

its time to shut the entire door to foreigners coming here and sneaking in whenever they feel like it.their purpose in coming here is to make money for themselves.that is their only purpose. they lie and give us fake stories,but it is untruthful. they need to stay in their own country.they are a brutal financial impediment to all american citizens who are being bankrupted paying for the cost of their care. each kid brought into this country costs american taxpayers from k-12 half a million dollars.

we dont have money to spend for our own kids education any more. we are rolling up huge trillion dollar deficits for these foreigners who come here to luxuriate in free rent, free food, free medical care, free education, free everything. they dont pay for a goddam thing. they come here with criminal intent to go into any illegal operation they can to make money.they are into prostitution, drugs, gambling, every illegal thing you can think of to do, they will do. just shut the entire illegal immigrant situation down.,

let them go down to chile to sneak into a country. we want our country borders shut down totally. we dont want any of those kids living here in america on our wallets.

this comment is for the public record. we work hard. we want our money for our own families. not the sneak leeches from foreign countries., jean public jean pubilc1@yahoo.com
