Today’s Presenters

Stephanie Guinosso
Program Manager
ETR Associates

Jill Elnicki
Senior Program Specialist
ETR Associates
Learning Objectives

By the end of today’s Webinar, participants will be able to:

1. Explain the concept of sustainability and why it is important
2. State the factors that promote project sustainability
3. Develop concrete strategies for increasing their project’s sustainability
Ways to Participate

• Questions and Comments
  – Use question box tool

• Other Tools
  – Polls
  – Hand raising
Let’s Take a Poll
What Is Sustainability?
Some Definitions of Sustainability

• The capacity of an organization to achieve long-term success and stability and to serve its clients and consumers without the threat of losing financial support or quality of services (Center for Substance Abuse Treatment, n.d.)

• The ability to continue services after a funding period is over and to ensure that the organization becomes a permanent part of community resources (Center for Substance Abuse Treatment, 2008)

• The institutionalization of a project as an integral part of an organization (Goodman et al., 1993)
Levels of Sustainability

(Sources: Savaya and Spiro, 2012; Scheirer, 2005; Wolff, 2010)
Why Is Sustainability Important?

• Ensures a need is met in the community
• Makes use of valuable investments
• Maintains trust
Let’s Take a Poll
Sustainability Factors
Sustainability Factors

- Internal Factors
- External Factors
Internal Factors

- Clear vision and leadership
- Strong internal systems/organizational capacity
- Results orientation/program evaluation
- Adaptability
- Communications
- Strategic financing/diversified funding
- Sustainability plan

(Sources: Hayes, 2002; Savaya and Spiro, 2011; Scheirer, 2005; Schell et al., 2013)
External Factors

- Political support
- Broad base of community support/partnerships
- Key champions

(Sources: Hayes, 2002; Savaya and Spiro, 2011; Scheirer, 2005; Schell et al., 2013)
Pause for Questions
Planning Steps
Let’s Take a Poll
Planning Steps

1. Assemble your team
2. Envision your future
3. Assess sustainability capacity
4. Prioritize what to sustain
5. Identify sustainability strategies
6. Develop an action plan
7. Implement the action plan
8. Evaluate your efforts

(Source: Washington University, 2013a)
Step 1: Assemble Your Team
Step 2: Envision Your Future

- Picture what the sustainable project would look like
- Determine your project’s niche
- Involve project leaders and key stakeholders
- Engage a broad range of community partners
- Articulate the vision to other stakeholders
Step 3: Assess Sustainability Capacity

• Washington University Center for Public Health Systems Science
  https://sustaintool.org/

• Center for Civic Partnerships
  http://www.civicpartnerships.org/docs/services/NHC-Sustainability.htm
## Step 4: Prioritize What to Sustain

<table>
<thead>
<tr>
<th>Project Components</th>
<th>Maintain within Your Organization</th>
<th>Transfer to Another Organization</th>
<th>Discontinue</th>
<th>Undetermined</th>
</tr>
</thead>
<tbody>
<tr>
<td>Train agencies on evidence-based programs</td>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Maintain a cadre of trainers</td>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Implement evidence-based programs</td>
<td></td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Implement programs for foster parents</td>
<td>X</td>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(Sources: Hutchinson, n.d.; Washington University, 2013a)
## Step 4: Prioritize What to Sustain

List project components and then check the most appropriate box to the right to help determine which are most critical to sustain.

<table>
<thead>
<tr>
<th>Project Components</th>
<th>Maintain within Your Organization</th>
<th>Transfer to Another Organization</th>
<th>Discontinue</th>
<th>Undetermined</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Step 5: Identify Sustainability Strategies

Approach 1

• Which areas are the most urgent?
• Which areas result in the best payoff?
• Which areas require the fewest resources?
• Which areas are the most feasible?
• How would you prioritize the areas based on available time and resources?

(Source: Washington University, 2013a)
Step 5: Identify Sustainability Strategies

**Approach 2**

<table>
<thead>
<tr>
<th>Project Components</th>
<th>Resources</th>
<th>Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>List essential project activities</td>
<td>List specific resources needed to</td>
<td>List possible strategies for securing resources</td>
</tr>
<tr>
<td></td>
<td>continue</td>
<td></td>
</tr>
<tr>
<td>Train agencies on evidence-based</td>
<td>Space to host the training</td>
<td>Agencies with training space</td>
</tr>
<tr>
<td>programs</td>
<td>Materials ($2,000)</td>
<td>Make green</td>
</tr>
<tr>
<td></td>
<td>Food</td>
<td>Food donations</td>
</tr>
<tr>
<td></td>
<td>Trainer time/salary</td>
<td>Charge fee</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Seek partnerships with in-kind donors</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Develop key champions to support fee for service</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Fundraising</td>
</tr>
</tbody>
</table>

(Sources: Center for Civic Partnerships, 2011; Hutchinson, n.d.)
**Step 5: Identify Sustainability Strategies**

Use the following worksheet to identify sustainability strategies for the project components noted as critical to sustain in Step 4.

<table>
<thead>
<tr>
<th>Project Components</th>
<th>Resources</th>
<th>Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>List essential project activities.</td>
<td>List specific resources needed to continue.</td>
<td>List possible strategies for securing resources.</td>
</tr>
</tbody>
</table>

# Step 6: Develop an Action Plan

## Sustainability Strategy: Seek partnerships with in-kind donors

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Person Responsible</th>
<th>Timeline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make a list of all resources needed that could come from in-kind donations</td>
<td>Youth interns</td>
<td>September 1, 2013</td>
</tr>
<tr>
<td>Make a list of all potential partners with in-kind resources to give who would be sympathetic to our cause</td>
<td>Marv</td>
<td>September 7, 2013</td>
</tr>
<tr>
<td>Develop a pitch that shares project vision as well as what partners may stand to gain</td>
<td>Zoa and Marv</td>
<td>September 14, 2013</td>
</tr>
<tr>
<td>Contact partners and make the ask</td>
<td>Zoa</td>
<td>October 1, 2013</td>
</tr>
</tbody>
</table>
Steps 7 & 8: Implement the Action Plan and Evaluate Your Efforts

Sustainability planning is ongoing:

- Monitor progress toward each step
- Discuss progress with stakeholders
- Reassess your sustainability capacity yearly
Any Questions?
Sharing Sustainability Successes
Homework

1. Complete a sustainability assessment

2. Develop a sustainability plan
Further Assistance

- Request technical assistance via your FYSB Project Officer
- Visit the Communities of Practice Website
One important point from today’s Webinar that I want to remember is...

Thank You!

for your participation
