

TRIBAL ANNUAL REPORT

Guide For CCDF Tribal Lead Agencies (ACF-700)

Revised October 2012

This reporting guide is a technical assistance product of the Office of Child Care, Administration for Children and Families, US Department of Health and Human Services. The guide is for distribution according to department policy. It was revised by General Dynamics Information Technology under contract HHSP233201175071W.

Appendix A – Glossary of Commonly Used Child Care Terms	50
Appendix B – Internet Submission Registration Form	54

I. Introduction

On an annual basis, Tribal Lead Agencies for the Child Care and Development Fund (CCDF) grantees are required to submit aggregate information on services provided. The Tribal CCDF Annual Report consists of two parts:

The ACF-700 Form reports data on children and families that received CCDF-funded child care services, and on services that were provided.

The Supplemental Narrative describes general child care activities and actions in the Lead Agency's reservation or Tribal service area.

The data reported on the ACF-700 form should reflect services provided during the Federal fiscal year (October 1 through September 30), regardless of whether the services were paid for with CCDF funds from that year or a previous year, and regardless of whether the funds used were Tribal Mandatory Funds or Discretionary Funds. In addition, if a program uses other funds to further support direct child care services for the children being reported on the ACF-700, Tribes should indicate the use of those funds and identify the funding source in the "Comments" field of the ACF-700 report.

The CCDF Annual Report is due by DECEMBER 31.

This manual provides guidance for completing both the ACF-700 form and the Supplemental Narrative. The remaining sections of the guide include an overview of the report, guidance for completing the Supplemental Narrative, general instructions for ensuring an accurate and complete ACF-700 report, specific directions for those grantees who are preparing the report manually without the help of automated software, submission options, and resources for additional help.

II. Overview of the Required Tribal Reports

The required CCDF Tribal Report contains two parts: 1) the ACF-700 form, and 2) the Supplemental Narrative. The ACF-700 report contains counts of the families and children who received services and information about the services they received, while the Supplemental Narrative gives grantees the opportunity to detail the results of activities in their Tribal service area. The ACF-700 Report and Narrative together offer the Office of Child Care (OCC) a glimpse into how CCDF program dollars are being spent. Collectively, the submitted reports help to tell the CCDF Tribal child care “story.” The data help to document the work being done and are essential for demonstrating the accomplishments of Tribal child care programs.

The data submitted on the ACF-700 report and the information from the Supplemental Narrative provide the US Congress with information on Tribal programs and serve to inform both policy and fiscal decisions. In addition, the data gathered for the ACF-700 report are a rich source of information that also can be used for a variety of program needs including informing your Tribal Council about your program and the services you provide, evaluating your program, training staff, resource development, and community education.

Instructions for completing both the ACF-700 form the Supplemental Narrative are discussed in the following sections.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

ACF-700 Form

CHILD CARE AND DEVELOPMENT FUND ANNUAL REPORT (ON SERVICES PROVIDED FROM OCTOBER 1, 20__ THROUGH SEPTEMBER 30, 20__)										OMB Control Number 0970-0430 Expiration Date: 12/31/2013			
COMPLETE NAME OF TRIBAL LEAD AGENCY:		CATEGORY/TYPE OF CHILD CARE											
ADDRESS:		CARE PROVIDED BY A CCDF PROVIDER—NO LICENSE CATEGORY AVAILABLE IN A						CARE PROVIDED BY CCDF PROVIDER— LICENSED OR REGULATED IN A					
CONTACT PERSON		CHILD'S HOME BY A		FAMILY HOME BY A		GROUP HOME BY A		(H)	(I)	(J)	(K)	(L)	
Phone:		(B)	(C)	(D)	(E)	(F)	(G)	(H)	(I)	(J)	(K)	(L)	
E-Mail:		Relative	Non-Relative	Relative	Non-Relative	Relative	Non-Relative	Center	Child's Home	Family Home	Group Home	Center	
TOTAL													
1. Total number of families that received child care services this fiscal year													
2 a. Average number of children served each month													
2 b. Total number of children that received services this fiscal year													
3. Total number of children receiving services that fall into each age category:													
a. 0 up to 1 year		a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.
b. 1 year up to 2 years		b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.
c. 2 years up to 3 years		c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.
d. 3 years up to 4 years		d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.
e. 4 years up to 5 years		e.	e.	e.	e.	e.	e.	e.	e.	e.	e.	e.	e.
f. 5 years up to 6 years		f.	f.	f.	f.	f.	f.	f.	f.	f.	f.	f.	f.
g. 6 years up to 13 years		g.	g.	g.	g.	g.	g.	g.	g.	g.	g.	g.	g.
h. Total number of children 0 to 13 years (add Column A, 3a thru 3g)		h.	h.	h.	h.	h.	h.	h.	h.	h.	h.	h.	h.
i. 13 years and older		i.	i.	i.	i.	i.	i.	i.	i.	i.	i.	i.	i.
4. Number of children who received child care services													
Because:													
a. Their parent(s) worked													
b. Their parent(s) were in training or an education program													
c. Child received or needed protective services													
Because there was a Federal Emergency and:													
d. Their parent(s) worked													
e. Their parent(s) were in training or an education program													
f. Child received or needed protective services													
5. Average number of hours of child care service provided per child per month													
6. Average monthly amount paid for child care service													
a. Average monthly CCDF program subsidy per child		a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.
b. Average monthly parent copayment per child		b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.
7. Number of children served whose family income was:													
a. at or below the poverty threshold for families of the same size		a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.
b. above the poverty threshold but at or below 150 percent of the poverty threshold for families of the same size		b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.
c. above 150 percent of the poverty threshold but at or below 200 percent of the poverty threshold for families of the same size		c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.
d. above 200 percent of the poverty threshold for families of the same size		d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.
8. Number of children served by payment type this fiscal year:													
a. Grant/contact with provider		a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.	a.
b. Certificate or voucher to parent and/or provider		b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.	b.
c. Cash payment to parent		c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.	c.
d. Tribally-operated center		d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.	d.
Comments: (Please use the back of this sheet if necessary)													
Public reporting burden for this collection of information is estimated to average 35 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.													

III. Preparing the CCDF Tribal Grantee Supplemental Narrative Report

The **Supplemental Narrative Report** (to the ACF 700 Form) requests descriptions of the results of specific CCDF-funded activities available on the Tribal Lead Agency's (TLA) reservation or Tribal service area. This information will be included in the CCDF Report to Congress, as appropriate, and will be shared with other TLAs to inform them of CCDF-funded activities in other Tribal programs. There is no required format for the Supplemental Narrative Report. TLAs are encouraged to include any related materials to accompany the narrative, including brochures, pamphlets or news articles.

The **Supplemental Narrative Report** requires all TLAs to describe:

1. Any efforts to improve the quality of child care (e.g., early learning and literacy activities, which support school readiness).
2. A description of unmet child care needs, if applicable. For example, a TLA might cite the number of eligible children on a waiting list as of a specific date. A TLA could also cite the unmet need by providing the number of months child care services are not available due to a lack of funds.
3. A description of collaborative activities which promote comprehensive early care and education services, encourage increased quality, business participation, and coordination with State or Tribal agencies responsible for health, education, employment services or workforce development and the State or Tribal agencies responsible for providing Temporary Assistance to Needy Families (TANF).
4. A description of efforts to improve the quality of data collected about families and children served and the types of care provided. If a TLA is using the *Child Care Data Tracker*, a description of the use of the *Tracker* must be included.

IV. Preparing the ACF-700 Report

The ACF-700 report can be prepared manually with all of the arithmetic calculations performed by hand, or it can be prepared automatically using computer software. Regardless of the method used to calculate the report, you must keep track of certain information on a regular basis (monthly tracking is recommended). Even though the ACF-700 report and Supplemental Narrative are due at the end of each Federal fiscal year, **the information required to prepare the reports must be gathered on an ongoing basis throughout the year.**

The ACF-700 should be prepared using information that programs collect during a family's intake as well as information that is collected on an ongoing basis when services are provided. Generally, during the intake process, a child care program collects demographic information about the families and children they serve. Additionally, as services are provided, programs capture information on the hours of care each child receives, the payment they make on behalf of each child, and each family's assigned co-pay. All of this information is used to summarize data for the annual ACF-700 report.

You should only include information about children/families whose direct child care services were provided during the Federal fiscal year and who met CCDF eligibility, regardless of which year's CCDF funds paid for those services. Note that child care services should be reported whether paid for wholly or in part with CCDF funds. Child care services include those services that you offer directly through your own CCDF program, or services that you pay for with your CCDF grant but are offered by other programs and providers. Guidance of what is included in direct services for Tribally Operated Centers (TOC) can be found in *Technical Bulletin #14*. Child care services include slots purchased through contracts/grants, services purchased through certificates/voucher, and services provided in a tribally-operated facility. See *Appendix A* for definitions.

IV. 1 Manual Preparation of the ACF-700 Report:

If you choose to complete your ACF-700 manually, you will have to be prepared to do the required arithmetic calculations yourself. This can be as simple as counting the number of families and children you served, or as complex as the calculation of monthly averages.

The required information includes the number of families and children receiving services, ages of the children, their reason for care, the number of hours of care for each month for each child, the monthly subsidy amount paid on their behalf, the family's monthly co-pay, each family's income, and the type of payment made for each child. For co-payment, subsidy amounts, and hours of service, you also will need to calculate averages for all families and children on a monthly basis for each type of care you provide.

Depending upon the number of clients that a program serves and the number of provider types used, some of the calculations required for the ACF-700 report can be time-consuming and preparing the report can be a tedious process. Again, although this is an annual report, many of the calculations have to be completed for each month of the year for each type of care you offer.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

If you do prepare your ACF-700 manually, you will find detailed instructions that are required for the accurate reporting of each of the data elements in *Section VI* of this Guide.

IV. 2 Computer Preparation of the ACF-700 Report:

To facilitate the preparation of the ACF-700 report, some Tribal grantees use automated systems to capture and manage the required information. The Office of Child Care (OCC) recognized that many Tribal grantees did not have access to information systems that would allow for the capture and management of information for the required ACF-700 report, and developed the *Child Care Data Tracker (Tracker)* to facilitate the reporting process. The use of this software is optional for the Tribal grantees.

The *Tracker* is a Microsoft Access-based software tool that is installed and used on any computer that supports Microsoft Access. It is a comprehensive case management tool that can help you to maintain all of your client records and allows you to record a broad range of information about clients including demographics, eligibility reviews, services received, and payments made. The *Tracker* also can automatically generate a variety of reports, including the required ACF-700 report, based on the required data that you enter. The software is available free of charge to CCDF Tribal Grantees. Over time, several versions of the *Tracker* have been developed, each of which has made the software more user-friendly and allowed it to function more efficiently.

The *Tracker* functions generally parallel the activities used by child care program staff with the families they serve. There are several data entry modules in the *Tracker* that allow you to keep track of your children and families, providers, service authorizations and payments. The ACF-700

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

report is based on the information/data that you enter in these modules. Program information that is required for the ACF-700 report also is required by the software when you use the *Tracker*. This feature of requiring certain data ensures that you will be able to generate an ACF-700 report at the end of the year.

In addition to generating the ACF-700 report, the report module in the *Tracker* allows you to generate applicant, provider, service, and payment reports with a variety of sorting options.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

To learn more about the *Child Care Data Tracker*, see the OCC website at: <http://www.acf.hhs.gov/programs/occ/resource/child-care-data-tracker> for hardware and software requirements and for a downloadable copy of the *User's Guide*.

V. Report Preparation – General Instructions

Regardless of whether you are completing your ACF-700 report manually or using automated software, the following general instructions in *Table 1* apply to all of the data elements on the ACF-700 form and can provide guidance as you perform quality assurance checks on your data to ensure they are accurately reflecting your program.

Tables 2 and 3 provide additional information regarding the acceptable use of “Not Applicable” (NA) for any of the ACF-700 report fields, and quality assurance data checks to review prior to submitting your report to OCC.

General Instructions	
<i>NOTE: Upper case letters (A, B...L) represent vertical columns on the report. Lower case letters (a, b...f) represent rows going across the report.</i>	
Report Period – Federal Fiscal Year	The Federal fiscal year (FFY) begins on October 1 and ends on September 30 of each year. The ACF-700 report should only include information about CCDF activities that occurred during this time frame.
Allowable Values	Generally, the fields should only contain numbers or letters. Do not use decimals, dollar signs, dashes, or other characters.
What to Report – Counts or Averages	Some data elements require that you provide counts (for example, counts of families or children) while others require that you provide averages. Counts are required for data elements 1, 2b, 3a-i, 4a-f, 7a-d, and 8a-d. Averages are required for data elements 2a, 5, 6a, and 6b. To calculate averages, refer to the guidance included in this document for each individual data element.
Counting Children not Families	There is only one data element that requires a family count – Element 1, Column A: Total number of families that received child care services this fiscal year. All other data elements requesting counts of who received services are counts of children (2b, 3a-i, 4a-f, 7a-d, and 8a-d). Even if you collect information at the family level (for example Element 4, Reason for care), the data should be reported as a count of children within those families.
Unduplicated Counts (Column A)	In Column A (with the exception of elements 2a, 5, and 6a-6b which ask for averages), you should count each family or child only once regardless of how many times they may have entered and exited service during the Federal fiscal year, or if they received services from more than one provider during the year.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Duplicated Counts (Columns B-L)	A child should be counted in a column if they received services from that type of provider. The numbers of children reported by provider type (Columns B-L) may be more than the total being reported in Column A; however the number may not be <u>less</u> than Column A. Duplicated counts may be used for data elements 2b, 3a-i, and 8a-d (Columns B-L).
Not-Applicable Fields (see following table for additional details)	The use of NA is restricted as illustrated in <i>Table 2</i> . If you do not offer a particular type of child care service (for example, in-home care), you can enter NA in that column for each data element. If you do not use a particular type of payment (for example, cash payments), likewise you can enter NA in fields across line 8 c. Use NA only if the service option is not one that you use, or a category of families and children you do not serve. If you <u>do</u> offer a service but no child utilized it, you should enter zero (0) for your count in that field.
Blank Fields	DO NOT LEAVE ANY BLANK FIELDS. Every field should have either a count (a number) or the letters “NA” (Not Applicable).
Rounding	Please round up or down to the nearest whole number. If the number immediately to the right of the decimal point is 4 or less, round the number down. If it is 5 or more, you should round up. For example, 66.3 hours should be rounded down to 66. A dollar amount of \$45.75 should be rounded up to \$46.00. In this case you would enter 46 on the ACF-700 form without a dollar sign and without a decimal point.
Data Accuracy Checks	Please see the guidance included with each data element in <i>Section VI</i> to check the accuracy of the numbers you are reporting. Note that some numbers must add up to and equal numbers reported in other fields. Likewise, some numbers should be less than numbers reported in other fields. If your numbers do not meet the data accuracy check, there may be an error that you need to fix. See <i>Table 3</i> below for a summary of the checks.
Comments Field	Use the comments field to explain any unusual or inconsistent data. For example, if the number of families and children you served changed drastically from your prior year’s report, you may want to indicate the reason for the change. You are not able to attach documents in the comments field of the online submission form. Any documents that you would like to submit to NCDT should be sent via e-mail to: NCDT@childcaredata.org . You should also use the comments box to provide footnotes explaining when any missing data will be submitted.

Table 1: General Instructions for the ACF-700 Report

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Permissible Use of “Not Applicable” (NA)	
<i>This table summarizes the appropriate use of “NA” on the ACF-700 report and the submission site (see Section VII). On the submission site, if you enter “NA” for a data element where “NA” is not permitted, you will get an error message.</i>	
Element/Columns Where “NA” is Permitted	Circumstances Where “NA” is Permitted
Element 2b - Total Number of Children That Received Services This Fiscal Year, Columns B-L	When a Tribe does not utilize specific types of care
Element 3, Rows a-h - Age Breakdown of Children Receiving Services, Total by Age Category/Types of Care, Columns B-L	When a Tribe does not utilize specific types of care
Element 3i - Age Breakdown of Children Receiving Services, 13 and older, Columns B-L	When a Tribe does not serve children older than 13 years
Element 5 - Average Number of Hours Child Care Service is Provided Per Child Per Month by Type of Care, Columns B-L.	When a Tribe does not utilize specific types of care
Element 6a - Average Monthly CCDF Subsidy, Total and by Type of Care, Columns B-L	When a Tribe does not utilize specific types of care
Element 6b - Average Monthly Parent Co-payment, Total and by Type of Care, Columns B-L	When a Tribe does not utilize specific types of care
Element 8, Rows a-d – Number of Children Served by Payment Type this fiscal year, Columns B-L	When a Tribe does not utilize certain payment types

Table 2: Permissible Use of “NA” on the ACF-700 Annual Report

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Data Accuracy Check Summary	
<i>You can find more detail on the Data Accuracy Checks for each data element in Section VI. All consistency checks marked with an asterisk (*) indicate checks that are conducted on the ACF-700 Internet Submission Site. See Section VII for more information).</i>	
Element	Consistency Check
Element 1, Column A	Element 1 should be less than or equal to Element 2b.
Element 2a, Column A	Element 2a should be less than or equal to Element 2b.
Element 2b, Column A	Element 2b, Column A, should be greater than or equal to Element 1 and greater than or equal to Element 2a, Column A.
Element 2b, Columns B-L	The total of Element 2b, Columns B-L should be equal to, or greater than Element 2b, Column A.
Element 3a-i, Column A	The total of Element 3a through 3g in Column A should be equal to Element 3h, Column A.* The total of Element 3h, Column A and Element 3i, Column A should equal Element 2b, Column A.*
Element 3a-i, Columns B-L	For each type of care, the total of Elements 3a to 3g in each column should equal the number in Element 3h for that column.* For each care type, the total number of children in Element 3h and Element 3i for that column should equal Element 2b of that column. * The total sum across each row (Columns B-L) must be equal to, or greater than the number reported on the same row in Column A.
Element 4a-f, Column A	The total of Elements 4 a-f, Column A should equal Element 2b, Column A.*
Element 5, Column A	Generally, full-time care is about 160 hours per month. If most of your children are receiving full-time care, your reported average monthly hours of service per child would not likely be substantially higher or substantially lower than 160 in Column A or in any one care type (Columns B-L). If, however, you primarily operate a Before or After School program, your average hours per month may be substantially lower. The average hours should be representative of the program that you operate and the services that you provide.
Element 5, Column B-L	

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Element	Consistency Check
Element 6a, Column A	In most cases, the subsidy amount (6a) will be larger than the co-payment amount (6b) for both the total column (A) and for each individual care type column (B-L). If your reported co-payment is higher than your reported subsidy, you may have an error in your data.
Element 6a, Column B-L	
Element 6b, Column A	
Element 6b, Columns B-L	
Element 7(a-d), Column A	The sum of 7a, 7b, 7c, and 7d must equal Element 2b, Column A.*
Element 8 a-d, Column A	The sum of 8a, 8b, 8c, and 8d must equal Element 2b, Column A.*
Element 8 a-d, Columns B-L	<p>The sum of 8a, 8b, 8c and 8d must equal Element 2b in the same column. *</p> <p>The total sum across each row (Columns B-L) must be equal to, or greater than the number reported on the same row in Column A.</p>

Table 3: Summary of Data Accuracy Checks

VI. Instructions for Manual Calculations

Following are detailed instructions for manually calculating the ACF-700 report. These instructions include definitions, guidance on manual calculation, and data accuracy checks for each data element. If you are completing the ACF-700 report with the *Tracker* software, you may skip this section of the guide because all of the calculations are automatically completed by the *Tracker* software when you generate your ACF-700 report.

Tribal Lead Agency Contact Information:

Tribal Lead Agency Data Elements
<p><i>Complete Name of Tribal Lead Agency</i></p> <p>Definition: Name of the Tribal Lead Agency for the Child Care and Development Fund Allowable Values: Text</p>
<p><i>Address</i></p> <p>Definition: Mailing address of the Tribal Lead Agency for the Child Care and Development Fund Allowable Values: Text, Numbers</p>
<p><i>Tribal Lead Agency City</i></p> <p>Definition: City of the mailing address of the Tribal Lead Agency for the Child Care and Development Fund Allowable Values: Text</p>
<p><i>Tribal Lead Agency State</i></p> <p>Definition: Two-letter postal State abbreviation of the mailing address of the Tribal Lead Agency for the Child Care and Development Fund Allowable Values: Valid postal State abbreviations</p> <p>Guidance: Click below for a list of all valid State and Territorial postal State codes https://www.usps.com/ship/official-abbreviations.htm</p>
<p><i>Tribal Lead Agency ZIP Code</i></p> <p>Definition: Numerical code assigned by the US Postal Service to designate a local area or entity for the delivery of mail Allowable Values: Accepts all valid ZIP codes 5 digits required 4 digit extension option (do not include hyphen)</p> <p>Guidance: You can search for valid ZIP codes at: http://zip4.usps.com/zip4/citytown_zip.jsp</p>

Tribal Lead Agency Contact Information (continued)

Contact Person Information
<p><i>Contact Person</i></p> <p>Definition: Full name of individual whom the Office of Child Care should contact in regard to this report</p> <p>Allowable Values: Text</p>
<p><i>Phone</i></p> <p>Definition: Area code and telephone number for the contact person</p> <p>Allowable Values: Numbers</p> <p>Guidance: Include area code</p>
<p><i>E-mail</i></p> <p>Definition: Electronic mail address for the contact person</p> <p>Allowable Values: Text, Numbers</p> <p>Guidance: Be sure that the entered e-mail address is complete and clearly legible</p>

DATA ELEMENT 1, Column A: Total number of families that received child care services this fiscal year

Element 1, Column A Total Number of Families That Received Child Care Services This Fiscal Year
<p>Definition: Unduplicated count of families who received CCDF subsidized child care services during the Federal fiscal year.</p> <p>Child care services include those that you offer directly through your own CCDF program, or services that you pay for with your CCDF grant but are offered by other programs and providers, to children whose families meet CCDF eligibility requirements. Child care services include slots purchased through contracts/grants, services purchased through certificates/vouchers, and services provided in a tribally-operated facility. <i>See Appendix A for definitions.</i></p>
<p>Data Accuracy Check: Element 1, number of <u>families</u> receiving services should be less than or equal to Element 2b, the total number of <u>children</u> receiving services.</p>
<p>Guidance: Each family should be counted once, regardless of the number of days care was provided, and even if the family has exited and re-entered the program.</p> <p>Example 1: A family leaves the program in March but is reinstated in August. The family is counted one time in Element 1.</p> <p>Report the number of families for whom you provided services during the reporting period October 1 – September 30 regardless of:</p> <ul style="list-style-type: none">• when the payment for the service was made, <u>or</u>• which fiscal year's funds paid for the service. <p>Example 2: A child received care in August only. The Tribal Lead Agency paid for that care in October. Count the family because the service was received during the report period.</p> <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i></p>

DATA ELEMENT 2a, Column A: Average number of children served each month

Element 2a, Column A Average Number Of Children Served Each Month																															
<p>Definition: The average number of children served each month. An average is one single number that arithmetically represents a group of numbers. See the <i>Guidance</i> section below for one method of calculating this data element.</p>																															
<p>Data Accuracy Check: Element 2a, the <u>average</u> number of children served per month should be less than or equal to Element 2b, the <u>total</u> number of children receiving services all year.</p>																															
<p>Guidance - How to Calculate a Monthly Average Number of Children Served:</p> <p>Add the number of children you served each month during the Federal fiscal year and divide by the number of months the Tribal child care program provided services (such as full year, 12 months).</p> <p>Note: This is a monthly average, not a yearly average. The following demonstrates how a monthly average can be calculated.</p>																															
<table border="1" style="margin: auto; border-collapse: collapse;"> <thead> <tr> <th style="padding: 5px;">Month</th> <th style="padding: 5px;"># Children</th> </tr> </thead> <tbody> <tr><td style="padding: 5px;">Oct</td><td style="padding: 5px;">15</td></tr> <tr><td style="padding: 5px;">Nov</td><td style="padding: 5px;">12</td></tr> <tr><td style="padding: 5px;">Dec</td><td style="padding: 5px;">13</td></tr> <tr><td style="padding: 5px;">Jan</td><td style="padding: 5px;">13</td></tr> <tr><td style="padding: 5px;">Feb</td><td style="padding: 5px;">12</td></tr> <tr><td style="padding: 5px;">Mar</td><td style="padding: 5px;">14</td></tr> <tr><td style="padding: 5px;">Apr</td><td style="padding: 5px;">11</td></tr> <tr><td style="padding: 5px;">May</td><td style="padding: 5px;">12</td></tr> <tr><td style="padding: 5px;">Jun</td><td style="padding: 5px;">13</td></tr> <tr><td style="padding: 5px;">Jul</td><td style="padding: 5px;">15</td></tr> <tr><td style="padding: 5px;">Aug</td><td style="padding: 5px;">15</td></tr> <tr><td style="padding: 5px;">Sep</td><td style="padding: 5px;">18</td></tr> <tr><td style="padding: 5px;">Total count for all months</td><td style="padding: 5px;">163</td></tr> <tr> <td style="padding: 5px;">Divide by the number of months provided service (12) to get a monthly average.</td> <td style="padding: 5px; text-align: center;">13.58 (Round to 14)</td> </tr> </tbody> </table>		Month	# Children	Oct	15	Nov	12	Dec	13	Jan	13	Feb	12	Mar	14	Apr	11	May	12	Jun	13	Jul	15	Aug	15	Sep	18	Total count for all months	163	Divide by the number of months provided service (12) to get a monthly average.	13.58 (Round to 14)

DATA ELEMENT 2b, Column A: Total number of children that received services this fiscal year

Element 2b, Column A Total Number of Children That Received Services This Fiscal Year
<p>Definition: An unduplicated count of children who received child care services for the Federal fiscal year regardless of the type of care.</p>
<p>Data Accuracy Checks:</p> <p>Check 1: Element 2b, Column A, should be greater than or equal to Element 1, Column A, the total number of families receiving services.</p> <p>Check 2: Element 2b, Column A, should be greater than or equal to Element 2a, Column A, the average number of children receiving care each month.</p>
<p>Guidance: Each child who received services should be counted only once, regardless of the number of days care was provided or if the child exited and re-entered the program.</p> <p>Example 1: A child leaves the program in March, but is reinstated in August. The child is counted one time in Element 2b, Column A.</p> <p>Count all children who met CCDF eligibility requirements and received direct services paid for fully or partially with CCDF funds during the Federal fiscal year. Child care services are defined as slots purchased through contracts/grants, services purchased through certificates/vouchers, or services provided in a tribally-operated facility funded under CCDF. <i>See Appendix A for definitions.</i></p> <p>Example 2: A Tribal Lead Agency provides child care certificates/vouchers to 100 families to receive child care services at a program of their choice. The total unduplicated number of children should be counted in Element 2b, Column A. Enter the number of children receiving child care through certificates/vouchers regardless of their setting type on line 2b, Column A.</p> <p>Example 3: A Tribal Lead Agency contracts with a center for 50 full-time slots for the Federal fiscal year. The total unduplicated number of children receiving child care through agency contracts with centers should be reported in Element 2b, Column A. If you contracted for 50 slots, the number of children served through these slots will depend on the utilization rate.</p> <p>(continued)</p>

DATA ELEMENT 2b, Column A (continued)

Do not count children or families who only generally benefited from services such as when your program:

- Receives a grant or contract to establish, expand, or conduct an early childhood school readiness enrichment program (i.e., not specific slots); or
- You initiate an expansion of quality activities funded under the CCDF. Your use of quality dollars to improve the quality of care should be explained in your Supplemental Narrative.

Example 4: A Tribal Lead Agency contracts with a resource and referral agency to provide professional staff development training at a Center serving 78 children. The Tribal Lead Agency does not contract for slots with the center and no children there receive CCDF certificates. Do not count the children because they did not receive direct child care services from the CCDF funds expended.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 2b, Columns B-L: Total number of children that received services this fiscal year by category/type of child care

<p style="text-align: center;">Element 2b, Columns B-L Total Number of Children Receiving Child Care Services This Fiscal Year by Category/Type of Child Care</p>
<p>Definition: An unduplicated count of children who received child care services during the Federal fiscal year for each provider type. See the <i>Guidance</i> section below for detailed definitions of care types.</p>
<p>Data Accuracy Check: Add the number of children being served in each care type (Element 2b, Columns B-L). This number should be equal to, or greater than, the total unduplicated number of children reported in Element 2b, Column A. The sum of the children being served in all care types can not be less than the total number of children reported in Column A.</p>
<p>Guidance: A child may be counted in more than one provider type column (Columns B-L) if the child received care from more than one provider type for different portions of the typical day, week, or month. However, the child should NOT be counted more than once within a single provider type column.</p> <p>Example 1: A child attends a family child care home before school hours and a child care center after school hours. The child would be counted under provider types of both family home and center based child care.</p> <p>When a child changes the category of provider during the report period, count the child separately in each care type.</p> <p>Example 2: A child receives care in a family child care home from September to March, uses an in-home provider during April and a center from May through October. The child would be counted under each provider type – family home, child’s home, and center care.</p> <p>Provider types are broken up into two broad categories of <u>no license category available</u> (legally operating in state or locality) and <u>licensed/regulated</u>. Under each of these categories are four types of providers: child’s home, family home, group home, and centers. Additionally, several no-license category provider types are also broken down into relative and non-relative care.</p> <p>(continued)</p>

DATA ELEMENT 2b, Columns B-L (continued):

No License Category Available = The child care provider is not required to obtain a license (or similar approval) in order to operate legally. A provider in this category is still required to comply with CCDF health and safety requirements (unless the provider is an exempted relative), but is generally not subject to other regulation or licensing. For example, in some jurisdictions, small family home providers may operate legally without having to be licensed. This category also may include providers who have to sign up in order to participate in your CCDF program but do not have to meet any other local licensing requirements.

Licensed or Regulated Provider = The provider must apply for, and may only operate after receiving, legally-defined approval to deliver services as a licensed or regulated provider. The licensing agent usually is the Tribe or state. OCC recommends that licensed or regulated providers be subject to third-party monitoring to ensure compliance. For reporting purposes, the terms “licensed/regulated” and “no license category available” are intentionally broad to recognize that grantees operate differently. The term “regulated” is used because not all grantees define “licensed” in the same way, or even use the term consistently. Some grantees have processes that they call “certification” or “registration.” The “licensed/regulated provider” category is intended to encompass any of these regulatory processes. In order to be counted as a “licensed/regulated” provider, the provider must meet state-established health and safety standards and be subject to monitoring (i.e., self-certification by the provider without documentation or verification is not sufficient).

DEFINITIONS:

Child’s Home	Care provided by a caregiver in the child’s own home.
Family Home	Care provided in the family home of the provider (i.e., care provided by an individual in their own private residence). Generally, family home care is provided only to a limited number of children at any one time (e.g. 3-5).
Group Home	Care provided in the family home of the provider with the assistance of at least one additional hired staff member. Group homes can provide services to a larger number of children at any one time (e.g. 6-10).
Center-Based	Care provided in a center-based setting, including programs in schools or churches.
Relative Care	Care by a provider who is a grandparent, great-grandparent, aunt or uncle, or sibling living outside the child’s home.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 3 a-i, Column A: Total number of children receiving services that fall into each age category

Element 3 a-i, Column A Total Number of Children Receiving Services That Fall Into Each Age Category
Definition: Breakdown by age of children receiving child care services.
Data Accuracy Checks: Check 1: Add the total number of children in each age bracket for Elements 3a through 3g in Column A. Compare your answer to the number in Element 3h, Column A. If they are not the same, there is an error in the data which should be corrected. Check 2: Add the total number of children in Element 3h, Column A <u>and</u> the number of children in Element 3i, Column A. Your answer should equal the number in Element 2b, Column A. If not, there is an error in the data which should be corrected.
Guidance: Each child that received services should be counted only once, regardless of the number of days care was provided and even if the child has exited and re-entered the program. Example 1: A child leaves the program in March, but is reinstated in August. The child is counted one time in Elements 3 a-i, Column A. The age of the child is reported <u>as of the end of the report period</u> (or the date of exit from the CCDF program). Example 2: A 2-year-old child received services starting in March. On September 15 she turned 3 years old and continued to receive services through the reporting period. The child should be reported as a 3-year-old on line 3d, Column A. <i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i>

DATA ELEMENT 3 a-i, Columns B-L: Total number of children receiving services that fall into each age category by category/type of child care

Element 3 a-i, Columns B-L Total Number of Children Receiving Services That Fall Into Each Age Category by Category/Type of Child Care
<p>Definition: Breakdown by age of children receiving child care services by category/type of care.</p>
<p>Data Accuracy Checks:</p> <p>Check 1: For each type of care, add the number of children in each age bracket for Elements 3a to 3g in each column. Your number should match the number in Element 3h <u>for that column</u>. If the numbers do not match there is an error that should be corrected.</p> <p>Check 2: For each type of care, add the number of children in Element 3h <u>and</u> the number of children in Element 3i for that column. Compare your answer to the value entered in Element 2b <u>of that column</u>. If the numbers are not the same, there is an error that should be corrected.</p> <p>Check 3: The total sum across each row (Columns B-L) must be equal to, or greater than the number reported on the same row in Column A.</p>
<p>Guidance: A child may be counted in more than one provider column (Columns B-L) if the child receives care from more than one provider type during the Federal fiscal year. However, the child should not be counted more than once within a single provider type column.</p> <p>Example 1: A child attends a child care center in the morning and a family child care home in the afternoon. The child would be counted under both provider types of center-based and family home.</p> <p>Example 2: If a child only attended a child care center starting in June and switched to a family home starting August 16 and continuing through September 30, count the child once in each category.</p> <p>Example 3: A child attends a Center the first week of the month, but then in the second week, moves to a different Center. Count the child only once in that care-type column.</p> <p>(continued)</p>

DATA ELEMENT 3 a-i, Columns B-L: (continued)

Provider types are broken up into the two broad categories of no license category available (legally operating in state or locality) and licensed/regulating. Under each of these categories are four types of providers: child's home, family home, group home, and centers. Additionally, several no-license category provider types are also broken down into relative and non-relative care

Refer to definitions provided for Element 2b, Columns B-L.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 4 a-f, Column A: Number of children who received child care services because of each specified reason

Element 4 a - f, Column A Number of Children Who Received Child Care Services Because of Each Specified Reason
<p>Definition: An unduplicated count of children receiving child care services by reason for care.</p> <p>This element separates reason for care into six categories:</p> <ul style="list-style-type: none">a. Parent workingb. Parent in a training or education programc. Child receiving or needing Protective Servicesd. A Federally declared emergency and parent working*e. A Federally declared emergency and parent in a training or education program*f. A Federally declared emergency and a child receiving or needing Protective Services* <p>* A Federally declared emergency is an emergency that has resulted in a declaration by the President of the U.S. indicating that Federal assistance is necessary. This generally is a temporary category used only for the duration of the emergency.</p>
<p>Data Accuracy Check: Add the number of children recorded for Elements 4 a-f, Column A. This answer and the number in Element 2b, Column A should be the same. If they are not the same, there is an error that should be corrected.</p>
<p>Guidance: This is a count of children, NOT families. Each child may be counted only once.</p> <p>When a family receives care for more than one reason (e.g., the parent works and is in a training program), count only the activity in which the parent (or child, in the case of Protective Services) spends the most time and is the primary reason for needing subsidized child care – that is, the reason the family is eligible to receive a subsidy.</p> <p>Element 4, Column A entries should be unduplicated counts.</p> <p>When a child’s reason for needing care changes during the report period, report the reason as of the end of the report period (or date of exit from the program).</p> <p>(continued)</p>

DATA ELEMENT 4 a-f, Column A: (continued)

Example 1: A child received care in October because of her parents' employment. From November through September child care was provided because the child was in Protective Services. Count the child in line 4c only – Protective Services.

NOTE: Each Tribal Lead Agency defines the terms "working," "job training and educational program" and "protective services" in Appendix 2 of its Tribal Plan Preprint.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 5, Column A: Average number of hours of child care service provided per child per month

Element 5, Column A Average Number of Hours of Child Care Service Provided Per Child Per Month
<p>Definition: The average number of hours of child care service provided per child per month.</p>
<p>Data Accuracy Check: Generally, full-time care is about 40 hours per week for 4 weeks (160 hours per month). If most of your children are receiving full-time care, your reported average monthly hours of service per child would not likely be substantially higher or substantially lower than 160.</p> <p>If, however, you primarily operate a Before or After School program, your average hours per month may be substantially lower. The average hours should be representative of the program that you operate and the services that you provide.</p>
<p>Guidance: This is a monthly average, NOT a yearly average. One method to calculate the average number of hours of care per child per month is:</p> <ol style="list-style-type: none">1) Begin by counting the total number of hours of care for all children for the first month you provided service during the fiscal year (month X, for example October).2) Count the total number of children served during month X.3) Divide the total number of hours from step 1 by the total number of children from step 2 to get the average number of hours of care provided per child for month X.4) Do steps 1 – 3 for each month services were provided.5) Add together each of the monthly average hours to get a sum.6) Divide the sum from step 5 by the total number of months services were provided during the year to get the average number of hours of care provided per child per month. <p>Some Tribal Lead Agencies do not pay for (or keep records for) the actual number of hours of service per child. Rather, they reimburse by "full" or "part" days of service (or other increments). Such Tribal Lead Agencies still can calculate the average number of hours of child care per child per month based on the program's definitions or estimate of the number of hours that "full" or "part" days represent.</p> <p>For example, a Tribal Lead Agency may define a "part" day as 4 hours or fewer per day (and estimate a "part" day at 4 hours of care). This same grantee may define a "full" day as more than 5 hours (and estimate a "full" day at 8 hours of care). In step #1 of the above calculations, the Tribal Lead Agency would count 4 hours of care for each "part" day and "8" hours for each "full" day they paid for child care services to get the total number of hours of care for all children for month X.</p> <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted. Tribal Lead Agencies should also describe in a footnote how they calculated the average number of hours.</i></p>

DATA ELEMENT 5, Columns B-L: Average number of hours of child care service provided per child per month by category/type of child care

Element 5, Columns B– L Average Number of Hours of Child Care Service Provided Per Child Per Month by Category/Type of Child Care
Definition: The average number of hours of child care service provided per child per month – by category/type of child care.
Data Accuracy Check: Generally, full-time care is about 40 hours per week for 4 weeks (160 hours per month). If most of your children are receiving full-time care, your reported average monthly hours of service per child would not likely be substantially higher or substantially lower than 160. If, however, you primarily operate a Before or After School program, your average hours per month may be substantially lower. The average hours should be representative of the program that you operate and the services that you provide.
Guidance: This is a monthly average, NOT a yearly average. One method to calculate the average number of hours of care per child per month by category/type of child care is: <ol style="list-style-type: none">1) Work with one care type at a time and begin by counting the total number of hours of care for the first month you provided service during the fiscal year (month X, for example October) for all of the children in that type of child care.2) For that care type, count the total number of children served during month X.3) Divide the total number of hours for that type of child care from step 1 by the total number of children from step 2 to get the average number of hours of care provided per child for month X for that type of child care.4) Do steps 1-3 for each month services were provided in that care type.5) Add together each of the monthly averages for that type of child care to get a sum.6) Divide the sum (from step 5) by the total number of months services were provided during the year in that care type to get the average number of hours of care provided per child per month for that category/type of child care.7) Repeat steps 1-6 for each type of care. As indicated in guidance for Element 5, Column A, Tribal Lead Agencies that reimburse by "full" or "part" days of service (or other increments) can calculate the average number of hours of child care per child per month by type of care based on the programs definition or estimate of the number of hours that “full” or “part” days represent. <i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i>

DATA ELEMENT 6a, Column A: Average monthly CCDF program subsidy per child

Element 6a, Column A Average Monthly CCDF Program Subsidy Per Child
<p>Definition: The average monthly cost that your CCDF program paid for child care services per child. This does not include the parent’s co-payment.</p>
<p>Data Accuracy Check: Except in rare circumstances, Element 6a, Column A, the average monthly subsidy paid per child, will be greater than Element 6b, Column A, the average monthly parent co-payment paid per child.</p>
<p>Guidance: This is a monthly average, NOT a yearly average. Tribal Lead Agencies should use the same method for calculating the average monthly subsidy amount paid in Element 6a, Column A as used to calculate the average number of hours of care for Element 5, Column A.</p> <p>One method to calculate the average monthly CCDF subsidy paid for child care services per month per child is:</p> <ol style="list-style-type: none">1) Begin by counting the total amount of CCDF subsidy paid for child care services for all children for the first month you provided service during the fiscal year (month X, for example October).2) Count the total number of children served during month X.3) Divide the total amount from step 1 by the total number of children from step 2 to get the average amount of CCDF subsidy paid for child care services for month X.4) Do steps 1 – 3 for each month services were provided.5) Add together each of the monthly averages to get a sum of averages.6) Divide the sum from step 5 by the total number of months services were provided during the year to get the average subsidy amount paid for child care services per child per month. <p>(continued)</p>

DATA ELEMENT 6a, Column A (continued)

Guidance for Tribally-Operated Centers:

Some Tribal Lead Agencies run their own center(s) and do not technically “pay” a provider. Such agencies can still estimate the “average” monthly CCDF subsidy amount paid per child for child care services provided using the record of expenditures that is submitted annually on the required ACF-696T, the Tribal financial report. *Additional information is available in Technical Bulletin #14, published in August 2012.*

Calculation to estimate the average monthly subsidy per child for programs with a Tribally Operated Center (TOC) when you only provide services in your TOC:

- 1) Add the Tribal Mandatory, Discretionary, and Discretionary Funds Base Amount expenditures (not including expenditures for construction and renovation) that your Tribe reported on Line 4 of the ACF-696T – Expenditures for Child Care Services. During the Federal fiscal year, if you expended funds from more than one grant year, you must add the appropriate expenditures from each of the reports submitted regardless of the year that the grant was awarded.
- 2) Divide the above total by the number of months that you provided services during the year (ranging from 1 to 12 months) to get an overall monthly subsidy amount.
- 3) Divide the monthly subsidy amount by the average number of children served per month (data element #2a) to estimate the average monthly subsidy per child in your center.

(continued)

DATA ELEMENT 6a, Column A (continued)

Calculation to estimate the average monthly subsidy per child for programs with a TOC when you support both a TOC and other provider types:

- 1) Add the Tribal Mandatory, Discretionary, and Discretionary Funds Base Amount expenditures (not including expenditures for construction and renovation) that your Tribe reported on Line 4 of the ACF-696T – Expenditures for Child Care Services. During the Federal fiscal year, if you expended funds from more than one grant year, you must add the appropriate expenditures from each of the reports submitted regardless of the year that the grant was awarded.
- 2) Add together all of the CCDF Subsidy payments you have made to all non-TOC providers during the report year.
- 3) Subtract this total CCDF subsidy payments made to all non-TOC providers from the total you arrived at in step 1 above.
- 4) Divide the remaining subsidy amount from step 3 by the number of months that you provided services in your TOC during the year (ranging from 1 to 12 months) to get a total monthly TOC subsidy amount.
- 5) Divide the monthly amount from step 4 by the average number of children served per month in the TOC (data Element 2a, Column H or L) to estimate the average monthly subsidy per child for your TOC. Report this average monthly subsidy per child in Column H or L.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 6a, Columns B-L: Average monthly CCDF program subsidy per child by category/type of child care

Element 6a, Columns B-L Average Monthly CCDF Program Subsidy Per Child by Category/Type of Child Care
<p>Definition: The average monthly cost that your CCDF program paid for child care services per child for each category/type of care.</p>
<p>Data Accuracy Check: Except in rare circumstances, Element 6a, Columns B-L, the average monthly subsidy paid per child will be greater than Element 6b, Columns B-L, the average monthly co-pay paid per child.</p>
<p>Guidance: This is a monthly average, NOT a yearly average.</p> <p>Tribal Lead Agencies should use the same method for calculating the average monthly CCDF subsidy in Element 6a, Columns B-L as used to calculate the average number of hours of care for Element 5, Columns B-L.</p> <p>One method to calculate the average monthly CCDF subsidy amount paid for child care services per month for each category/type of child care is:</p> <ol style="list-style-type: none">1) Work with one care type at a time and begin by calculating the total amount of CCDF subsidy paid for child care services for the first month you provided service during the fiscal year (month X, for example October) for all children in that one type of care.2) For that care type, count the total number of children served during month X.3) Divide the total amount from step 1 by the total number of children from step 2 to get the average amount of CCDF subsidy paid for child care services for month X for that care type4) Do steps 1 – 3 for each month services were provided by that care type.5) Add together each of the monthly subsidy averages for that type of care to get a sum.6) Divide the sum from step 5 by the total number of months services were provided during the year in that care type to get the average amount paid for child care services per month for that care type.7) Repeat steps 1-6 for each type of care. <p>(continued)</p>

DATA ELEMENT 6a, Columns B-L (continued)

Guidance for Tribally-Operated Centers:

Follow the guidance for Element 6a, Column A, regarding calculations for estimating the average monthly subsidy per child for programs with a Tribally Operated Center (TOC) to calculate the estimated average monthly subsidy per child by category/type of child care.

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 6b, Column A: Average monthly parent co-payment amount paid per child for child care service.

Element 6b, Column A Average Monthly Parent Co-payment Per Child
<p>Definition: The average monthly cost that the family/parent was assessed to pay toward the cost of care per child.</p>
<p>Data Accuracy Check: Generally, the parent co-payment is less than the subsidy amount (Element 6a). If your co-payment is larger than the reported subsidy, check to be sure that your numbers are correct.</p>
<p>Guidance: This is a monthly average, NOT a yearly average. Tribal Lead Agencies should use the same method for calculating the average monthly parent co-payment on Element 6b, Column A as used to calculate the average number of hours of care for Element 5, Column A.</p> <p>One method to calculate the average monthly parent co-payment amount paid for child care services per month per child for each category/type of child care is:</p> <ol style="list-style-type: none">1) Begin by calculating the total amount of CCDF co-payments paid by all families for child care services for the first month you provided service during the fiscal year (month X, for example October).2) Count the total number of children served during month X.3) Divide the total amount from step 1 by the total number of children from step 2 to get the average CCDF co-payment paid per child for child care services for month X.4) Do steps 1 – 3 for each month services were provided.5) Add together each of the monthly co-payment averages to get a sum.6) Divide the sum from step 5 by the total number of months services were provided during the year to get the average parent co-payment amount paid for child care services per month per child. <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i></p>

DATA ELEMENT 6b, Column B-L: Average monthly parent co-payment per child by category/type of child care.

Element 6b, Columns B-L Average Monthly Parent Co-Payment Amount Paid Per Child by Category/Type of Child Care
<p>Definition: The average monthly cost that the family/parent was assessed to pay toward the cost of care per child for each category/type of care.</p>
<p>Data Accuracy Check: Generally, the parent co-payment is less than the subsidy amount. If your co-payment is larger than the reported subsidy, check to be sure that your numbers are correct.</p>
<p>Guidance: This is a monthly average, NOT a yearly average. Tribal Lead Agencies should use the same method for calculating the average monthly parent co-payment in Element 6b, Columns B-L as used to calculate the average number of hours of care for Element 5, Columns B-L.</p> <p>One method to calculate the average monthly parent co-payment amount paid for child care services per month for each category/type of child care is:</p> <ol style="list-style-type: none">1) Work with one care type at a time and begin by calculating the total amount of CCDF co-payment paid for child care services for the first month you provided service during the fiscal year (month X, for example October) for one type of care.2) Count the total number of children served during month X for that care type.3) Divide the total amount of co-payments from step 1 by the total number of children from step 2 to get the average parent co-payment paid for child care services for month X for that type of care.4) Do steps 1 – 3 for each month services were provided for that type of care.5) Add together each of the monthly averages for that care type to get a sum of the averages.6) Divide the sum from step 5 by the total number of months that services were provided for that care type during the year to get the average co-payment amount paid for child care services per child per month for that care type.7) Repeat steps 1-6 for each type of care. <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i></p>

DATA ELEMENT 7 a-d, Column A: Number of children served whose family income was at various levels of poverty

Element 7 a-d, Column A Number of Children Served Whose Family Income Was at Various Levels of Poverty
<p>Definition: This is an unduplicated count of children receiving child care services whose family’s income was at various levels of poverty.</p> <p>This element separates income into four categories:</p> <ul style="list-style-type: none">a. at or below the poverty threshold for families of the same sizeb. above the poverty threshold but at or below 150 percent of the poverty threshold for families of the same sizec. above 150 percent of the poverty threshold but at or below 200 percent of the poverty threshold for families of the same sized. above 200 percent of the poverty threshold for families of the same size.
<p>Data Accuracy Check: Except in rare circumstances, the sum of rows 7a, 7b, 7c and 7d will equal Element 2b, Column A. If the numbers are not the same, there maybe an error that should be corrected.</p>
<p>Guidance: This is a count of children, NOT families. Each child may be counted only once.</p> <p>If a family’s income changed during the reporting period, report the children in the appropriate poverty threshold based on the family’s income at the end of the reporting period or when they left the program.</p> <p>Example: If a family’s income is below the poverty threshold for families of the same size, and they have 3 children receiving subsidized care, Element 7a would include a count of “3” children for that family. The count would be “3” even if the children were receiving care from more than one provider.</p> <p>Element 7 asks for the number of children served from families at specific poverty thresholds. The current Health and Human Services (HHS) poverty guidelines, as published in the US Department of Health and Human Services Poverty Guidelines, Research, and Measurement site http://aspe.hhs.gov/poverty should be used in completing Element 7.</p> <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i></p>

DATA ELEMENT 8 a-d, Column A: Number of children served by payment type this fiscal year

Element 8 a-d, Column A Number of Children Served By Payment Type This Fiscal Year
<p>Definition: This is an unduplicated count of children served by various types of payment.</p> <p>This element separates payment type into four categories:</p> <ul style="list-style-type: none">a. Grant/Contract with providerb. Certificate or voucher to parent and/or providerc. Cash payment to parentd. Tribally-Operated Center. <p><i>See the Guidance section below for definitions of the various payment types.</i></p>
<p>Data Accuracy Check: The sum of rows 8a, 8b, 8c and 8-d, Column A must equal Element 2b, Column A. If they are not the same, there is an error that should be corrected.</p>
<p>Guidance: This is a count of children, NOT families.</p> <p>Each child should be counted only <u>once</u>. If payment type for services for a child changes during the reporting period, select the last known payment type.</p> <p>Example: From October through February you paid for a child’s services with cash payments to the applicant. Beginning in March and through the remainder of the fiscal year, the child’s services were paid through a grant or contract with a provider. This child should be counted in 8a, Column A (grant or contract with provider) only.</p> <p>If services for the child were paid for with two types of payment at the same time during the reporting period, select the primary payment type, that is, the type with the most hours.</p> <p>Example: For the entire Federal fiscal year, a child received services from an in-home provider for 2 hours a day in the early morning, and this provider was paid with cash. At the same time, this child received services for the rest of the day in a center for 8 hours each day, and the center was paid through a contract. You would report this child under 8a, Column A (grant/contract with provider) only.</p> <p>(continued)</p>

DATA ELEMENT 8 a-d, Column A (continued)

Definitions:

Grant/Contract with Provider: A legally binding agreement with a child care provider to deliver services, defining the terms and conditions of those services.

Certificate or Voucher to Parent and/or Provider: A certificate (that may be a check or other form) that is issued by a State, Tribal or local government directly to a parent to verify their eligibility for subsidized services.

Cash Payment to Parent: Money paid to parents in the form of cash or checks to cover the cost of child care services. (This does not include two-party checks to parents and providers, or cash to providers). Note that the term “parent” includes any individual operating *in loco parentis*, as defined in the Tribe’s CCDF plan.

Tribally-Operated Center: A child care center operated by the Tribal Lead Agency. The center is usually located on the Tribal reservation or in the Tribal Lead Agency’s service area. A Tribally-operated center payment differs from a grant or contract in that a Tribal Lead Agency pays the operational costs of the Center (including teacher salaries).

When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.

DATA ELEMENT 8 a-d, Column B-L: Number of children served by payment type this fiscal year by category/type of child care

Element 8 a-d, Column B-L Number of Children Served by Payment Type This Fiscal Year by Category/Type of Child Care
<p>Definition: Total number of children in each care type whose service was paid for by each payment type.</p> <p>This element separates payment type into four categories:</p> <ul style="list-style-type: none"> a. Grant/Contract with provider b. Certificate or voucher to parent and/or provider c. Cash payment to parent d. Tribally-Operated Center <p><i>See the definitions provided in the Guidance section for Data Element 8 a-d, Column A.</i></p>
<p>Data Accuracy Checks:</p> <p>Check 1: The sum of rows 8a, 8b, 8c and 8d must equal Element 2b in the same column. If the numbers are not the same, there is an error that should be corrected.</p> <p>Check 2: Add the reported numbers across each row (Columns B-L). The total sum must be equal to, or greater than, the number reported on the same row in Column A. If the sum is less than the number reported on the same row in Column A, there is an error that should be corrected.</p>
<p>Guidance: This is a count of children, NOT families. For each payment type (row) a child can be counted in more than one provider type column (Columns B-L) if the child receives care from more than one provider type for different portions of the typical day, week, or month.</p> <p>Example: If a child being served using certificates (8b) receives before school care with a family home provider, and after school care in a center, that child would be counted on row 8b in two care type columns (family home and center).</p> <p><i>When data are applicable but not available, provide a footnote in the comment section explaining when the missing data will be submitted.</i></p>

VII. Submitting the Annual Report

Each Tribal Lead Agency must submit the information requested on the ACF-700 Annual Report and the Supplemental Narrative by December 31 for the preceding Federal fiscal year (FFY), covering the services provided during the period from October 1 through September 30. ACF Regional Offices are responsible for monitoring compliance with timeliness of submissions. Tribal Lead Agencies anticipating problems in complying with the reporting requirement should contact the ACF Regional Office (*see contact information in Section VIII*).

The Office of Child Care (OCC) encourages grantees to submit both parts of the Tribal Annual Report using electronic means. Submission may be achieved using the ACF-700 Internet Submission site on the OCC web site, or by using e-mail or other computer alternatives.

VII. 1 Tribal Grantees with Access to the Internet:

Tribal grantees that have access to the Internet should enter their own report numbers into the OCC Internet submission site at <https://extranet.acf.hhs.gov/acf700/login/login700.jsp>. This page contains a password-protected web-based form that checks the data for compliance with data standards at the time of submission. These built-in edit-checking features make it easier for Tribes to identify and correct errors. Use of the paperless Internet data entry site streamlines submission processing and improves data quality. If you submit the ACF-700 report via the web site, you do not have to also send a paper copy of the report via mail or fax. You should, however, notify your Federal Regional Office of Child Care Staff when you have completed your report submission.

The submission web page requires a login and password. Some Tribes have already designated individuals to access the ACF-700 Data Submission Center. The login and password carry over to each new reporting period, so there is no need to register each year to use the submission site.

To register new staff or otherwise modify registration information, submit the ACF-700 Internet Submission Registration Form in *Appendix B* by email, mail or fax to:

National Center on Child Care Data and Technology (NCDT)
2600 Tower Oaks Boulevard, Suite 600
Rockville, Maryland 20852
ncdt@childcaredata.org
Fax: 301-861-8640

NCDT will contact the staff identified on the form to provide further instructions and guidance. The Tribal Lead Agency may contact NCDT at their toll-free number: 1-877-249-9117, weekdays from 9:00 a.m. to 5:00 p.m. (Eastern Time), or by email at: ncdt@childcaredata.org.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Using the ACF-700 Submission Site

To submit your ACF-700 report (or to access and/or edit previously submitted data) using the OCC Internet Submission site (<https://extranet.acf.hhs.gov/acf700/login/login700.jsp>), you must first access the web page using the Internet.

Once there, enter your username and password (assigned by NCDT) in the “Username” and “Password” fields and click the **SUBMIT** button.

The screenshot shows a web browser window with the address bar containing <https://extranet.acf.hhs.gov/acf700/login/login700.jsp>. The page header includes the "Child Care Bureau" logo and the "Administration for Children and Families U.S. Department of Health and Human Services" text. A red banner across the top reads "ACF - 700 Data Submission Center". The main content area contains the following text:

You have reached the ACF-700 Data Submission Center.

This Web Site allows Tribal Lead Agencies of the Child Care and Development Fund (CCDF) to interactively submit their ACF-700 data on all children and families receiving CCDF-funded child care services.

For Accessibility issues, please click [here](#)

NOTE: Recommended Browsers are IE v5.5 or higher and Netscape v6.0 or higher.

Below this text is a login form with a red border. The form contains the following elements:

- A heading: "Please sign into the ACF-700 Data Submission Center"
- A "Username:" label followed by a text input field.
- A "Password:" label followed by a text input field.
- A "Submit" button.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

The welcome page will open displaying your name – this indicates that you have successfully entered the submission site.

Select the appropriate fiscal year of the data that you would like to enter from the “Federal Fiscal Year” drop-down list. Next, click on the **ACF-700 Form** button.

ACF - 700 Data Submission Center
Welcome [redacted]
Congratulations !!!
You have successfully entered the ACF-700 Data Submission Center.
Please follow the instructions below to access your ACF-700 data
and/or to generate a Tribal Story Page based on your ACF-700 data

1) Please select the desired Federal Fiscal Year:

Federal Fiscal Year: Select

2) Please select:

- the ACF-700 Form (Data Entry) Button to enter, edit, view ACF-700 data
Or
- the Tribal Story Page Button to generate ACF-700 Tribal Story Page
(NOTE: ACF-700 data must be entered to generate Tribal Story Page)

Error Check Results

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

The Internet Submission site checks for two types of errors (see *Table 3* for additional details):

- If the field has been left **blank** (red cells), and
- If the data in specific fields are **inconsistent** (yellow cells) with information in related fields.

Meeting the system quality checks does not guarantee that the information is correct. You still must review your own report carefully to ensure that the data you submit to the OCC accurately reflects the families and children you serve, and the services you provide.

If the system notes a potential error, a red arrow button will be shown by the data element in question. You can click the red arrow to display an explanation of the possible error and use the guidance to make corrections to your report.

6. Average monthly amount paid for child care service per child															

Be sure to save your data and then check your entered data for errors. To check for errors, click the **Error Check Results** button located at the bottom of the page. A page will open that lists the errors for your submitted data or indicates that no errors were found.

Child Care Bureau Administration for Children and Families U.S. Department of Health and Human Services

ACF - 700 Data Submission Center

Field (E-mail) - Missing data.

Field (2ba) must be equal the sum of (4aa),(4ba)and(4ca).

[Back to ACF- 700 form](#) [Back to Welcome page](#) [Back to Login Page](#)

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Things to Remember:

You must enter information in each of the cells on the ACF-700 submission site. Do not leave any cells blank. Each cell should have either a number or NA (See *Table 2* for the appropriate use of NA - not applicable).

You should use the “Comments” field to enter information that would help clarify any special reporting circumstances or to explain any peculiarities in your data (See *Table 1* for further information).

When you have completed entering and checking information, click the **Save/Submit Form** button at the bottom of the screen to save your information and submit it to OCC. **If you exit the form without saving it, all of the information you entered will be lost.**

If you need to stop data entry and finish entering information at another time, you still should click the **Save/Submit Form** button. Everything that you have entered to that point will be saved and available when you return later to complete the form. It is acceptable to submit a partially completed form as long as you remember to return and complete it in a timely manner. Upon saving your data, the next screen will indicate that you have successfully uploaded the data.

Upon returning to the ACF-700 form (after saving the data), a print button will display on the bottom right hand corner of the screen. To print your report, click the **Print this Form** button. We recommend that you always keep a hard copy of each year’s report for future reference.

VII. 2 Tribal Grantees with NO access to the Internet:

Tribal grantees that have no access to the Internet may submit the ACF-700 document by mail or using compatible electronic media, such as email or a disk. The ACF-700 form is in Excel® 5.0 format and can easily be transmitted as an attachment to an email message. (An electronic version of ACF-700 form is available on the Office of Child Care’s website at: www.acf.hhs.gov/programs/occ/. (ACF Regional Offices can provide a blank version of the ACF-700 form or provide a disk, if requested.)

The original document should be mailed to the ACF Regional Office (see contact information attached) and a copy should be sent to NCDT at the following address:

National Center on Child Care Data and Technology
2600 Tower Oaks Boulevard, Suite 600
Rockville, Maryland 20852
ncdt@childcaredata.org
Fax: 301-816-8640

Faxed copies are acceptable only if followed by a paper copy sent through the mail.

VII. 3 ACF-700 Supplemental Narrative:

Supplemental Narrative Reports are not submitted on the web-based submission site. Grantees must submit this section of the report by mail or by attaching an electronic Word® or text file to an email. The original Supplemental Narrative document should be sent to the ACF Regional Office and a copy should be sent to NCDT at the address above. Faxed copies are acceptable only if followed by a paper copy sent through the mail.

VIII. Resources

National Center on Data and Technology

If you have questions or need additional assistance completing the ACF-700 or using the *Child Care Data Tracker software*, contact the **National Center on Data and Technology** (NCDT). The NCDT was established by the Office of Child Care to provide technical assistance related to the grantee reporting requirements. You may contact NCDT by e-mail, phone, fax, or mail. The NCDT staff is available Monday-Friday, 9:00 am to 5:00 pm, prevailing Eastern Time. All voice-mail messages left during or outside of those hours are returned promptly.

Appendix A – Glossary of Commonly Used Child Care Terms

A-B	
ACF	The Administration for Children and Families, an agency of the Department of Health and Human Services (HHS). ACF is responsible for Federal programs that promote the economic and social well being of families, children, individuals, and communities.
ACF-696T	The financial report required to be submitted by Tribes receiving Child Care and Development Fund (CCDF) grants.
ACF-700	An annual data report required to be submitted by Tribal grantees. The report contains data related to families and children receiving assistance through the CCDF.
Applicant	A family or individual who is applying to receive a child care subsidy and who must meet defined eligibility requirements. An applicant may be a member of a family group (usually a parent) or a single child in protective custody.
Average	One single number that arithmetically represents a group of numbers.
C-D	
CCDF	Child Care and Development Fund. CCDF provides funding for low-income families, families receiving temporary public assistance, and those transitioning from public assistance, to obtain child care so they can work or attend training and/or education activities.
Cash Payment	Money paid to providers or parents in the form of cash or checks to cover the cost of child care services. (This does not include two-party checks to parents and providers, or cash to providers).
Center Care	Service that is provided in a facility other than a private home. Center-based care also would include such providers as churches and schools.
Certificate/Voucher	A certificate (that may be a check or other form) that is issued by a State or local government directly to a parent to verify their eligibility for subsidized services.
Child/Children	Those persons who are receiving subsidized child care services.
Child’s Home Care	Services that are provided in the home of the child receiving services.
Contact Person	The grantee staff person who is familiar with the ACF-700 information and will be able to answer questions and provide clarifications. This may or may not be the Program Director.
Contract/Grant	A legally binding agreement with a child care provider to deliver services, defining the terms and conditions of those services.
Co-payment	The dollar amount the lead agency determines the family should pay. Lead agencies are required to calculate the assessed co-payment amount based, at a minimum, on the family’s income and size.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

E-K	
Education	School or work-related information and training activities intended to prepare individuals to obtain and keep a paying job that will allow them to achieve financial independence.
Eligibility Income	The total amount of money a family/applicant receives (earned or unearned) that is included when eligibility for the CCDF program is being determined.
Family	The applicants who apply for, and must qualify for CCDF subsidy assistance. A family may be represented by birth, adopted, or foster parents, and children in need of child care. The ACF-700 requires an annual <u>unduplicated family count</u> .
Family Home Care	Service that is provided by one person in a residence of someone other than the child(ren) receiving care. Usually a family home is the residence of the child care provider.
Grant	See: Contract/Grant
Group Home Care	Service that is provided by more than one person in a residence of someone other than the child(ren) receiving care. A group home typically is able to care for more children at one time than a family home because additional staff are employed to help with child care. Usually a group home is the residence of the primary child care provider.
Hours of Care	The number of hours each day that a child actually attends and participates in child care services.
L-Q	
Licensed/Regulated	The provider must apply for, and may only operate after receiving, legally defined approval to deliver services as a licensed or regulated provider. The licensing agent usually is the Tribe or state. OCC recommends that licensed or regulated providers be subject to third-party monitoring to ensure compliance. For reporting purposes, the terms “licensed/regulated” and “no license category available” are intentionally broad to recognize that grantees operate differently. The term “regulated” is used because not all grantees define “licensed” in the same way, or even use the term consistently. Some grantees have processes that they call “certification” or “registration.” The “licensed/regulated provider” category is intended to encompass any of these regulatory processes.
NCDT	National Center on Data and Technology (formerly the Child Care Automation Resource Center). A team of technical assistance specialists who help grantees to meet grant reporting requirements. NCDT’s toll free number is 1-877-249-9117 and the e-mail address is NCDT@childcaredata.org .
No License	The provider is not required to obtain a license but still must meet all state or Tribal health, safety, and other child care program regulations to be operating legally. For example, in some jurisdictions, small family home providers may operate legally without having to be licensed. This category also may include providers who have to sign up in order to participate in your CCDF program but do not have to meet any other local licensing requirements.

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Non-Relative Provider	A provider who does not meet the description of a relative (see below).
OCC	Office of Child Care in ACF. The OCC is dedicated to enhancing the quality, affordability, and availability of child care for all families. The Office administers Federal funds to States, Territories, and Tribes to assist low-income families in accessing quality child care for children when the parents work or participate in education or training. The OCC web site is www.acf.hhs.gov/programs/occ .
Protective Services	Public program designed to provide safe care for children who are victims of abuse or neglect, or whose parents are otherwise unable to adequately care for them (temporarily or permanently).
Poverty Guideline	A guideline provided by HHS that indicates the minimum income a family with different numbers of family members needs to be able to survive at a most basic level. Families with income at or below this threshold are considered to be living in poverty. Annual poverty guidelines are available on-line at http://aspe.hhs.gov/poverty .
R-S	
Regulated	See: Licensed.
Relative Provider	An “adult” who is by marriage, blood relationships, or court decree, a grandparent, great-grandparent, aunt or uncle, or sibling living outside the child’s home.
Subsidy	The amount of money that is paid by the CCDF lead agency on the family’s behalf to allow them to receive child care services they might not otherwise be able to afford. In this case, the CCDF subsidy is the dollar amount used to support the child care costs for an eligible family’s children.
Supplemental Narrative	An annual required written report that describes the program operated and services delivered using the CCDF grant money.
T-Z	
TA	Technical assistance. Help that is provided to grantees, Central and Regional ACF staff, and other stakeholders to support program operations and the collection, management, and reporting of high quality CCDF data. TA related to reporting requirements is provided by the NCDT.
Technical Bulletins	Publications, available on the OCC web site at http://www.acf.hhs.gov/programs/occ/resource/current-technical-bulletins that provide technical guidance to grantees receiving CCDF funds.
Training	Activities designed to prepare individuals to obtain and keep a paying job that will allow them to achieve financial independence.
Tribal Lead Agency	The organization that applied for, received, and is responsible for administering the Tribal CCDF grant. The lead agency may be different from the organization that directly provides the child care services.
Tribally-Operated	Tribal grantees who use CCDF funds to operate a center-based child care business are said to have a Tribally Operated Center (TOC). The Tribe

TRIBAL ANNUAL REPORT - Guide For CCDF Tribal Lead Agencies (ACF-700)

Center	oversees all operations of the program: paying facility costs (e.g. rent and utilities), hiring and managing staff, purchasing equipment and supplies, and screening families for eligibility.
Un-licensed	See: No License.
Voucher	See: Certificate/Voucher
Work	Paid employment. This employment may include full- time or part- time work. It also may include sporadic, seasonal work.

Appendix B – Internet Submission Registration Form

CHILD CARE AND DEVELOPMENT FUND Tribal Annual Report (ACF-700) Internet Submission

To ensure appropriate authorization for submitting information via the Internet, please provide the following information

Name:
Title:
Agency:
Mailing address:
Phone:
Fax:
E-mail:

Please complete this form for each authorized individual.

Then email your completed form to NCDT@childcaredata.org. You can also fax or mail to:

National Center on Data and Technology
2600 Tower Oaks Blvd., Suite 600
Rockville, MD 20852
Fax: 301-816-8640

A National Center on Data and Technology Technical Assistance Specialist will contact you to provide additional information and instructions about submitting the ACF-700. They can be reached at 1-877-249-9117 or via email at NCDT@childcaredata.org.
