbers and third party accountant electronic refunds that have never been seen from [redacted]'s law practice? Further, again, the discovery was denied to me.

Many of you do understand the machinations of this evil biased, wild wild west system of crushing destruction in our entrapment in these Administrative courts of equity, banking, commerce and contracts for Corporations, not alive men and women. WE HAVE ALL BEEN DECEIVED.

If you are not in court, in battle, (as this is a war here in our own country and around the globe due to our UCC, trademark and patent systems of further hidden fraud), and if this has not happened to you, it is just not believed. The gag orders issued, contempt, and 6 million dollar frivolous lawsuits thrown at you, are a few roadblocks, with the fear of losing confidentiality, which is instilled in you by corrupt lawyers, (and use this to protect themselves), is incomprehensible at all to understand the magnitude of the battering legal abuse syndrome that is endured.

There is also Social Security theft of this trust fund going to kids4cash bonuses to the state, CPS, engaged in child and human trafficking.

There is intentional homelessness, poverty, and the destruction of our kids, destruction of extended families, lost friends, isolation, suicide, alienation, and addictions, caused by these crooks and criminals in the BAR and crooked Judges, not to mention the drugged kids have to take when they are removed from their homes to not freak out when taken and placed in forced foster care too. I am an advocate. And have marched and been to Washington D.C with many family and parent, grandparent, and veteran groups.

[redacted], just moved along, and all my ex's Orders to show cause and correspondence were not e filed. Or, my response documents have not been e filed, and everything was placed "on paper only". What kind of circus is this? Who makes all this up? It is not constitutional law. It is criminal. There is no Jurisdiction or law license here. His Judgement was also voided by me backed up by Federal Constitutional law.

[redacted] is a psycho diabolical narcissist operating with zero checks and balance and made up his rules as he went along. He needs to be removed from the bench. [redacted] always makes sure I am alone in court with no one witnessing anything - Giving away all escrow money accounts to My ex with no accounting, and always sanctioning me (The less moneyed disabled and now indigent spouse). This Judge tried to give a receivership to sell my 34 yr old co-op to my lawyer ex when he should have recused himself. He has no standing. It was personal. There is not impartiality. Also, I was sanctioned by this freak to receive no money on my 34-year-old co-op, and he has made sure on paper to exposed me again to owe 50% of the money I will never see in IRS taxes. It is a textbook fraud. And he was charging me mortgage maintenance and insurance, disabled, not working with zero support from his biased Judgement of fraud in a 34 yr. Marriage in the first place!! ---- None of this is real. I will see no money after the sale of my co-op home and set me up to owe IRS taxes for money paid to [redacted] again?!!!!

I have 12.5 hours of help in my home weekly and still walk with a Walker. The THEFT HERE is all made up by administrators with zero Judicial power. It is smoke and mirrors. He was RECUSED IN A VOIDED Judgement.

Where is the law? Where? Who is going to step up here FOR ME and nationally for my friends too? **I have hundreds, thousands of friends in over 45 groups who can be reached to produce 20 years of this scam? Well,**

even 40 years of this scam is going on, watch my friends [redacted] being interviewed by [redacted], both men I have marched with while in Washington D.C. in 2017 and 2019. [redacted] INTERVIEWS [redacted] ON HIS BROADCAST FROM NEW YORK below is an hour interview:

[\[redacted\]](#)

Who is going to step up here? There are Civil rights abuse, disability rights abuse, criminal prosecution, torts, delay of due process 9 years for me others 14 years in Divorce, domestic violence, no jurisdiction, tampering with paperwork, not filing responses on the record and missing paperwork, filing false financials, malfeasance, treason, fraud, IRS laundering, the use of my name without my permission, identity THEFTS by multiple attorneys who involved themselves using my name and their partnerships, and partners in collusion for not reporting this. Triple damages? civil cases too? You name it, I got it in my case, and I have friends with wiretapping, false imprisonment, stealing stocks, taking cars, homes, clothing, kids on alienation, stealing credit from banks, running up credit cards, taking jewelry, antiques, art, etc. and placing children in custody repeatedly with the sexually abusive partners, Weaponizing kids to keep parents in conflict. These sick judges give custody away to the sexual abuser of babies, from months to years old, referencing Munchausen's syndrome which is not even a real medical diagnosis. THIS IS DIABOLICAL. The trafficking of kids in our courts by these sick Judges, which we now understand as administrators are beyond criminal.

I just want my home and the equitable cash to live. I want damages for 10 years of abuse and all my money back for the legal bills I have been forced to pay the scam lawyers. My kids are adults, still emotionally harmed from 10 years of witnessing my abuse. However, some of my friends, have lost their kids to the sexual, emotional, and psychological trafficking incentivized in forced kids4cash CPS social security trust bonuses; Destroying the family, removing kids with made up fake forensic reports, fake medical reports, and or ignoring domestic violence, CPS and with police support, are then placed into foster care or even placed with the abuser to create that billing conflict supporting 20 AFCC private club members, GAL's (Guardian Ad-litem) salaries in our Courts of corruption.

Then there is a delay of due process in the court where Child custody is lost, with kids then placed in forced adoptions, where names and SS numbers are changed. These Judges allow kids to be taken, without warrants and they are part of the umbrella for human trafficking, where they are sold into slavery, used to breed babies for satanic sacrifice for sick cults or for used for body parts, sexually abused, or worse by our crooked Judges allowing for parent and grandparent alienation here too.

Our system is so vile and corrupt, that every day kids are missing, or run away, never to be seen again with no one checking on them, but those checks keep on coming right out of the Social Security trust to foster parents who even sometimes take healthy kids and make them sick for special needs higher valued Social Security larger \$\$\$\$ checks! Social Security needs a total audit too, pay attention. Where is all this money going to? This is what is happening all over in America? Pedophilia and trafficking are supported and even created in our courts of corporate profits for them.

After a few days from my 8/7/2019 appearance to collect surety bond information, oath, etc from [redacted], I finally get the voided cease and desisted court reporter transcript and it is completely wrong and rewritten. Here is more Obstruction of justice too. I wrote to [redacted] and asked for the audio. The transcript was entirely wrong, and the court reporter said there is no audio or visual filming. Here is also a huge problem. The Judges get to change the transcript. Period. This happened to me in family court too for domestic violence, where this corrupt Administrator [redacted] Sua Ponte'd me back to his court and I never got a permanent restraining order as well. The family court Judge in collusion called [redacted]. There is too much abuse of collusion, control, and power. I was denied due process.

Liens need to be placed on these bonds; [redacted] bond and his court clerks bond too [redacted] and more lawyers for me and Judges. These are the same bonds used for our identity theft trading done

in our private names and SS # which hopefully are discussed in this book attached and on the bonds that the private Judge Corporations trade for themselves weekly. My reading is still not great from this brain injury and my writing is slow too.

I am not a lawyer, Nor do I ever want to be. I have not read this Strawman book. I think it is a miracle to have it.

Please forward this on, you have my permission to share this. I am sorry for the length. I am tired of being told I am crazy or looked at like no one understands what I am saying about private and PUBLIC identity. There is a matrix. There are two governments. Our SS cards have a private and public side too. All caps are PUBLIC - the DEAD STRAWMAN CORPORATION on the front and the back is the Private number for our spiritually alive men and women. Then there is the Birth Certificate number top being traded which we know nothing about. **We need our CUSIP number(s) opened to know what is traded or closed value on our divorce, and custody case (s). It is a FOIL.**

The Judicial lower courts and CPS needs to be disbanded along with the criminal BAR foreign Registry. Our system of government is corrupt. REFORM IS AN UNDERSTATEMENT, Banking is right here too with more lawyers at closings or foreclosures and the IRS with taxes?

We are all slaves to PAY off the debt we never incurred and all our identities have been used on the private side without our knowledge or real permission. We never see this or many say we have not claimed our private trusts.

Our Politicians might know this and need to have the status quo remain the same. Many are all lawyers. Some may know about this book attached, others not. **I believe these poor law school graduates are trained to just behave and accept the system as is, and possibly are just not aware of this fraud on all Americans and the College students too who are mentioned by [redacted] in the above interview too.**

The conspiracy surrounding this private trust traded without our knowledge, STRAWMAN, and social security fraud, along with the mortgage con of using our property as collateral to take out federal paper to then bundle and trade this against our signatures in the illusion of cash being loaned, has nothing to do with money but federal notes, fractionalized then securitized too. Where is the cash loan? A loan is a cash loan, not to have the bank take out a federal note loan using our private signatures? We signed our names away and in small letters somewhere we have allowed the banks to trade with our private identity signatures using our home as collateral. Where is our original title?

Everywhere there is a fraud and we are running around like chickens without heads, or trying to be contortionists in an attempt to be treated with decency, respect and impartiality in a lawless system of con artists and a BAR crime syndicate engaged in fraud.

LAW does not exist. Codes and statutes are not law. Deception, immorality, with zero ethics and zero integrity, and certainly with no checks and balances does not promote law either. Not law. Where do we go from here?

I want restitution. I will not be set up for 10 years now, to be penniless and homeless. It is unacceptable. I will continue to fight, but if millions of dollars have been made on my slave back through identity fraud, I do want to understand how to tap into that cash and release liens and mortgages owed and to have my Bill's paid. I want to know how many homeless people have been screwed in our courts too all over the united states, some living off the grid in Arizona, as I understand? Some of these people are Veterans. This is sickening. Our war is right here in the USA. People need to get out of denial.

The Judges and & lawyers have their language and behaviors to oppress and manipulate us and make us all just too emotionally PTSD'd to operate at the highest level of efficiency; Keeping us all in court, chaos, and in unmanageability, twisted in a paperwork drowning toolbox, for them to win in greed. There are no public servants at 60 Centre Street or in Family/Divorce Court. I am done. I demand restitution and damages. I am done being afraid.

I do not know the format or the correct way to present my facts but I will simply do the best I can. I hope the blind copied President, contacts and politicians are reading this or all the assistants in NYC who know me well.

Further, I need a new Permanent restraining order on my lawyer ex-spouse as well to stay away from me and my home until restitution is made in the Federal District Court or elsewhere. I want my home, [redacted] gave away all escrow cash that could have paid off the mortgage. More damages. MORE FRAUD. MY Ex has indicated he will go bankrupt to his son, not paying off student debt, and obviously this is textbook, as his assets have been protected in a trust. He knows as a lawyer exactly how to steal, and manipulate the law to crush others, but to protect himself.

[redacted]

I am a Parent aide company that was shut down because I had a 96% success rate in reunification of families- a Gaudian atlidem got so mad that we helped a mom do everything the courts asked of her and did her own documentation with sign easy to prove beyond a shadow of a doubt she did all her drug drops and her counseling etc we helped her learn how to drive , get her ged go to hair school get her a full time job, housing she went to her TPR hearing and the judge ordered her child to reunification with mom and the gal was so angry because she already had an adoption family ready to take the child that day. She was so angry she filed a complaint against my company saying we crossed boundaries and was unethical they have been investigating me for 9 months and they could not find one family to file a complaint against me. I had 9 TPR turned to reunification and I have had over 89 cases in one year closed - I have helped expose forged documents from a supervisor- I got DFS fired off cases and they are so corrupt They defy court orders and fired me instead against the judge orders- this supervisor was exposed and she was caught lying on the stand 3 x and I exposed her corrupt dealings- I hate cps/DFS I have spent my whole life in DFS. I was abandoned at 3 days old and was ward of the state until I was 21 - I was in 13 different foster homes growing up. I was severely sexually, physically and mentally abused in every foster home I was placed in. I was labeled mentally retarded and could not learn. They refuse to remove this label even though I have two masters degrees in family counseling and crisis counseling- I want to help fight the corrupt cps!!! I have so Many cases that I can prove they are corrupt and hurting families! I lost my contract due to exposing them is the real reason I lost my contract: They want to say it is because of a post which was not true!

I attached just the sexual abuse to this email that I had submitted to a Lawyer for help and I can't get a lawyer to help me because they will not go against CPS

Attachment:

[redacted]

Our son was killed in a car accident and we was raising his children, since cps stole them from us our grand daughter as age as 13 was caught having sex with older boys. This all started only bc I grounded my 11 year old grand daughter for 30 days from the internet over being in a live chat watching half naked boys. And blocked her half sister on Facebook where shed found the chat room, and reported the chat room. 10 days later she went and told lies then CPS came into our home and took her, after cps worker [redacted] sexually harassed my husband and we filed a complaint asking for another caseworker, [redacted] without a warrant or court order with two Wayne county officers entered our home and bc my husband wouldn't except her saying she was sorry she took our grandson [redacted] , one year later after we refused to sign our grand daughter [redacted] and [redacted] over to the state to be adopted bc [redacted] from day one said she had families wanting to adopt them. [redacted] had criminal charges brought against our oldest grandson [redacted] 3, and removed him from our home. [redacted] was locked in a mental hospital for over three years, when he turned 18, he wasnt allowed to come home, cps worker [redacted] and judge [redacted] in Wayne co wv forced him into the marines how after he was locked in a mental hospital after [redacted] swore under oath in our cps case that he was severely mental and suffering with a lot of mental issues. Yet in the criminal case she swore under oath he had no learning disability that would cause him to not understand what was happening to him in court. Our grand daughter since then has been caught

on our Walmart parking lot having sex with older boys, the state police went to her school took her cell phone over stuff she was posting on a website. Our final court order states bc there wasn't any evidence if abuse found the grandparents refuse to believe the children were abuse. Then judge [redacted] forever took all we had of our dead son from us. His three children that we did not abuse, and we had witnesses that was around us all most every day that knew we did not abuse them. Please save my family, looking forward to hearing from you on this matter [redacted] . Mr. Trump our president if u want to win office again, save our children from cps and judges that steal children from good homes all in the name of federal adoption incentive funds, not the best interest of our children. I know of many many cases here in Wayne wv this has happened too, ev

Please Mr. Trump our President save our families, save our children stop the children trafficking for federal funds.. and make America great again as u promised. We the parents believe in you [redacted] Our son was killed in a car accident we were raising his three children. Until CPS worker [redacted] took them, and from day one of removing them had made plans to adopt the two youngest children out. While in state custody I have pictures of my grand daughter at age 12 engaging in sexual acts with another girl, my husband and I along with others have seen her parked on our Walmart parking lot making out with boys a lot older then her. When we reported it to cps [redacted] over [redacted] , [redacted] used it against us in court calling me a trouble maker. I have pictures of my grandson [redacted] laying lifeless after beating in a group home, when I called begging for help for him. [redacted] also used that against me in court calling me a trouble maker that makes stuff up. Bc my grandson [redacted] lived with us and not our daughter [redacted] had judge [redacted] to open a cps case against her, [redacted] was bullied in school, severely depressed and under a doctors care on medical care homebound schooling CPS worker [redacted] , and [redacted] , prosecutor [redacted] , judge [redacted] sent him off where he was abused, beat with a ball bat, made eat molded bread, raw chicken and only three very small cups of water at meal time. I have pictures of his arm where the officer in judge [redacted] court almost broke his arm and he was in an arm brace 3 or 4 months. I have pictures of his foot where he had a ingrown toenail that was so bad the infection spread across his whole foot. When I reported all this CPS worker [redacted] once again used it against me in court calling me a trouble maker. I have court records evidence where cps worker [redacted] lied under oath stating I told her [redacted] was gay which is not true and I never told her that. She lied under oath stating those lies to get judge

[redacted] to remove [redacted] 3 from our home, I have court records where judge [redacted] framed us after judge [redacted] returned [redacted] to our home with [redacted] 3 still in the home, he accused us of hiding [redacted] in the home and not telling anyone he was living with us. After my 13 year old grandson [redacted] 3 told me [redacted] was in a livechat room watching naked boys, I grounded her 30 days from the internet only bc of being in a live chatroom watching naked boys doing things, reported the chatroom, blocked her older half sister (that didn't live with us) on facebook where she found the chatroom. 10 days later [redacted] told cps a bunch of stuff and cps worker [redacted]

[redacted] removed [redacted] from our home until we got her medical records back, (which showed she had not been sexually abused) [redacted] told us she was trained to know more then any doctor knew and she was taking the case to court. After she tried to force my husband to engage in sexual talk with her and we filed a complaint against her the very next morning asking for another worker. Instead [redacted] and cps worker [redacted] and two Wayne co. Officers showed up at our home in the middle of the night after my husband refused to except [redacted] saying she was sorry, she told him that bc he refused to except her saying she was sorry he left her no choice other then to remove our grandson [redacted] from the home. Her and [redacted] dragged him out the door screaming and crying (my grandparents are good to us they do not abuse us I want to stay with them.) She did not have a warrant or court order to remove him. A year later bc we wouldn't sign [redacted] and [redacted] over to the state bc [redacted] from day one had people wanting to adopt them. [redacted] had criminal charges brought against our grandson [redacted] and later when he asked for a jury trial and wouldn't say we abused him cps worker [redacted] and his Gal [redacted] had him placed in a mental hospital for two years or right at two years stating he was severe mental with severe mental issues. When he turned 18 and the wanted to come home [redacted] and judge [redacted] with Wayne co wv court gave him three choices. He had to state in state custody until he was 21, or be sent to a place in Fl for wayward boys for 10 years, or go into the marines for 4 years. He's now in the

marines. But how did cps get him in when he's been in a mental hospital for two years? They now have our [redacted] locked in a mental hospital bc the two women that's married didn't want him anymore. And they adopted our [redacted] out while we was waiting on our supreme court ruling. They already knew the five vv supreme court judges that was charged in taking money was going to rule against us. Our final court order states bc no evidence of abuse was found the grandparents refuse to believe the children were abused and bc of that I must terminate their rights to their grandchildren. Cps and judges, prosecutors, and lawyers are stealing millions of federal adoption incentive funds, stealing children from good homes, destroying families, and children's lives forever all of in the name of, and in the best interest of making the yearly quota of children needed to get the federal adoption incentive funds.

I have court records evidence of everything I state here. I have pictures of my grand daughter [redacted] engaging in sexual activity with another girl after she was in state custody, I have pictures of my grandson [redacted] 3 laying lifeless where he was beat in a group home while in state custody, and no one cared and cps worker [redacted] used it against us in court because we called begging for help for him, she told the judge I was a trouble maker that called the abused hotline making stuff up. I have pictures of vmy grandson [redacted] where the officer in judge [redacted] court almost broke his arm he was in a arm brace 3 to 5 months bc of it, I have pictures of [redacted] foot where he had a ingrown toenail that was so bad the infection spread across his whole foot. [redacted] was forced to eat raw chicken, molded bread, only allowed three very small cups of water with his meals, even when [redacted] tried to hang himself over the abuse, CPS made him go back to the same group home. CPS, and judge [redacted] office knew about the abuse he suffered but they did nothing to get him out, and only sent him back even though he tried to kill himself to end the abuse. Once again bc I called to get medical treatment for him CPS worker [redacted] used it against us in court calling me a trouble maker that lied a lot making stuff up. I have evidence court records of [redacted], Lawyer [redacted], and judge [redacted] setting us up. By returning our grandson [redacted] to our home with our grandson [redacted] 3 still in the home. Then judge [redacted] accused us of hiding [redacted] in our home and not telling anyone he lived with us. When he returned him to our home. They act in the best interest of the yearly quota to get the federal adoption incentive funds. Not in the best interest of the children. My grandson [redacted] 3 CPS worker [redacted] and lawyer [redacted] put him in a mental hospital for two years (River Park hospital) stating he was severely mental with severe mental issues. Yet when he turned 18 on April 27 2019 [redacted] gave him three choices when he wanted to come home. He had to stay in star custody until 21, or be sent to a place for wayward boys in FL for 10 years, or go into the Marines four years. He's now in the Marines but how did a CPS worker pull that one off. My grandson [redacted] is now locked in a mental hospital after the two women that's married adopted him and decided he was too much to handle. We didn't have any trouble at all out of our grand children and only after I grounded my 11 year old grand daughter 30 days from the internet over being in a live chatroom watching naked boys, I reported the chatroom, Blocked her half sister on facebook (that didn't live with us) where [redacted] found the chatroom, did our lives get turned upside down and destroyed by a CPS worker that also sexually harassed my husband and no one did anything to her for doing it bc she's a CPS worker it's sad they truly have more power then the FBI, our president which is very sad. They destroyed my family, my grandkids lives forever. And many many more families and children. I have evidence in black and white and pictures to prove all of this. My final court order states bc there was no evidence of abuse found the grandparents refuse to believe the children were abuse leaving me to terminate their rights to their grandchildren. Our son was killed in a car accident those children was all we had of our dead son. Please Mr. Trump our president save our families, save our children return them home, shut down CPS and federally charge CPS workers, judges, prosecutors and lawyers for the federal reko crimes they have done to us and millions more to get federal adoption incentive funds.. [redacted]

I have pictures of my grand daughter [redacted] engaging in sexual activity with another girl after she was in state custody, I have pictures of my grandson [redacted] 3 laying lifeless where he was beat in a group home while in state custody, and no one cared and cos worker used it against us in court because we called begging for help for him, she told the judge I was a trouble maker that called the abused hotline making stuff up. I have pictures of vmy

grandson [redacted] where the officer in judge [redacted] court almost broke his arm he was in a arm brace 3 to 5 months bc of it, I have pictures of [redacted] foot where he had a ingrown toenail that was so bad the infection spread across his whole foot. [redacted] was forced to eat raw chicken, molded bread, only allowed three very small cups of water with his meals, Once again bc I called to get medical treatment for him CPS worker [redacted] used it against us in court calling me a trouble maker that lied a lot making stuff up. I have evidence court records of He [redacted]

I started researching CPS corruption over a year ago when a good friend had her children kidnapped across state lines. She has lost her parental rights even though there was never any evidence against her. If you read CAPTA, AFSA, and Title IV (E) of the Social Security Act, the mission statement says the goal is to adopt out children. This has caused severe abuse throughout the foster care system and families have been torn apart and children have become a bargaining chip to be abused at will by an evil, corrupt system.

Today, CPS workers are allowed to violate constitutional rights of families. They search homes without warrants and steal children without cause or evidence. Criteria for removing children include past cases, including those going back a decade or more, disabilities of parents and children. One woman was forced to give up her parental rights while she was in the hospital with cancer. Any child under TANF or government assistance is subject to CPS investigation or removal, substance use of any kind, including prescription use, teenage parents, and even victims of domestic violence.

To date, there are currently over 18,000 children in the foster care system who are missing.

These cases are rarely under any judicial process. Advocates demand transparency through jury trials. These children are detained so we believe they should be eligible for federal habeas corpus in order to receive the due process they deserve.

Infants are being ripped from their mother's arms soon after birth under false pretenses. This is written under current DHFS policy.

We beg this administration to eliminate the monetary incentives in place that make this legal child trafficking possible and to end Title IV, CAPTA and the policies that pay for this horrendous abuse to American families and children.

Please end these horrors now!

[redacted]

This email is to inform you that I am demanding the return of my grandson, [redacted] immediately, You kidnapped him due to retaliation and being proven you are conducting Family Court through Fraud.

This court has violated so many Constitutional Rights against my son and my family and when proven you retaliated and handed my grandson over to the State of Missouri and placed him into a locked facility and not giving us access to him.

When a Judge runs out the back door knowing that what he just ordered was illegal then we all know that you have something to hide.

I have already exposed this town and neighboring counties of conducting fraudulent court hearings through your corporation and have already submitted this evidence to Washington DC with verification of removing important Motions my son submitted and a Writ, where you [redacted] refused to answer which was filed in March of this year. We have all this evidence time stamped and submitted.

When you have a Social Worker admitting on tape verifying the fact this court here in Unionville is not doing things above board (which we have on recording) plus the same Social Worker stating that I needed to stop posting truth about the corruption you are committing [redacted], and the others involved and become a foster parent

for my own flesh and blood and just maybe the new Judge may give me my grandson back which you kidnapped in the first place.

[redacted], Social Worker seems to know that what you have done not just to our 15-year-old case but other families as well, is questionable and not above board, then you have [redacted] who was supposed to be the children's GAL falsifying documents stating that she attempted to contact my son for court hearings and we proved that that was a lie, plus she proved her worth when I called her asking to visit with my grandchildren and her first response was HOW DID YOU GET MY NUMBER? you have to be joking right.

Then you have a new GAL, [redacted], who on recording verified that the so-called medication you were putting down my grandson, was not a good combination and stated no wonder he was trying to commit suicide. He too on recording stated that this should never have gone this far and these children should have been placed with their father from day one. In court, he stated what this court decided to do through retaliation (on the recording) was wrong and again not legal.

Then we have the new Judge, [redacted], who he too is a part of the corruption of Fraud, Private for Profit and has a few complaints filed against him as well, and the last but not least, you have [redacted], who was the original GAL in my sons case who stated the children should be returned to their father because he was holding down a good-paying job, had his own place and the children needed to be with a parent, yet, because of the Fraud in this court [redacted] original Judge had to keep the Federal Funds coming in so that this county could fill their pockets with the Social Security Funds the Trust accounts that are in our children's names Child Support, and whatever any other funds you can get your hands on.

When I called this court out as being a Fraud and all the illegal dealings for the past 15 years against my son and proving that the allegations against my son were false you seemed to panic, now I see why and yes this all was on recordings and yes I have proven that the clerks have not put all this into record so I was glad that I recorded it all.

I now have the evidence just from the past 3 years of 11 RICO Violations and compiled the evidence together and forwarded them on, what you are doing now is trying to prove a point that you are in control and even though you are aware I have exposed you and everyone else of all the Fraud you are committing and keep committing. You have placed everyone in harm's way and I have called for the arrest of all involved.

President Trump is not playing around and you will be arrested along with the Attorneys, GALs Social Workers, and Clerks of Courts, and law enforcement, one for an illegal search and seizure when you feared I was going to tape the court hearing again. But I had and have enough evidence, I really didn't need anymore.

You have destroyed the family unit and the trust of anyone you have come into contact with, you have lied deceived the townspeople all because of GREED.

Now again I am demanding you bring back my grandson immediately where he felt safe and loved something he hasn't known in a very long time, especially when it was reported that he was being abused by his Uncle, [redacted] and you turned a blind eye to the x-parte order my son filed due to this abuse and you immediately placed the children back with the maternal grandmother who couldn't take care of her self.

Now if there is any more retaliation I have exposed more evidence with the RICO laws that at least now they will know where it came from. You have already destroyed my son and that too has been handed over to Washington DC so whatever else you want to try and use I have already exposed it.

The ball is in your court now, how much more Fraud charges do you want to add?

Thank you

I have been sending you and several others there in Washington DC evidence on my sons (15) year old case. Both my son and myself support the child trafficking briefing and the affidavits that put Congress on notice.

I have finally uncovered the Fraud and sent this court a demand to dismiss due to egregious crimes committed against

My son [redacted] and his heirs.

I sent this out to you President Trump and Attorney General [redacted] and several others showing the extent of the Fraud.

Since I disclosed this I fear for my safety, because this Fraud goes clear up to the Governor [redacted]. Dun and Bradstreet numbers are for their Corporation and even the Missouri Attorney General admitted he is CPS's Attorney and cannot fulfill his duties to protect the people of Missouri whose children have been fraudulently been removed from their loving families (Trafficked) all for the Federal Funds and my grandchildren's Trust And several other entities with funds to fill their pockets with. I have the proof and I have been sending it to you on several occasions and stated URGENT PLEASE INVESTIGATE on the envelopes.

I pray that now that you are seeing what is really going on you will take action. As I said right now I fear for my safety because I have uncovered their money laundering through the kidnapping of not just my grandchildren but many more.

I live in Unionville, Missouri and things are getting heated here.

Thank you President Trump God Bless you for backing the American People.

[redacted]

Please stop funding states for splitting apart biological families. Funding should be directed to supporting families not destroying lives. Even worse the Agency that collects money for child trafficking (there is no other reasonable description) is self governing. They have all the power and follow no rules not even their own policy. Children are removed from loving families to be abused and mistreated by strangers who care, This is a pedophiles dream. Parents are denied basic due process rights and not even in a real Court. Family Court is a circus, a disgrace. Children and newborns are pulled from loving arms for no reason and there is no support for the family and the court drags out every process. It is agony for the family of the children and the children are damaged beyond repair in many cases. Children are a gift from God. Family ties should be respected and protected. How can it be that in America people have their children stripped away from them and given to strangers? For the all mighty dollar? The children without parents have NO ONE to protect them. How can we do this?

[redacted]

To whom it may concern, Some information gathered for further investigation. [redacted].

[\[redacted\]](#)

Shows a history of the behavior of Gov officials. Once a case is brought before C.P.S. the allegations doesn't have to be true and therefore a parent loses custody without investigating why the case is brought before them in the first place. All parties need to be investigated for this very reason probable cause isn't enough when it comes to terminating parental rights.

[\[redacted\]](#) [\[redacted\]](#)

Hello, Mr. President I send this email with grave concern my name is [redacted] and im very concerned with children being taken the way they have been through C.P.S. I sent my case to 950 Pennsylvania back in 2012. My case I must fight for as it's in regard to sexual abuse of my then three year old daughter. I'm working on a affidavit at the moment and have evidence in my possession showing CPS doesn't act in the best interest of the children. The children are a gift from GOD not the GOV children. While I believe CPS is needed it's not the way it's currently set up. I sent a email to another email address earlier today describing a bit more of my case. I will do whatever is needed in assisting to stop children from being trafficked. I seek monetary damages and prosecution if needed, Please see what's attached im working on updating this affidavit only the dates far as year will change far as notary. Thank you, [redacted]

P.s. you have the power to change the future EVERYTHING in my life and yours and the children and families to come. May GOD be with you
[redacted]

Good Morning:

Please allow this missive to serve as my statement concerning crimes against humanity by representatives of the FOSTER CARE SYSTEM.

We are demanding ACCOUNTABILITY AND JUSTICE.

Our campaign: Accountability and Justice: END Medical Abuse and Foster Care Corruption.

We are demanding an END to medical abuse and Foster Care Corruption.

Synopsis:

October 2006, my two grandchildren were illegally processed into the Baltimore City Maryland FOSTER CARE system.

Both children were demoralized and dehumanized. Research FBI Operation Broken Heart and Cross Country.

My grandson endured of his 10 years of life; eight years of medical torture under the supervision of CHILD PROTECTIVE SERVICES (CPS). [redacted] was murdered in July 2014, after he was rendered brain damaged in 2007, while under CPS supervision. Research Martina Ford v Maryland.

My granddaughter, [redacted] ([redacted] - illegal FOSTER CARE sir name), was kidnapped in 2006, and transported to California for 13 years. She was a victim of forced adoption for 13 YEARS! Research Forced Adoptions, also former Senator [redacted] - "Kidjacked".

Maryland representatives fraudulently exposed my autistic daughter, [redacted] to malicious prosecution and prosecutorial misconduct, resulting in four: Arrests, detainments, period of false incarcerations, and currently being housed at MCIW in Jessup for manslaughter and child abuse for which she is INNOCENT. Research Cruel and Unusual Punishment in the U.S. Constitution.

I have diligently pursued JUSTICE against those people who have imposed these crimes against humanity against my family and I. Surreptitious and often times blatant attacks serve as tactics for intimidation. Research RICO violations.

We are challenged by acts of terrorism. Research Patriot Act I and Patriot Act II.

Our CONSTITUTIONALLY PROTECTED RIGHTS are being violated.

Laws were enacted to protect American citizens from crimes against humanity.

We are suffering from these and many others violations since September 18th 1980, to (date).

Again, people whose religious and cultural behaviors support either child rape or cannibalism should automatically be disqualified from entering, remaining in, or serve as a representative of OUR COUNTRY.

Please respond in writing immediately after the review of my request for ACCOUNTABILITY AND JUSTICE.

[redacted]

My name is [redacted] and I am the mother of the children involved in case [redacted]. I have some concerns I would like to address and feels as if my voice has not been heard in past court proceedings and this is the only route I feel like I can fully be heard. I'm currently reflecting upon the mission of the department which states, "The mission of the Department of Children and Families is to work in partnership with local communities to protect the vulnerable, promote strong and economically self-sufficient families and advance personal and family recovery and resiliency" and it's a very bold and meaningful expression that displays a feeling of enhancing families to be the best that they can possibly be under the guidance of DCF staff. However, the Department's mission does not benefit my family in my circumstance because i have observed the total opposite, which results in a broken home, disrupted family relationships and detrimental trauma. I have been in substantial compliance with my case plan tasks since September 2018, with about four months of mistakes out of my 12 months. I have created numerous of safety plans, even taking classes the department didn't even recommend as part of my case plan to ensure my environment is safe for my children so reunification can occur. I am relying on section 39.522(2), Florida Statutes (2012), provided that a child must be reunited with offending parent if the parent has substantially complied with the case plan to the extent the child would not be endangered by reunification. In my case inadequate supervision and domestic violence was the cause for removal, therefore I provided the department another willing adult that would move into the home to help supervise and who also has passed the Adam Walsh and background and they still denied reunification. I have provided them with a strong support system to help out if needed and I no longer have any contact with my abuser; which is incarcerated for the next 5 years. At this point, I feel as if the department is not living up to their mission and the community expectations in promoting reunification of families or actually keeping them together. They have set my case for termination of parental rights on 10/15/19 reason stated "I can go back to the father once released from DOC in 5 years". I feel as if this is oblivious. My caseworker [redacted] has false documented into my file to sway the courts decision. I have proof. I need help and no one is listening to me. Could someone please reach out to me to provide any knowledge or strategies to help reunify my family? I could be reached at [redacted]. Thank you for your time in reading my message.

[redacted]

Hello my name is [redacted] I live in Saint Louis Missouri our children were kidnapped by Great Circle who is associated with CPS and DFS. My husband and I been without our children for about 5-6 months do to false allegations from childrens hospital we have proof of there lies . They took our children without a court order and didn't even show evidence of what they were claiming since our children been in care of them they have been sick drugged, abused, physically, mentally and emotionally we have pictures of bruises and black eyes that were caused by the foster care they placed them in before placing them with family they never pay attention to anything that is wrong with them their health problems they fill them up with drugs forcing vaccines on them and not letting us know what they been doing to our children , they giving us services that we don't need to keep our children longer and keep our children permantly !! Great Circle has been falsely accusing families and taking children for years as well as all these foster care agencies in the state of Missouri they need to be held accountable for their actions toward these innocent children ... These people have lied on us and we want justice and want our children returned to us today if possible October 6, 2019 and if not today tomorrow October 7th , 2019 . Also our child is in the hospital do to them not getting him checked when my husband and I asked he is on a breathing machine oxygen he was on medication to keep him sleep cause his throat was so closed we asked case worker to get our children checked every visit and she states they are fine now our son is in the hospital. My husband and I aren't even allowed to go see our child without them being there this is not right we want to see our child we want our

children home!!! WE WANT JUSTICE WE WANT OUR CHILDREN BACK IN OUR HOME WE WANT THESE PEOPLE SHUT DOWN THESE FAMILIES WHO HAVE SUFFERED BECAUSE OF THESE PEOPLE WE ALL DESERVE JUSTICE !!!! PLEASE CONTACT ME ! If you have any more questions I will be freely to answer # [redacted]

Our Children Case#

[redacted]

These people who have kidnapped our Children also who had something to do with our children being kidnapped are: [redacted] I can go on with this list we WANT JUSTICE !!!

[redacted]

Dear Mr President Donald Trump,

I contacted California Attorney General [redacted] in 2018 because he publically announced he supported ICWA, Indian Child Welfare Act, for families. He IGNORED me and I have prove he's a liar. Enclosed in attachment file are my letter emailed to him last year. Looks like he supporting child trafficking to me. I am demanding a immediate federal investigation into Northern District Federal Case [redacted], next cmc Oct 7, 2pm 2019. in Oakland Ca crtrm 6, 2th floor, Judge [redacted], The Contra Costa County district attorney office has 8 lawyers against the pro se plaintiffs. Such a waste of taxpayer money, they are working with a 2 time murderer that killed witnesses. Enclosed attach prove. My email is [redacted]. Please text me first since they also have hackers working for them. [redacted], chief county council has her own group homes, prove on attach. I really hope this gets to Mr. Trump and please ask him to contact me ok?

[redacted]

Hello!

I am a mama whose 4 year old was stolen by CPS and we have been ran through the mud by CPS since April. My son [redacted] was diagnosed with leukemia on April 4th. He was deemed cancer free on April 12th and [redacted] was discharged from the hospital, but we were told we would have to continue chemotherapy for 3.5 more years. On April 22nd we decided to seek a second opinion on this protocol with an alternative practitioner and when we told his oncologist this, they called the cops and CPS. Our original CPI investigator with the Hillsborough County Sheriffs Office in Tampa Florida lied and omitted information on her report, leading to an emergency protective order being filed to obtain custody of [redacted] on April 29th without even speaking with us before doing so. We were in Kentucky heading to Ohio to our other practitioner when [redacted] was confiscated by the cops on the same day and placed in foster care. Since then we have had 5 different case workers, been extremely limited in our visitation with our son, and watched his health decline in foster care under the control of the state. We are scared that he will die in their care if this continues for much longer and they refuse to give him back because they say that we will "run away" with him despite us offering to even wear ankle monitors if need be! That is how desperate we are to get him back. We have spent over \$40k in fees fighting in court trying to get him back and he is still not home! We need your help! Im happy to answer any questions and we have so much evidence that they have lied in case notes, neglected [redacted]'s needs and declined his health that I am happy to provide. I've attached a photo of [redacted]. Please help us stop these criminals and bring [redacted] home.

[photo redacted]

[redacted]

My name is [redacted]. I was trafficked by CPS and foster care across multiple state lines under Blount county Tennessee juvenile court jurisdiction. From the ages of 13 to my escape at 16. When I returned home at 16 my mother was arrested and I was unlawfully committed to a mental hospital.. behavioral health center facility.

I have tirelessly and persistently requested mercy and closure for accountability for my childhood endangerment by state agencies and juvenile courts.

I am not seeking monetary compensation nor litigation. I am not pitiful. I am here for answers and accountability for prevention of repeated dehumanization and TRAFFICKING of children in the hands of those responsible for their wellbeing.

[redacted]

To: National Advisory Committee on the Sex Trafficking of Children and Youth

Re: My personal experience with the California Foster Care/Adopt System

From Twitter, I saw that the National Advisory Committee on the Sex Trafficking of Children and Youth was asking for public comment. I have a story to tell of my experience with the California Foster Care System and my short time as a Foster Parent waiting to adopt!! Now it all makes sense... the weird and bazaar behavior of a 2 1/2 year old foster care girl I had in the Foster/Adopt Program. Every time the Foster Care Worker came to take her for "visitation", when she was returned to me after the "visitation", she would have uncontrollable screaming fits, tantrums and diarrhea. Her screaming uncontrollably would go on for 3 hours solid. I finally gave her up because my nerves just could not handle it anymore. The fits would just go on and on day after day. She had diarrhea the whole time she was with me. She was also not toilet trained and was still in diapers. You could not understand her speech. She had a speech therapist come to the house to help with her speech. But it actually much more bizarre than that.

Could she have been sex trafficked? Now looking back and knowing what I have found out about sex trafficking ... I bet she was ... right under my nose ... during the so called "visitation" with family or so that is what the worker said it was.

It was one of the worst experiences of my life and the end of my dream to adopt a child. I only had the one 2 1/2 year girl but it was enough for me to never want to go down that road again!

Respectfully submitted.

[redacted]

Dear Donald Trump of the United States of America,

I am writing to you to get rid of CPS out of this country and shut it down. Don't have it repealed or redone. We just need to get rid of the corrupt system that it has become. I am writing to you to bring home [redacted] son [redacted] in Florida. He's being forced by a judge to do Chemotherapy and his parents cured his cancer in 2 months and naturally. And, they had CPS called on him. Since then he's not be brought home to his parents. He was perfectly healthy and happy and now he's being poisoned by chemotherapy. And, we should be allowed to say no to our doctors and no need CPS called on us. Parents want choices to say no to Pharma ways and go back to God's natural ways and heal our children and ourselves naturally. Please investigate and please reach out to [redacted] in Florida and get her son back to her so she can heal him and heal him mentally and emotionally. Thank you.

[redacted]

To whom it may concern,

I have my DCFS investigative file that took place 18 years ago when I was 12 years old that documents what I am about to say. The allegations suggested I was abused when I was 9 years old, however no such abuse occurred as indicated on the report and I was still a virgin when I was 12 years old and never sexually tainted in any way.

I was told to read a transcript in a closed door room at the DCFS advocacy office. I was then told if I don't cooperate with DCFS I would end up in foster care and sexually abused. Then I was escorted to a private medical office where a doctor was ready to perform a vaginal examination on me and had medical instruments laid out including a speculum. The speculum would have induced bleeding and I realized this so I resisted against the

examination and requested counsel. I explained that hypothetically if I were abused the alleged injury would have healed after three years. I was threatened with harassment and stalking by DCFS which they did follow me for years through my adolescence and adulthood.

Fast forward years later I my kids have been kidnapped and DCFS falsified the reports that my children were homeless. I never had prior involvement. In fact I am not being accused of child abuse so why were my kids taken? The entire court system is corrupt and the contractors receiving federal funding. DCFS had been tracking me and went to great lengths to threaten me with severing my medical benefits if I didn't not do what they said.

[redacted]

[\[redacted\]](#)

[\[redacted\]](#)

Please read my petition did I put myself in danger June 2019 CPS took this child on the picture of my petition.

For my protection I'm in a motel and only contact through email.

The foster care system did not prepare me for this world.

[redacted]

My name is [redacted]. I have two children in foster care. My oldest is five. My second child will be two October 11, 2019. They keep canceling court. They don't want to give them back to me. I done did everything they wanted me to do. It's been proven the reason why they took them is false.

[redacted]

Hi! :) My name is [redacted] and I am [redacted] and [redacted]'s mama. [redacted] is my husband and he's daddy to both children. So this is going to be a very long story so please bare with me. I just want to make sure you hear our side before you write your report and maybe to help you understand why we are they way we are with our babies. So we are gonna take a trip back in time now! So 2008 [redacted] and I began a relationship that was a long time coming really! We've lived two houses down from each other all of our lives. And liked each other for a long time too! So we finally got together in 2008 and in 2009 we found out we were pregnant!!! We were so excited! My pregnancy was ruff due to morning sickness and staying in the hospital a few times for vomiting and dehydration but other than that things went well. At about 37 weeks pregnant I went for my weekly check up and when the doctor checked me he said he could feel her foot coming out!! So he said I needed to have a csection asap. So the next morning, March 25th 2010 our baby girl [redacted] was born. She was healthy and doing good! I was determined to breast feed and the nurses were determined to help me make it happen. So for the first two months of her life I fed her breast only but right after that we switched her to formula. Why did we do this? Well she wasn't gaining weight at all and was wanting to feed every 45 minutes. I tried pumping but only produced about an ounce a couple times each day. I was a wreck from not sleeping enough and super stressed about this whole breastfeeding thing. I was also diagnosed with postpartum depression around this time as well. So anyway, we switched and she seemed much better. She was starting to gain weight. Starting to smile. Just a lot better then the breastfeeding for sure. So not long after we switched she got a cold. And during this cold her arm stopped moving. We immediately took her to her pediatrician and he said it was probably because of her cold. Her chest probably hurts when she moves her arm, or something like that. We said okay and he sent us home. Like 2 days later the other arm stopped working. Took her back in and got the same response. Sent home again. Then about a week later her right leg swelled up and it wasn't working either now!! So we rush her back to Dr. [redacted] and he says I think she may have a blood clot and I'm going to refer you to UC Davis for an ultrasound on her leg. Once we get to UC Davis they start running all kinds of tests. Full body X-ray, CT and MRI scans. Well the doctor comes in and looks super disappointed and I'm thinking oh my gosh what is it??!! Well he informs us that [redacted] has

somewhere around 18-23 hair line fractures throughout her entire body! And we have to call cps because this looks to be a severe case of abuse. I'm bawling and my husband is trying to remain calm. We tell them please we haven't hurt her. Keep looking for an answer PLEASE!!!! They say they will do testing for brittle bone disease and a few other things and let us know. Well on day 3 at the hospital June 25th 2010 we were asked to come to a private room to discuss [redacted] medical stuff. So we go and as soon as we walk into the room there are 3 police officers at the end of a table along with the doctor and maybe a nurse? Hard to remember exactly but yeah. We sit down and the doctor explains that all their tests for an answer have come back negative and that we clearly caused this. Then the police officer spoke and said you are to leave this hospital immediately, your belongings have been packed and are outside [redacted] hospital room and if you try to come back you will be arrested. We cried and begged them not to do this, that they were making a huge mistake! But they just told us to leave and don't come back. That someone would be in contact with us. So we grabbed our stuff and left. We got in the truck and I just remember screaming and crying and asking God why??? That 1 and a half hour trip home felt like the longest drive of our lives. We cried the whole way home. When we got home cps showed up and explained to us what was about to begin. Then a few days later the cops called and wanted to interview us. Now something you should know is I was an alcoholic and I abused prescription pills before I got pregnant with [redacted]. I had stayed clean until that day we left her in the hospital. From there I spiraled out of control. [redacted] stayed as strong as he could but damn was it hard. So to shorten this up a bit I'll get through the court stuff a little quicker. We had both family court and criminal court, which was crazy cause we had never been to jail, let alone prison!! So months go by, cps has got my family pitted against [redacted]'s family and his against mine. We separated. I moved in with my dad and began drinking from sun up till sundown. I was sick all the time and became extremely skinny. I attempted suicide several times but it never worked obviously. [redacted] was trying to keep it together but he was slowly falling apart too. But I did spend most of my free time researching an answer for what happened to [redacted]. I knew nobody had hurt her. And I was determined to prove it. We're poor so we get stuck with public defenders. Our criminal attorneys explained to us that we were being offered a plea deal. The deals were 6 months county jail and 4 years probation. They also explained that we had no other option then to take these deals. Otherwise I would be doing 6 years in prison and [redacted] would be doing 9. We were young and scared and I was loaded on prescription pills so we said yes. We plead no contest. We felt completely defeated. Family court was going terrible as well. We were only offered one visit 3 months after she was detained. [redacted] made it and was able to see her one last time but I missed a drug test and was not allowed. So the last time I ever saw my baby was when we left that hospital. At some point during all this I get in contact with a Dr. [redacted] from Stanford university. He says he may be able to help so we send him every medical paper and scan pictures we have. In March 2011 we were arrested at criminal court to serve out our 6 month sentences. I can never explain to you what that moment was like but I'm sure you can imagine. Well we were in jail our moms kept in touch with Dr. [redacted] and our attorneys. Finally the day came that I called home and was told that he had written a report explaining that he believed [redacted] had infantile rickets from a vitamin D deficiency. He also said he would testify on our behalf free of charge. So our next court date arrives and the criminal attorneys say 90% chance we will be getting released today and taking this thing to trial! We were so relieved! It was finally going to be over. But sadly court did not go well. They asked to have our pleas withdrawn and requested that there be a jury trial. The prosecutor said I think it's a little too late in the game for that! And the judge agreed. We were too late. My life was just a game to them. Family court went just as bad. Our attorneys filed a motion to stop the termination process so we could look into this further. They denied that request and went ahead and terminated our rights. About 2 months or so later we were released from jail. Now [redacted] and I had gotten back together right before we were arrested just to clarify. So we are free but on probation and worst of all, we didn't have our baby. We did what we were told, drug tested here and there but it wasn't too difficult. Well at least not for [redacted]. I on the other hand had been ordered to get into an inpatient drug rehabilitation center. Again we are poor so I don't have much choice as to where I go. So I went to one rehab, then left. Went to another rehab, then left. And this went on and on with me also having to do some time in jail for each violation. I couldn't stay sober. Not after everything that had happened. I had to be numb. Finally I leave the Salvation Army and go on the run for about a month before turning myself in. They told me I was probably going to do my 6 year term at this point since part of the deal was if we didn't comply with probation they could sentence

us to our prison terms. I honestly didn't even care anymore. I had nothing to live for. Well Drug Court picks up my case and after 6 months in county jail they send me on a 90 day observation to Chowchillas women's prison. And it was no joke down there. People wanted to see my papers so they knew what I was in for. If I didn't comply I would be beat. If I did I would be beat anyways because that's what they do to child abusers down there. So yeah, lots of fights took place, I cried myself to sleep most nights and prayed that one of these girls would just kill me already. 3 long months go by and I get sent back to county jail. How I survived I have no idea. Basically got approved for Drug Court and was released a couple months later in February 2013 to tri counties treatment but with a stay away order from [redacted]. So we split up and I went to rehab for 6 months. My mom was the only person aloud to visit me. But after everything she had gone through with me and her only grand baby, she was severely depressed and was drinking a lot. After a visit with me on Sunday April 7th, she disappeared. 5 days later on April 12th, the day before my 25th birthday her body was found submerged in her vehicle at the bottom of a pond. She was the only thing I had left in this world and she was gone. My best friend, my everything just gone. It was ruled a suicide by drowning. So i continue to do drug court and in 2014 I went to another rehab and really gave it my all this time. It was again my last shot. I also got permission to see [redacted] again and we got back together. And in February of 2015 we found out we were pregnant!!! We were both excited but very scared because of everything that happened before. Our son [redacted] was born October 2nd 2015. And he was perfect. But as he got older he wasn't developing like he should have. He was reaching his milestones but it took him longer than most kids. So his doctor from birth to about 13 months, Dr. [redacted] in Paradise CA was concerned something was wrong. Basically his head was getting bigger at a normal rate but his body was not. He was very small and still is to this day. At a little over a year old the doctor wanted to send him to Sacramento for some blood work and tests to see what was going on. But we felt he just needed more time so we decided to switch doctors at that point to get a second opinion. Also we've witnessed what it's like having blood drawn from a baby when we had [redacted] and it is not something we wanted [redacted] to suffer through if it wasn't absolutely necessary. When we went to his new doctor, Dr. [redacted] (not sure I spelled that correctly) they were far less concerned so that was a relief. And he started to walk not long after this so that was a huge deal as well. As far as we know [redacted] is healthy just on the very small side. But who knows? Maybe theirs something genetically wrong and we just aren't aware at this point? He is a very bright child and eats well and doesn't have any behavioral issues that I've noticed so that's great! But as I said above he is still quite small for his age but doing well! And then along came [redacted] on November 2nd 2016! She too was perfect to us but she did have jaundice and a slight withdrawal from suboxone because I had been getting it for a few years to help me stay off the opiates. So three days later we went home. And after about 2 weeks she seemed to be doing great, but she was very colic so that was ruff. She cried constantly. Nothing seemed to soothe her. But then when she was about 2 months old we woke up one morning and she wasn't screaming her head off anymore!! Yay! We were so relieved it was over! But after a few months we realized she wasn't progressing developmentally like she should have been. But we tried not to worry too much because [redacted] was delayed too and he was turning out fine. She just needed more time we thought. Around 5 months we had decided we were going to switch pediatricians because honestly we couldn't understand half the doctors we saw at the office due to there thick accents and we also didn't like that we saw a different person almost every visit. So yeah we looked around for awhile and time was slowly passing by. And [redacted] still wasn't progressing. Her teeth weren't even popping up yet and we began to worry but remained hopeful. We worked with her the best we could. We were scared that they would blame us for her delays and take her away. I can't even take myself to the doctor without having a full on panic attack so yeah. Time continued to pass and we held out hope that she too would be fine, that she just needed more time. But finally one day she got a cold and refused to eat. And that's when we became scared and knew she had to be seen immediately. So we took her to the pediatrician and saw some random lady I've never seen before. She said she seemed fine and sent us home! But then the next day we went back and saw another doctor and he sent us straight to sutter hospital in Sacramento. We arrived on January 15th of this year. When we got there they gave her X-rays and scans, just like [redacted]. We were so scared. Then the doctor comes in and tells us that [redacted] has a large cyst on her brain that has damaged a large portion of her brain and may explain why she is so delayed. Our hearts broke for our sweet little girl! What would her future be like? Would she ever sit up, walk, crawl? Would she ever eat again? Would she ever get married? What about

school and prom and sports/cheerleading? All the dreams we had for her went flying out the window and it just broke us completely. But the real kicker here is that in this same scan they also spotted a small spot of fluid that they believed to be blood on the side between her skull and brain. They then explained that they believed this spot came from trauma. And my whole world just collapsed around me. I began screaming and crying and begging them to keep looking cause we never hurt our baby girl!! They said they would but that they would also be notifying cps. Here we go again! This nightmare is happening all over again is all we could think. For 15 days they ran tests and labs and came up with nothing. We did meet a neurosurgeon named Dr. [redacted] who came in one evening and the first thing he said to us was this was not from a trauma but something else. He explained that multiple things could be the cause of this including a vitamin k deficiency or even from crying to hard! After that we were hopeful things were going to be okay but we were wrong. On January 29th we got a call from my sister in law who had our son [redacted] while we were in the hospital. She explained that the cops were there and they wanted [redacted]!! We knew immediately what that meant. Any moment we would be kicked out of the hospital and they were hoping to take our son before we got back. She didn't let them in and hid with our son in the bathroom. We said our goodbyes to [redacted], explained through tears to the nurses what was happening, to please take care of our baby girl and that we had to go say goodbye to our son before he was gone. And that's what we did. We called the police officer that came by once we got home and set up a time to give our son to them. We spent 2 hours loving and playing with [redacted] before the time came to say good bye. We stayed calm for our sons sake and explained to him that he was going to go on a fun adventure. We told the officer and social work we would do whatever they wanted to get them back. But it's been 4 months now and we have been at a standstill this whole time. And cps is wanting to deny us reunification. We see [redacted] once a week for an hour and [redacted] twice a week for an hour each. [redacted] has not progressed really at all. She has a feeding tube now. She goes to physical therapy. She still only has 3 teeth. She can't hold her head up without help and is unable to sit up or roll over. She has gained weight though and thats been amazing to see! I was also informed by her foster mom the other day that she has gotten a cold and is refusing to eat by mouth again. She's still her happy little self despite everything. And [redacted] is doing okay. He's with my brother in law now and hopefully [redacted] will be there soon and out of foster care. [redacted] has a hard time saying goodbye to us and it's heartbreaking. He has night terrors most nights now. We are dying without them! They don't deserve this. None of us do but especially them. They are babies for Gods sake! All I ask is that you read this and look at the pictures and remember that these are human beings whose life is being turned upside down and not just a bunch of files or just another case. We are a family!! A loving happy family. We just want our babies home. And with that I will end this letter. Thank you for even taking the time to hear us out. That in itself means a lot. We truly appreciate it!

[redacted]

Hello. I am wanting to reach out to the Trump Administration that are wanting to reach out to whistle blowers about the corruption of CPS. They taken my 10 month old child away for risk of neglect and abuse. And now saying that my son is alleged to be medically and physically neglected which is a major lie when I can show proof of how many cloths, how much food and how much interaction my son gets. Not just the CPS but also a doctor that validated us with wrong information twisting what me, my gf and her mother has said etc. I am going to be honest. I have never been a big fan of Trump. But if he is going to make a huge step in bringing children back to their loving families. Then I would definitely want Trump to stay president if he does more good deeds like this and also to help low income families which CPS targets the most. I would recommend others to vote for Trump as well to keep him in office. Mr Trump sir. If you are reading this. Please do something real soon. I am tired of dealing with the scum of the earth like CPS.

[redacted]

my children were taken by DCF 4 years ago because I have a heart condition under the American Disability Act no entity including the Department of Children and Families can take a child for a parent having a disability though this is happened to me. I have been fighting for 4 years to have my children back I lost my two daughters due to the fact that I was forced to sign paperwork I did not want to sign I was told I would never see my girls again. I told my lawyer as a time I did not want to sign the paperwork however he told me that if I did not sign the paperwork

not only what I never see my daughter's again but he would not represent me any longer at the time I was still fighting for my son and did not know what to do so I signed the paperwork under duress. I am still fighting for my son but at every turn it just seems like I am making no Headway whatsoever no matter how much I do even though I've done everything that they've asked me to do they still say I cannot take care of my kids because of my heart condition despite the fact that I have a doctor's note from my cardiologist that states that I can take care of my children they have chosen to ignore this letter that I have supplied to them. I have all the paperwork and documentation that states that I cannot take care of my kids because of my heart condition from the Department of Children and Families. I also have my doctor's note that states that I can. I am tired of being harassed by the Department of Children and Families do the fact that I have a disability. All I want is to have my family back and to be left alone that is all I care about I just want my family nothing more nothing less. My son and my daughters have asked to come home repeatedly every visit I go to even with my daughter's right now they have asked whispered and begged to go home. I have been separated from them for so long. I now suffer from PTSD as do my children every knock at the door scares me every rap at the window terrifies me it is made it very hard for me to trust people.

[redacted]

My son has been in dfcs care since 2014,I have everything on my case plan and the americus dfcs still want return my child to me,dfc caseworker gets on the stand and lies to the judge,the casemanger [redacted] tells her what to say while caseworker [redacted] is on the stand and judge [redacted] doesn't look everything you've done on your case plan ,she only looks at the beginning not what you have done to complete the case,it's a lot of corruption at the americus dfcs ,please help my son to be returned me,please look into the corruption that dfcs is doing,and the foster mom is in on it too.

[redacted]

Hello! Good day! You wanted comments on what is happening with sex trafficking in foster care. It is WRONG and goes against the Constitution. We the people are tired of this and we are standing on our rights! You cant kidnap our children and get away with it CPS!!! We want the children to come home!! We have put Congress on notice now time to make some more arrests, abolish this system and return the children!!! The time is NOW!!!! Thanks for your time!

[redacted]

.DHS took our kids one week after I testified against [redacted],DHS worker of 16 years and my sis in law.She embezzled nearly 20 million from the government and that's only what they know of.I worked for her, [redacted],,and [redacted],who were also federally endited. our kids were taken one week after the trial ended on April 13,2017 after we failed a hair follicle that I requested to prove our innocence.Dhs came into our life in October 2014 one week after the feds kicked in [redacted] door.An anonymous tip to the hotline stated we were feeding our kidsmarijuana seeds.....Our rights terminated as parents in June 2018 after working and fighting harder than ever for our kids...completed hundreds of hours of classes,counseling and therapy for two years...Hundreds of thousands dollars of our taxpayers money spent...FOR WHAT????Lonoke County DHS never had any intentions of REUNITING our family.....Dhs has been in our life since 2014.....Never failed a drug screen and took them monthly and had unnannounced house visits, door always opened....and you take our kids over a hair follicle that was later proven by Dhs after the judge ordered them not only to test our house but have it cleaned too.....We got a new house...and [redacted],our caseworker wouldn't even come see it..Our kids rooms are still waiting on their welcome home....Everyone who knows us knows our kids are our life....God did not bless us with them to have someone else raise...those are our fruits....Judge [redacted],,[redacted], and [redacted],we will fight for our kids til the day we die.....PLEASE SHARE...SHARE....SHARE...FREE THE [redacted] KIDS!!!!!!If my past had no mistakes,there would be no lessons to learn.....it's when you are honest about the mistakes u make and own up to the sins you committed that you become humble,thankful,grateful,you get to experience real joy even in the worst of situations.....There is one major detail that we have that proves Dhs and anyone else involved fabricated evidence possibly took bribes and never planned on reunifying us with our kids. Like I said before they are going to hate the people they have turned us into. They made us hit rock bottom.

They took our house they took our kids which was our life and now trying to take my husband's freedom two years after our rights terminated. We didn't bother anybody we always paid our bills. we have never had a shut-off notice. We had four babies in diapers and I was unable to work. this is how close our family was before DHS took my kids. my brother [redacted] took over all of my house duties when I got put on bed rest with the twins. he also took the kids to school and pick them up. I haven't been able to speak to my parents, I mean actually sit down and have a conversation in months. DHS has drove a wedge between us. It really hurt when no one my side or his even

called to check up on us except for three very special people.....I guess dhs thought I didn't keep every single piece of paper,text,email,drug screens,hair follicle, house results.....and wow I don't think they realize that at two different drug and alcohol assessments they tried to say I failed a urine test and the first time in 2016 they said I failed for meth and thc and I left but had my caseworker [redacted] on the phone and told her what happenshe was supposed to come that day and didn't show up til the next and I was clean but it didn't prove what I needed it to and the second one in 2017 was at Williamsburg Rca and [redacted] said I failed for benzodiazepines and thc.....I was ready to call the police and she tested it again and tried to calm me down by telling me it was negative.....I was so upset.....and tell me why we had to do 12 more groups when we were still working on the first assessments recommendations.....which was 9 group 9 individual classes..... and yes on July 25th 2017 when we didn't get our kids back like they told us we would and the judge said we had to do another assessment that we lied on our first one we went and got high one time then told our caseworker...it was not smart but I didn't know how to deal without my kids.....it hurts....I can't even think about another Christmas without them...We will make it though.....We did everything asked of us.....We didn't start any classes til after that test and thats we began to grow.....We always had our door open and our kids made good grades and hardly ever missed school...Our house was always clean and alwAys had plenty of food....The Lord will expose them and this empire fueled by greed....Look at the torture our kids have went through...do you realize they aren't themselves...they are who they have been trained to be....the people who see them day to day have never seen them truly smile....Free the [redacted] KIDS..Let our Children Go....we lost our 6 kids and did everything Lonoke County DHS asked... been married 16 years this year and had twins after being fixed...four babies in three years and DHS made monthly visits since 2014....never failing a drug test...and our rights terminated because we are drug addicts....our babies never stayed the night anywhere until they took them.....A life sentence times 6 for us and our kids....No one will ever love our kids like we do...Murderers don't even get life sentences.... Please share and help us get the [redacted] kids home..Im not stopping til we get our babies home.....The Lord is always with us,taking care of us.He created us to live for Him.We often forget our purpose which is to glorify him.He is not limited by time or space.His presence with us is a forever promise.

[redacted]

I am just a mother. I never imagined that any mother or parent that had done nothing wrong could suffer such an injustice as I have. I always believed justice was justice and although not perfect at the very least they were fair.

I went to Child Protective Services in October of 2018 for assistance in a child sex matter. My daughters' father had done some inappropriate sexual things with a 4-year-old child and my 4-day old infant. With my infant he tried to do sexual things with her laying on his chest and I immediately stopped him. I witnessed him grinding his private parts on the 4-year-old child one evening prior. After the first incident I was terrified and didn't completely understand just how bad his addiction was. I tried to resolve the issue internally and when that didn't work, I left him. After the second incident I attempted to confront him with his inappropriate behavior and asked him to get help. I let him think about it after I had spoken with him about it. When I realized he still refused to get any help I went to CPS. I thought between CPS and the police department all would be handled. After all, one simple psychosexual assessment could have resolved the whole matter. Instead, CPS refused to properly investigate the case because he "said" he was innocent and had never done anything. It took them 5 days to determine that my daughters' father was innocent and I was just an embittered ex. I let it go because shortly after he filed for custody.

I have been told three times by two separate individuals that his attorney has the judge in his pocket. I told both sources that none of that mattered because she had to follow the law, boy was I wrong. April of 2019 paternity was established which we both knew whose child she is. On May the ninth of 2019 we had our first hearing on custody for the judge to hear what we had to say and hear our evidence. On May the 10th he was ordered full custody and I was given two hours a week supervised visitation. What? Seriously, I was floored. I am a great mom, no testimony of abuse or neglect. No testimony that I could not care for my child. No evidence of medical or psychological harm. In fact, my child was in perfect health and more than well taken care of. I served in the Army where I maintained a TSCI clearance, absolutely no criminal back ground, no drugs, no alcohol use, no dating or partying, college educated and devoted to raising my child 100 percent. My child has never wanted or needed for anything in my care. On the other hand, he had never spent anytime with her and was a complete stranger. He had never provided anything for her. For about the first week she was alive he tried to co-parent. When I informed him that he would not be doing sexual things with my child, he refused to see her again. Regardless of his abandonment I continued to send him pictures and keep him informed of her growth and development. I made multiple attempts to work with him to schedule supervised visitations to an avail. He would have nothing to do with her unless he could have "his alone time" with her. I am sickened every single day knowing that my child continues to be molested everyday that she is in his care. I can't even describe the hell she lives in between him, his mother and his home. My child went from a peaceful tranquil happy life to pure hell. When I say she lives in a junk yard, she literally lives in a junk yard in a shack that is over one hundred and forty years old. I am not faulting him for being poor, I am faulting him for molesting children, being negligent with children, parental alimentionation and medical neglect. On top of all of this he was very abusive with his ex-wife and oldest child's mother, no one believed her either.

I have contacted every entity I could imagine in my fight for justice including the mayor. I have gotten the CPS case reopened 3 times to no avail. In fact this last investigation included a document which was falsified in part by [redacted] the CPS investigator. When I contacted the person who administered the test used to clear him all she stated was "I only did what I was told to do". How do you fight to clear a child molester? Why in Gods green earth would they go to such extremes to prove him innocent when I know what I saw him do and its not just my infant child involved. I witnessed this grown man take a four old child while she was asleep and grind his privates on hers. I was pregnant and scared and didn't know what to do. Yes, I should have immediately gone to authorities, but like four fifths of Americans I was afraid. This is why we are so afraid to speak up, when I did, they took my innocent infant child and put her in the home of the molester without first making him take the proper test. What? How in the world does that happen? What human being would take a child from a perfectly good home and place her in a home alone with someone who had these allegations without first ordering the simple test that would prove one way or another? When are we going to put the children first? The day I left him and decided that I could not live like that it was to get my child away from the sick sick life he lives, in and out of his sex life. I have seen the other two children in his care go without food for 8 to 10 hours on multiple occasions because he was busy working.

I am writing this to make notice to the corruption in both Child Protective Services and the courts. My judge has now gone as far as ordering a six-year protection order against me with no evidence. My attorney seems afraid of fighting the corruption, like is he does it will ruin his career even more. My attorney is a prior judge and is fair and righteous, but he wouldn't play the make a deal game. My cases in court have gotten completely out of hand and CPS needs to be shut down. The judge on my case needs to be removed permanently from her position and never allowed to sit on the bench again. My whole story is madness and as my friend tells me "you have more evidence against the judge than against the child molester".

If you can offer any help, I would greatly appreciate it. My case numbers are [redacted],and [redacted],. Both cases are being heard in Calhoun County Alabama courts located in Anniston Alabama.

[redacted]

It is quite an honor to contact you. My name is [redacted] and I reside in Florissant MO. First of all let me say that

the whole state of Missouri is corrupt and multiple children get kidnapped without a court order. The state kidnaps children for money, human sex slave trafficking and abuse in foster homes. It is an epidemic in Missouri that children are being taken into custody without a court order or a reason to take them, this is out of control for the corrupt system full of police officers, attorneys, hospitals, schools therapeutic agencies and lawyers. These people are able to break all kinds of laws, lie under oath, falsify documents, misdiagnose and illegally drug children with psychotropic drugs and the list goes on and on. They make parents take parental classes to get enough time to completely take parental rights away. These are usually Masons in the same secret society but they are very corrupt, this is very serious and harming children and babies mentally, physically and psychologically. Obviously the only thing that matters to the family court is how much money they can get per child. They set us parents up for failure not knowing that the whole point of court was to get full custody of children and keep us out of our own children's lives. The CPS has become pharaoh and we are in bondage and can't defend ourselves because they make their own rules. I just pray that this stops all over the world in Jesus name. My children were kidnapped by my brother [redacted] and [redacted]. The CPS came to my house claiming that I missed court knowing there was never a case against me for something I didn't do. My Husband whooped my child with a belt and did his time for it in March and I have not seen or been with him since. They sent multiple court summons to my home and would always cancel the several times I went to court along with my dad and my kids, but they kept telling me they couldn't find a judge who would take the case, I have proof of this as well. The CPS waited till the month of November to get my kids in custody, I had completed in home services but the DJO [redacted] lied about it. So my kids had been with me since March 2018 and we had been pretty under the weather in November but my other two boys did attend Robin-wood school district which is not a very good school for children. The teachers make a lot of money from misdiagnosing children without a diagnosis from a doctor they keep them at a very low level. The people that came to get my kids was two women and two police officers that boldly forced their way through my door, and stated they were taking my children because of a missed court date, I really could not understand why this happened but there was a black woman named [redacted] and the other woman would not disclose her name but I knew them from a very disruptive relative of theirs that I had a restraining order on. so they were very nasty, disrespectful and hostile they took my baby daughter and my oldest son and then went up to Robin wood to get my two other sons. Later on after that I made a police report that my kids had been kidnapped and they would not allow me to know their whereabouts, not even a call or nothing, so shortly after all called Florissant Police my brother called my dad and told him he had my kids the whole time. the following court date they put on supervised visits like I was an institutionalized criminal and [redacted] and [redacted] would harass me over the phone stating that everything I have for my children will be taken away and that they will file all four of my children on their taxes that they had no consent to do. My children were being abused and deprived of food so on Christmas I had a chance to see them and my sons told me they were getting abused and my baby was being hit by [redacted]'s girlfriend [redacted], so I hot lined [redacted] and [redacted] that they were also putting alcohol in my baby's bottle so I reported that and the fact that he had touched my oldest autistic son. So My baby girl and youngest boy moved in with my Aunt [redacted]. In the mean time [redacted] illegally forced my son in a psychiatric ward with caseworker [redacted] and she told the doctors at St. Vincent Hospital that she was the mother and put him on psychotropic drugs because he told that his Uncle [redacted] was abusing him and his sister as well. All of these people are criminals but yet and still the Judge [redacted] allowed a schizophrenic pedophile to keep my son. I got [redacted] and her supervisor off my case but they have done so much to hinder me and I have complied with every single thing and that does not even matter. I will send you my letter to the judge and nothing family court does make since they allow criminals, pedophiles and ex con to kidnapp children and grant them custody to make money and benefits, its sick and a horrible nightmare. But I know the Lord sent you to shut this sick operation through a disgusting individual name [redacted] the Lord wants our children free to go back to their loving homes. [redacted] put my son with a strange foster family like he is a judge without my consent please help this goin too far. Please help us in Missouri!

[redacted]

My name is [redacted]. I would like to add my voice regarding this urgent issue as a concerned mother.

I have a 5-year experience with Family Court including Child Protective Services. I was very naïve 5 years ago thinking that the system would protect my innocent child but I was very wrong unfortunately. I am currently being forced by Family Court to share 50/50 custody with my child's father who has a history of depression, making suicidal threats, substance abuse issues, and who is neglectful and violent, hence; the reason I have a Final Restraining Order against him here in Bergen County, New Jersey. The father only went for custody after being advised by the Hearing Officer that it's the only way to reduce his child support obligation.

Sadly, none of this matter's to Family Court. In fact, I was recently mocked and laughed at by Judge [redacted] for bringing up my concerns regarding my 5-year-old daughter's safety and well-being while in the father's care. All the while, the father is being given a green light to continue as he pleases. I contacted Child Protective Services for assistance but social worker, [redacted], only wrote down what her protocol allows her to despite telling me something completely different.

At the last Court hearing just a few months ago, Judge [redacted], has threatened to possibly give sole custody to either the father or place my daughter, [redacted], in Foster Care. Foster care shouldn't even be an option in this case since I as [redacted]'s mother have a clean background and always put [redacted]'s best interest above my own.

I am very happy to learn that there are many brave people who are trying to make changes within this very broken system and end this corruption. The most important issue is the protection of the child from either an abusive parent and/or foster care/forced adoption especially when the child clearly has at least one stable parent or other protective family members.

We need urgent help as soon as possible before more children are traumatized for life or lose their precious life's.

Please help us!

Thank you so much for your valuable time.

[redacted]

Sir,

Please assist in the illegal removal of my son. I was told by cps that I could not travel for my job or I was neglecting my son. As a veteran, I have fought for the very same freedom these CPS workers took from me with my child. [redacted] was taken on October 18, 2018. His mother put in jail for nothing in Rikers NY. She did nothing and they keep saying medical neglect. COS said nobody can do anything and they do what they want.

SANTA ROSA COUNTY, FL has deliberately hurt my son and nobody cares. People wonder why matters are taken into their own hands because illegal immigrants have more rights than a veteran. I have reported this terrorism of CPS IN FLORIDA to the administration, however nothing happens. Please feel free to contact me at the number listed below. I have all documents with proof of the lies in court.

I support the briefing on child trafficking and the affidavits that put congress on notice. I would love to support and aid further development of the campaign.

[redacted]

My name is [redacted]. I am a mother of 5 children. My girl's age's, 17, 15, 1 year, and 8 month old twins. The twin girls have been placed in foster care since July 9th of this year. My husband, 17 year old daughter and I are being looked into as abuser's! We are potentially facing criminal charge's. CPS intervened the moment our daughter was taken to a local hospital in Washington county Maryland. Knowing they do this routinely, I had no problems answering questions about her injury. My husband woke up with [redacted] when she started crying on the early morning of June 9th. I had been up several times that night with both babies so my Husband [redacted] decided to take care of her so I could catch up on some rest. We had just moved into our new home and our stairs are a little tricky. Falling down some of the stairs with the other twin [redacted] the previous day, he stayed close to the wall that morning holding [redacted]. As he reached the bottom of the steps, her leg caught the door frame that sticks out over 3 inches and she cried out more than she already was. The twins were a little over 4 months old at this time. As a fairly new mother of twin babies and a one year old, I couldn't rest hearing her cry. When I went downstairs, [redacted] told me what happened and said she will not drink the bottle he made. She was not crying at this moment. When I reached out for her and he placed her in my arms she cried out. I looked her over, ran my finger

up her leg and felt a bump. Right away, I got dressed, awoke my 17 year old, [redacted], placed the twins in their car seats and we all headed to the hospital nearby. My 1 year old, [redacted], stayed at home with [redacted]. I called my cousin to help me. She has lived in this area a long time and asked her where I should take [redacted] and told her what

had happened. She directed me and said she would meet us there. [redacted] had an x-ray on her leg and was positive for a broken femur. I spoke with a CPS supervisor first, asked me about the incident and wanted to go to our home to speak with [redacted] and also see [redacted]. I gave her our address and called my husband to let him know she would be coming by. He said during her visit she expressed empathy, said "accidents happen", and continued to tell him a personal story of hers, about a child she had adopted. That on the day of court the child got a black eye. I had to speak to a police officer who also wanted to go to our home. I gave him our address also and called my husband again to let him know about his arrival. My cousin is a EMT and made a call to have her Transport people take [redacted] by ambulance to Washington DC children's hospital, where they chose to send her. I would have chosen John's Hopkins Hospital in Baltimore, where we previously lived. I followed behind the Ambulance as far as I could. They had turned on their lights and sirens, and picked up speed. My cousin told me not to speed with them or run red lights if they do so. Traffic was slow and we had to stop for gas and food. We arrived later than [redacted] by about an hour or so, around 6 pm. The emergency department there was awful. She needed a new IV which was put in by two very nice nurses. She could not eat because of possibly of surgery. They didn't administer fluids for her until 12 am, or pain medication until 1 a.m. luckily they gave her some at the previous hospital or during transport. I told countless people what happened, explaining myself over and over. But I happened to mention that my husband had a fall with [redacted] the day before. They suggested I have her looked at also. Both twins received skeletal X-rays. In [redacted]'s x-rays, showed the femur and a healing lower left arm fracture. I assisted in [redacted]'s x-rays, feeling awful for having to put her through such torture for no reason. I was at my wit's end with the radiologist after asking for multiple shots of the same area, she was crying and tired and so was I. A Doctor told me that [redacted] also has fractures in different stages of healing. I was floored!! No way she was hurt, how, when???

They preceded to tell me some of the injuries" had to have been caused by a twisting, pulling motion that is not caused by daily care." I kept my husband in the loop through the night and we were confused about what was happening. But when I told him of this news he was full of how, and when questions. We all were amazed at what they were telling us!! A CPS worker called me, I explained everything to her. She said that our 1 year old had to be seen right away and checked out also. More than 75 miles away from home, she offered a cab ride to the hospital. [redacted] was also tortured and was near faint by the time they were finished, hyperventilating. Results came back she was negative for any evidence of fractures or abuse. My husband was free to take her home, but instead came up to the babies room where they were admitted and we stayed together. We wanted to be together and find out what was wrong with our babies. The Doctor, [redacted] the CAP was diagnosing abuse. CPS said we needed to be involved in safety plan or our babies would be taken and put into foster care. She gave us less than 12 hours to come up with a plan. Find people to take our babies or move someone into our home to be "a supervising adult" to watch us care for our children. We found a family friend, the babies godmom, and my teens stepmother to help us. The babies were discharged to her and her husband. [redacted], [redacted] and I were interviewed by a police detective one by one in our home town. Again.....we told them what happened. We met the CPS worker there and signed the safety plan. We all eventually went and stayed with the babies. We were in constant and consistent contact with the worker. I pleaded for her to investigate quickly, ask all contacts we had, all baby doctors we took them to, all friends to see we are not monsters that abuse our babies. A few visits, I thought she was on our side. Seeing us with the babies, being supervised, loving them in person. Nope!! 3 days before the 30 day safety plan was up to re do, she had COME WITH POLICE AND PAPERS TO TAKE OUR TWIN BABIES!! ME AND THE GODMOM WERE AT THE GIRL'S PEDIATRIC DOCTOR THAT DAY!!! HER REASONS WERE ASSUMPTIONS ACCUSING US OF NOT BEING PROPERTY SUPERVISED !!!! NO PROOF OF SUCH AT ALL. [redacted] HAD ANOTHER FRACURE FOUND WHEN I TOOK THEM BACK TO DC TWO WEEKS AFTER THEY WERE DISCHARGED!! HOW?! WHY?! [redacted] SAID IT WAS MISSED DURING THERE HOSPITAL STAY! I WAS FURIOUS IT WAS MISSED AND KNEW IT WAS GOING TO CAUSE A PROBLEM. ALSO IN [redacted] PAPERWORK TO CPS, SHE STATES, "Thank you for taking [redacted]!" In [redacted]'s paperwork she states "Thank you for taking the twins!" I was furious and told her I WOULD FIND MEDICAL CARE ELSEWHERE, I WOULD NOT BE COMING BACK THERE EVER AGAIN! JULY 9TH CPS and police took our babies!! We see them in a

visiting room, at the department for 2 hours 2 times a week. We are reaching out to experts in the medical field that could help us out. My husband and I feel they have some kind of blood deficiency, or bone disease underlying there fractures and the fact they bruised easily. We are researching, reaching out to whoever will listen to get help! CPS had us in a Family involvement meeting and told us how good we are to work with, visits go well, we get along well with the foster parents, but are WAIVING REUNIFICATION!!!! WHYYYYY?? TO ADOPT OUR BABIES OUT AT SOME POINT TO MAKE YOUR QUOTAS??? TO GET STATE MONEY AND INCENTIVES?!! I'M FURIOUS AND AM READY TO FIGHT TILL MY LAST BREATH! WE WILL STAND UP AND FACE THEM , MAKE THEM TEST FURTHER AND FIND THE REAL DIAGNOSIS FOR OUR BABIES HEALTH AND TO BRING OUR FAMILY TOGETHER AND OUR BABIES HOME WHERE THEY BELONG! THEY MEDICALLY KIDNAPPED our daughters and are holding them on false allegations!! Child abuse pediatrician's need to be more diligent and perform a broader range of testing before families are torn apart and innocent parents are blamed for hurting our beautiful blessings!! How dare they?!?! The system is broken and we can't trust CPS or any doctor affiliated with them!!! Thank you for reading my living nightmare. Our broken family pleads for help and support , not just for us but many, many more families out there in AMERICA!

[redacted]

Cps is destroying families and it has got to stop our kids are not for sale please I'm begging you put a stop to this and return our kids

[redacted]

Subject: MY SON WAS LEGALLY STOLEN FROM ME!!!

I am fighting to get him back NOW! And there are judges who are willing participants in my matter! Help me get him back!

[redacted]

Dear President of the United States, Donald Trump,

I have a case of extreme deprivation of rights. It started when I was married to my ex wife, she went to see a therapist. The therapist very quickly started having an affair with her. I made a complaint to the state therapist license board and my complaint was treated like a joke. The director did not even seem to care and tried to just ignore my complaint. My complaint contained the pornographic pictures I found that the therapist was sending to my wife, on his business e mail. These are 2 pictures of his self, holding his private parts and a picture of my wife, showing off her private parts. Nothing happened, the State board seemed to not care and tried to ignore or cover up the complaint.

Nothing happened at least until I talked to Reporter [redacted] about it. He did a news report about my complaint being ignored. That's when the State started investigating and they did finally discipline the therapist. It seems they just slapped him on the wrist, but the therapist did have to be reported to 2 national protection databases. During all this I went through a divorce in Lyon County, NV. This is where the deprivation of rights happened. My ex wife and this therapist have been together throughout and are still together now. They have conspired and colluded during our divorce, he has been her mentor and I have completely been erased and removed from my 2 children's lives. Lyon counties court system seems so dysfunctional it is unbelievable. The last judge assigned to my case has handled it so poorly. The mistakes made and orders that are contradictory are numerous. The Judge in my case has NO experience with family law, has never had a private practice and has only been a DDA and a DA, a prosecutor, he completely acted as a prosecutor throughout my case and has just been focused on prosecuting me from the bench.

My ex wife has denied my custody of my children for very long periods of time. The court has done nothing really to stop it, only the first time, with the first judge who retired soon after this, there was an award of makeup time. The withholding of custody started happening a lot again, and my oldest son started being encouraged not to come see me. The court wouldn't believe or seem to care this was happening. My ex wife and the unscrupulous therapist started saying my oldest son was having emotional problems caused by me, yet I was being denied my custody. I have not been proven to be an unfit parent, yet the court removed my custody and ordered

me to have supervised visitation at a place that was not even open when this visitation was ordered to take place. This was done after these unproven accusations. My ex wife and the therapist started taking my oldest son to another therapist, without my knowledge or consent. This therapist was proven to not even have experience with children or divorce, she is a loss of life, grief therapist. The court allowed her to testify against me. The court said it did not find her testimony all that convincing, written in the order. Yet became so biased and prejudiced against me, and started persecuting me. This other therapist was an advocate for my ex wife, this therapist at one time actually tried to negotiate my custody and was asking me if I would take my kids for a less amount of time. I kept asking her if she was considering the effect of my ex wife continuing to withhold my custody but she would never respond about that. I only communicated through emails with her.

There has been proof submitted that my ex wife has personality disorders, in an evaluation that the court did order. There has been the consent decree filed to the court that the therapist is unethically involved with my ex wife. The court was even made aware that it ordered my visitation at a place that is not open by my ex wife's attorney, but won't correct it. The court seems obsessed with financially destroying me and prosecuting me. It is judicial bullying and misconduct, the court allowed deliberate poisoning of my relationship with my kids. I am a loving parent, I have tried to stay a part of my children's lives. Because of the court's actions I have been unjustifiably kept from having a relationship with my children. The whole time they have been exposed to an extremely unethical therapist who has been living with the children and my ex wife. My ex wife has mental, personality problems and the therapist has been reported to 2 national protection data bases.

I contacted then Governor [redacted] about these problems. He said I could file a judicial complaint about the Judge's misconduct and gave me the information for this. I did file a complaint and afterwards found out that this Judge was a member of the discipline board. He proceeded to retaliate against me. He then ordered me to pay all my ex wife's attorneys fees. Right now the court is operating off of a temporary order, for years, revolving around my oldest son whom has actually aged out and turned 18. My youngest son is hardly addressed in these orders.

Because of the actions of the unethical therapist and the poor actions of the court, I have been systematically removed and erased from my children's lives and my entire side of the family has been too. It seems I have just been framed as a unfit parent by my ex wife and her unethical therapist working together. I believe this is wrong. I have been treated as if I have zero parental rights to my children and since the court has been so obsessively focused on prosecuting me for wanting to be a Father, it seems impossible to fix. We need some serious court reform done in this country.

Anonymous

Dear Mr. President and Donald?

Thank you for inquiry into child trafficking. I have not been involved with Child Protective Services, however, I do have information on what I believe is a RICO like in Pennsylvania, my case for \$6M. Please contact me if you can help!

My ideas: Repeal ASFA AND The FATHERHOOD INITIATIVE, which incentivizes custody to ALL fathers, and wastes govt incentives to the States. Wealthy men are securing this, so it not a good welfare reform. It has destroyed many children and mothers. I have information and names. I also have information about a federal bureau and state AG who I believe specifically conspired for \$6M.

Thank you very much. I have filed complaints in each branch of government.

[redacted]

Dear President Trump,

All the Rico violations by Jasper County, Joplin Missouri should be investigated.

The state is not only kidnapping our children to gain the social security cash and federal funding. They are stealing from us our God given rights to raise our families as our constitution guaranteed us all.

There is not one CPS worker, gal, judge, not involved in stealing our children for profit. Breaking the Rico laws just one of the many laws broken.

You would have all the poor Americans on your side next election if you destroyed the whole CPS network in America never to rebuild it. It's wickedness can not be allowed by Americans as constitutional.

It's is not.

We love you as our President. Please fight the real fight for all of us.

[redacted]

Plz help stop the abuse in West Virginia that CPS is imposing upon there citizens. Mental, emotional, psychological abuse. Not limited to violations of civil rights and breaking court orders set forth by courts. Taking babies from home and recycling them because of federal funding. I have experienced this First hand as a ex cps worker myself and fighting the system for four yrs over my son. The so called state WV has so much amunity they do what they want to ppl and without any repercussions. As a family man and a long line of family support I am sad to say I hate to say I am part of WV due to the corruption that is being done to its ppl. I have tons of proof of the acts that have been done and still going on. No matter who you call or turn in it get covered up and sweep under the rug. I am will to do anything to change laws, stop funding, and stand for ppl who can't or don't know how. I personally myself have been abused by the state and have suffered including my family. Plz help me and put me in the right hands to help me. Every attorney I talk to is scared to go up against the state. Why is the constitution of the US and civil rights even exist is this stuff is allowed to go on in America today. I know it's in every state. We need laws changed, funding stopped, laws changed and ppl held responsible for what they have created.

[redacted]

Dear Dept Of Health,

Please click on these links. These are two of my twenty affidavits of court corruption. I need help ! If I didn't go to school for law my daughter would have been dead. I saved her from her abusive dad. The courts didn't help and almost got her killed.

[\[redacted\]](#)

[\[redacted\]](#)

[redacted]

I am a whistleblower. I have asked about everyone nationwide for help with the blasphemy in Mississippi cps. Come to find out it was much deeper. The courts, prison, lawyers, judges, lab folks, court staff, doctors and nurses and even office staff law enforcement hell even convicted criminals have given me and my son and husband and dad the shaft you name it almost we have had it done. Beaten. Civil rights gone. Hate crime, persecution for believing in god heck I even see the damn drones that aren't supposed to be there yet. Last night I yelled help and the cops removed me from my home to aide the person I was needing help against my home I own and pay taxes on I might add. My sentimental items destroyed as I lay cold and lonely in a truck destroyed by this involuntary civil war. I have even heard my stuff in music and art work and the presidents mouth. Banks robbed funds locked up tires damaged by asphalt glass and black box malfunctions

We the people are fed up.

[redacted]

My name is [redacted] out of Columbus Ohio and Franklin county children services is stealing children at alarming rates, judges or magistrates don't bat an eye or question evidence. Hear-say is all you need to get a child removed. 9 times out of 10 these children are put with people that mentally and physically abuse them. I am an ex foster child my self and my brothers and I have been through some abusive homes. Once they have a hold they don't let up as they have robbed me of being a mommy at all costs all while damaging my babies that know mommy loves and want them! All Cps needs abolished and the so called family court needs reminded there is a constitution to uphold and that we have liberties as well they violate like it's nobodies business. The children's best interest isn't at heart but money and lining their own pockets. I begged for mental health help from 2 counties for almost 3

years to no avail for my teenage daughter to have her and her baby sister removed with blatant lies and mental health neglect being their catalyst. Please Help these children and families.

[redacted]

I am a disabled parent of 3 children that DFS of Wyoming took my children and now putting them up for adoption by the end of the month what my oldest told me. DFS and foster parents told my oldest that her and her sister and her brother are getting adopted at the end of the month.. My children was taken in 2015. The school in Wyoming said i wasn't taking good care of my children and my home was dirty all the time. I don't know how the school would know how clean my home is. The DFS worker said my home was dirty.. I have 4 children and 3 children like to put their toys all over the floors in the house. I am sending a picture of my family when we were able to see each other in 2015. I want my children back so we can be a happy family again. please stop this adoption of my 3 children.. please close all these CPS offices.. But keep the foodstamps and medicaid office open.. I am sick of these people taking children from their family.. the dfs worker tear my family apart and my life to be with someone that makes me happy. I will tell you this that the guy in the picture is my boyfriend that was going to get married to when my family was tear apart. Yes i am with him again cause he got our son but he has full custody of our son. I want my rights to all 4 of my children back and my 3 children back in my life. And I want my recorded closed and send a copy to me and i want the one that is closed burned so no one can open it again. I am a good mom to my children plus i love my children and right now i miss them so much. please help me out. I cry myself to sleep at night cause i don't have my children with me and i miss hearing them call me saying mommy sisters or brother did something. please help me get them home. my home is not the same without them here. :(:(:(

[redacted]

[\[redacted\]](#) Here's a lawsuit we filed after being tortured and abused in Minnesota . We sought refugee protections (in other countries) from Minnesota for "victim persecution and court corruption here. As you already know. Looking forward to meeting with the Trump /Pence teams here in Minnesota this week.

Anonymous

In my case it's not about child sex trafficking, but the murder of my four-year-old disabled son. I had two children, who both had cerebellar hypoplasia, which left them both were they did not have the ability to walk or talk or swallow. They both had trachs one was dependent on a ventilator and the other one was oxygen dependent. Both children were required to have 24-hour eyeball observation and medical. Anyone who took care of either one of these children had to be medically trained. My ex-girlfriend, [redacted], decided she wanted to sell her psychotropic drugs rather than take them and I strongly objected to drug dealing. She got rid of me through a PPO with nothing but fake allegations. This was her way of getting me out of the house so I could not interfere in her drug dealing and having drug dealers and drug addicts at the house all the time around our disabled children. My X had a long history of CPS involvement where she had two children previously taken away from her and she lost her rights because of abuse. I had absolutely no CPS history. After I was kicked out of the house, I expressed my concerns to CPS for the safety of my children. I explained that my ex often does not watch the children sometimes 4 hours and she disconnects their heart monitors, breathing monitors and apnea monitor because the alarms annoy her.. I explained that these alarms let you know when a child is in distress because of inability to breathe. I let CPS know that I was afraid that she will turn the alarms off and go to sleep and one of my children would die because of this. exactly what I predicted would happen did happen. My four-year-old son guide because she turned off the alarms and not only turning off the alarms she didn't even bother to hook up his oxygen when he's oxygen dependent. She murdered that child! when I asked CPS officials why they refuse to listen to me and now as a result of that my child died. for asking that they had me arrested for making terroristic threats and I spent 10 months in jail I these charges. This is how they took care of me to stop me from suing them. After this all happened my ex still has custody of my older son and my rights have been taken away regardless of the fact that I have done nothing wrong.

[redacted]

President Trump,

I am writing this in regards to my brother's death investigation in Cadillac Michigan. My brother was missing from 07/2013-09/2013, and unfortunately found deceased. I'm writing this to you in desperation, as I've exhausted all of my resources seeking Justice for my brother. My mother and I have been fighting an uphill battle with our city officials, as well as the department handling the case. All 4 officials that handled his case, have been accused of corruption, altering documents, collusion, and illegal activities. All 4 were protected by our small community officials, and allowed to resign to avoid criminal charges.

I can reference a case that happened in the same time frame in which the detective/chief of police, and the medical examiner, framed a gentleman for murdering his child. They settled out of court, and resigned.

Now, all my family is asking for, is to have an outside agency help with the case. I've been in contact with elected officials, and I have followed the chain of command, but after 6 years, we have had little progress. Our county no longer has a detective, so his case just sits in a box. We can tell you exactly who is involved, and what happened, however, that doesn't matter if it opens them up for lawsuit. We have a serious problem in our community, and it's nearly impossible for one person to make a difference. Last month, we lost our newly appointed detective, and four other new police officers in less than two weeks. This problem is affecting our lives. The only hope we had for his case was the new detective, as he wasn't a local resident.

Mr. President, we are not the only family. We still have families missing loved ones, with no hope of getting any sort of justice. My brother was murdered, and the people responsible are living their best life.

Subject: Hello ,we have a city council man promising restructuring our CPS, so ,so many mom's went to city council wanting their illigals taken children. Philly is a hotbed of child trafficking and sex trafficking as is bucks county. So many bought off politica...

[redacted]

Dear Honorable National Advisory Committee on the Sex Trafficking of Children and Youth in the United States:

I am writing to you with interest on my knowledge of the issue of child sexual abuse and governmental investigations of the same within the United States. I am an Expert on the topic of unfounded and false child sexual abuse allegations court cases and my CV is attached herein for your perusal. As I'm sure you are aware the issue of child sexual abuse is ubiquitous and Child Protective Services (CPS) as an extension of Health and Human Services (Washington, DC) is charged by the Legislature to protect children at-risk and in harms way due to the issue of child sexual abuse.

And as you know the Mondale Act aka the Child Abuse Prevention and Treatment Act (CAPTA) first passed into law in the United States in 1974 and has been re-authorized by every Presidential Administration over the past 45 years. A well-meaning and well-intended piece of legislation, inter alia, CAPTA adopted the National Child Abuse Neglect and Data Systems (NCANDS), allowed for the making of anonymous tipster hotline calls to report purported child sexual assault, and afforded the government federal sovereign immunity under the 11th Amendment of the Constitution, et al.

Fast forward to 1997 and President Clinton's then signing into law the Federal Adoption and Safe Families Act (ASFA) and the Government strove again in well-meaning, well-intended fashion to expedite termination of parental rights within a 15 - 22 month time frame from the time a child entered foster care, et al pursuant to a juvenile dependency court order. Arguendo, CAPTA and ASFA have been the most game changing pieces of legislation within the area of child protection over the past 50 years.

But, there's a rub. The Government didn't count on or expect the enormous numbers of child sex abuse complaints that have turned out to be, post-investigation, without foundation or frivolous/vexatious. Dr. [redacted], the Director the National Crime Lab in Durham, New Hampshire conducted a 15 year study

[\[redacted\]](#)

[that](#) found while the explosion of child sex abuse reports et al continued to increase to ~3 Million/Annum, the number of unfounded reports of the same also increased. And compellingly, the incidence of child sexual abuse decreased by 50% or thereabouts.

Obviously, while the Government is investigating a mistaken case of child abuse or worse, a witch hunt, on one end of the street, there very well may be a bona fide case of the same occurring on the other end of that same street. Precious resources in the form of human child protection investigators et al and money is devastatingly expended in conducting investigations that could have been screened out from the beginning.

But, oftentimes in its zeal to protect children, the government acts in confirmatory biased fashion by believing children's disclosures of purported sexual assault without considering alternative hypotheses, without considering the commission of source mis-attribution errors and without vetting said allegations of abuse. Enter the accused into a Court of Law.

And once in a Court of Law the awesome power of the behemoth Government fueled by unlimited resources forces the accused to consent to dependency (abuse, neglect or abandonment), or face a protracted trial where competent attorneys and experts are necessary for the accused to be afforded his/her right to due process and

have a chance at impeaching the Government's case-in-chief against them. It becomes a very tilted heavyweight fight, quickly.

My point is the very real and pervasive issue of child sex trafficking in the United States of America can only first be curbed and curtailed by recognizing and correcting the flaws in the Child Protection System "before" allegedly abused children are placed as wards of the State in Foster Care. I was quoted by Associated Press in 1992 that "Foster Care is a breeding ground for abuse." And, sadly it is so. The majority of approximate half-million kids in foster care are not going to wind up New York Times best selling authors like [redacted], who wrote A Child Called IT. In fact, several or many of these same children (a good number were never abused, neglected or abandoned to begin with) sadly wind up as victims of sex trafficking; growing up as prostitutes and occasionally live to become the

[redacted]' of the USA. The bottom line - There's a good number of non-abused children in foster care who've been treated as if they've been victims of sexual abuse. In time, the non-abused child's recognition memory trumps her/his free recall memory and actually will believe they've been abused. These "lost in the system" kids are forgotten about because CPS' caseloads are so enormous there's no time, humans, or resources to care for the same.

This child sex trafficking dilemma can only be remedied if this Country first recognizes and addresses what is right, what is wrong, what is truth, and what is justice. Until objectivity and competence within this system takes over and the money follows it (not Title IV D/E of the Social Security Act that donates bonuses to bad cases), the number of children that fall victim to sex trafficking will increase to an out of control and unfathomable and unconscionable rate.

[redacted]

[redacted CV]

[redacted]

Im a grandmother that had 2 of my grand children 1 for 15 years 1 for 3 years my daughter was released from prison got pregnant in halfway house ..when she gave birth hampshire cowv kidnapped that child when they did they included the 2 children i had custody of no warrent no reason but they left the 2 remain with me from june 2016 (time of the kidnapping) till march 2017 then they kidnapped them thru the oldest from place to place 8 times in 7 months nearly killing him at river park facility in huntington wv they gave the 3 year old to a well known lifetime criminal drug addict homeless jobless theif in prison and mental facilities more than out ...the court paper from 2016 wasnt signed (that judge was a few months from retiring) never heard the case ..eventually they forged his name on a copy i have the evidence my daughter became preg ant again while being threatened and harrassed by cps for over 2 years they took that child also but have since gave her back ..no

[redacted]

I am sending a test message to make sure we have the right email address and to find out what type of response we are going to get when we submit our affidavits.

Hundreds of families including mothers fathers and grandparents are fighting this corrupt system that makes false accusations has ex parte communication with judges and perjurs themselves to try to justify taking our children.

Many of these families have lost everything fighting for their children and now DCF / CPS tells them they cannot afford to take care of children so they are going to adopt them out or place them in permanent foster care and TERMINATE PARENTAL RIGHTS!

Our children are given to strangers to our abusers to child predators to pedophiles and to people who do not take care of them at all! We have been abused and threatened and intimidated and our rights have been violated before during and after court. They will come to your door with the police and take your children without even a court order. But if you try to resist or fight them you will get arrested and they will still take your children. How can law enforcement be in on this if there's no court order and no search warrant? Law enforcement is included as part of the problem for that reason. Some of our children have disappeared and we haven't seen them in years!

Please do not let them drag this out any longer. Over 200,000 children a year are missing just from Foster Care. There is a family in California with a daughter who has friends on Instagram and they are all been put in foster care for no reason and then been taken by pimps who are selling them for sex in different cities throughout California, they move them from one city to another every week. And CPS says well they just ran away. Well if they just ran away they would just come home so they didn't just run away! One of the mothers has found her daughter more than once she has contacted the FBI her senators and anybody who will listen and the FBI says yes we are aware of these girls. We know who some of them are. Well why don't they do something about it?

So I don't know who's reading this message and I would like to know before anyone sends their important details to an unknown email address.

Please respond to me in a way that lets me know you understand and that also gives me the names on the committee or their positions on staff so that I can understand where these messages are going. So I can communicate to people that I understand where these messages are going.

Thank you for what you are doing we have cried a million tears a piece and there is no end in sight without our president helping us overcome the power of child protective services, judges, and law enforcement officers who take our children and threaten us so that we will not try to take them back. It's like a multi-tiered level of abuse. It's like domestic violence it's worse than domestic violence at least with domestic violence you know who your attacker is. We don't even know where some of our children are they have just disappeared. Please help us find them.

We are mothers who want her children back ..

I want to be able to give this email to all the many people that I've known are fighting over the past 10 years and I didn't want to send them down a dead-end road or on a wild-goose chase. This entire situation is debilitating for the Mothers and Fathers and Families whose children have been forcefully removed by the Gestapo tactics I've Child Protective Services in every state. So what I wanted was a confirmation that when I shared this in the 50 mothers groups in this country and the other Collective groups of family members fathers mothers and grandparents that the messages they send we'll go somewhere and be heard and then that I can tell them what will be done with their messages. They have written affidavit they have created motions to modify or vacate court orders they have gone before countless corrupt judges they have lost part of their children and then all of their children at every stage of the process of Child Protective Services is more abuse against the children and the parents and the grandparents of the children. So my purpose above my own purpose is for everyone who has been hurt so much to be able to send their stories in confidence that they won't be used against them to destroy them any further and I won't be used against him to take new children or babies that child protective services doesn't even know about yet. There are children who were in care who have grown up and had their own children and Child Protective Services takes them because the mothers grew up in care. It is a vicious cycle of endless nightmares created by the government that allows Child Protective Services to take our children with no court order no warrant no justification and did no contact with us after the children are removed. I'm trying to finish this without breaking down so tomorrow I will share the words for this email and the words that I wrote then and the words that I am saying now so that everyone can see not only what I said but the reply and then my follow-up

sewed it they know that I did not stop trying even after I lost everything and they lost everything we know we cannot give up. Our hearts will not let us give up.

So thank you for your response and my original message would not be one that I would want to have read because that was just a query but I would love to have the opportunity to compose a message myself however I think that the message is from the parents and the grandparents of the children who are still missing would have more of an impact on the overall situation than what I had to say. My issue is really with corrupt family court in two states giving my grandsons in my granddaughter to drug dealers in two states because their families have a lot of money and they took my grandbabies and almost destroyed my daughter in the process. So when the opportune time presents itself I would like to speak on the matter of corruption in family courts that gives children to our abusers where they continue to be abused and mothers continue to be abused because the system has given the children to The Men Who abused them. So that is my situation and CPS is very more aggressive and destroying many more lives then what has happened to me and my family.

Tomorrow Tuesday October the 15th I believe I will be sharing your response and my comments and I'm sure you will see a few more letters from parents and families in the next few days. Thank you for responding to me I am eternally grateful and I know that someday this will change and this is the first hope I have had in believing that in 10 years.

My married name although I am divorced is different but I'm afraid to use it because I have been threatened and my Facebook profile under that name was idle for five years because I was locked out of it by Facebook. I created this profile with my maiden name for my family and my friends because I could no longer be the person that I was when my grandchildren were taken and given to the man who threatened me and my daughter. I will share my name after I know that people's letters have been accepted and does people know who I am so I won't be so afraid to say who I really am. Thank you very much and I will use this email to communicate until I am comfortable sharing with my original profile information.

[redacted]

West Virginia removed my 7 children from our home and placed them in state custody without any reason. My children were happy and full of life and I spent every minute of my life making sure they didn't do without the things they needed and taught them respect. I lost 3 children and buried them and it killed me inside the last 2 were 5 months apart and I had a mental breakdown and my duties being a mother to them didn't change however my housework fell behind I was fighting the depression and anxiety as hard as I could and trying to stay strong for my babies which I did pretty damn good. I lived in WV at the time and a lot of false allocations are made there every time someone gets mad at you they call cops they go for your children. When they would come they said no reason to open a case but the night my neighbor called the police it was over the state police came and took my children. My husband does drink but not excess and he never disciplined my children while drinking I am a mother that will kill over her children. Neither of us were on drugs and still aren't the next morning I was at the cops office before it opened waiting to speak to a very young rude person named melody and all she did was sit there and ridicule me and throw everything of my past up and tried every way in the world to provoke me into doing something to her because once I started telling her about herself the same state trooper rounded the corner of cubicle and ask me if I wanted to go to jail that was [redacted] of course I was so angry I told her I didn't really care at this point and I was escorted out of cops. Year's passed by with very little contact with my children and they were put with my husband uncle and aunt who r severe alcoholics and the only reason they ever wanted them was for the payments and food stamps and that was there way out of debt. My children are abused mentally and physically now and as soon as they turn 18 they come home on there birthday so far 3 adult daughters have made it out not without damage to there mental state and there physical abuse healed but mental will always be with them. They are all being told we didn't love them making us out to be drug addicts and complete monsters the folders knew better but my younger. The uncle and aunt would hit them call them names talk down to them and

threaten them and the kids called cops many times and was beaten for it so they gave up as the office always informed them they were coming looked around the house but never ask about the abuse. My oldest daughter contacted me out of the blue and told me what was going on and refused to go home I begged her to go home that night and I would find someone that would keep her and go get her so I did after she was beaten so much she had to leave. My next oldest daughter had beat buckle marks even on her face and the same verbal and physical abuse she signed up to go to boot camp to get away on her birthday she came home the last one so far July 2018 she left on her birthday to come home and she had a cracked rib from the uncle so there are Dr records on that. She was the shy quiet time and when she got pregnant she could barely carry the baby to 28 weeks and had to deliver we were sitting talking watching videos she grabbed and said oh my rib hurts and fell over and went into cardiac arrest. She was out for 20 mins with just CPR baby her dad and sister's fiancée but they said that's the reason both are alive. They had adopted my children behind our backs and after I was at the hospital at there bedside for 2 months I was put out due to the adopted foster parents didn't want me or any visitors there including her sister's. She was in ICU and when she saw him walk in the room she tried to climb out of bed to me. She was scared to death and still is because the hospital says she isn't completely mentally back yet they don't allow her to have her tablet charged a phone in her room or anything after the hospital plainly saw who was beside the entire time and they are racist people as well which makes it worse because all my grandchildren are mired. I need help my daughter is 19 and now the hospital in Columbia SC is allowing them to abuse her at a distance as an adult. I'm terrified for my children their mental status their well being and the state of WV needs to be dealt within for these children's lives they are destroying for money there is so much more to tell. Everyone involved in my children's case got promoted the case worker [redacted] went to be supervisor and the circuit court judge [redacted] became US federal magistrate all this after our rights were terminated. Even the judge that did the adoption Judge [redacted] in McDowell county WV retired and my children were told if they didn't agree to adoption they would all be separated and really didn't know what it meant these are sick people. Please someone help get justice for my babies.

[redacted]

This will be a lengthy email.

The inherent trafficking in the family court system is not very well documented as record numbers of pedophiles are being arrested and thusly therein lies part of the problem.

The federal government has a long history of giving incentives to states for funding via Title IV-D, which in and of itself is unconstitutional and has forced the states into a Treaty with both the Hague Convention and the U.N.

To get into the history of Title IV-D is necessary to understand where we are at.

My case in particular is of note. My daughter's mother works for a former district attorney in Hamilton County, Chattanooga, TN. I will send additional emails detailing how my case has cost me a relationship with my daughter and also give additional details about the trafficking involved in and around Chattanooga, Tennessee.

[redacted]

To The Trump Administration's Department of Health and Human Services:

I am a concerned citizen coming forward to discuss my experiences with Child TRAFFICKING in the child welfare and foster care system.

My husband and I have never abused, never neglected, never threatened any harm or hurt our 3 children, ages 12, 13, and 15 years old. We have a clean, nice home in a good area, there are no alcohol or drug problems, no criminal records, and no histories of mental health issues or violence. We've only ever cared for and loved our children.

Estranged relatives, who had not seen the children or anyone else in the family for several years, called CPS saying they were “concerned” for our children and they thought I had mental health issues. These relatives worked with CPS to get control and custody of our children.

CPS in Yolo County California sent a worker who, once we didn’t answer our door, sent a text message demanding our children “be produced” to “the Agency” that very day or he’d get a warrant. He said it was for Facebook post allegations, but would not clarify. It felt very predatory. We told the CPS worker we wanted to find legal representation and that we were out of town for a couple of weeks. Yet, over the following weeks, almost daily, he stalked our door, littering the ground with CPS business cards. He brought police with him at 10:30 one night, pounded on our door and shone lights into our windows and around our property.

In March 2019, CPS and the police stopped my husband on his way to his vehicle to go to work and handcuffed him, demanding he wake me up and bring our kids out or he’d be arrested. The entire city police department had barricaded our block, and I was awakened by frantic texts from my husband. I dashed around getting kids awake and everyone dressed. I exited the house only to be pounced on by no less than 5 police officers. I was not hostile, yet I was assaulted, and ended up with welts, abrasions, and bruises up and down my arms for several weeks. The CPS worker stood there with his arms cross, glaring self-importantly at me, then he entered my home as police handcuffed me, then escorted me barefoot and put me in the back of a police unit while they removed my 3 sons from our home. I did not like seeing this aggressive CPS man alone with my kids as he drove them away.

The police officers refused to answer any questions, and I was not shown a warrant nor was I approached by any CPS worker. Then, much to my dismay, the police drove me, still handcuffed, to a 5150 psychiatric hospital hold stating that I had “barricaded CPS out” and that I was accusing them of corruption when they assaulted me and removed my kids. (I’ve since learned that particular county psych ward makes up ~33% of the county’s market share in revenue.)

The CPS worker showed up at the hospital where I was being held against my will, and where no advocate showed up or returned my calls to the number listed on the back of the patient’s rights booklet. He met with hospital staff behind closed doors to discuss me and my children without my consent. I was held hostage there for the Detention Hearing for my kids, and my voice was not heard in court.

I was never interviewed by CPS. Not once. They were never interested in my side of things. CPS’ entire report was hearsay and I had no way to defend myself against the (really stupid) allegations. During the hearing, the judge detained my kids claiming I was “mentally unstable”, placed them with the relatives who had originally called in the allegations, and also ordered I have no phone contact with my kids. My husband did not have any allegations levied at him except they claimed he didn’t protect them from me, their mother!

The children were told the day they were taken from the home that they might not ever go home. This was incredibly scary and traumatic for the children. The children themselves reported they had no issues in the home and there were no truths to the “allegations”.

Once I was released from the nightmarish political psych hold, CPS and the court demanded a psych evaluation from me, along with drug testing, and therapy services to address my “issues”. My children, who were happy, well-adjusted kids before being removed, were now forced to get therapy, attend appointments, and other services they’d not otherwise need, and moved 2 hours away from home, in a small apartment with one bedroom for them to share. They are treated like objects, indentured servants, not people. They were brought to doctors without my knowledge, therapists of CPS’ choosing (associate social workers), they ordered my children’s birth certificates, talked to neighbors and coaches, called my husband’s work, and invaded every aspect of our lives.

We are a homeschool family, and we’d paid out hundreds of dollars for live, online classes with credentialed teachers prior to removal, and CPS would not support their class attendance. They did not care to educate our children from March 2019 to August 2019, and never discussed the matter with me at all, despite my emails to them outlining my concerns. They cut me out of anything to do with my kids, including education and medical decisions.

My children were on a competitive gymnastics team. We invested a lot of money and time into the sport. CPS refused them training without so much as a shrug. They can no longer compete.

They have searched the children's belongings looking for any notes I may have slipped in (none), and opened their mail after holding it for weeks, reading it and refused to give them letters from me. This is against the Foster Care Bill of Rights for Children.

The county judge decided everything. He allowed my husband unsupervised visits and phone calls as the "non-offending parent", and even a 2 day camping trip. They told him not to include me in any phone calls or he would lose his "privilege". The judge, in front of the kids, told my husband to leave me and maybe he would give him custody of the kids. He pitted my husband against me.

I was given 6 hours per week of high-security supervised visitation for violent offenders in a room, in a visitation center. They take notes of everything I say and do, and I am not allowed to be alone with my kids even for 10 seconds, nor am I allowed to talk to them about the case or help my kids in any way navigate what's happening to them, or they will cut the visits. If children are being abused in Foster Care, how would anyone know with this kind of treatment?

I completed the court ordered mental health evaluation and the doctor testified in court that I have no mental illness nor do I have personality disorders, and that it appears I was held against my will in the psych ward. He stated that my children would be fine coming home to their mother. The judge ignored him, and in front of my kids, the judge character assassinated me for at least 10 minutes in his closing statements, then rattled off ridiculous allegations like "paranoia," "socially isolating the kids," "delusional," "emotional neglect," and "medical neglect" for 2 cavities we had an appointment for yet 6 months later in their custody, they are still not repaired. CPS then demanded another psych evaluation with one of "their people," to which the judge enthusiastically agreed. I was stunned. My public defender tried, but with that judge, anything she presented was futile.

My children attempted to take the stand, begging to go home, but their public lawyer, CPS, and the judge all denied them the right to testify, claiming it would be "traumatic". How is this legal? My children cried in the bathroom after court, and the court used that at the next hearing to withhold my kids still further from me, claiming they cried because of me, when actually they were upset about not being allowed to go home! This is psychologically scarring to children and parents!

After months of weekly supervised visits, the visits never progressed to more time or less restrictive, even though there were no issues with the visits.

The social worker took me to court in early July 2019, and supplied a letter from the children's CPS therapist, who recommended all visits with me, their mother, be stopped so the boys could gain trust with her. They were trying to make the therapist more valuable to the boys than their own mother, superseding my rights as a parent. Who is this therapist and why does she want "special time and trust" with my kids? The judge took away all visitation but 2 hours and now with a 4+ hour drive time.

My worker found out I reported the therapist to the Board of Behavioral Science and she angrily texted me that I was not to write, text, or have any contact with my kids, my kids' CPS therapist, doctors, or the foster parents. She said, if I so much as made one complaint about CPS choices for my children, they would take me in front of the judge and have him remove all my rights. I was also physically blocked by CPS from the children's cell phones that we pay for, and blocked from the Kinship Care foster parent's phones because my estranged family members - who ARE mentally ill and now have my kids - do not want to talk to me. I have no way to reach my own children or the foster parents.

CPS was still not cooperating nor telling me specifics of anything I did wrong. They just kept repeating "mentally unstable", insisting I take anti-psychotic drugs(!), and attend therapy (which I do), to reunify with my kids. They want full information releases of therapy sessions.

They treat me like a criminal, yet I have done NOTHING WRONG.

I believe I am now registered in the Child Abuse Index as a child abuser, which not only affects my ability to obtain employment, I also cannot work with children in the future in any way.

I went 3.5 months without hearing my children on the phone, or seeing my children in person, due to county corruption and abuse on my family. I missed Mother's Day and my son's 12th birthday, and CPS did not care one bit.

My children are no longer the happy, well-adjusted kids they once were before CPS removed them. They are withdrawn, hardly smile, and they look upset, distressed, angry, scared, and abused. I'm deeply concerned for my children.

I do not know who they come in contact with. I know almost nothing about their schooling or day-to-day lives. CPS is making choices for our children, against our wishes and against all we have worked for. The children have stated to the court and CPS repeatedly that they want to go home, and they want to continue homeschooling, but CPS is pushing now for full on public school, with the judge saying we are bad parents for not public schooling our kids which is good for them socially. I have an adult daughter whom I homeschooled and she graduated from a respected university with a medical degree. I have shown I am capable of educating my own kids.

I cannot protect my kids, nor am I allowed to discuss anything with them, and they are not allowed to call me.

These are RED FLAGS. I believe this is why they have alienated me 100% from my kids - I cannot help them.

My children are incredibly traumatized and damaged due to CPS and the judge. I worry something is happening to them at this very moment, for which they cannot speak out. The change in my kids is incredibly, dramatically negative! They are NOT better off after being removed from their home!

The children wouldn't feel comfortable going to the foster parents with concerns or issues, nor to authority figures after what authority figures have done to them. They know these people do not care about them.

I'm troubled that CPS accused me in their reports of saying that my friends and the FBI (!!) are sex trafficking children and this was partly their reasoning for removing my kids, when I never once said those things. Where did they even get those things, other than one casually re-shared post on Facebook which had nothing to do with my local county or the FBI? These people who lie and say the most bizarre things, who've broken laws and WIC codes, hurting my family and kids, who have torn my family apart, who are not qualified to diagnose mental illnesses yet keep acting as if they are, HAVE MY CHILDREN.

CPS has no right to keep my children, yet they have no oversight, so they do whatever they want without concern. I once asked a social worker, aren't they afraid they are going to be sued? She stated that it's rare to get a lawyer who will sue them, but anyway it's covered under medical malpractice insurance. Also, CPS workers are very rarely held accountable.

This is HUMAN TRAFFICKING and it fits under the legal definitions of human trafficking.

As of this email, it's been over 6 months since my kids were wrongfully stolen from our home, and there is no end in sight. The appeal process was delayed because the 3rd District Court of Appeal granted Yolo County an EXTENSION to get records to the Appellate court. Why is this not expedited with children involved? I've heard the appeals process is very bad and it most likely won't get my kids home.

Thank you for your consideration. Please do something to fix this abusive and horrible system of "legal" child abduction by CPS and the courts. I've concluded this email with bullet points and summaries.

- [redacted]

Yolo County California

What I have learned:

The County has all power and control regarding anything pertaining to CPS and the foster kids. My children were placed in another county. I tried to move to a different, third county, and have the case moved there, but I was told the originating county will continue holding jurisdiction unless they willingly give it up. They will not, because that takes money out of their pockets.

Everything loops back to the county. Parents cannot seemingly escape the county to get relief from government over-reach and corruption.

The way CPS is run is different in each county and all (secret) in-house training is done by the county agency.

No social worker licenses are required in California for CPS workers.

One judge in the county makes all the decisions regarding the fate of children and families, without a jury of peers and without any oversight or accountability. The judge is given full immunity.

Cash-for-kids is a real thing for counties in California. The money they get for forced services such as therapy, doctors (MediCal), educational consultants, etc, creates a nice money flow from the Feds --> State --> County, where the county maintains tight control over all CPS matters, with little to no oversight. The state does not provide enough, or any, oversight.

Public defenders, judges, CPS, and other county agencies rely on job security and income provided by taking kids and putting them into foster care. Even the lawyers who should be defending our rights tend to do opposite because they know where their paycheck comes from.

A relative can lie to get revenge or to get your kids, and it's acceptable.

CASA advocates are useless for bio-parents and their children

Police, lawyers, and other county employees work in concert to fulfill the cash-for-kids scheme.

If you file a complaint or a report against a CPS worker or anyone working with CPS, and CPS finds out, you will have more rights removed in retaliation.

CHILDREN are expected to handle their own legal affairs without any help from parents.

CHILDREN are expected to keep their mouths shut, not complain, and also not to tell parents of abuse or they will get punished (no more visits, loss of privileges, treated like prisoners, at the very least).

CHILDREN lose freedoms. They also lose everything they know and have their lives turned upside down in an instant. They are given "rights" of bank accounts and help with counseling for college, and a place to store their things, but not rights to be with their parents or to go home, or to even freely call their parent when they are afraid or don't know what to do.

BIOLOGICAL PARENTS have few options and little-to-no support from the system. The system is built for the children (supposedly, but not in reality) and for the foster/adoptive parent's rights, and for the county's rights. There really is nowhere to turn to with the county holding the reins, and if the county is corrupt, and many are, good luck getting your kids back.

Biological parents and their children are extremely vulnerable in the Child Welfare system. There are few resources to combat unreasonable removals by CPS.

CPS has more power than the FBI, and they even reverently call themselves, "The Agency".

Foster/Kinship parents are afforded more rights, support, and respect than bio-parents. They can also apparently refuse to speak with the bio-parents just because they don't want to.

BULLET POINTS:

- Counties maintain all control over CPS matters, with little oversight and every county training program and CPS agency is run differently, without transparency.
- Most complaints or reports by bio-parents and Foster Kids get sent back to the county. How does this help fix the problem, especially if the county is corrupt and retaliatory?
- No social worker licenses are required in California for CPS workers.
- Judges are immune and not held accountable.
- There are not enough consequences metered out for corruption and fraudulent behavior by CPS workers, attorneys, therapists, and educators.
- The system is setup for Cash-for-kids, even with Kinship Care.
- Biological parents are given very little support to defend their rights.
- Children should not be removed from the home for any reason but DEFINABLE abuse cases. In-home support would go further and reduce trauma to children and families. Also, it would cost less.
- Police should not be utilized unless abuse is DEFINABLY concerning or has occurred.
- Older children are not being heard or respected..
- Children are expected to handle their own legal and advocacy affairs, no matter the age. This is ridiculous.
- Advocacy for children and especially for biological parents, is almost non-existent or poorly handled.
- Funding is not there for biological parent advocacy and legal help, and most funding is diverted to the popular causes, like immigration, transgenders, and domestic violence.
- CPS and the court does not tend to support biological parents, and works against the family unit.
- CPS tends to detain kids as long as possible, as long as the money is coming in.
- CPS and the courts blatantly violate Constitutional rights, such as the 14th Amendment which is supposed to guarantee parents can raise and educate their children as they see fit with minimal government interference. And the 5th Amendment, of unreasonable search and seizure (of parent's kids!).

Some ideas:

- Children should only be removed from their home as a very last resort, in actual abuse cases. In-home support is much more valuable in cases that warrant support - with oversight.
- There should be clear, definable rules for removing and keeping kids in foster care. Vague reasons like "mentally unstable" and "predictive neglect" should not be valid reasons to remove kids from their home and parents.
- Biological parents need way more support and advocacy, and their rights held strictly intact.
- Supply a psychologist in court for each court hearing which children attend, to hold accountable the words and actions of lawyers and judges who should be sensitive to children's exposure to things said, and decisions made, in the courtroom about their parents and their lives. Also, to make sure children have their right to speak up, and to make sure the court maintains respect for the family unit. This is a built-in, healthy form of oversight, if done right.
- Severely reduce the Cash-for-kids setup.
- Take away full power from the counties in CPS and foster care matters.
- Provide real oversight and accountability, including jail sentences for fraud and misconduct.
- CPS social workers should have licenses and transparency.
- There should be a SOP across the board, not on a county-by-county basis.
- Agencies and departments which are supposed to respond to complaints and have oversight, should outline clear steps taken to investigate complaints.
- Judges need to really have more scrutiny when they are the sole power holding kids from families. Full immunity has to stop in order to protect kids and families, or change the court process entirely.
- Allow older children more say in what happens to them.
- Never cutoff parents from communicating with kids, unless there is a REAL concern the kids will be placed in danger by doing so.
- There should be immediate compensation for parents and kids who have been illegally and wrongfully torn apart by the system, because when they reunify (if they do), it will take time to get back on their feet, and they are often financially devastated..

- Parents, children, and concerned relatives should be able to report CPS agencies and workers for child abuse, and not to the county they are dealing with.
- There should be automatic jail time for social workers who knowingly commit fraud to remove and detain kids, as this is abuse and human trafficking, and criminal acts against children.
- Children should be proven to be better off if they are removed from their home and parents.
- Children should be able to maintain sports and enrichment activities if they are invested in them, and they are removed from their home.
- All CPS interviews conducted with children should be recorded.
- CPS and the courts should not be able to dismiss doctor's recommendations that parents bring to the table.

These are the many ways I've tried to get help and report what's happened:

I reported the judge to the state judicial review committee only to receive a quick reply that they closed my complaint. I don't see how they could, when he met at least half of their misconduct bullet points for judicial abuse of authority. There is no oversight on judges, and they have full immunity to do whatever they want to kids and parents.

I reported the social workers to the California State Dept of Social Work. I received a reply that they don't see a problem, and they closed our case.

I reported the children's therapist, and received a reply they were closing the complaint because I do not have custody of my kids (yet I retain medical rights?).

I contacted the state foster care Ombudsman. They took the complaint, and I never heard back. I filed a complaint again, same issue with no reply back. They can only talk to the foster kids and foster parents about specifics, but I have no way of knowing if they have done those things.

I tried to talk to CASA, only to be told I'm not allowed. Only kids can speak with them? What does CASA do anyway?

I reported the children's lawyer to the state bar for flagrantly not defending their rights, only to have that complaint closed without any change.

I contacted the County Board of Supervisors who brushed me off, then sent me to the county Ombudsman who finally returned my call 2 months after I repeatedly tried to reach him. Nothing came of it, and he would not leave a return phone number.

I've contacted numerous advocacy agencies, only to be told funding has been mainly diverted to helping transgenders and immigrants.

I've contacted many lawyers, but I need money to retain one, and I no longer have money for a lawyer.

I contact the new Children's Bureau of Justice through the DoJ, and filed a report. I never heard back.

I filed a Civil Rights complaint to the DoJ itself. I never had a response or follow-up.

I emailed my state representatives, and did not even get a 'thank you for your email' in response.

I messaged the White House about 3 or 4 times.

I've contacted the County CPS Branch Director, who brushed me off. I continued to reach out anyway, and she fought any progress, every step of the way. She has been no help and she still cannot name a specific reason my children are not only detained in Foster Care, but why I am 100% alienated from my own children I have never harmed in any way (yet CPS and the courts have greatly harmed my children). She also does not have a Social Worker License, but she has a degree.

I've filed a motion with the court on my own to dismiss the case along with declarations submitted to the court telling my side of the story. The judge denied the motion. I have no idea if he read my declarations.

I've tried working with my public defender. She says she is only a voice in the court, no more.

Thank you for reading.

[redacted]

[\[redacted\]](#)

I am here today because I would like to share a small portion of my personal experience with the department as well as some interesting discoveries I've recently made.

Due to a then undiagnosed medical condition, in April 2015, I awoke in the hospital to find a copy of a paper (not a court order) stating DPHHS had taken custody of my son. I was hospitalized for 2 weeks and greatly appreciate the department's assistance during that time. However, instead of offering any kind of voluntary placement or respite care as the law and their own policy allow, my son was immediately placed into foster care until late August. During that time the department introduced us to visitation specialist, [redacted], who was responsible for transporting my child. Mr. [redacted] often showed up at my house w/o my son on days no visits were scheduled & made numerous sexual advances towards me. I reported his actions to his coworker in October & never saw him again. Our case was dismissed in early November within days of Mr [redacted] arrest on 4 counts of incest. He is currently serving 80 years on those charges along with another 10 years for witness tampering.

On February 16, 2016, after making arrangements to get my son to school, I was taken to the ER by ambulance. Approximately, 30 minutes after my arrival 2 CPS employees visited me there and stated that the department would once again be removing my son from my care. I'd like to be very clear here...there was NO court order nor warrant only a paper that stated reason of removal as "unable to parent to due medical reasons". There was also NO abuse, neglect, or substance abuse issues & NO imminent danger since he was in school. Yet despite the fact that I was only in the ER for 5 hours that day, my son was taken from school, once again immediately placed back into foster care and never allowed home again, not even for a supervised visit. Judge [redacted] stated "this is the closest I've ever come to dismissal for lack of evidence. It's obvious you love your son and would never harm him and you are certainly looking out for his best interests" and ordered the department to make visits more frequent and to fast track my son home. None of that happened, instead we were outsourced to Dan Fox Youth Homes for supervised visits in their office (which I would walk 2 miles to) and seemingly ignored. I was was given a treatment plan which was not geared towards the reason of removal but instead based upon a psychological evaluation with a doctor the department specifically sent me to. Dr. [redacted], who I had only met one time in early April of 2016, also testified against me in court but nobody bothered to even contact the therapist I have been seeing since September of 2016 even though they had all required signed forms to do so. I completed all the requirements of my treatment plan except I did not establish care with a pain management clinic because when I attempted to do I was refused treatment as I was not & am not on any narcotic pain killers. Even though I had a complete hysterectomy 5 months after the removal which identified and corrected my medical issue, every plea for reunification and/or even home visits fell on deaf ears and the department dragged our case out. Once the federally established timeline of being in placement passed, my parental rights were terminated by the SAME JUDGE who had praised my efforts earlier on the basis that I was unable to change when I had clearly already done so. We appealed on 3 separate points including ineffective counsel, lack of reasonable efforts to reunify & that district court abused it discretion. With all respect to Justice [redacted], I believe that the Supreme Court also failed to properly do their duty by simply not reading the court transcripts. The Supreme Court's affirmation only addresses the final issue & requests to revisit the others were denied. Yet, they recently overturned a similar parental rights case based on lack of reasonable efforts. I have discovered court documents where my public

defender, [redacted], filed bankruptcy to cover his student loans in 1996 (ironically there is no mention of law school whatsoever). These documents give a background of this man that includes substance abuse issues, severe lifelong mental problems with a suicide attempt that left him blind in one eye, years of family & marital issues and a 7 year period where he was absconding from the law on charges in WY while traveling the country with a fundamentalist religious group. His own wife called him "a broken man" who gets angry over nothing and his doctor testified that he would not characterize [redacted] as a "high functioning individual" and that he is not very organized and basically unable to stay on task. Yet THIS is what the state considers suitable representation?!

However, it is not simply my case that I find troubling. We have a county attorney who handles DN cases married to the CPS supervisor in the same county. Doesn't that seem like a conflict of interest? When parents stand up for their Constitutional rights and speak up against the department criminal charges are being brought against them based on allegations and the department retaliates by prolonging cases. Helena's mayor is not only on the board of directors of United Way, who works hand in hand with CASA, but he is also listed in the state's employee data as a case worker for CPS. CASA and CPS should be independent voices...again conflict of interest. A newborn removed from the hospital by the department for "unwillingness to cooperate with this department." Where is that written law as a definition of maltreatment? Representative [redacted] and I personally watched CPS case workers and supervisor walk into the courtroom from Judge [redacted]' chambers IMMEDIATELY before he took the bench. Judge [redacted] then proceeded to have every support person of the mother, including Representative [redacted], removed from the courtroom, leaving a single mom without any support yet allowing a full group of CPS workers, attorneys and support staff for the department to remain, making this woman feel very intimidated.

In an effort to better understand how the funding is tied to all this, I have spent quite a bit of time on the state's transparency website. Fiscal year 2020 began July 1st of this year. Every credit card payment the state made is dated July 22nd. DPHHS' total payments equal \$378,235. Out of that airline fees alone total \$42,656.48 and hotel expenses, that include stays in Dallas, Oyster Bay NY and New Orleans (and many are to 4 plus star hotels) total \$73,878.46. There are other fiscal years that show payments to casinos such as the Venetian, Tropicana and Gold Coast in Las Vegas. There were over \$1.2million given to a local dentist in a years time by the department. Most notably, I have found payments not only to the accounting firm the gentleman who adopted my son works for but to at least 2 of his immediate family members as well. And I still don't understand how ordering pizza the night before my son's removal shows an inability to properly care for him, yet the department can spend over \$6000 at candy vendors in one year and this is acceptable.

Just these few questionable instances I've mentioned, discovered by a person with no background in either research or investigative work, paint the department in an extremely unfavorable light and if I can find these kinds of suspicious connections it poses the question....what else is going on with this department whose mission statement is "keeping children safe and families strong?" This certainly hasn't been my experience.

Many compare cases of forced adoption to our broken criminal justice system. But I would add one exception: Even though parents in my spot are put in a lifetime of punishment, we are often — as in my case — never convicted of or even charged with any crime. Yet the most precious thing, something even more precious than our own lives, is often stripped from us at the hands of people with (as evidence shows) worst pasts than our own with public records to show for it. I don't condemn them, but this system makes it impossible to understand the condemnation of myself and my son.

Our state has an opportunity right now. We are rated #2 for seizing kids from their parents. We can do better. We can set an example. There is a growing movement in Montana and across the country to correct the wrongs that have been done to parents whose kids are taken in exchange for federal dollars. Let's be the place with leaders who acknowledge the damage done to its citizens, and have the courage to say 'enough is enough.'

[redacted]

While CPS, I'm sure, has a record of the very ineffective counseling my mother received regarding my physical

abuse by her from a very young age (I used to go to school with black eyes), I feel that absolutely nothing was done regarding psychological abuse and deprivation of basic human necessities by my father, despite weekly CPS counseling.

Here are some things that I feel can address the problem of abuse in rich and upper middle-class families.

1. Child protective services counselors should be required to advocate for the equality of life for children from previous marriages in married households that have additional children by the married couple.
2. Child protective services counselors should be required to advocate for the care of a child's self-esteem, including advocating for braces, dermatology, driver's license, clothing etc. In families who have the means. High self-esteem = more successful.
3. Child protective services counselors should be required to advocate for children who are under weight. Even if there's a fridge full of food, how much of it is stuff the child is willing or allowed to eat. Advocating the child's proper nutrition, especially in children with psychological problems about food should be required.

Another idea. A kitten or puppy should be strongly suggested for children who are largely cared for by a step-parent, who would inevitably be cold and distant. Kids need love and dogs and cats provide unconditional love.

[redacted]

During the early to mid-2000s I was a deputy sheriff in Atascosa County. I saw on several occasions where children got taken out of homes for situations related to marijuana or other drug infractions. The children were placed in situations where they were abused sexually. One case in particular stems from three little girls who were placed in the custody of the mayor who was a single related male. He molested all three of them and I arrested him. This may or may not be something that you're looking for But it was very strange.

[redacted]

My name is [redacted], I am from Taylorsville, NC, and I have had a history of hundreds of appearances in the Orleans County Family Court in Albion, New York. Most involved my two children [redacted]. The Family Court of Orleans County, New York continuously allowed the fathers of my children, and their paternal grandparents to use the court system to harass me from 1990 through 2005, when I finally left the state of New York and moved to North Carolina with my children. Even then, the harassment has not stopped.

In the early 1980's I was riding my bike with several other kids along Roosevelt Highway in Point Breeze, New York. There is a dirt road called Clark Mills Rd, in Waterport, NY, that had a train trestle along an abandoned set of railroad tracks. It was a favorite destination of ours, because the creek that ran through that area also ran past the dam at the end of Lake Alice. The waterfalls were fun to climb, we fished there often, and at the Archers Club on that road, unless of course a member came and kicked us out. At the end of the dirt road, at the intersection that met up with Roosevelt Hwy (Route 18), there was an orchard, and in that orchard, there was a migrant house. The county is a rural farming county, and most of us grew up helping on the farms or having a migrant shack (as we called them) next door to us, because seasonal workers were common in our area. We all knew kids that came to school in September and left in November for Florida. That particular migrant house was off limits. I can not even remember who told me stories of this place, or why we were aware of its reputation. Mexican migrant homes were notorious for trouble, but we all knew this one was taboo. So of course, we decided to explore. When we came up to the house, some Arabs came out, in the garb and all, speaking a language we didn't know. They only knowledge I had of Arabs was the cartoons and kids' stories of Aladdin, but these Arabs decided to scare us, and tied us up, and swung some swords around. I was terrified and thought we would die. They untied us after about ten minutes, and we rode our bikes straight home. No one believed the story though, because this was a migrant house, and Mexicans are the only migrants that our parents knew. So the grownups wrote us off, because Arabs were not something Orleans County had ever seen. Years later I began to suspect that these Arabs were trafficking through there, because Point Breeze is a rural port, and the dirt road has convenient access to RT 98 North, which

would lead right to the NYS Thruway.

My brother was convicted in about 2010 of robbing the house of some credit cards and a laptop. A victim never came forward, or reported the crime, which makes it seem like there must have been a government connection. He is still currently serving time in New York for this and other drug and dwi offenses.

I had my first child [redacted], with [redacted] of Ridge Road in Knowlesville, NY in 1990. I had an experience in October of 1989. After Hurricane Hugo had brushed Florida, and made landfall in the Carolinas, I decided that I did not want to have my baby in Florida, as I was 5 months pregnant and wanted to go home to NY. [redacted] and I traveled from Florida to New York approximately two weeks later and stopped in Maryland for several days to visit his family. I met his cousins, and one of his Uncles, all from [redacted]'s mother's family. His Uncle said he worked for the Government in Washington DC. During our stay, [redacted]'s cousin took us to Washington DC to visit the sites one day. We visited the Washington monument and the Smithsonian. During our visit to the Smithsonian, she took us to the visitor's center of the museum, and we went up an elevator, and we in a off limits area of the museum. There were mugshots on the wall, and I remember her sitting at a desk with a plaque on it, saying Lincoln or some other Presidents name, and there was a bust of James Madison on the table nearby. She picked up the phone and called someone, and was bragging about where she was, and I got nervous. I said, listen we are going to get arrested, that is a government phone, and those are all recorded, we need to get out of here. So, we went down the elevator, and there was now a Marine there, guarding the elevator. When the doors opened, he jumped. And as we walked by, he seemed concerned, but never moved, or approached us. Now as I look back, I think either he was horrible at his job of safeguarding priceless artifacts, or he knew who she was. We toured the Smithsonian for awhile, and no one ever questioned us. We were going to go to the Lincoln Memorial, but as we approached it, I could see there was a Right to Life Protest there, and wasn't comfortable getting close to it, because I was pregnant. So, I asked to go back to the house, I said I was very tired, and she took us back. I have often wondered if [redacted]'s uncle was in the intelligence agency, and somehow this trip to DC started many of my problems over the last 30 years.

[redacted]'s mother was very upset that I had gone to Florida and gotten pregnant. She had done everything she could to stop me but failed. When I had my baby, she was furious when she found out that I had given my daughter her father's name. She even went so far as to come into the hospital and demand I change her name, and made [redacted] take his name off of her birth certificate. When my daughter [redacted] was 6 months old the Department of Social Services did a blood test in the county building in Albion, New York, to determine his paternity. They said it was required that I comply with child support, or I'd lose my Social Services benefits. The test was 99.8% conclusive, yet [redacted]. stated that that 1.2% proved he was likely not the father. I left [redacted] father when she was about 10 months old.

When I did, [redacted] did not take it very well, and began breaking into my apartment, assaulting me, sexually assaulting me, and raping me. I could not get help from the police, because his father was a Deputy Sheriff for Orleans County. An Officer who worked for the Medina Police department told me their hands were tied and took the time to give me some advice. He advised me to either sneak away during the night and to move as far away as I could, or to call the police and report that [redacted] is breaking in, he said to invite [redacted] over, and as soon as he crossed the threshold of the doorway, shoot him dead. He specifically stated to make sure I called ahead of time, gave [redacted] enough time to get there, and to make sure he had stepped over the threshold of the doorway with both feet before I shot him. I could never have shot him like that. I asked the department of Social Services for a restraining order. The woman I spoke to told me that cops beat their wives too, and that she felt for me, and my situation, but she could not grant me a restraining order without a police report.

So, I snuck away during the night, and hid out at my mothers' home. My mother and her husband had traveled to Louisiana. My stepfather had a traveling job, welding in a Nuclear facility when they had a shut down. I was safe for a couple months, because [redacted] thought I had left with them. He saw me driving in Medina, New York one day, and then the abuse began again. My mothers house was much safer than the apartment I'd lived in

Medina, so he was only able to call, and harass me through voice messages. One day I was getting the mail, my daughter was inside the house with a friend, and [redacted] kidnapped me from the side of Ridge Road in Gaines, NY. He was acting irrationally, driving very fast, and recklessly, he said he was going to kill me, he drove west and turned onto Kenyonville Road heading North. He pulled over, attempted to assault me, I was fighting. I begged him to take me back to my daughter, he began to cry, and drove me back. I called the police, and again the refused to do anything to help me or take a statement.

I ended the abuse by dating an tough guy, [redacted], who wasn't afraid to beat the crap out of a cop's son. I had my second daughter with him, married him, but that didn't work out well for me, as he was an abusive person. I did not want to allow him to abuse myself or my daughters, so I left him within a couple of years. When I left him, he attempted to keep my daughter [redacted], and I got dragged through the family court system for the first time, in the Fall of 1992. I had to go through a trial, and my daughter was returned to me, after months of being separated from her. [redacted] was my attorney appointed to me at that time. After I won my daughter back, she told me to move far away from Orleans County, because they were going to keep coming after me. I did not understand why she would say that to me back then, but I wish I would have listened to her, she knew.

In February of 1995, I was attacked by [redacted]'s new girlfriend in a bar in Albion, New York. She did not get the best end of the fight, and as I was being escorted out of the bar by bouncers, [redacted] struck me, and I hit him several times in the face. I was given appearance tickets a couple days later for the charges of Assault 3rd against the girlfriend, [redacted], and Harassment 2nd, for giving [redacted] a blackeye. I was defending myself, so I laughed off the tickets. I had no record, and stayed out of trouble, so I wasn't concerned.

My Lawyer [redacted] once told me hindsight is 20/20, and he had no idea how true this statement was. Several friends told me that [redacted] and [redacted] were bragging around Albion that they were going to take my daughter from me. [redacted] had always declined visitation rights with his daughter and hadn't seen her in three years, so these statements did not alarm me.

I had moved to [redacted] into a trailer on West Academy Street and gotten a decent paying job with Lifetime Assistance. I had also gotten a restraining order against [redacted] for stalking me, and my life was going along good. I struggled with daycare as I often worked the night shift but managed to find a nightshift babysitter, who was paid through DSS, and things were as well as they could for a single mother of two.

On March 15, 1995, I had three friends over, we had drinks, and played some cards. There was a fight that occurred about 9 pm, outside on the roadway, between two of the men, but I was not involved, the police were not called, and when I asked them to leave, they left. I picked up my daughters, got them to bed, went to sleep that night on the couch in my living room. During the night, I was awoken by the police breaking my crank out window over my head, behind the couch. There is no way they could have known I was asleep underneath that window, my bedroom was at the other end of the trailer. The trailer was lit up with flood lights from cop cars, and I yelled out the window, what is going on. The police told me to come outside. I asked if they had a warrant for my arrest, they just kept saying come outside. I said get a warrant, and I'll come outside. My trailer had a front enclosed porch, and the outside door was locked. The police broke through the porch doors, and came to the door of the trailer, and started trying to pry it open. The door had roll out slotted windows, and one of the officers broke his fist through the window, and started trying to unlock the door, I bit him, and hit his hand trying to prevent him from breaking in. My daughters woke up and started screaming. They were terrified. The police officer broke down the door, several officers dragged me outside, beat me, pepper sprayed me, and then threw me into the back of a police car.

My eyes burning, snot was running from my nose, I was gasping for air, covered in blood, and handcuffed. When I could finally see, I saw a police car next to the one I was in. My two beautiful daughters were locked in the back of it, pounding on the window, looking at me, screaming and crying. They were only 5 and 2 years old. The police had

no warrant for me, had no search warrant, and said they had probable cause because my daughter's were screaming inside. They took old license plates and charged me with possessing stolen property, resisting arrest, and a slew of endangerment charges. They said I'd pissed off the mayor's nephew earlier that night by calling him an asshole at the gas station, and he apparently reported it to the police, prompting their visit. I have no memory of that happening, but can not say it didn't, if he'd said something inappropriate to me, I likely would have called him a name. If it did happen, it did not stick into my memory, so it must have been in passing.

I was taken to the town court in Albion, NY, charged with five misdemeanors and held on \$250 bail. Judge [redacted] told the police to take me to the hospital for treatment for the beating I took, but at the hospital, I got scared, and refused treatment. The police told me they were taking my daughter's away on that ride, and they said I would never get them back, and I wanted to just get back, and be released.

I was held until that Friday, and released on bail. When I got to my trailer, it was destroyed. All the windows broken, ransacked, and the furniture destroyed. My car was towed to a garage on Park Street and impounded by the police. I went to get things from my car, and it had been totalled. It looked like it had smashed into a tree. I wasn't even driving it that night. I never even tried to get it back, I knew it was undrivable. I remembered [redacted] words, and packed up my clothes and moved to Rochester, NY with [redacted].

CPS gave my daughter's to their fathers. They tore my family into three pieces. All three of us were never the same. They told me I had to consent to custody to their fathers or they would convict me of neglect. I was advised I'd never beat the charges, So I consented. For two years I was allowed only supervised visits with them. I was dragged in and out of court over 180 times. I was given an Automatic Conditional Discharge of the neglect petition and my case was closed in 1996. They led me to believe there was an indicated report against me, for years, but now I have come to know that the ACD, included a unfounded report, so the records were closed, sealed in 1996 as well.

In 1997 an incident occurred at the Orleans County jail involving my daughter's grandfather [redacted]. A handicapped inmate was sexually assaulted by several officers. The FBI came in and investigated it. Dutch S was forced to resign, but never charged. My daughter's both were living with their grandparents. The family court did not care. Neither father had any interest in raising their daughters. When [redacted] was forced to resign he put his farm up for sale and bought a house in South Carolina. [redacted] and [redacted] then attempted to petition the court for custody and move my daughter to South Carolina. Their petition was thrown out during trial, and my daughter went back to live with her father.

Days later, [redacted] called me and told me his girlfriend hit [redacted], and CPS had gotten involved, there was an indicated report of abuse now against her, and he wanted me to come and get her, because he didn't want her there.

Without anyone filing a paper in the court, the law guardian [redacted] calls and tells me that if I pick up my child, I will be arrested. I received a petition calling myself and [redacted] to court by this law guardian, in an attempt to prevent me from regaining custody of her. I threatened to sue everyone, and I was granted custody immediately. I picked her up two days later. [redacted] declined any visitation rights.

I asked about getting my other daughter back, but the judge stated that residency had been established, and dismissed my petition. [redacted]'s father [redacted] was then living in Lyndonville, New York, and [redacted] was living and attending Albion Primary School from her Grandmother's home in Waterport, NY. The judge wouldn't hear any of it.

I wrote to the Judicial Review Board and sent them all of the documentation concerning my case in 1998. They

reviewed it, and sided with Judge [redacted]. I expected them to, but wanted to leave a record of my grievance.

I was harassed by [redacted] through family court dozens of times over the next eight years. He would interfere with visitation, petition to end my visitations, and ultimately we would settle, I'd gain a little more visitation in return for dismissing my counter petitions for custody. I never understood why they let it keep happening, he didn't live with her, but he was paying his attorney, so over and over, the same thing played out. In 2004, I gained custody, as she had been running away from her grandmothers, and was old enough to tell the court where she wanted to live. In January 2005, [redacted] advised me he was going to again take me back to court for custody, and I had enough. I packed up my family and moved to North Carolina.

During the school year, [redacted] came to Taylorsville West Middle School, and falsely identify himself as my husband, [redacted], and kidnapped my daughter, [redacted]. An Amber Alert was issued, but my daughter was not recovered. Judge [redacted] ultimately granted [redacted] custody of [redacted], and I have since had no further interaction with the court.

In 2008, my daughter [redacted] was unlawfully placed into a foster home without my knowledge or consent by Judge [redacted], and I traveled to New York to retrieve her. She was 16 years old at the time, I threatened to sue them, they released her to me stating because she was 16, no custody order was necessary as she could live wherever she chose to live. [redacted] remained with me until 2012, when she left Taylorsville, North Carolina and returned to Orleans County and started a family.

In 2009, Judge [redacted] granted an illegal order to [redacted] to come to Taylorsville, North Carolina and retrieve his son, my grandson, and son of [redacted]. Her son was ripped from her arms by the Alexander County Sheriffs Department, under the order granted by Judge [redacted] and the acting Alexander County Family Court Judge. The Order was not legal, as Monroe County, NY had granted [redacted] custody of her son, earlier that year, and held full jurisdiction over the matter. [redacted] chose not to return to New York to fight the issue, and custody remained with [redacted], she was denied visitation as a flight risk.

[redacted] Became aware in 2015 that her son [redacted] was removed from his father by the Monroe County, NY CPS, and was placed with his grandmother, [redacted], for a domestic abuse incident which occurred in Hamlin, NY. [redacted] was ultimately convicted of the offense. [redacted] was a resident of Orleans County, living in Holley, NY, the case was transferred to Orleans County CPS. A modification of custody was filed in Orleans County. The court disregarded the original jurisdiction again of Monroe County Family Court and at no time did Orleans County attempt to contact [redacted] concerning the removal of her son, or the matter of custody.

[redacted] returned to Orleans County, New York in December of 2015, attempting to connect with her son, who she had been alienated from for six years, and develop a relationship with him as his mother. She filed to regain custody of [redacted] in 2016. [redacted] was appointed law guardian of the case, Judge [redacted] was over the matter. Despite the neglect and abuse findings against [redacted], and the past violations of the court, Judge [redacted] granted custody to [redacted] of his son [redacted], and [redacted] was given visitations.

[redacted] was able to find reasonable housing and maintain a home for her child [redacted] at [redacted]. She had an off again, on again relationship with [redacted] at this time, who had followed her to New York, and was residing in Medina, New York with friends of [redacted]'s.

[redacted] became pregnant and gave birth to a son [redacted] on 08/11/2017.

[redacted] had continued to have visitation with [redacted], and a strong bond developed between herself and her son, as well as the brothers of [redacted], over the span of three years.

In September of 2016, [redacted] began Kindergarten at Lyndonville Elementary School, in Lyndonville, New York. [redacted] was a challenging child, as he was very active, and highly intelligent, he often disrupted class. The school was asking [redacted] to have him tested for ADHD, and placed on medication. She refused.

I have significant evidence that [redacted] of the Orleans County CPS was working along side Lyndonville Schools to remove [redacted]'s children throughout 2018. On March 4, 2019, a search warrant was served at her residence, for guns and drugs. Nothing was found. The police were accompanied by an off duty zoning officer, who condemned her home without cause. An off duty Animal Control Officer seized and adopted out her pets, without a warrant, and an off duty CPS worker removed her children with a fake warrant. The boys were placed into foster care, and have remained there since. They have denied placement with relatives in state, and out of state. On 6/13/19 [redacted] admitted during [redacted] TANF fair hearing to perjury, HIPAA violations, and fraud, all on record. The meeting was held as a video conference. The county sent an assistant district attorney to represent them in the meeting, not a defense attorney.

[redacted] had [redacted] evicted from her apartment the same day her fair hearing was scheduled with Albany on removal of her children. She missed the hearing because she didn't receive the mail, and lost by default.

The court clerk has blocked petitions and motions three separate times. The current judge assigned counsel to the children 3 days before they were removed. The county lawyer [redacted] told my daughter they were only doing it to her because they hated her mom (me). The lawyer assigned to her by the court told me in April that I would never prevent an Article 10 (termination of parental rights).

The police falsified petitions, and tickets, as well as statements. I have all the records.

There has been a high number of medical appointments with three separate doctors, I suspect Medicaid fraud on the part of Hillside Family Services.

Signs of abuse and neglect by the foster parents has been documented each month, and ignored by both CPS and Hillside.

The evidence I have in this case is too enormous to send. The lawyers are threatening her unborn child now, if she doesn't consent to services. It is looking as though this is what she will do, although given the fact that this is retaliation on me, I'm sure she will lose all four of her children.

[redacted]

Subject: My son video April '17 of all the things the system does to children

He was in at age 12 and raped for 15 months by old roommate... At the placement in Boulder Montana. And frightened into believe that no one would believe him and think he was lying about everything.

So we never found out till later, the day he was to graduate and come home...

He was in shackles and chains 13 years old

telling me it was all by force he was in tears.... Scarred Beyond Words

We were there at the PO and his attorney, when we left the POS office the attorneys, halfway to the courthouse, told us that we had to tell them it was a mutual agreement not by force or my son would be a sexual predator for the rest of his life. We didn't know what to do That destroyed my son and my relationship since he turned 18.

He's 19 half now and rejects me like a plague no matter how hard I tried to fight for him the entire time, even federal and it was rejected

I told everyone involved and not one person helped us save my son

His 45 min. Video On Facts Of The Child Trafficking System

From my son's lips!!!!!!

[redacted]

Dear Sir,

My husband and I had to go up against the State of Virginia to find our grandson who was two and a half at the time. Our son had been murdered and his mother had left him, child protective services put him with an Amish family underneath the radar, did not open a case on him and would not tell us where he was. We had to hire a investigative attorney in Bland County Virginia to find [redacted], then spend a year going back and forth in court, back and forth from Florida to Virginia to get custody of him. At that time we were both certified foster care parents for the state of Florida, we were never contacted about taking custody of our grandson. I would be happy to share names and everything else that happened it was horrible. Recently I spoke with people we dealt with in that area and those same people are still taking children away from their families. When this happened there was a huge

Yes its all true, cps/dcs steals children for profit from ASFA, title vi. judges, prosecutors, GAL, attorneys, attorney generals, phoenix childrens hospitals dr's, ombudsman, congress man, senators, police, az gov, are all in violating WE THE PEOPLE constitutional rights to our families, liberty, happyness, by forcing us to a kangaroo court of no record, a corrupt court, a court were only their lies are right, intimidating innocent families with their abuse of power.

If you are really interested in helping innocent american families, our children, our future families generations, please respond and we will all tell you the atosities corrupt cps/dcs system has done to good families.

[redacted]

Dear President Trump or staff

On and around 10/23/19 I will be in Washington DC with a few other parents and supporters. Is it possible for us to meet with you and or your staff to alert you to this corruption in California CPS that's responsible for destroying millions of families and child murders. Please advise. Thanks you !

—

Hello,

My name is [redacted]. I am a Harvard medical school trained physician and the president and I are friends from before he ran for office. He would want to know about the evidence I have that that California CPS perjured testimony, fabricated evidence and failed to disclose exculpatory evidence to secure the removal of my children without a warrant. I have never been arrested, use drugs or drink and my children never alleged I harmed them. This is corruption and part of a cash for kids racket it california. If you want more information please don't hesitate to contact me.

[redacted]

President Donald Trump: First of All - Thank you!!!! for fighting for We The People/our Country. No other President has done what you have. I pray for you daily. May God Bless You and Keep You! Thank you for the opportunity to comment on an issue near and dear to my heart.

THE PROBLEM:

I have personally witnessed dozens of families in Massachusetts ravaged by Family Courts via DCF/CPS. It's been my experience that CPS contracts with Family Court Judges (or judges weaponize the court) to find ways to kidnap children from loving homes and traffic them into fostercare (no facts, no exigent circumstances, no endangerment, no jury - all based on hearsay, and a total disregard for constitutional/civil rights).

Family Courts/DUI Courts/Juvenile Courts etc. (aka Admiralty Courts) are all in violation of:

- TITLE 18, U.S.C., SECTION 242 (ABSENT ANY jurisdiction/venue/law form, convincing evidence and/or strict scrutiny; in plain English – Simply put, These Courts Have NO Legal Right To Exist).
- TITLE 18 U.S. CODE 241; Conspiracy Against The Rights of The People
- Clearfield Doctrine: "Governments descend to the level of a mere private corporation, and take on the characteristics of a mere private citizen . . . where private corporate commercial paper [Federal Reserve Notes] and securities [checks] is concerned . . . For purposes of suit, such corporations and individuals are regarded as entities entirely separate from government."
- Federal Title IV money pays all 50 states 23% of all child support they order to collect (\$Billions in each State); equal to \$100k for terminating ONE parent's rights and setting up sole custody; a clear/direct conflict of interest between families and Family Courts in every case/State.
- Federal Crimes Act of 1790; Congressional Authority to define and punish crimes of piracy, counterfeiting, felonies on the high seas, and "offenses against the Law of Nations."

- The Civil Rights Act of 1871
- Act of Congress 1868
- The Social Security Act of 1935
- Taxpayer Civil Rights Pub 4053 and 4053C
- Hague and Geneva Conventions (Kidnapping is a War Crime punishable by Death)
- U.S. Constitution – Article 4 Section 2 (Supreme Law of the Land); Judges cannot hold 2 branches at the same time [while operating under quasi contracts])
- AMERICAN CONVENTION ON HUMAN RIGHTS
Article 6. Freedom from Slavery 1. No one shall be subject to slavery or to involuntary servitude, which are prohibited in all their forms
- UNIVERSAL DECLARATION OF HUMAN RIGHTS
Article 4. No one shall be held in slavery or servitude
- TITLE 31 U.S. CODE 1321/1322; CQV Birth Certificate Trust Funds
- We The People are the Beneficiaries of all Trusts for Him/Herself and Biological Heirs
- Medical Kidnap is real (linked to mandatory vaccines); a threat to every child in America today
[\[redacted\]](#)

For 4+ years, I helped single parents write congressional letters to get help (but to no avail). Instead of uniting families and bringing them together, DCF/CPS/Family Courts Nationwide force adoptions to earn more Federal Money. Forced Adoptions began in 2004; the amount of Forced Adoptions more than tripled by 2007. DCF/CPS workers are praised for kidnapping a certain quota of children; and scolded and/or fired for failing to maintain a certain quota of kidnapped children. The efforts of kidnapping children and putting them up for adoption is so BRAZEN that some even place “Orders for Children/Babies.” DCF/CPS Supervisors are at the helm of this evil corruption, nevertheless, each and every DCF/CPS worker is just as guilty as the those who supervise them.

Nationwide, there is evidence that DCF paperwork and interpretations, responses, and interviews are all laced with lies (while demonizing parents to justify the kidnapping of children) laced with fraudulent reports – all Based on Hearsay with Zero Facts/Evidence. Four families in my church are fighting DCF/CPS (including my own grandchildren). One couple had 7 children kidnapped by DCF 20+ years ago - this mother still weeps everytime I hug her.

Not only is DCF/CPS/Family Courts after Title IV money, they are after Cestui Que Vie Trusts (linked to Social Security #s/Birth Cert #s) worth \$multi-millions per child per person. These Trusts also motivates the drug war (most prisons are privately-owned by Judges/Banks) filled to capacity of men and women with "CLEAN HANDS" (no injured party). More people die from tobacco and heart-related deaths than all drugs and alcohol-related deaths combined, but you'll never see cops arrest cigarette smokers and fat people for abusing their own bodies. After Judges take a child/adult into custody, they seize the trusts then live off of the interest.

Goto:

[\[redacted\]](#)

Click on Q (search icon located on top-left)

Enter your Social Security # (include dashes - then Enter)

You and I are being bought/sold every day linked to our trusts

THE RESOLUTION:

- Every State Supreme Court Nationwide shbe responsible to set up Oversight Committees
- These oversight committees should set up sub-committees to oversee court cases
- All Court Cases should be subject to Random Audits Nationwide
- Title IV Money should go to Parents and/or children to help clothe, feed, shelter, or assist families in their own homes and stay together.
Only under extreme or dangerous situations should a child be removed from his/her parents.

- Judges who have seized Cestui Que Vie Trusts should be impeached and mandated to reimburse every dime they took.
- The multiple-millions of families who have lost homes, jobs, retirement funds, their biological property (bloodline Heirs), any time Family Courts/DCF/CPS/GALs/Mandatory Reporters, etc. got involved should be reimbursed all damages/loss with interest.
 - Polio was eradicated way before the polio vaccine was ever introduced (fact).
- Mandatory Vaccinations should be forbidden - let the parents decide
 - Vaccines Shed for 2-4 weeks, making others sick (fact).
- Forbid Drugmakers to Funnel \$Millions to law makers; many get \$100k+
- Forbid Federal Title IV money from paying all 50 states 23% of all child support they order to collect (\$Billions in each State); equal to \$100k for terminating ONE parent's rights and setting up sole custody; a clear/direct conflict of interest between families and family courts in every case/State. Family Courts set themselves up as immune by violating Parental Rights which are fundamental Rights (Equal Protection Clause of 14th Amendment -Yick Wo v. Hopkins, 118 US 356, 1886).
- Remove "Immunity" from CDC/Practitioners who enforce death-by-vaccines/Judges/DCF/CPS/GALs/Investigators/Police who violate the rights of We The People
- Restore the "Innocent until proven Guilty" verdict in every Court Nationwide - forbid "hearsay"
- Revoke the "BAR" (British Accreditation Registry) Nationwide
- Equip "The People" to defend themselves via "Sui Juris" (impeach all money laundering judges)
- Restore the teachings of the Constitution in every school
- I Humbly and Respectfully ask the President to Enforce (via Executive Order) an Arbitration Award issued to those who choose to Opt-In
- Hudok.info
- Opt-in deadline is extended to December 25

[redacted]

[redacted]

- Remedies/Relief to all those who choose to Opt-In to the Award
- The award is in-hand and cannot be challenged.
- Anyone can opt-in with no risk, monetary or otherwise.
- The settlement is yet to be decided and is somewhat contingent on the numbers that demand it.

[redacted]

May God Bless You All at the Helm of This Project!

[redacted]

I am writing to speak with someone from this committee about child trafficking. My son was illegally seized 18 months ago.

My civil liberties and rights have been violated all across the board. I have no idea where he is and what is happening.

PLEASE RESPOND.

[redacted]

I have had my kids taken illegally by paragould ar dec 16 2016 I have reached out to my senators congressmen attorney general I have evidence on text audio video email of how they stole my kids please help

[redacted]

On October 19th 2018, the day after my 32nd birthday while I was at work cps went into my home with no warrant court order, just lies! I didnt even get to talk to one cps worker for the first 3 weeks we came into our lives. They

have admitted in court that they had no evidence to back there allegations. My house is spotless, I had enough food to feed multiple family's for a few weeks. They continue to say that my 10 year old who is mentally handicap and has been diagnosed, is this way due to domestic violence. Cps refuses to take any of our sons medical document due to it would prove my son is actually mentally handicap. We have been fighting with this county since my son was 4 years old, trying to get him the proper help and diagnoses from the medical feild. We had been waiting on multiple referrals some for over a year. They have placed him out of state against our will. And now will have to restart all those process when we get home back. They forced us to sign a paper so they could immunize our children. They have placed our son on handful of meds without out consent or knowledge. We as parents have our medical rights. They even took our over night visits with our daughter due to we told her she had rights and she had a lawyer, and she had a right to talk to her. We also had to tell our daughter she had to ask the foster family for any of her needs from here on out due to child support taking over half my paychecks each amd everytime. They are only allowed 350 a month my pay stubs prove they have been taking between 450 and 700 a month. Leaving me with well last month only 141.00 the whole month. So she needed to ask them they wére getting child support money from me plus they get money monthly for her. Cps turned around and said that we were talking about specifics of the case. The cps worker will tell the kids certain things and then when it doesnt happen and it affects them she denys all of it. This worker has lied so much to caught in all these lies in court yet they ignore it. This cps worker was even in breach of her own contract, it was pushed under the rug. The judge is even worse. She tried saying I couldnt talk about my case on social media, my lawyer brought up freedom of speech and my 1st amendment. Judge [redacted] started screaming and yelling about how we are to never bring up the constitutional rights in her court room ever again! This judge has violated our rights on many occasions. This judge continues to discriminate against me every court date. She has tried telling me I have to stop my medication for my ptsd because she doesn't think its the right fit for me, yet will allow my husband to be on the same medication. I have brought up my rights under the disability acts and ither rights i have with medication. Judge [redacted] yelled at me that she didnt care what the attorney general had to say (I brought a letter I found that the ag wrote in regards to this topic) she yelled that its her court room and she will do whatever she wants in it. This judge even had the nerve to lie and tell my 10 year old daughter who was in the court room that I am loaded all day everyday on herion which never! And I have proved on my tests that I'm clean. Yet this judve did this. Amd I'm just expected to keep my mouth shut. Its so hard cuz I'm not on drugs, I work full time and just want to raise my kids and live life. Yet I am dealing with these people who lie and violate rights and discriminate, and abuse my kids and myself and they get Away with it! Please help me! Help us all that are being abused by this system that is only using our kids as there paycheck. They have tried making me out to be this monster. Yet I'm so far from it! I'm so over these people who work for the system who can destroy a person with no guilt or remorse! I am in desperate need of help! These are my baby's and they are the reason I breath. They expect me to protect them and keep them safe yet with these people I'm not allowed to do that. My babies keep screaming and crying mommy why can they do this to us? Why can they get away with this? And I cant say anything other wise I'm in the wrong and they use it against me! Mr trump im begging for your help! Please put a stop to these people and there crimes! They have destoeoyed my family and are destroying my life. I'm doing everything I can to hang on. There throwing darts from every angel they can. So please help me help my kids. Thank you for reading this and thank you for everything you are doing! You are by far the best thing for this country in a very long time! Thank you mr trump! You are a true American!

[redacted]

Good morning.

To whom this may concern may I make a suggestion on how the kids in the foster care system are ending up in the hands of monsters like sex traffickers . For one can these "families be vetted throughlly from back grounds on there mental state ,criminal past,credit and physical well being. Make it mandatory for drug tests on these"potential foster parents". And random drug testing. Visits to there homes 2-3 times a week to monitor behavior of children. Interviews and wellness-check ups of the kids with a certified nurse and care professional without the foster parents interferring. Just a few thoughts. Take care.

[redacted]

Dear committee members,

Congratulations on starting this very important work. I sincerely hope you are very successful in this effort.

I am neither an American or a social worker. But I have been working on exposing and ending these psychotic practices for over four years now.

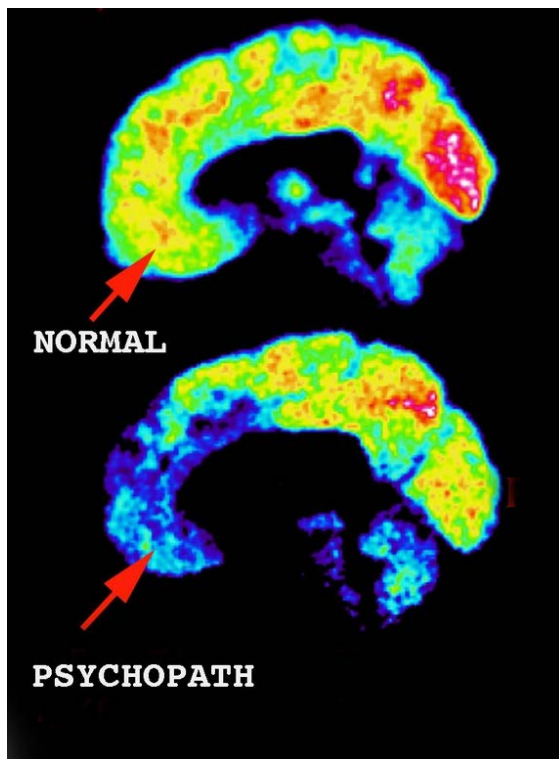

I expect you will be dealing with many stories and specifics related to actual crimes committed. But I believe you will be better placed to end this horrific crime if you also address the core basis of these crimes. Namely psychopathy, narcissism, pedophilia and satanism.

No sane person can do these crimes. The motive is narcissistic supply, power and money. We are dealing with people that get off by destroying innocent lives. They are devoid of empathy and they look for positions of authority that will allow them access to vulnerable people. That's why the foster care industry is full of these predators! They get rewarded for parental alienation with bonuses and promotions. All while getting high at psychologically raping an entire family.

We can see from the testimony of the countless victims of these agencies that narcissistic abuse tactics and motives are evident.

This is what the victims are describing!

The people that do this have severe physical brain damage as shown here.

And this shows us all how easy it is to eliminate child trafficking and predatory abusive behaviour from these services and agencies.

BRAIN SCANS SHOULD BE MANDATORY FOR ALL FOSTER CARE WORKERS!!!

This would not only eliminate traffickers. It would eliminate pedophiles, malignant narcissists and psychopaths from playing narcissistic abuse games on a far greater number of victims.

The truth is, more children are abused by this system than are trafficked. Removed from their families in traumatizing circumstances by predators with police assistance. Abusing the whole family for narcissistic supply and money. These crimes are also horrific and must be addressed and ended.

[redacted]

[redacted]

I volunteer at an orphanage called connie Maxwell in sc. Each child lives in a home on a campus with a "parent" and many staff members and volunteers see this child often. It would be very difficult for one of these children to disappear. Bring orphanages back.

[redacted]

To whom it may concern,

Thank you for speaking to me the other day. This is a brief overview of the current situation, and it would require you contacting me further to get more. I have established a network of city, state, and federal employees that are complicit in covering crimes, and should be held under under U.S. Code § 4. Misprision of felony, at a minimum. The FBI told me that lack the proper funding. BS! I am totally aware of thousands of people that I have met over the last year that have done the same in the entire house. It's time to DRAIN THE SWAMP! These people are committing fraud as private, not for profit corporations, while defrauding Social Security Title-IV funding as grantees in a court of "equity", operating as fictitious people, actors, and foreign agents while claiming to do business in "the children's best interest", which means whatever brings them money through lies & fraud. They all lie, and attorneys and the judge have now suborned perjury. Someone please help me here. They seem to be retaliating against me once again, because they know that I will go to Congress soon and have stated that I have every right to citizens arrest them, as no one has helped. This Family Court and CPS system has absolutely NO ACCOUNTABILITY whatsoever, and it's gotten so bad, that now ACS has lied against NYCDOT, in what they claim DOT had told them I stated to them on November 14th 2018. The entire interview that I had with DOT was recorded. I had never stated that I was seeing my children, because I was not at all. They (ACS Unit 989) have lied so many times throughout. There are about 20+ people in this conspiracy against me, and they must be brought to justice. The Judge makes me sick. I have proven one count of perjury on a worker, and she stated that she does not have the power to hold that person accountable. They are all in on it, as this is a "Silver Bullet" attempt for child custody through a crooked attorney by the name of [redacted]. The media and politicians have colluded against us in a conspiracy against us our fundamental rights, as they wish to not cover this national crisis. I have had investigators at agencies resign after they are told that there is nothing that they can do. No one wants jurisdiction over this, and it's pretty clear that WE THE PEOPLE, have ultimate jurisdiction. THESE PEOPLE SHOULD NOT BE DEALING WITH OUR CHILDREN. There is plenty of evidence that this is happening in every county and in every state. So many agencies and officials have been put on notice. This is child trafficking. Please contact me for any further information.

[redacted]

Adrenaline harvesting: jesuits and mormons have been doing this for over a hundred years through out our mother earth from our kids.

[redacted]

I hope it is true that you are seeking comments on the problems with the system that can ultimately lead to child sex trafficking and/or emotional problems for children wrongly separated from their biological families.

I am a grandmother and a victim of the so-called child protective services agencies in Dare and Currituck Counties in NC. I have complained to every authority imaginable about the serious, egregious violations of state and federal laws committed by caseworkers AND judges AND so-called public defenders and lawyers, all colluding together to remove children from loving, caring, fit families, keep them in foster care, unnecessarily and even adopt them to non-bio families, while preventing kin from doing so

I have studied the law, and I can tell you that at least in NC, with one or two exceptions, we don't need more laws written to protect biological families' rights to stay together. What we need is obedience of those laws and the Constitution and

MOST IMPORTANT OF ALL:

REMOVAL OF THE IMMUNITIES JUDGES AND CASEWORKERS ENJOY WHEN THEY BREAK THE LAWS THAT PROTECT CHILDREN'S RIGHTS TO REMAIN WITH THEIR FAMILIES.

My lawsuit against individual caseworkers in the two mentioned counties is now before the Federal Appeals Court for the Fourth Circuit. It is there because first, the District Courts refuse to obey the laws, and the state Courts of Appeal do nothing to reprimand or change the lower courts' corrupt decisions, which are based on false allegations and numerous violations of family members' right to due process. Furthermore, unless the Press gets involved as it did with the case in Cherokee County, the NC DHHS refuses to address the violations committed by county DHHS caseworkers. And the so-called Judicial Standards Commission refuses to address violations of the state judicial code of conduct and due process rights.

My case is with the Federal court of appeals because the Federal District Court ruled that even if caseworkers made false allegations against me (a grandmother who had custody of her stolen grandchild), THEY ARE PROTECTED BY QUALIFIED IMMUNITY.

Furthermore, even though I argued that Judges lose immunity when they violate due process rights, the Federal District Judge [redacted], refused to allow me to sue the judges in this case, particularly Judge [redacted], who not only held an unlawful ex parte hearing to authorize the removal of my grandson from my custody (when his mother was hospitalized) - with Caseworker admitting there was no emergency (which is required for an ex parte hearing and removal) - [redacted] also denied me the opportunity - clearly delineated in NC GS 7B-506 (b) to be heard at post deprivational hearings -which also outlined my right to present evidence and witnesses on my behalf. Likewise, her colleague, Judge [redacted], did the same, and then, after I filed motions exposing the fraud

and violations committed by caseworkers and judges, [redacted] authorized the clearly unlawful move of the case to the next county where caseworkers in that county proceeded to further lie, level a trumped-up charge against me that had no basis in fact and violate other statutes and my constitutional rights. I have and have presented to all the courts the evidence backing all I claim, along with affidavits proving I was threatened into signing a stipulation, based on pure fraud.

With all of this corruption going on, and I hear the same goes on all over the country, how can this ever be stopped so long as there are no consequences -- no one held accountable when they commit these violations - these crimes - that in the end traumatize children and family members for life -- some committing suicide because the pain of their loss is more than they can bear?

I implore you, if you do not believe what I am saying, allow me to prove it with the evidence. My case, as I said, is before the fourth circuit court of appeals - filed in May, 2019.

I meant to mention that of course the US Supreme Court didn't even bother to look at my case after the State Supreme Court simply concurred with the COA which didn't even address the violations -- said it was all moot because my grandson was adopted, even though he was adopted behind my back while my case was awaiting appeal - my case being my own petition for adoption, which was denied because of the lies and the stipulation I was threatened into signing - -threatened with criminal prosecution and based on pure lies -- -to sign or else.

And this over a child that was never sick, harmed or neglected while in my care --- taken from me because his mother suffered symptoms following a head injury and a criminal overdose of a dangerous drug by her dentist.

The most important thing that can be done is REMOVE the immunity protections for caseworkers who make false allegations and commit other violations and from judges and attorneys who ignore the laws they are sworn to uphold and otherwise collude with caseworkers to remove children from fit and loving parents.

If there is going to be another law, it should be one that imposes harsh penalties on judges and caseworkers who violate laws that protect parents and children's rights to remain together as a family/

And hold state DHHS accountable when they cover up - or fail to hold county DDS agencies accountable when they violate state Manual policies and state laws (juvenile code in NC, for example).

[redacted]

Good afternoon, Mr President,

My name [redacted], I am a mom of 3 kids when my last child was born I had some medical issues were my doctor told me that she would be my last one soon after I had a hysterectomy done, when I had her she was so beautiful, when she ready to come home she was showing signs of not gaining weight and she was not breastfeeding so they did some tests and X-ray and found out that she had aspirations in her lungs so I was released and she had to stay and she had to be on antibiotics and the then she developed jaundice after a week or so in the hospital she came home things were going good until we noticed she was loosing again and not taking the bottle very well we saw some other developments that she was not achieving so our pediatrician, we had to put a ng-tube and then 6mo. she had to get a g-tube to help with development so we start some therapies (physical occupational, speech, feeding),so we engaged with everything we needed to do to help her, by the time she was 6 we did two feeding therapies out of state and she was doing good having intestinal issues that caused us to go to the hospitals visits she seemed have many more until the end of September of 2014 she had to go to pch for more intestinal pain and issues and the emergency room did nothing until they called and have her come back for a infection which was a coo, after spending 3 days and thinking she is going home they asked me to come have a meeting with some people the party had dcs investigators ,ocwi, doctors, nurses, they ask me to sit and I ask them what is going on and the investigator gave me a paper that said medical abuse and then told me that I needed to leave I ask who said and can I call my husband I asked to see [redacted] they said no on see at this [redacted], they tell me to sign a paper I don't remember if I did or not, when we finished I was told that I had to leave as I went into her room she

was no longer there, I was escorted by police, Phoenix Children's hospital security, I am having a panic attack my husband brings me home, we were told that we had 72 hours where or not I will see her again 72 hours later we were told that they taking us to court during this wait for court we had zero connection she has missed several weeks of school I thought I was going to die I had lost my child, when court was set we were assigned attorneys me and my husband we're able to have visits and that was when we found out she was in a group home and she was moved 2 times our attorney the asked we had family that keep her so one of my husbands brothers took her almost 9 months while she was there I was not allowed to see her but my kids by the way was still me, the state ([redacted]) told my sister in law that we were not getting her back and if they wanted to adopt her, this case worker([redacted]) was telling my family that we will never get her back, the court assigned me to parenting classes, physiotherapy, marriage counseling, visitations with southwest human development we my husband and I did everything, the state felt she needed to moved she went another family members which cause more chaos for all parties but mainly [redacted] who at the this time she is wanting to come home and they wouldn't let her voice her opinion so the state again said she needed to get out of family so she entered in the foster care and at this time we had very little visitation with her and in the end of trial and they told us that we are tpr and my attorney set up a appeal and we are still waiting.

PHOTOS REDACTED

Me.President, please look at this girl some of them were when she was dcs custody and others were when we were trying to help her to be normal as possible.

Thank you for all you work for our country

[redacted]

Dear Committee,

The foundational problem is that there is willful blindness by the Administration of Children and Families of states violating child welfare laws. With no enforcement, and complete and utter failure to enforce 42 U.S.C. 5108; the states, specifically Kentucky are falsifying records, diverting funding, and completely lawless which in turn makes foster care in the states ideal for child sex predators to seize children for sex trafficking.

42 U.S.C. 5106a says that every state, including Kentucky must have a state plan signed by the Governor in place in order to receive child welfare funding. 42 U.S.C. 5108 states Secretary [redacted] is to supervise and enforce the state plan.

However, ACF says that a Kentucky state plan does not exist to me when I requested it in a FOIA. Therefore, there is a FOIA lawsuit to produce the Kentucky state plan or admit that Secretary Azar is in violation of 42 U.S.C. 5108. If ACF can't outright produce a document that Congress says in statute must exist; then all ACF is doing is administering a slush fund entitled "child welfare" based on manipulated and unreal statistics. It's a charade.

I don't know what defect ACF is hiding of the KY state plan. Perhaps it's not signed by the Governor. Perhaps it's merely a boiler plate form with no real meaning. Perhaps it doesn't exist at all. Regardless, Congress meant for individuals like me to be able to get redress from the states misusing child welfare funding through enforcement of that state plan, which ACF says doesn't exist. However, how am I to get redress to enforce the state plan if I can't get a copy of the Kentucky state plan? How is [redacted] who saw his teenage daughter advertised on a Craigs list sex ad while she was in Ohio Foster care supposed to get redress against Ohio if ACF isn't following the law to require enforcement of the Ohio state plan?

There is a complete failure by ACF and the HHS Secretary to hold states like Ohio and Kentucky accountable.

Kentucky is using child welfare funding to hire at least two staff members to assist the Governor's wife, while elsewhere has overloaded cases of a 100 cases per social worker in Jefferson County Kentucky. Jefferson County, home to the largest city Louisville, is probably the Kentucky County with the most foster kids in sex trafficking assigned to those social workers who are not supposed to have over 15 cases, but have over a hundred cases. Priorities? Right? It's more important for child welfare funding to be spent scheduling the governor's wife to speak at a tea party than using the funding to reduce impossible case loads, right? But ACF is willfully blind to this type of misappropriation.

BUT DON'T GO ASKING [redacted] over at ACF to do something about Kentucky misappropriating child welfare money by the Governor. I have the letter from [redacted]; ACF according to [redacted] is like that commercial on tv that they are only credit monitors but don't actually do anything when they discover an issue. He didn't use those words but that is what he implied.

KY has been putting me on and off, on and off, on and off, [with no due process notice] it's child abuse list to cover up judicial misconduct to interfere with child custody between parents. [redacted] refused to address KY defrauding ACF and child welfare funding involving me.

However, that's the whole issue. Kentucky, can at any time manipulate/delete it's child abuse records. So if foster child X disappears from foster care and is sex trafficked; ACF is never going to know about it if KY changes it's internal records. KY is supposed to keep these records for decades; but ACF won't enforce this because KY destroyed my records and Joseph [redacted] won't do anything about it.

Kentucky falsifying internal records was documented in the Kentucky Office of Inspector General Report of 2007. Over a decade later, Kentucky has not fixed this issue. ACF has not required Kentucky to fix this issue. And as late as 2016 Kentucky was telling ACF in it's statistics that I was receiving services as a child abuser although I lived in Florida since 2010 was told and given documents that KY had closed all cases on me in 2007.

One of the general counsel in Kentucky involved in all the misconduct in my cases is [redacted]. [redacted] caused a million dollar open record fines against the KY Cabinet for Health and Family Services refusing to hand over records about child death's in Kentucky involved in the foster care system to the newspapers. How does [redacted] continue to keep her job? How does [redacted] husband's law firm land an obscene amount of no bid personal service contracts from Kentucky? How far does one fall down the rabbit hole to realize that to an extent, sex trafficking of foster children has to involve individuals working in the very agencies that claim to be protecting children. It's big business.

Also, let me dispel this false belief that because the judicial system is involved that makes everything fair. ACF GIVES THE COURTS MONEY, called court improvement grants which buys the Kentucky court system off. Thus the court system in Kentucky has a financial conflict of interest over every child they put in foster care. The entire reason child welfare officials in Kentucky created records about me was to cover up a judicial fraud that took place in 2002.

The issue is bigger than sex trafficking of foster kids. ACF's failure to hold states accountable has turned child welfare into human trafficking under color of law of poor peoples children. It's a caste system where the middle class and wealthy literally profit off of the state taking the poor's children into foster care. And as a result child molesters are rewarded by easy access to children to molest and prostitute out from this caste system.

If this Committee is truly committed to reducing sex trafficking of children in the United States; it has to start by holding ACF and the States accountable for the flagrant violation of child welfare laws.

[redacted]

Here in Putnam Co. Florida sex trafficking is known to be happening! Law enforcement and local news has all reported on this! CPS steals kids from there familys' with no proof, no law enforcement involvement, no criminal

charges, no regard to state or federal civil rights, gets away with purgery, and takes kids with "no proof" to quote my case worker and her boss! This is where it starts! CPS has to be held to some law as they violate all of them now! You want to stop trafficking, stop CPS! For proof or further details and information feel free to contact my friend who is liveing this nightmare at [redacted]. Thank you!

Voice 4 Our Children

Dear Sir/Madam:

We are in receipt of your request for whistle blowers of the corruption in the Family Courts and we are an Organization on Facebook that have received your information to contact you in regards to this issue.

We are in receipt of a young woman where her rights were violated by the failed family court system where they had given her child to the father in which he has a record with Domestic Violence.

We are hoping that this letter gets to the proper channels in regards to this horrifying issue that is not only her issue but a Nationwide epidemic where the children are being taken away from the protective mother and given to the abuser with a record of abuse and the family courts are not following the Laws.

Thank you,

Voice4OurChildren!

[redacted]

My daughter [redacted] who is Special Needs, was taken by Cps. She came home from school and told me and her mom that this teacher, [redacted] had his Aide drag her to his classroom several days before she was taken away by Cps. [redacted] told us that he pulled her dress up to check her to see if she was clean? After this incident we contacted the school. And it was also brought up in one of our Cps hearings. The prosecutor along with the judge looked over at the social worker then back at us and stated they would sweep it under the rug. What is occurring in these closed hearings are crimes against innocent parents and children. They are not acting in the best interest of the child, they are doing this for Federal Adoption Incentive Funds. We have pleaded with our President to hold those who were involved in the destruction of our children and our lives accountable for their crimes. A judge has no immunity to commit crimes. We have five children and all of them have been kidnapped by Cps. Please help us bring our children home.

[redacted]

I am contacting you because I have a Jurat Affidavit to provide in compliance with my Oath regarding reporting human trafficking to proper authorities. My issue is that I am unable to provide the affidavit without having my new passport issued (status changed to Diplomat), as the passport agency and USPS has delayed the processing.

I don't know if you are able to get this to anyone in the office of the Hon. U.S. SoS - [redacted] to get this issue remedied expeditiously. If you are, please forward this information as the U.S. Dept of State website indicates a 3- 5 day wait for response.

If you are unable to get this message to the Hon. [redacted]'s office to assist; then I thank you for your time, and apologize for this email distracting from your important and sacred work to help protect and rescue God's sacred heirs.

To Whom It May Concern:

I come in peace, Truth, and honor. I had my passport appointment on 9/16/2019 and paid expedited processing with overnight mail for a flight date of 10/15/2019 (today). I called the passport agency the afternoon of 10/07/2019 questioning status of my application. The passport agency dated and postmarked a letter to me on

9/30/2019, however, the letter did not arrive in my PO Box until 10/09/2019. Due to prior commitments, I was unable to address the letter before to 10/11/2019 with a new photo and response stating the SSN that had been assigned to my "person" was returned/retired in exchange for a foreign, decedent estate EIN.

I was unable to provide this notice in the form of a Jurat Affidavit, because the passport is my ONLY form of photo ID as I my status prohibits me from holding any "STATE OF ____" issued ID or driver's license. I sent this additional information by overnight mail on 10/11/2019 and it was delivered by 10am on Saturday, 10/12/2019. I called this morning to find out IF my passport had been issued yet, and was informed it may take up to ANOTHER 2-3 WEEKS to receive my new passport. This will ALSO interfere with ANOTHER flight I have scheduled for additional travels this month!

This delay has also interfered with my ability to address issues to report human trafficking violations in accordance with my "Oath" as a therapist, Ordained Minister, and Ambassador Extraordinary and Plenipotentiary to a private and foreign nation visiting American land on Earth.

I signed up for electronic updates to my application. Therefore, WHY was I not SENT electronic communication to my email: [redacted] indicating the need for additional information and/or corrections, so my passport could be issued expedited and mailed overnight (as I had PAID for those service)? The repeated "tests" to my status and standing are beyond ridiculous. I am who I say I am, and I can do what I say I can do.

I leave you in peace, Truth, and honor.

[redacted]

My name is [redacted] and I worked in the child welfare in New York City for 23 years. I have a BA in Sociology from the City College of New York and MS in Business Leadership from Concordia College of New York and graduated with honors and was on the Dean's list throughout academic career at Concordia. I wanted to give feedback to [redacted] October 4th, 2019 article in the Epoch Times regarding Donald Trump Administration requesting Whistleblowers to come forward on child sex trafficking in Foster care. I worked for the Administration for Children Services in New York City from 1996 to 2005 and went to work in the foster care system in 2005 as an Aftercare case planner which monitors the homes of children returning home from foster care. This was around the time [redacted] began to expose the child trafficking in foster care. The first time I heard of [redacted] was the fall of 2017 and I corroborate that everything thing she disclosed as it pertains to child trafficking in the foster care system. Like [redacted] my life at his point is now in danger.

I spoke to the FBI several months ago about my experience and concerns but nothing came of it simply because I do believe that there are those of Law enforcement, the FBI, DOJ and Medical Examiner office that are involved in Pedophile rings as former FBI agent, [redacted] disclosed which I believe also cost him his life. My housing management has given this pedophile network access to my apartment and they have done things to let me know they were in my apartment. I spoke to my local police precinct about this and again nothing came of it because they are high level profile individuals involved. I was poisoned on three occasions and it's a miracle that I am still alive. My cell phone has been hacked into and monitored. My email address has been hacked and I am under constant tracking and monitoring. I believe that because so many high-level individuals would be implicated is why they have stop short of in-depth investigation. It had been alleged that [redacted] has been in an affair with the CEO of [redacted] [redacted] whose father is [redacted] and because of who he is in this city is the reason I feel they have back off on any real and in-depth investigation. The CEO at the last agency I worked for, [redacted] in the Bronx located at [redacted], was given the [redacted]'s award which

again led me to believe that this agency also has ties to child trafficking but specifically I believe money laundering. I also worked at Catholic Guardian Services located at [redacted] where at Ms. [redacted] directives I was not given a salary for 5 consecutive pay periods a strategy to create financial hardship in my life. I subsequently resigned from the agency. In all the agencies I worked Jo-annetta [redacted] was given access to all my work which is an illegal activity however this network of internal traffickers works together against those who speak out against the activities.

Foster care child trafficking is not just occurring with the youth that goes missing it also is taking place internally where CPS, Managers, Attorneys and Judges are in collusion to hand our children over to pedophiles and Satanists. The last statistics is that 86% of the that end up being trafficked in New York State comes from the New York City foster care agencies. Child welfare is controlled by illuminati network and Satanist and they are hidden among the child welfare managers. They are a tightly knitted network across the child welfare system in this nation, who forces those who refuse to get with the program out of the child welfare industry. I have firsthand knowledge of the child welfare traffickers because I was being recruited by my supervisor in 2015 to engage in child trafficking and refused to do so at which point, I was told I would be terminated from the organization.

My knowledge of the internal child trafficking began in 2014 when I was hired at Graham Windham Services for children and families at the Bronx location at [redacted]. I worked at the Brooklyn location from 11/2013 up to when I was transferred to the [redacted] location in April. My Director was [redacted] and if I should pinpoint anyone to be at the top of the child welfare Luciferian pyramid of child trafficking it's [redacted]. She is the [redacted] of child welfare, the [redacted] of New York City Child Welfare the one who gives order and controls everyone from the court system, judges, attorneys to child welfare managers. Anyone who refused to get with the program will instantly lose their jobs. It is my strong belief that [redacted] is part of a Luciferian illuminati network. One of her administrative assistants at the time was a young man named [redacted] as in "[redacted]" the name of the architect of the Secret Society in South Africa that spread to Europe and the United States. Incidentally I do believe that it is possible that [redacted] come from the Luciferian bloodline of [redacted] the architect of the Luciferian roundtable of which the [redacted] have a series of meetings called "The Roundtable". It is said to be an agency performance review body. This Luciferian network operation is run by a system of code words and symbols from the local child welfare office to the to the court room and I believe this is one of those code words in disguise.

I met with one of the Founders of the FPA Foundation that fights ACS corruption as an advocate for families and she informed me that she had a court case and when the court broke one of the Judges slipped a note in her hand to please bring attention to child sex trafficking in the foster care in New York City. She also worked in NYC child welfare system at one point and even commented that these managers know that they are handing the children over to pedophiles. I believe that the home finding departments knowingly open foster homes that are front for these traffickers.

While at [redacted], I had a wonderful supervisor Name [redacted]. She always commended me on my work. Her expression was often that I was doing "amazing work" Having so many years of experience I was an asset to the team. However, I notice that Ms. [redacted] was becoming more and more stressed and She had several meetings with the VP about her work. On the last day of my 90 days probationary period I was called into her office and give what looked like to dossier of incompetent work and I immediately knew that this was leading to my termination. I decided to challenge the write up and requested that a meeting be scheduled with the Director Ms. [redacted]. We had approximately 3 meeting around 3 hours each of which I challenged the document. I wrote a rebuttel with supporting documents and after challenging the document and presenting my documents that the work was done this document could not be used to terminate me. However, they came up with another angle which was to lay me of due to the budget. I was laid off and needless to say they posted on indeed.com for a case planner position.

Why did this occur? There was a young lady unbeknownst to me at the time who was said to be Ms. [redacted] informant. She befriended me but our conversation was more about collecting information than anything else. She informed me that she wanted to get her son into a charter school but wasn't having much success. About two months later she came to and asked me to read a statement she had to write on a case she was working on because there was a meeting called and she might be in trouble. I read the statement and asked what was it all about and she informed me that the child on her case was to go to a couple and that the couple so happen to be the principals of the Charter school she wants her son to attend and that she was about to file a termination of parental rights on the mother and her sister showed and said that something isn't right and called a meeting. The meeting was called she was called out for things she didn't do was now had to work with the mother for the child to be reunited. A few days later she informed me that her son had lost his spot at the charter school. When she saw the look on my face, a look of concern she tried to clean it up that she wasn't aware that it was the same school that of the couple who wanted the child. I sternly told her that this was inappropriate. It was around this time I began to be vocal my concerns about cash and favors for kids in foster care. No doubt Ms. [redacted] became aware of this.

My concern up to this point was the amount of medication our children were being given and how BIG PHARMA was getting rich off these children. There were foster parents who would shop around to find a psychiatrist who would diagnose these children with some kind of psychiatric diagnosis, the most common ADHD so they can get special rate which is now over \$2000 per month. The agencies usually have these children come to the agency for counseling and bill Medicaid all of which amounts medication merchandising of the children. If I had 12 cases all the children on these cases had a psychiatric diagnosis and most were on at least 3 medication. I have seen children do well off those medications when the mothers refused to sign release consent for any increased dosage at which point the agencies would try to file a medical neglect on the parent forcing their hand to put the child back on medication.

After I was laid off from [redacted] I reached out to a Temp agency for an assignment to another agency and I was sent to an agency called Sheltering Arms Services for children and families located at [redacted]. It was at this agency that my concerns of child trafficking within the infrastructure of the New York City Child welfare system was solidified. I was placed under a supervisor name [redacted]. Ms. [redacted] was a soft-spoken petite young lady whom no one would guess was involved in such activity. My colleague often discussed that we didn't understand why she was so anti-reunification of the children back to their families. I started working at Sheltering Arms in May of 2015. That August Ms. [redacted] called me to her office and closed the door. She informed me that someone had called the agency and wanted the 4-year-old on one of my cases. She added that in her 8 years of being at the agency that nothing stops them from terminating and parents' rights to get a child. She also told me that there were workers who wouldn't "get with the program" and was ousted from the agency. I was too shock to respond to what I was hearing. I disclosed this to a colleague who had a few years at the agency and she told me that she had seen it happen that there a mother who did everything she was suppose to do to get her child back and that they sabotage her through the court report and gave her child away. The families a very powerless against a system who are in collusion to take their children

We were in court on this case possibly every other month. I remember going to court and giving the agency attorney my updated court report on this family and she pulled me aside and told me that my reports was not reflecting the direction they wanted the case to go in and that my report would not be entered into evidence that day. The agency attorney at the time was [redacted]. While in the court room, the atmosphere in the court room was very quiet and subdued which lead me to believe everyone was working together with regard to this child being taken from her mother. It was around that time Ms. [redacted] informed me that I must forward all my reports to her before taking it to court. That is usually standard procedure but is not always done and especially with seasoned workers. I noticed that whenever my reports were returned from her review it was severely altered and schewed against the mother. I recall a few weeks later the mother sat in front of me with tear in her eyes saying that she can see what is happening and she is going to get a lawyer. She wasn't aware how much I was fighting for the return of her children. I told a colleague that I was distressed about was apparent to me which amounts to child trafficking in the agency. I told this colleague that I will not be apart of it and that if they try to force me out, I was going straight to the media. This colleague informed her supervisor and within a week the agency attorney [redacted] sent out an email that the following Friday was her last day as the toddler needs to have her home. The Director of foster care [redacted] who was previous a Family Court attorney took over the case. This was when [redacted] entered this process and began to push for me to be forced out of the agency.

It was then I notice my progress notes to home visits were being removed in addition to time sensitive emails. This was being done to write me up so that they would have credible reason to terminate me. I initially wasn't aware that it was being removed as I was second guessing myself that the note was documented. This went on for

some time. It was also around this time a case was transferred from the Sheltering Arms Bronx office to the Manhattan office. This was a baby not yet a year old that was placed with a male same sex married caucasian couple. Ms. [redacted] conference the case with me and informed me that the attorney on the case promised this couple the child and informed them that "she was going to make sure they get the baby". I had no respond to her statement, but I felt that this was given to me to see if I would cave in to get with the program or lose my job.

I recall meeting one of the foster parents for the first time. He came to the agency to meet me and for me to arrange the schedule visit with the child mother at the agency and to also schedule a home visit. He informed me that there are two boys that they adopted from overseas and that it was a long and costly process but the word on the street is that "if you want a child quick go to the foster care system". I didn't respond but continued to gather information. They soon realized that I was not with the program and were bring accusation to have me removed from the case. During this time the paternal grandmother reach out to me and informed me that her son states he was not in the place to have the child and the mother was not going to her program and can she take her grandchild. When I informed Ms. [redacted] of this, she told me not to put it in the report that a family resource had come forward. I informed the attorney that there was a family resource and when we went to court nothing was said about it. I informed the father to come to the court and inform the court that his mother would be willing to take his son and he was informed that he has to take a paternity test for her to be considered. As I was not getting with the program ways and means was been looked into terminate me.

As a result of me continuing to be vocal about black market adoption, [redacted] began to accuse me of being mentally unstable. It was evident to them that I had no intention of throwing any cases or altering any court reports to traffick children. Ms. [redacted] ran these accusations through the courts and throughout the organization and the push and pressure to have me terminated increase and so I applied for a position as a legal case worker in another agency and was hired within a week. After my resignation in a few months [redacted] was brought back into Sheltering Arms as the agency attorney.

I was hired at St. Dominic's Services in the Bronx at [redacted] and within 10 weeks of being hired, I turned the Kinship Division around and the agency because #1 in filing Kinship cases of children being placed with families within the state or out of state. It was at this point [redacted] found where I was and was now systemically directing a plan to force me out and 10 weeks later, I was dismissed for poor performance. Joannetta had my supervisor remove information I had placed in the system. Because I knew [redacted] was on board trying to have me forced out, I began to print my work. When I was called in on my work for not entering case notes in I produced copies of what was removed from the system by my supervisor [redacted] and I was terminated 2 days later after they broke the lock of my cabinet and removed documents that could be incriminating. [redacted] was repeatedly forging adoption documents and tried to engage me to do the same which I refused. As a notary she also wanted me to engage in fraudulent notary which I refused. I believe this was quite possible a directive from [redacted] again to get me to be involved in black market adoption for which I refused.

Whenever [redacted] felt that my supervisor was not doing what she wanted she took it up to the ladder, the VP's up to the CEO's office to get what she wanted done and it was always done. [redacted] also worked collaboratively with [redacted] in these endeavors to force me out the system.

In April 2018 I ran into a birth father whom had two children in foster care with sheltering Arms. He asked me to help him get his children back. I asked him why his children were still in care because there was no reason for them to be discharged to him. He said that he believes that Ms. [redacted] was running a business out of the agency. This birth father doesn't speak English very well but understand it very well. He shared that whenever he showed up for his visits and asked Ms. [redacted] where were his children, she laughed at him and close the door. He added that he arrived very early for his visit and when the foster parent arrived with the children, they weren't aware that he was in the waiting room and was discussing terminating his rights and splitting the money between them like the mafia. He said he didn't know what to do and needed my help. I gave him the name and phone number of the CEO Ms. [redacted] to report what was told to me. This was the same case where his son needed to be in a therapeutic home due to his many psychiatric diagnosis and uncontrollable behaviors. Sheltering Arms doesn't have therapeutic home and I advocated for him be transferred to an agency that has the appropriate home and she informed me that they don't give up children because it's the same as giving up money. Hence, this child was denied the appropriate setting because the agency was getting quite a bit of money off his diagnosis.

As a result, as being viewed as a Whistleblower I was forced out of my places on employment and only lasted a year or less at whatever agency I worked. I was forced out of my last Job over a month ago. I can unequivocally say that New York City child welfare is ran by Luciferian secret societies entrenched and hidden in middle management. Child trafficking in foster care is a national crisis and not enough is being done in the infrastructure of the child welfare agencies because it's a consolidated operation between the Department of Child Protective Services, foster care agencies and family court.

To begin to address this problem I propose that

1. The adoption and Safe Family Acts need to be abolished. Under ASFA I have seen some of the most unethical practices done to destroy families. Agencies are given federal incentive for each child adopted. Adoptive parents receive adoption incentives of \$13, 000 from IRS for each child adopted. Adoptive parents and doctors collude to diagnose the child with a psychiatric diagnosis for special rate for special need child which means adoption subsidies is over \$2000 until the child reaches 21. I know of a case where the supervisor cut a deal with the foster parent to lie on the birth parent not making visits so that the parent would lose their parent rights and the supervisor got a cut of the \$13,000.
2. Set up a National 800 number for CPS whistleblowers across the nation to report suspected child trafficking. I believe instituting a whistleblower reward for foster care child trafficking will help in uprooting the corruption in the child welfare system.

3. Agencies who doesn't file an AMBER ALERT on missing children should be fined. I have seen too many young girls that go missing and are being prostituted get filed as missing person report. Some end up in another state living with "alleged relatives" but forward no phone number or address.
4. The Department of Human Services in each State must also have their own 800 CPS whistleblower hotline against managers engaging in suspected child trafficking and black-market adoption.
5. The Department of child protection Services in each state should have an Accountability Office as NYC children services has implemented. This office provides oversight both internally and externally to reform the child welfare system.
6. Managers who forces Case planners to falsify court reports against the birth parent to engage in black market adoption should be reported to the Accountability Office 800 hotline that will foster an investigation and case review. Where there is credible evidence of such these managers should be brought up on criminal charges. Many CPS/Case planners are afraid to come forward for fear of retaliation and loss of jobs.
7. Managers who remove documents from Connections where casework activities are documented, are tampering with legal documents should also face criminal charges as these progress notes are evidence to be presented in family court cases
8. There needs to be a more aggressive and proactive approach in our Youth Specialist Teams in the foster care agencies on child trafficking. I am concerned that this has not been a part of the curriculum in the youth workshop, to education, highlight and strategize against youth child trafficking as they often recruit each other. It must be tackled internally.
9. The local precinct should implement a first responder team for children in foster care who are suspected to be trafficked or being prostituted. These youth names should be forward to the team as the same trafficker is probably trafficking several of the youths throughout several agencies.

I am hoping that in light of this information that the child trafficking in New York City foster care system can be exposed. This has been my experiences and such cases are usually swept under the carpet because the law enforcement agencies who are to investigate, the prosecutors and judges are themselves involved in the trafficking. Everyone in the agencies that I have work in has worked along with Ms. [redacted] and Ms. [redacted] to black ball and blacklist from the industry. They are very well protected in this industry because they are a network that protect each other. It I my hope that this disclosure will initiate an internal investigation. I am very well prepared for the backlash and what this will cost me. I don't believe that Ms. [redacted] and Ms. [redacted] are acting on their own they are just two individuals that I have had personal knowledge of engaging in the child trafficking and black-market adoption.

[redacted]

To Whom it May Concern,

I am a Licensed Marriage and Family Therapist (MFT) in the state of California. I specialize in developmental psychology and early childhood trauma. I previously worked doing developmental biopsychosocial assessments on children as young as 3 weeks old in the foster care system and helping to support families with needed services to aid in reunification between 2005 and 2013.

The research indicates that most children who have been separated or abandoned by their primary caregiver especially those younger than age 6, suffer lifelong socio-emotional consequences. Much of this has to do with the fact that from birth to 5, neurodevelopment is laying the groundwork for self-esteem, trust, and relational patterns. This groundwork becomes the core of the personality and cohesiveness and predictability are crucial in the development of positive attachment patterns and healthy well functioning people.

The single most traumatic thing that I have experienced in my career was the removal of four children under the age of 7, from their mother by DCFS and police officers. In my experience, children who remained in the home with intensive family services fared much better than those who were removed. I had a few cases in which as an alternative to placing the child in foster care, the court ordered the abusive parent to move out as long as the other was fit enough to stay with the child/children. Services were then provided for everyone (some altogether, some separate) including evidenced based parenting skills training, psycho education regarding the effects of domestic violence, domestic violence classes, anger management, evidenced based parent child attachment therapy, individual and family therapy, drug/alcohol rehab, job skills training, referrals to community resources.

Clearly, biased, corrupt family courts need to go. Monetary incentives should be given to NOONE for adopting out children. In addition, the burnout and subsequent turnover rate for social workers is rapid as many have enormous caseloads and not enough time, which leads to apathy, low job satisfaction, on top of the stressful and depressing nature of a job that requires people to separate children from parents which defies the natural process, and undermines the integrity of the family system and community at large. A system that removes the abusive adult from the home temporarily works. This eliminates the need for foster homes and burnt out social workers. And under severe circumstances as well as financial burdens, which there usually are, I'd like to see the development of large facilities or housing communities where parents can go with their children to receive intensive services on site and which the parents and children all contribute to the community by helping each other, learning from each other, and doing house jobs daily. Intensive services would include those listed above. Basically a multidimensional rehab for families.

Ideally, programs would be developed that focused on prevention of abuse through pre-natal education and post natal weekly well checks. Postpartum education during the prenatal period and screening following birth. Longer periods of paid time off for new mothers as well as paid time off for fathers. Child abuse is more likely to occur in communities that have limited resources and support, high levels of stress, mental illness, and substance abuse, so intensive community based services are critical in addition to regenerating more cohesive communities in which families empower and help each other.

Last point would be educating parents, children, school personnel, general public about human trafficking.

Hope this helps. If you need anything additional, I am here to help. I would love to get involved in the generation and revamping of the child welfare system!
