EXECUTIVE SUMMARY

The Social Services Block Grant (SSBG) program provides flexible funding to assist States in providing a wide range of services to children and families, vulnerable older adults, persons with disabilities, and at-risk adolescents and young adults. States may also use other Federal, State and local funds to support the provision of SSBG services. Services most frequently supported by the SSBG include child care, child welfare, services for persons with disabilities, case management services, and protective services for adults. For children in danger of abuse and neglect, services may include protection, prevention, intervention, and adoption services. For elderly persons and persons with disabilities in danger of abuse, neglect, or financial exploitation, services may include investigation, emergency medical services, emergency shelter, and counseling. Services provided for older adults may include home care, congregate and home-delivered meals, adult day care, case management, legal services, and transportation. For persons with disabilities living independently in the community, services may include adult foster care, transportation, case management, and treatment services.

In 2010, States reported that approximately 24 million people received services that were supported, in whole or in part, by SSBG funds. States report the number of recipients for each of the 29 service categories. The number of recipients is not an unduplicated count as an individual may have received more than one of the 29 services. However, the number of individuals shows the broad scope and reach of the SSBG.

The Office of Community Services (OCS), Administration for Children and Families (ACF), U.S. Department of Health and Human Services (DHHS) administers the SSBG program and provides technical assistance to the States. Funds are allocated under the SSBG program in proportion to each State's population. States have substantial discretion in the use of SSBG funds. Each State determines what services will be provided, who is eligible to receive services, and how funds are used within the requirements of Federal laws. States may provide services directly or purchase them from qualified agencies or organizations. States also may use the funds to support staff training, licensing activities, planning and evaluation, and other administrative functions.

Each year, States must report SSBG expenditures, expenditures of other sources of funds, and total expenditures using a standard post-expenditure reporting form (OMB No. 0970–0234). On this form, States report data on the amount expended for each service category (expenditures) and the total number of adults and children served (recipients). Any individual who receives a service funded, in whole or in part, by the SSBG program is counted as a recipient. This report analyzes State post-expenditure data for 2010. Expenditure trends for each of the 29 service categories from 2006 to 2010 are also provided in Chapter 4.

Highlights of this report are listed below:

- The SSBG appropriation for 2010 was \$1.7 billion.
- The States reported SSBG expenditures of \$2.8 billion, 42% (\$1.2 billion) of which were transferred into the program from the Temporary Assistance for Needy Families (TANF) block grant.
- Approximately 24 million (23,690,188) individuals received services that were funded, in whole or in part, by the SSBG program.¹ An estimated 52% of these recipients were children.
- The largest number of people received prevention and intervention services. In 28 States, six million individuals received prevention and intervention services funded, in whole or in part, by the SSBG program.
- Of the 28 service categories on which States reported expenditures, the service categories receiving the highest proportion of SSBG funds were child foster care (13%), child day care (13%), special services for individuals with disabilities (12%), child protective services (10%), and case management (7%).
- In 2010, States reported spending nearly \$92 million for administrative costs, which is approximately 3% of SSBG expenditures—a reduction from \$141 and 5% of expenditures in 2006. In 2010, 12 states reported that they did not use any portion of SSBG funds for administrative costs.

¹ *Not an unduplicated count, so individuals receiving multiple services may be counted more than once.*

The five chapters of this report present analyses of the SSBG program annual data in greater detail.

Chapter 1. Introduction. This chapter provides a history of the SSBG program and the responsibility of States to report on their use of SSBG expenditures.

Chapter 2. Expenditures. This chapter summarizes findings on State expenditures and provides analyses of expenditures by State and by service.

Chapter 3. Service Recipients. This chapter summarizes findings on the recipients of services funded, in whole or in part, by the SSBG program, and provides analyses of recipients by State and by service.

Chapter 4. Services. This chapter provides a detailed analysis of each service category funded by the SSBG program, including trend data from 2006 to 2010.

Chapter 5. Program Assessment. This chapter provides a comparison of the States' pre-expenditure and post-expenditure reports. It also provides information on administrative costs reported by States.

Appendices include a list of the State agencies that administer the SSBG program; a copy of the post-expenditure reporting form and instructions; a list of the uniform definitions of services; a data page for each State; and supplementary data tables providing background data for the figures in chapters two through five.

CHAPTER 1. INTRODUCTION

Through the Social Services Block Grant (SSBG) program, the Federal Government disburses funds to States² to support social services for adults and children. This report discusses SSBG expenditures and the number of recipients of services during 2010.³ This chapter provides a brief history of the SSBG program and summarizes the SSBG reporting requirements of the States.

Background

On January 4, 1975, Title XX of the Social Security Act authorized a capped entitlement to States for providing social services. Prior to Title XX, States received matching Federal funds for specified categories of services, with eligibility for the services limited to receipt of public assistance under several titles of the Social Security Act. Title XX gave States flexibility to offer a wide range of services to a broad population of adults and children. The statute also included requirements for planning, public participation, income eligibility, and administration.

In 1981, Congress amended Title XX to establish the SSBG program. The SSBG program gave States greater flexibility in their use of the entitlement funds. States determine what services will be provided, eligible populations of adults and children, locations in which each service is provided, and whether the services are provided by State or local agency staff, or through grants or contracts with private organizations.

The Federal Government allocates funds to the States as block grants to support the delivery of social services. Designated State agencies administer the SSBG program. (See appendix A.) Title XX encourages each State, as far as practicable under the conditions in that State, to furnish services in support of five statutory goals:⁴

- Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency

² In this report, “States” include the District of Columbia and the Commonwealth of Puerto Rico. The territories of Guam, American Samoa, Virgin Islands, and the Northern Mariana Islands also receive funds from the SSBG program, but their data are not included in this report.

³ In this report, the year always refers to the Federal fiscal year (FFY).

⁴ 42 U.S.C. §1397.

- Achieving or maintaining self-sufficiency, including reduction or prevention of dependency
- Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families
- Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care
- Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions

Funding for the SSBG

The annual appropriation for the SSBG program for 2010 was \$1.7 billion. The appropriation for the SSBG program has been at this level since 2002.

On February 8, 2006, the Deficit Reduction Act of 2005 (DRA) was signed into law.⁵ The DRA authorizes States to continue to transfer up to 10% of their annual Temporary Assistance for Needy Families (TANF) block grant allocation into their SSBG program through Federal fiscal year (FFY) 2010. Any TANF funds transferred into the SSBG may be used only for programs and services to families with children and a family income of less than 200% of the official income poverty line (as defined and revised annually by the Office of Management and Budget).⁶ Funds transferred into the SSBG program from TANF are subject to the statute, regulations, and reporting requirements of the SSBG program. During FFY 2010, 40 States transferred funds from TANF block grants into the SSBG program.

SSBG Reporting Requirements

Before a State receives SSBG funds, it must submit a report specifying the intended use of the block grant, including information on the types of activities to be supported and the categories or characteristics of individuals to be served.⁷ This pre-expenditure report is submitted annually to the Office of Community Services (OCS), Administration for Children and Families (ACF), U.S. Department of Health and Human Services (DHHS), which administers the SSBG program and provides technical assistance to the States. States are required to submit a revised pre-expenditure report if the planned use of SSBG funds changes during the year.

⁵ *P.L. 109-171 (2006)*.

⁶ *42 U.S.C. §604(d)(3)(B)*.

⁷ *42 U.S.C. §1397c*.

In addition, DHHS regulations require each State to submit an annual SSBG post-expenditure report, either six months after the end of the reporting period, or at the time that the State submits the pre-expenditure report for the next reporting period.⁸ States may report data for either the Federal or State fiscal year. States are required to submit information on the services provided, total number of adults and children served, and amounts expended for each service. (See appendices B, C, and D.)

History of SSBG Reporting

Reporting requirements for the SSBG have evolved since 1975. Table 1–1 provides a brief history of the reporting requirements for Title XX and the SSBG.

1975	Reporting requirements for Title XX included the Social Services Reporting Requirements. States submitted quarterly and annual reports that included unduplicated counts of recipients by service, eligibility category, expenditure of funds, method of provision, and Title XX goal, as well as special reports on child day care.
1981	The SSBG program retained the original Title XX requirement that each State report biennially on activities carried out with SSBG funds, including the purposes for which funds were spent and the extent to which expenditures were consistent with the State's pre-expenditure report.
1988	The Family Support Act of 1988 ⁸ added specific reporting requirements for the SSBG program that required each State to submit an annual report including the following information: <ul style="list-style-type: none"> ■ The number of individuals served with SSBG funds, by the type of service, and by the number of children and the number of adults ■ The amount spent for each type of service ■ The eligibility criteria used for each service ■ The service delivery methods used by public and private providers
1990	DHHS published a Notice of Proposed Rulemaking on April 5, 1990, to implement the new reporting requirements enacted in the Family Support Act of 1988.
1993	DHHS issued a final rule on November 15, 1993, to implement annual reporting requirements for the SSBG program. It also included uniform definitions of services.
1999	DHHS issued a final rule that amended the SSBG regulations: <ul style="list-style-type: none"> ■ Each State must submit a pre-expenditure report 30 days prior to the beginning of the fiscal year for which SSBG funds will be used. ■ Each State must submit to DHHS the Office of Management and Budget (OMB) Standard Form 269A, which is a financial status report, within 90 days of the end of the grant period.
2001	OCS issued an Information Memorandum instructing the States to include the expenditure of funds transferred from TANF into SSBG in the "Expenditures—SSBG" column of their post-expenditure reports.
2002	OMB approved a revised post-expenditure reporting form with new instructions (OMB No. 0970-0234, Expiration Date March 2005). States used this form to report data for 2002–2004.
2005	OMB approved a revised post-expenditure reporting form with new instructions (OMB No. 0970-0234, Expiration Date May 31, 2008). States used this form to report data for 2005 and 2006.
2008	OMB approved the post-expenditure reporting form for 3 years (OMB No. 0970-0234, Expiration Date July 7, 2011). States used this form to report data for 2007–2010. OMB also approved use of the post-expenditure reporting form by States, on a voluntary basis, to estimate expenditures and recipients as part of their pre-expenditure report.
2010	OMB approved the post-expenditure reporting form for 3 years (OMB No. 0970-0234, Expiration Date June 30, 2014). States used this form to report data for 2007–2010. OMB also approved use of the post-expenditure reporting form by States, on a voluntary basis, to estimate expenditures and recipients as part of their pre-expenditure report.

⁸ 45 C.F.R. §96.17.

⁹ 42 U.S.C. §1315 et. seq.

Services Funded by the SSBG

The final rule issued in 1993 included uniform definitions for 28 social services. These definitions do not constrain a State’s use of SSBG funds or restrict the services a State may provide; rather, they provide guidelines for reporting purposes. If a service falls outside of the 28 definitions, States report the data under “other services.”¹⁰

The 29 service categories (28 social service categories plus the “other services” category) are listed below:

Adoption services	Independent/transitional living services
Case management services	Information and referral services
Congregate meals	Legal services
Counseling services	Pregnancy and parenting services
Day care—adults	Prevention and intervention services
Day care—children	Protective services—adults
Education and training services	Protective services—children
Employment services	Recreational services
Family planning services	Residential treatment services
Foster care services—adults	Special services—disabled
Foster care services—children	Special services—youth at risk
Health-related services	Substance abuse services
Home-based services	Transportation services
Home-delivered meals	Other services
Housing services	

Due to the considerable flexibility of the SSBG program, States vary in the way they use SSBG funds and in what services they provide. States use the SSBG funds to supplement other funds or to fully support the delivery of a service.

Data Items

The following data items provided the basis for the analyses presented in this report.

SSBG Expenditures

For the purposes of this report, the term SSBG expenditures refers to the sum of two columns of data on the post-expenditure report—expenditures of the SSBG allocation and expenditures of the funds transferred into the SSBG program from the TANF block grant.

¹⁰ 45 C.F.R. §96.74(b).

- **SSBG Allocation.** States reported dollars from the SSBG appropriation spent for services and administrative costs.¹¹
- **TANF Transfer.** States reported any expended dollars transferred from the TANF block grant into SSBG.¹²

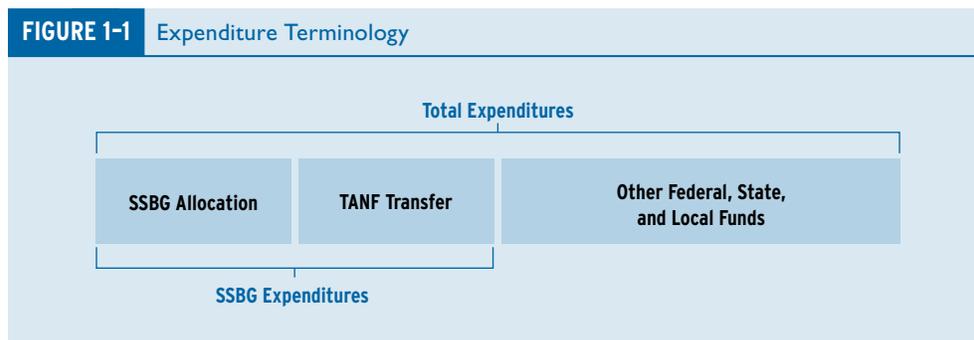

Other Federal, State, and Local Funds

States reported the total amount of other Federal, State, and local funds spent for each service supported with SSBG funds.

Total Expenditures

Total expenditures is the sum of expenditures for SSBG-supported services. It includes SSBG expenditures as well as other Federal, State, and local funds.

Figure 1–1 illustrates the relationships among the data items.

Number of Recipients

States reported the total number of adult and child recipients for each service category funded, in whole or in part, with SSBG expenditures. In addition, States were asked to report on adult recipients in two categories—age 59 years and younger, and age 60 years and older.

- **Children.** States reported the actual or estimated number of children who received each service.¹³
- **Adults Age 59 Years and Younger.** States reported the actual or estimated number of adults age 59 years and younger who received each service.

¹¹ The total reported may differ from the amount of the annual SSBG allocation if the full amount was not expended in the fiscal year during which it was allocated, or if a portion of the SSBG allocation from the previous year was expended during the reporting year.

¹² The total of this column may differ from the total amount transferred, as reported by States in the Fiscal Year 2010 TANF Financial Data Report, http://www.acf.hhs.gov/programs/ofa/data/2010fin/tanf_2010_index.html (accessed November 2, 2010), if the full transfer was not expended during the year it was transferred, or if funds transferred during the previous year were expended during the reporting year.

¹³ The age of child recipients is defined by each State, but usually refers to individuals younger than 18 years.

- **Adults Age 60 Years and Older.** States reported the actual or estimated number of adults age 60 years and older who received each service.
- **Adults of Unknown Age.** States reported the actual or estimated number of adults for whom age data were unavailable, who received each service. For States in which age categories for adult recipients were only partially available, this item is the total number of adult recipients less the number of adult recipients for whom age is known.

Appendix E contains State data pages, which present the annual expenditures, number of recipients, contact information, and additional notes on reporting methods for each State.

Validation

Data from the State post-expenditure reports were entered into a database and validated to identify errors or inconsistencies. All States were contacted to resolve any data issues and verify their definitions of data items. In addition, States were given the opportunity to explain divergences from the reporting requirements. These explanations are included as notes to the State data pages.

Table 1–2 displays all data items used for analyses, specifies whether the States reported the item or it was calculated during data validation, and indicates the specific validation issues addressed.

DATA ITEM		REPORTED	CALCULATED	DATA CALCULATION AND VALIDATION
EXPENDITURES	SSBG Allocation	■		
	TANF Transfer	■		
	SSBG Expenditures		■	SSBG expenditures were calculated as the sum of the SSBG allocation and the TANF transfer. If these data were missing, data in all other fields were deleted.
	Other Federal, State, and Local Funds	■		If these data were missing, the State was omitted from analyses comparing SSBG expenditures to expenditures of other sources of funds.
	Total Expenditures	■		
	Provision Method	■		
RECIPIENTS	Total Recipients	■		If data on recipients were missing, expenditure data were accepted and included in the analyses, but the State was asked to provide an explanation for the missing recipient data. Despite variations in methods for determining recipient counts, data from all States were included in the analyses.
	Children	■		
	Adults Age 59 Years and Younger	■		If data for these categories were missing, all adults were counted as adults of unknown age.
	Adults Age 60 Years and Older	■		
	Adults of Unknown Age	■	■	States were asked to report the actual or estimated number of adults of unknown age who received each service. If these data were missing, the number of adults of unknown age was calculated as the sum of adults age 59 years and younger and adults age 60 years and older, subtracted from total adults.

CHAPTER 2. EXPENDITURES

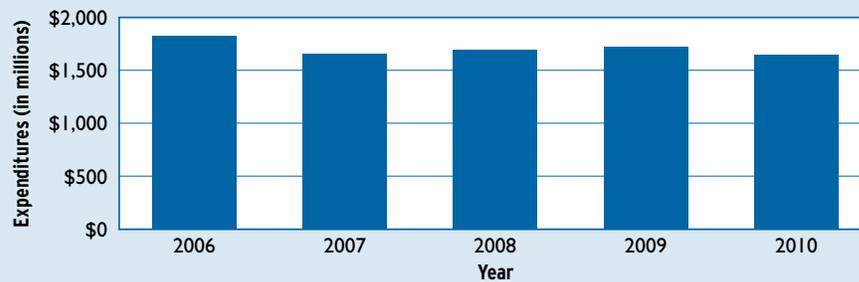

This chapter focuses on Social Services Block Grant (SSBG) expenditures by State, by service category, and in comparison with expended funds from other sources.

SSBG Expenditure Trends, 2006-2010

SSBG expenditures for each State include the SSBG allocation and any funds transferred from the Temporary Assistance for Needy Families (TANF) block grant. During 2010, SSBG expenditures for all States totaled \$2.8 billion. Of the SSBG expenditures, \$1.6 billion (58%) were from the SSBG allocation, and nearly \$1.2 billion (42%) were TANF transfer funds (see figures 2-1 and 2-2.)

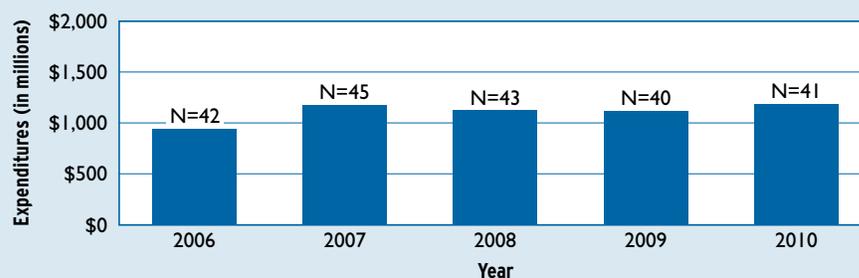

During the past 5 years, States reported increases in both the amount and percentage of funds transferred from TANF. There was a 26% increase in the amount of TANF transfer funds, from \$944 million (42 States) in 2006 to nearly \$1.2 billion (41 States) in 2010. The percentage of SSBG expenditures transferred from TANF increased from 34% in 2006 to 42% in 2010.

FIGURE 2-1 Expenditures of SSBG Allocation, 2006–2010

NOTE: N = 52 States.

FIGURE 2-2 Expenditures of Funds Transferred from TANF to SSBG, 2006–2010

NOTE: N = Number of States.

SSBG Expenditures By State, 2010

The Federal Government allocates SSBG funds annually to States based on population.¹⁴ As would be expected, States with large populations report larger SSBG expenditures. In addition, the amount of a State's SSBG expenditures is greatly influenced by the amount of TANF funds that the State transfers into the SSBG program. Figure 2–3 shows expenditures of SSBG-allocated funds and funds transferred from TANF, comprising total SSBG expenditures, for each State.

California reported the largest amount of SSBG expenditures (\$526 million, 61% of which were TANF transfer funds), followed by New York (\$309 million in expenditures, 65% of which were TANF transfer funds). Four other States reported SSBG expenditures of more than \$100 million—Texas (\$163 million in expenditures, 20% of which were TANF transfer funds), Florida (\$162 million in expenditures, 39% of which were TANF transfer funds), Ohio (\$143 million in expenditures, 44% of which were TANF transfer funds), and Michigan (\$133 million in expenditures, 58% of which were TANF transfer funds). These six States accounted for 51% of all SSBG expenditures. In 11 States, SSBG expenditures were less than \$10 million.¹⁵ (See figure 2–3.) Appendix F, table F–1, provides a breakdown of SSBG expenditures for each State.

Per Capita SSBG Expenditures, 2010

Nationally, the average SSBG appropriation for 2010 was approximately \$5.44 per person.¹⁶ However, State SSBG per capita expenditures varied from this amount if a State reported a TANF block grant funds transfer, carried over funds from previous years, or carried forward funds for use during the next year.¹⁷ During 2010, the average State per capita SSBG expenditure was \$9.06, ranging from a low of \$2.91 in Tennessee to a high of \$15.95 in New York. (See figure 2–4.) Appendix F, table F–2, provides population estimates and per capita expenditures for each State.

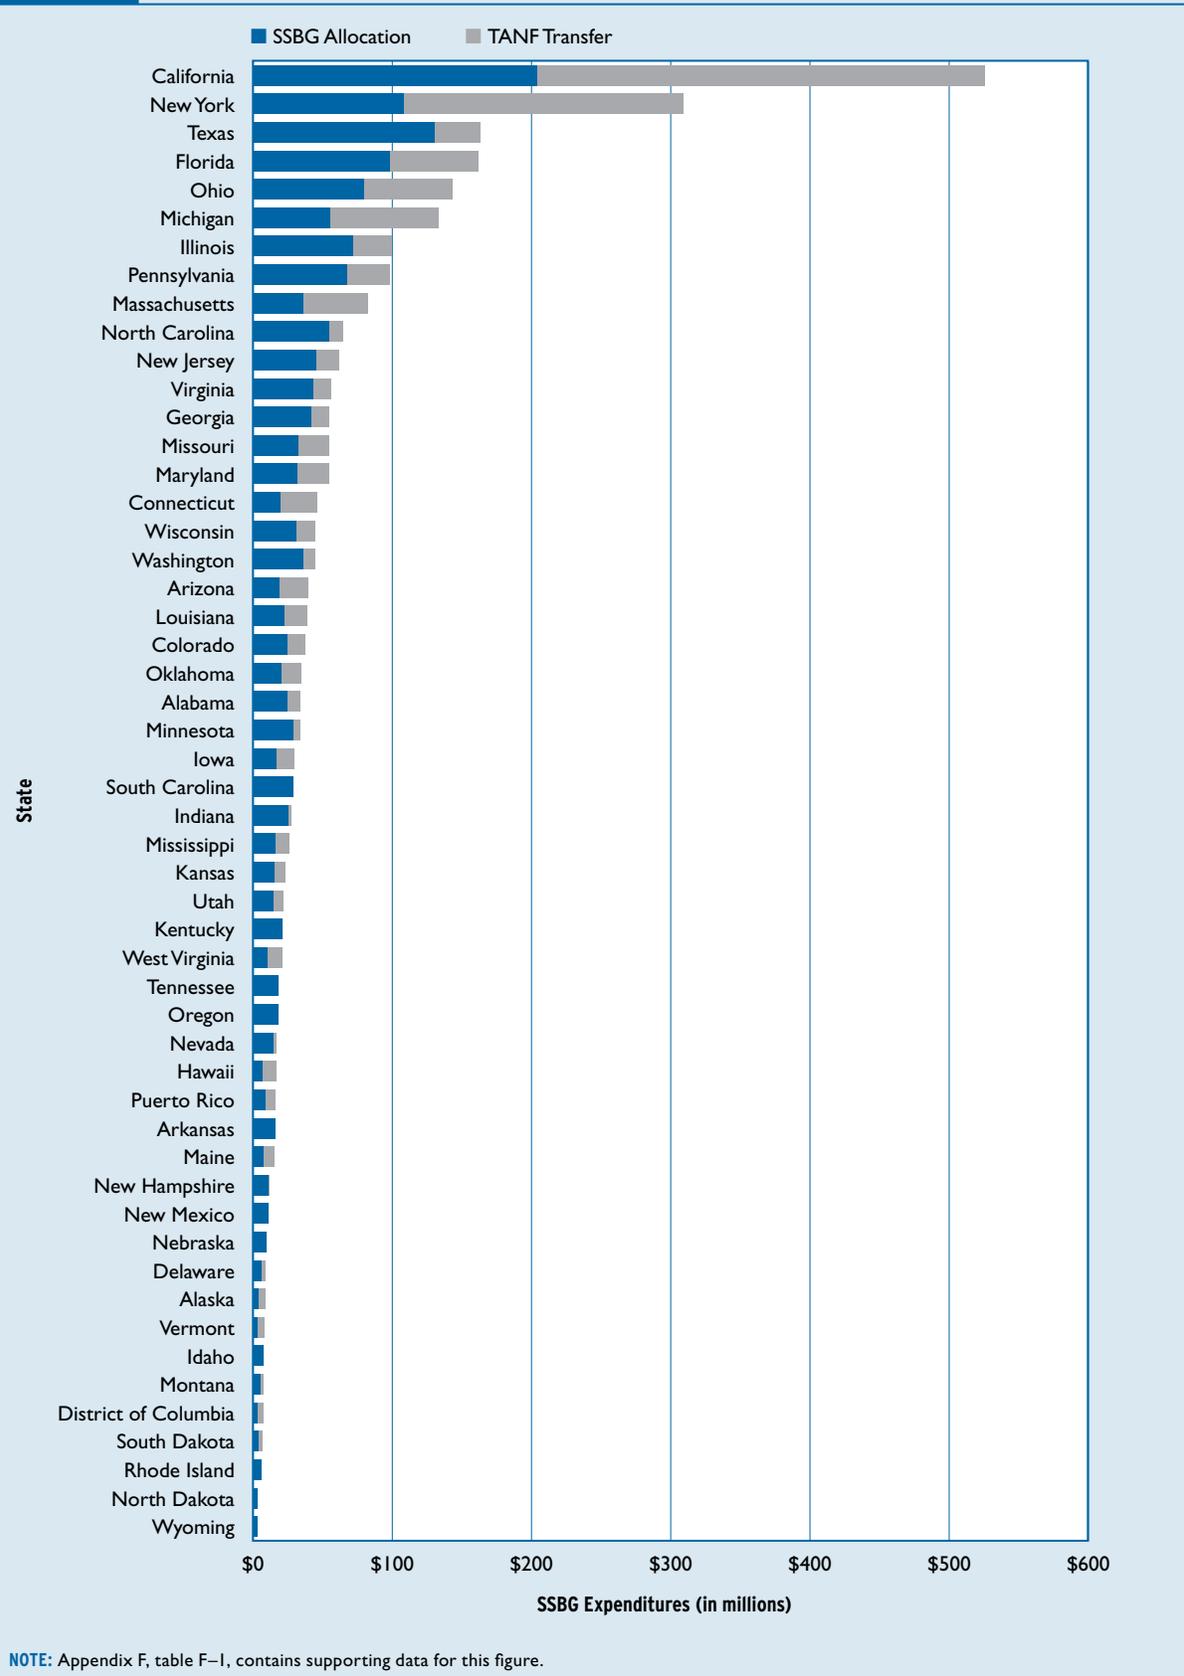

¹⁴ Section 2003 of the Social Security Act states that the allotment to each State is based on the following formula: $[(\text{State population}/\text{national population}) \times (\text{SSBG appropriation} - \text{sum}(\text{allotments to jurisdictions of Puerto Rico, Guam, the Virgin Islands, the Northern Mariana Islands, and America Samoa}))]$. State census estimates are updated annually.

¹⁵ These States were: Alaska, Delaware, District of Columbia, Idaho, Montana, Nebraska, North Dakota, Rhode Island, South Dakota, Vermont, and Wyoming.

¹⁶ The national per capita allocation was calculated by dividing the SSBG allocation by the estimated population. Population data for 2010 were retrieved October 21, 2011 from, <http://quickfacts.census.gov/qfd/states/00000.html>.

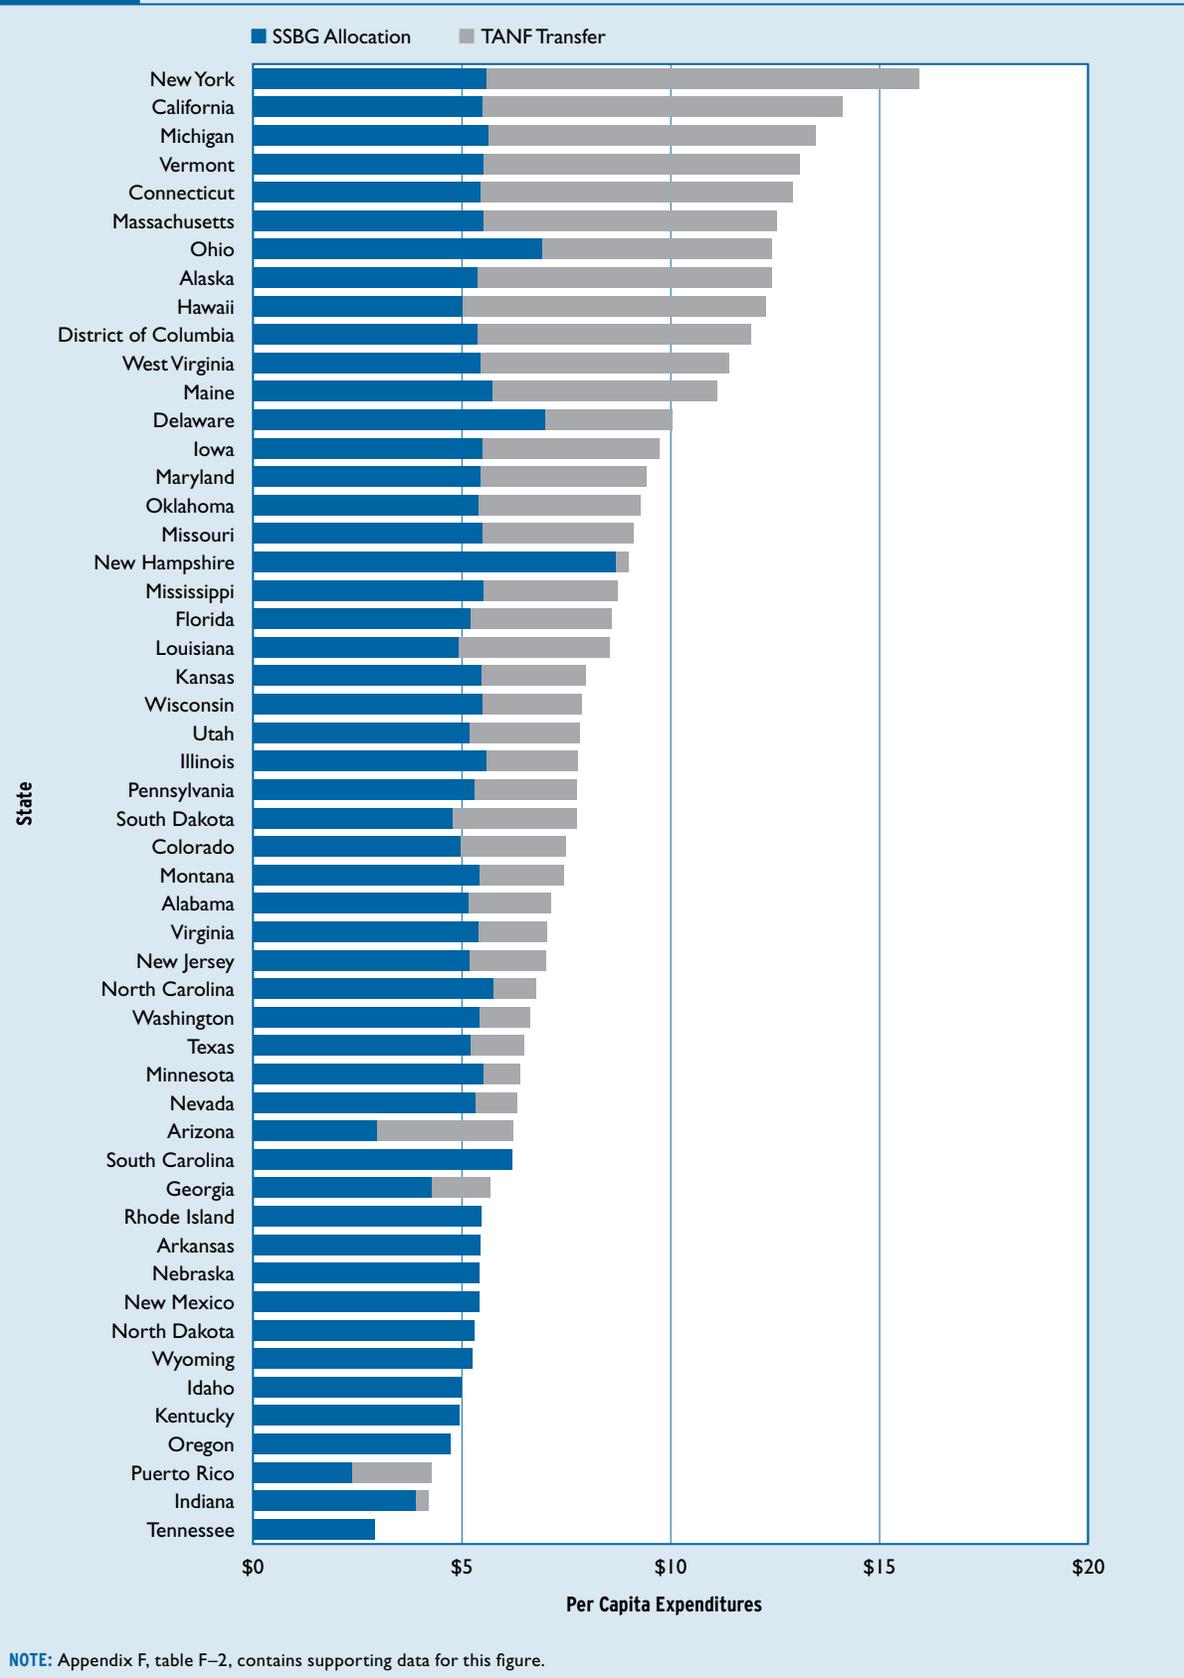

¹⁷ Per capita expenditures for each State were calculated by dividing the expenditures by the estimated population. The average for all States was an unweighted average. Population data for 2010 were retrieved October 21, 2011 from <http://quickfacts.census.gov/qfd/index.html>.

FIGURE 2-3 Expenditures by State, 2010

NOTE: Appendix F, table F-1, contains supporting data for this figure.

FIGURE 2-4 SSBG Per Capita Expenditures by State, 2010

NOTE: Appendix F, table F-2, contains supporting data for this figure.

SSBG Expenditures By Service Category, 2010

Table 2–1 shows the total SSBG expenditures—comprising the SSBG allocation and the TANF transfer funds—for each of the 29 service categories and for administrative costs. Appendix F, table F–3, provides more information on the 2010 SSBG expenditures for each service category.

TABLE 2-1 SSBG Expenditures by Service Category, 2010

SERVICE CATEGORY	SSBG ALLOCATION	TANF TRANSFER	TOTAL SSBG EXPENDITURES	NUMBER OF STATES
Adoption Services	\$ 21,107,553	\$ 9,598,089	\$ 30,705,642	22
Case Management	\$ 129,647,136	\$ 73,961,188	\$ 203,608,325	28
Congregate Meals	\$ 4,596,350	\$ 34,088	\$ 4,630,437	13
Counseling Services	\$ 23,955,844	\$ 2,407,855	\$ 26,363,699	19

The five service categories that had the highest SSBG expenditures were child foster care services, child day care services, special services for individuals with disabilities, child protective services, and case management services. Thirty-five States collectively spent \$377 million for child foster care services (13.3% of all SSBG expenditures); 37 States reported \$371 million for child day care services (13.1% of all SSBG expenditures); 23 States reported \$345 million of SSBG expenditures for special services for individuals with disabilities (12.2% of all SSBG expenditures); 39 States reported \$290 million of SSBG expenditures for child protective services (10.2% of all SSBG expenditures); and 28 States reported \$204 million of SSBG expenditures for case management services (7.2% of all SSBG expenditures). In combination, these five service categories accounted for 56% of SSBG expenditures in 2010.

Four additional service categories had expenditures that totaled 5% or more of SSBG expenditures in 2010. Thirty-four States reported \$183 million for home-based services (6.5% of all SSBG expenditures); 34 States reported \$180 million for adult protective services (6.4%); 28 States reported \$179 million for prevention and intervention services (6.3%); and 28 States reported \$160 million for other services (5.6%). For each of the remaining 21 service categories, States reported expenditures totaling less than 5% of SSBG expenditures. (See figures 2–5 and 2–6.) For additional information on expenditures for specific service categories see Chapter 4, Services.

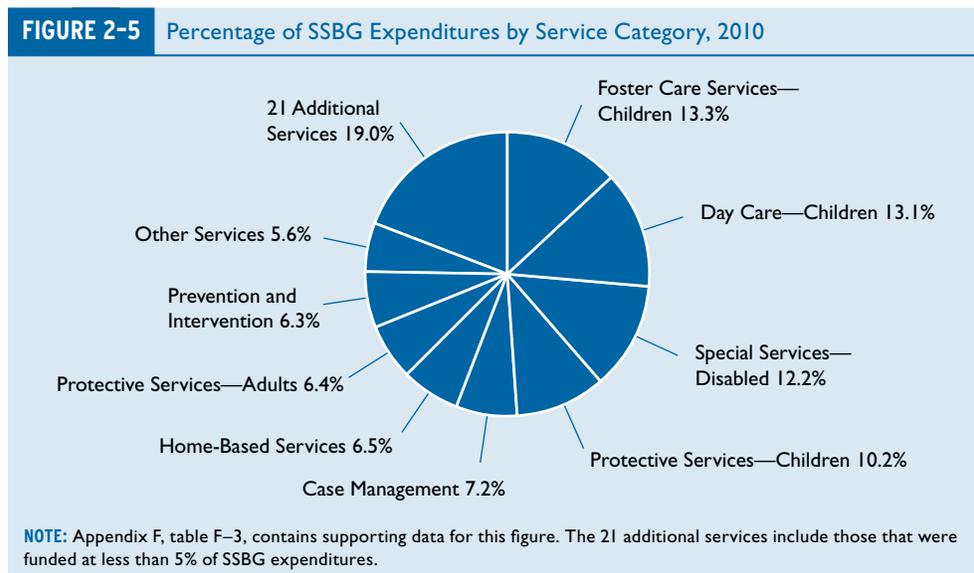

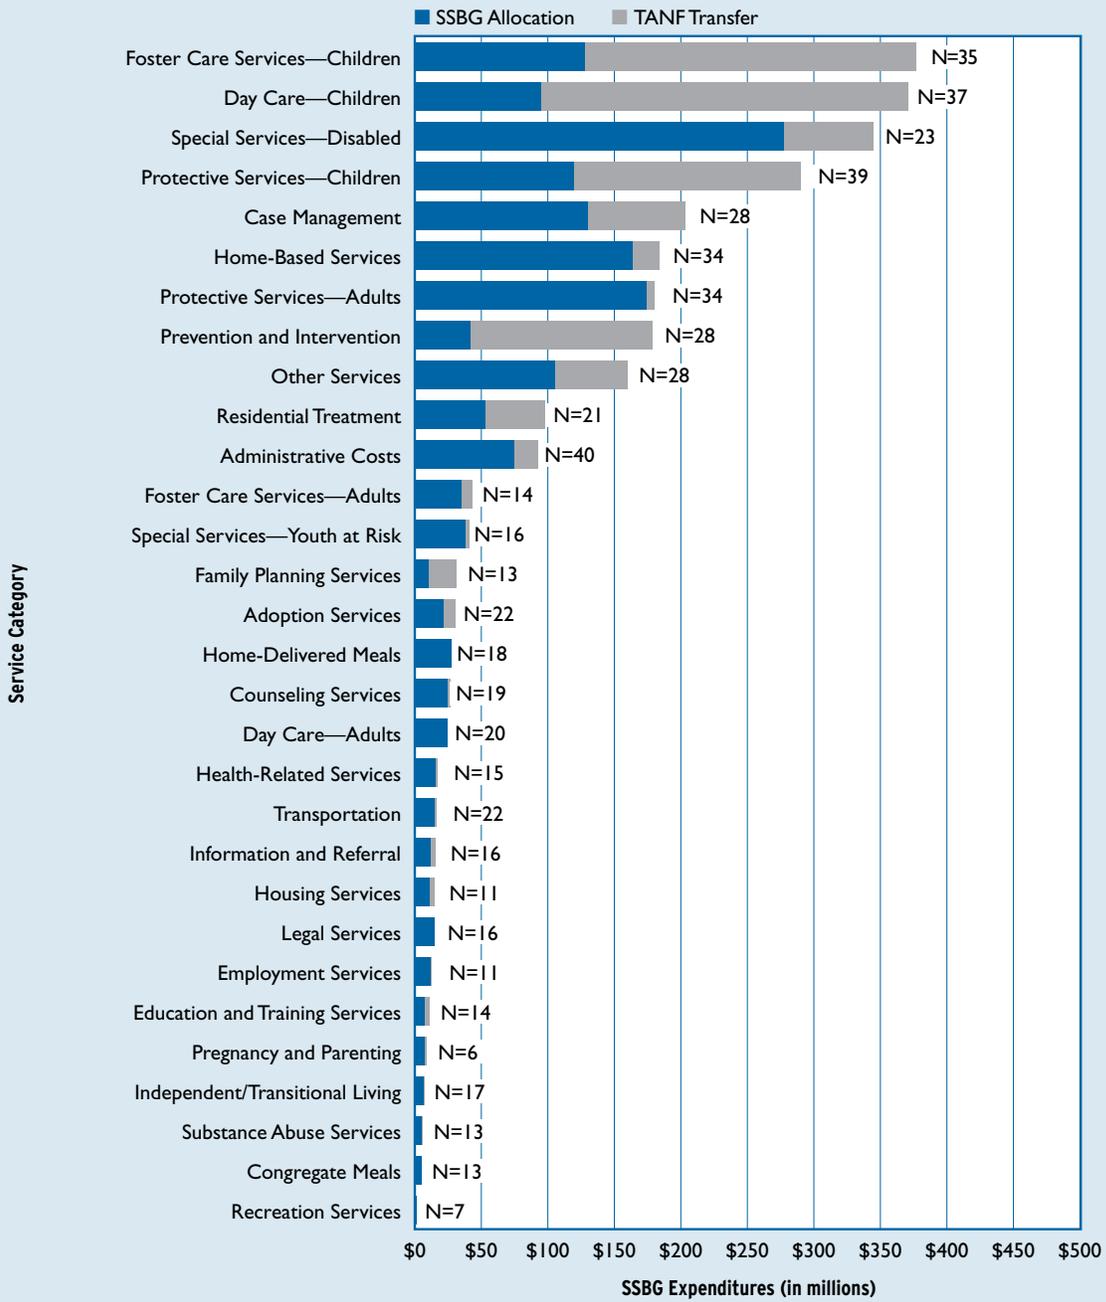

FIGURE 2-6 SSBG Expenditures by Service Category, 2010

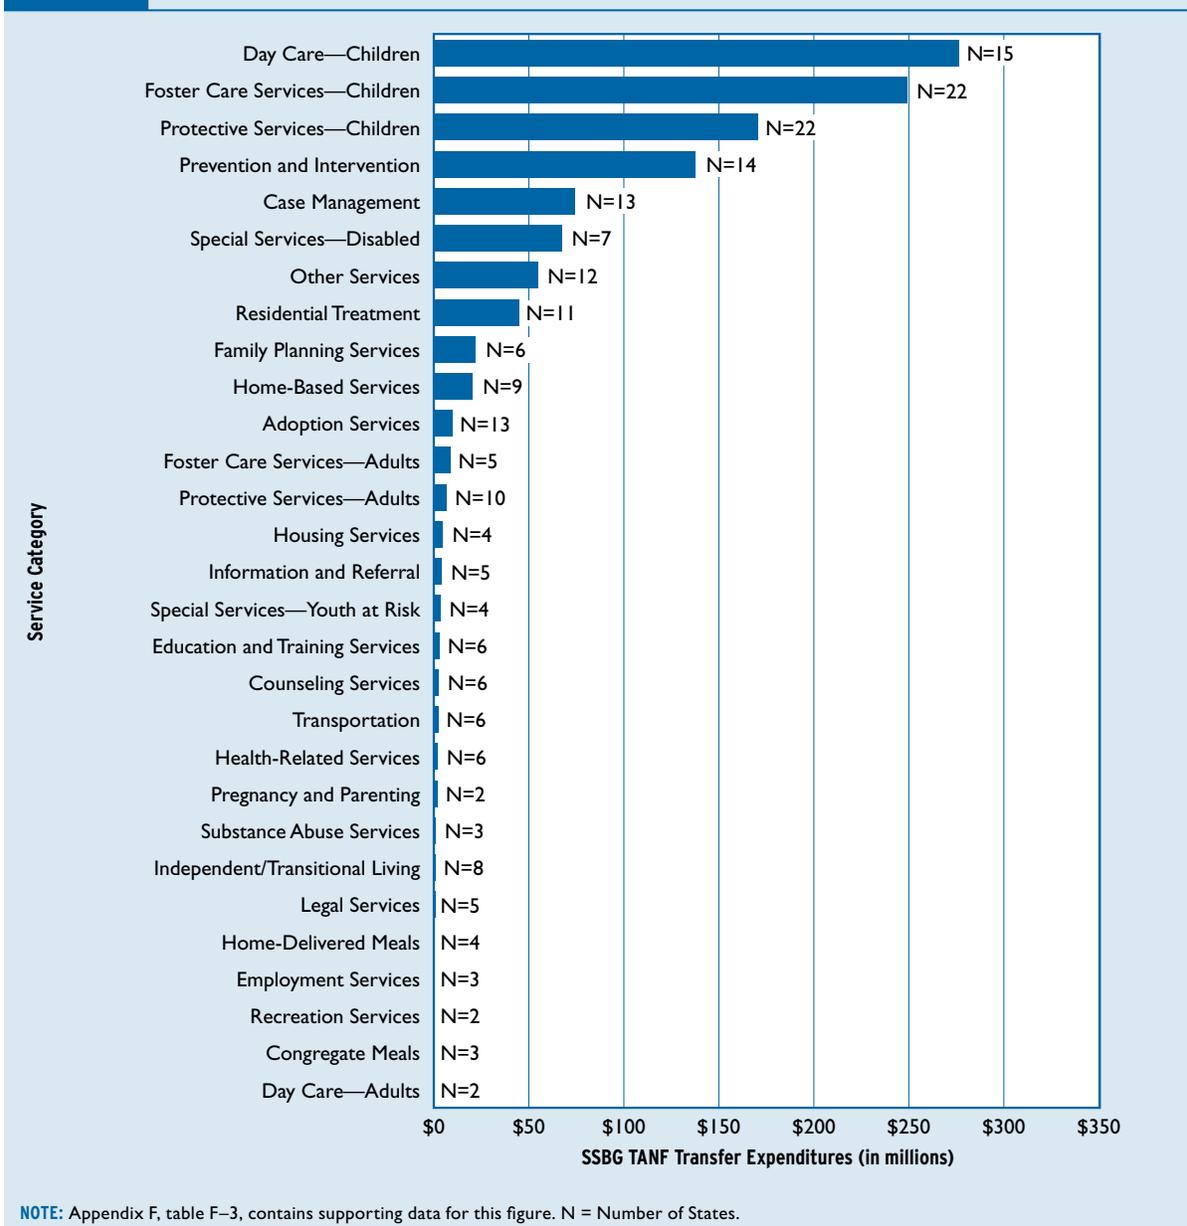

NOTE: Appendix F, table F-3, contains supporting data for this figure. N = Number of States.

TANF Transfer Expenditures, 2010

States reported, by service category, how they used the TANF transfer funds. Thirty-seven States spent nearly \$1.2 billion of TANF transfer funds. Among these States, the highest proportion of TANF transfer expenditures was for children’s services. Fifteen States collectively spend \$276 million of TANF transfer funds for child day care services (23% of all expenditures of TANF transfer funds); 22 States spent \$249 million of TANF transfer funds for child foster care services (21%); and 22 States spent \$171 million of TANF transfer funds for child protective services (14%). (See figure 2–7.) In combination, these three service categories accounted for 58% of expenditures of TANF transfer funds in 2010.

FIGURE 2-7 TANF Transfer Expenditures by Service Category, 2010

For five services, the TANF transfer portion of SSBG expenditures was greater than the SSBG allocation. Funds from TANF transfers accounted for 77% of SSBG expenditures for prevention and intervention services, 75% child day care services, 69% for family planning services, 66% for child foster care, and 59% for child protective services.

SSBG and Other Sources of Funds, 2010

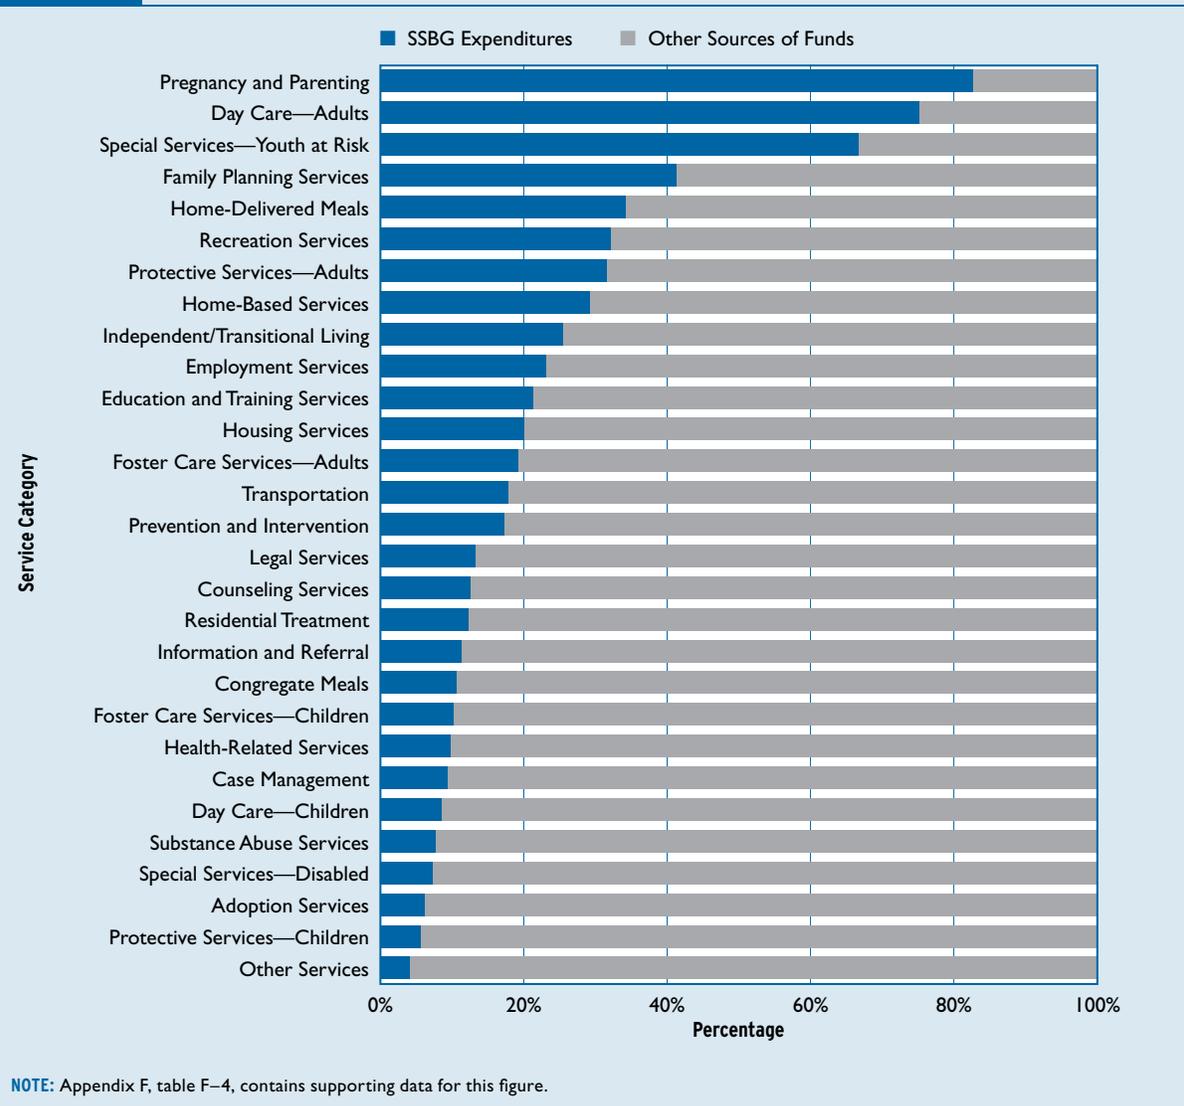

States reported on total expenditures, which included expenditures of funds from other sources in addition to the SSBG allocation and TANF transfer. The reporting of these other Federal, State, and local funds varied among the States. For example, some States reported other funding only for those specific programs or providers that received SSBG funds (e.g., only child care centers that received SSBG funds). Other States reported funding for the entire service category regardless of whether the specific programs or providers received SSBG funds (e.g., all child care services throughout the State). Due to this variation in reporting practices, the following analysis is based only on data from the 44 States that indicated that total expenditures included all other sources of funds used to provide service in that service category.¹⁸

The percentage of total expenditures comprised of SSBG funds for specific service categories ranged from 4% to 83%. SSBG expenditures accounted for 83% of the total expenditures for pregnancy and parenting services, 75% for adult day care services, 67% for youth at risk, and 41% for family planning services. At least 20% of total funding for eight other services was from SSBG expenditures. These services were home-delivered meals (34%), recreation services (32%), adult protective services (32%), home-based services (29%), independent/transitional living services (25%), employment services (23%), education and training service (21%), and housing services (20%). SSBG funds made up less than 20% of total expenditures for the remaining 17 service categories. (See figure 2–8.) Appendix F, table F–4, compares SSBG expenditures and other expenditures for each service category.

Appendix F, tables F–1, F–2, F–3, and F–4, provide supporting data for this chapter.

¹⁸ These States were: Alabama, Alaska, Arizona, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Hawaii, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

FIGURE 2-8 SSBG Percentage of Total Expenditures by Service Category, 2010

CHAPTER 3. SERVICE RECIPIENTS

During 2010, an estimated 23,690,188 people received services supported, in whole or in part, by the Social Services Block Grant (SSBG) program. States report the number of recipients for each of the 29 service categories. An individual may have received more than one of the 29 services. Therefore, the number of recipients is not an unduplicated count.

State agencies used various methods to count recipients of SSBG-funded services. Some States reported all individuals who received a specific service in the State, regardless of the proportion of funding by the SSBG program. Other States reported a proportion of total clients based on specific criteria, such as eligibility, clients of certain agencies, or programs that received SSBG funding. Despite this variation, State counts of service recipients were not adjusted, and all State recipient data were included in this report.

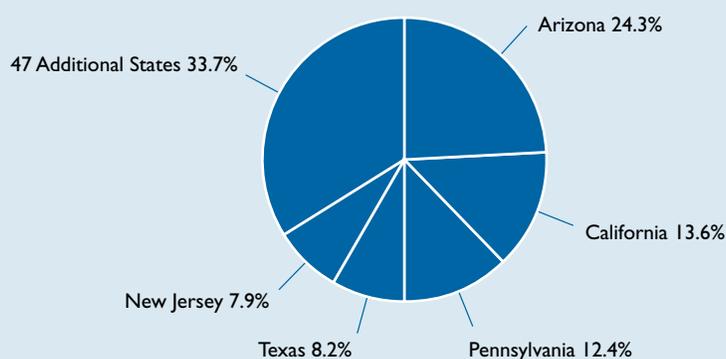

This chapter discusses the number of adults and children who benefited from services funded, in whole or in part, by the SSBG program, by State and by service. Additional Federal, State and local funds many have also been used to support the provision of these services.

Recipients by State

Arizona reported the largest number of people (5,749,446) who benefited from SSBG-funded services, followed by California (3,219,146) and Pennsylvania (2,937,794). Of the total number of recipients of SSBG-funded services, Arizona accounted for 24.3% of all recipients, California accounted for 13.6% of all recipients, and Pennsylvania accounted for 12.4% of recipients. Two other States—Texas and New Jersey—each reported serving more than 1,000,000 recipients.

Five additional States—Illinois, North Carolina, Florida, Ohio, and Tennessee—each reported serving more than 500,000 recipients. The five States that each served more than 1 million recipients comprised 66.3% of all recipients of SSBG-funded services. (See figure 3–1.) Appendix F, table F–5, provides recipient numbers for each State.

FIGURE 3-1 Percentage of SSBG Recipients by State, 2010

NOTE: Appendix F, table F-5, contains supporting data for this figure.

Recipients by Service Category

In 2010, the largest number of recipients of SSBG-funded services was reported for prevention and intervention services. In 28 States, 6,422,510 children and adults received prevention and intervention services funded, in whole or in part, by the SSBG program. This represents 27% of the total number of individuals who received SSBG-funded services in 2010.

Four other SSBG-funded services each benefited more than 1 million people. In 37 States, 4,074,524 individuals received child day care services (17% of total recipients); in 28 States, 3,580,879 individuals received case management services (15% of total recipients); in 39 States, 2,422,061 individuals received child protective services (10% of total recipients); and in 16 States, 1,491,918 individuals received information and referral services (6% of total recipients). (See figure 3-2.) Appendix F, table F-6, provides recipients numbers for each service category.

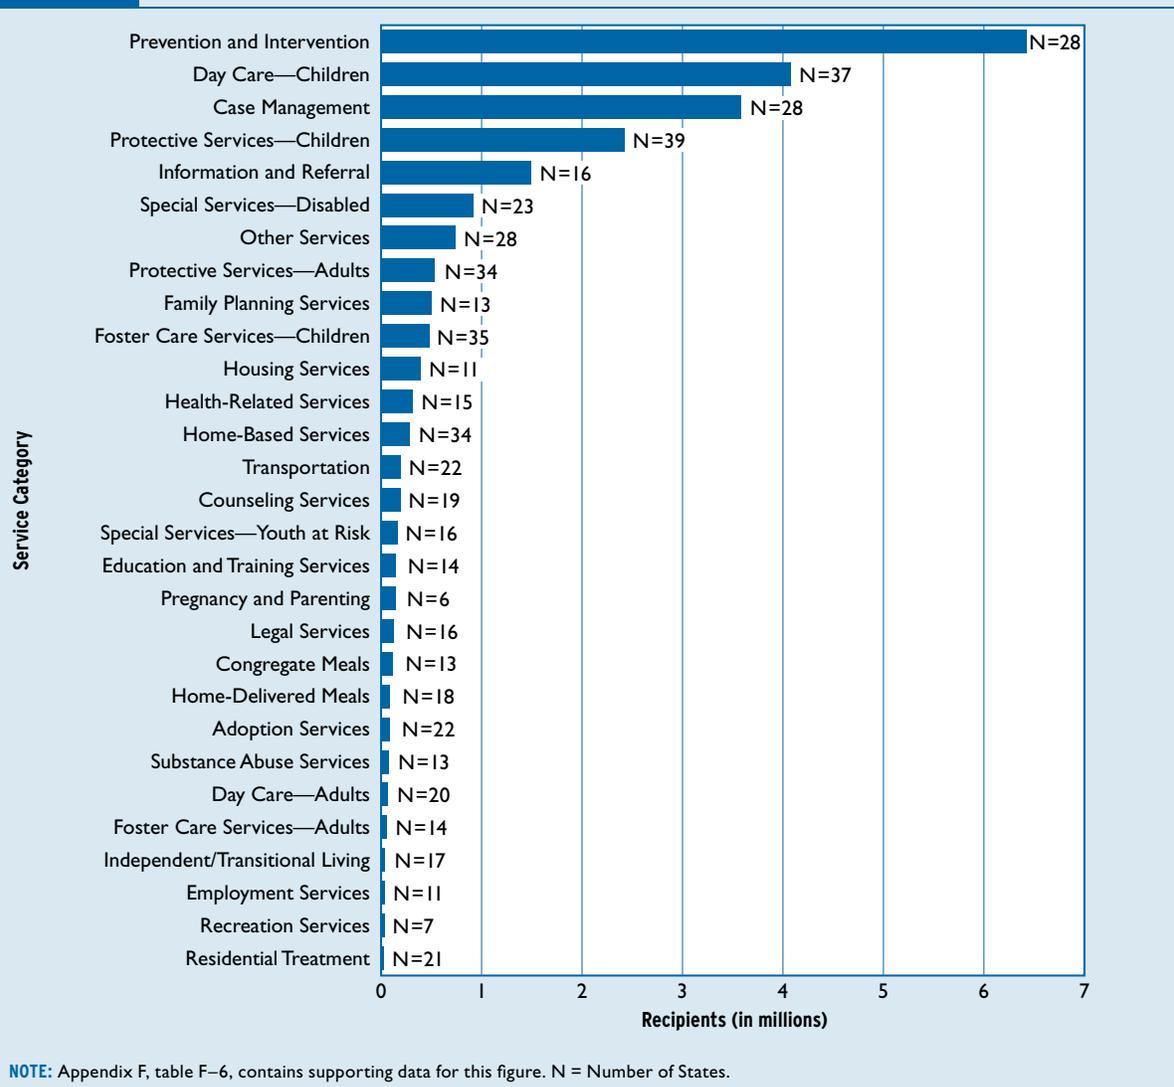

Age of Recipients

During 2010, 12,219,545 clients (52%) were children and 11,470,643 clients (48%) were adults.¹⁹ In three States—Oregon, Washington, and Wyoming—SSBG-funded services were provided exclusively to children. Additionally, children accounted for 90% or more of the recipients in Alaska, Colorado, Delaware, Florida, Idaho, Louisiana, New Mexico, and Tennessee. The States that served the most children were California (2,704,786), Arizona (1,521,794), and Pennsylvania (1,250,807).

Many SSBG-supported services are designated specifically for children. These services include child day care, child foster care, child protective services, adoption services, and special services for youth at risk. States reported that several

¹⁹ The age of child recipients is defined by each State, but usually refers to individuals younger than 18 years.

FIGURE 3-2 Recipients by Service Category, 2010

other services were provided to a large proportion of children, including health related services (61%), legal services (53%), and housing services (52%).

In addition to reporting adults and children separately, States reported the number of adults in two age categories—59 years and younger, and 60 years and older. Thirty-nine States submitted data for recipients in these categories.²⁰ The following analyses of adult recipient data by age category only include data from these States.

²⁰ These States were: Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, West Virginia, and Wisconsin.

Pennsylvania reported the greatest number of recipients age 59 years and younger (1,063,062). Connecticut and Louisiana reported the greatest proportion of recipients age 59 years and younger. Of the 308,641 adults who received SSBG-funded services in Connecticut, 95% (293,641) fell into this age category. Of the 3,718 adults who received SSBG-funded services in Louisiana, 95% (3,547) fell into this age category. In addition, 80% or more of adult clients in the District of Columbia, Idaho, Kentucky, New York, Rhode Island, and Vermont were age 59 years and younger.

Services provided to the largest proportion of adults age 59 years and younger were child day care (100% of adult clients),²¹ child foster care services (97%),²² adoption services (95%),²³ substance abuse services (95%), and protective services children (94%).

New Jersey reported the greatest number of recipients age 60 years and older (519,489), accounting for 55% of all adult service recipients in the State. Puerto Rico reported the largest proportion of recipients age 60 years and older—100% of 2,646 adults who received SSBG-funded services fell into this age category. In addition, 60% or more of the adult clients in Colorado, Kansas, New Mexico, South Dakota, Tennessee, and West Virginia were age 60 years and older.

Services provided to the largest proportion of adults age 60 years and older were recreational services (85% of adult clients), followed by home-delivered meals (79%), education and training services (62%), and congregate meals (55%).

Appendix F, tables F–5 and F–6, provide supporting data for this chapter.

²¹ States are allowed to report adult recipients for child day care services. These recipients may have been caregivers who received additional services from the child care centers that their children attended.

²² States are allowed to report adult recipients for child foster care services. These recipients may have been caregivers.

²³ States are allowed to report adult recipients for adoption services. These recipients may have been the adoptive parents of the children.

CHAPTER 4. SERVICES

This chapter provides trend analyses, by service, for the past 5 years (2006–2010) of State Social Service Block Grant (SSBG) expenditures. The chapter also outlines expenditure and recipient data for each of the 29 service categories to provide an understanding of how States expended the SSBG allocation and Temporary Assistance for Needy Families (TANF) block grant transfer funds. The chapter concludes with a section that summarizes the service delivery methods used by States.

SSBG 5-Year Expenditure Trends, 2006-2010

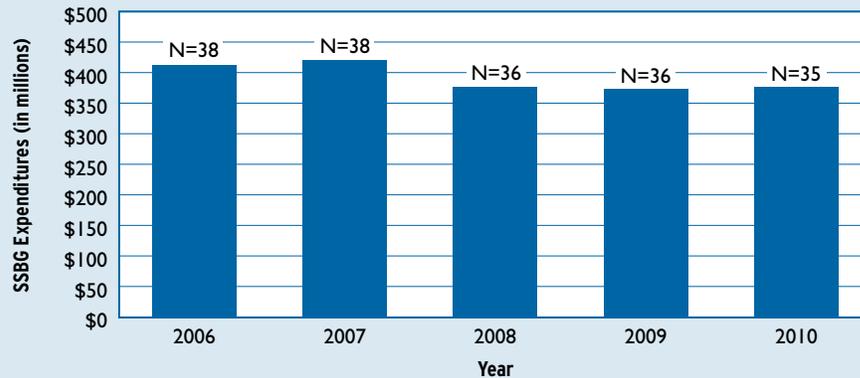

Five-year trend analyses are provided for the five service categories that had the highest SSBG expenditures in 2010—child day care, child foster care, special services for individuals with disabilities, child protective services, and case management. Trends are also summarized for eight additional service categories that had the largest declines and increases in SSBG expenditures from 2006 to 2010. These trends provide an overall picture of how SSBG expenditures for specific services have changed at the national level during the past 5 years. It is important to note that, although the Federal SSBG allocation has remained constant, funds transferred into the SSBG from TANF have increased by 26% from 2006 (\$943,848,792) to 2010 (\$1,185,619,823). (See chapter 2, figure 2–2.) In addition, changes at the national level are sometimes driven by changes in a small number of large States. Since States have flexibility to use SSBG funds for various services each year, different States may be included in the totals for any given year. (See appendix D for service definitions.) Appendix F, table F–9, provides information on expenditures for each service category from 2006 to 2010.

Five Largest SSBG Expenditure Categories

Trend data for the five service categories receiving the largest amount of SSBG expenditures in 2010 are examined below.

- Expenditures for child foster care services rose slightly from \$413 million (38 States) in 2006 to a high of \$421 million (38 States) in 2007, before declining to \$373 million (36 States) in 2009. From 2006–2010, expenditures for this service decreased by 8% during the past 5 years. (See figure 4–1.)

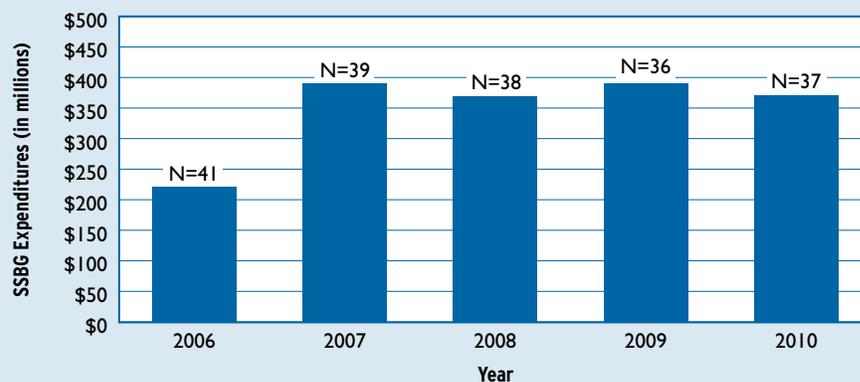

FIGURE 4-1 Child Foster Care Services, SSBG Expenditures, 2006–2010

NOTE: Appendix F, table F–9, contains supporting data for this figure. N = Number of States.

- Expenditures for child day care services rose from \$220 million (41 States) in 2006 to \$389 million (39 States) in 2007, before declining to \$369 million (38 States) in 2008. Expenditures then rose to a high of \$391 million (36 States) in 2009. From 2006–2010, expenditures for this service increased by 68% during the past 5 years. (See figure 4–2.)

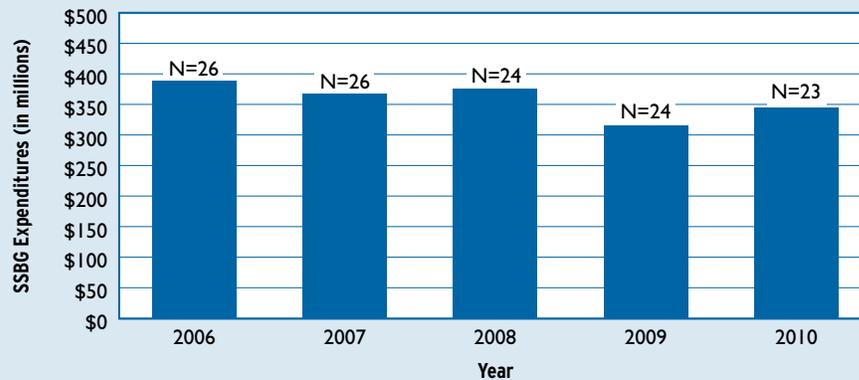

FIGURE 4-2 Child Day Care Services, SSBG Expenditures, 2006–2010

NOTE: Appendix F, table F–9, contains supporting data for this figure. N = Number of States.

- Expenditures for special services for individuals with disabilities declined from \$388 million (26 States) in 2006 to \$367 million (26 States) in 2007. Expenditures then rose to a high of \$375 million (24 States) in 2008, before declining to \$315 million (24 States) in 2009. From 2006–2010, expenditures for this service decreased by 11% from 2006 to 2010. (See figure 4–3.)

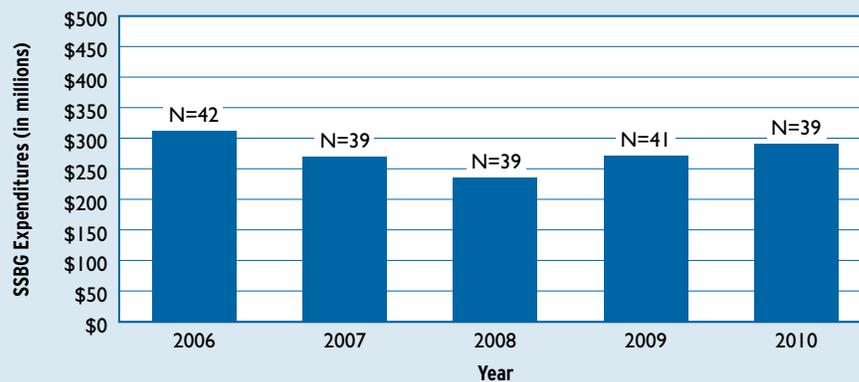

FIGURE 4-3 Special Services for Individuals with Disabilities, SSBG Expenditures, 2006–2010

NOTE: Appendix F, table F–9, contains supporting data for this figure. N = Number of States.

- Expenditures for child protective services declined from \$312 million (42 States) in 2006 to \$235 million (39 States) in 2008. Expenditures then increased from 2009 to 2010, increasing to \$290 million (39 States) in 2010. Overall, expenditures for this service increased by 7% from 2006 to 2010. (See figure 4–4.)

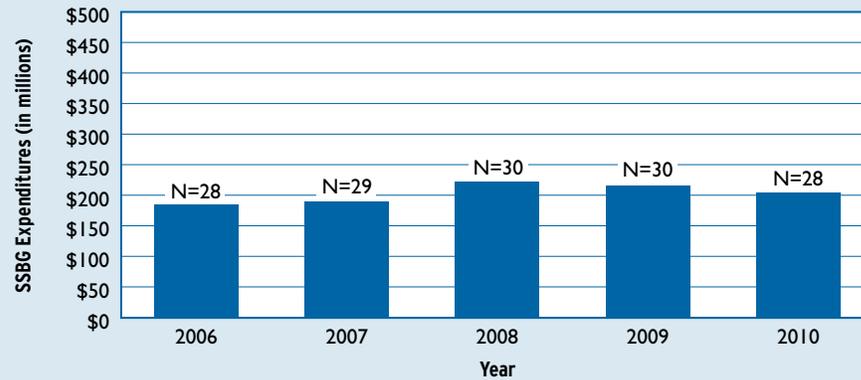

FIGURE 4-4 Child Protective Services, SSBG Expenditures, 2006–2010

NOTE: Appendix F, table F–9, contains supporting data for this figure. N = Number of States.

- During the past 5 years, expenditures for case management increased by 16%, from \$184 million (28 States) in 2006 to \$204 million (28 States) in 2010. (See figure 4–5.)

FIGURE 4-5 Case Management Services, SSBG Expenditures, 2006–2010

NOTE: Appendix F, table F–9, contains supporting data for this figure. N = Number of States.

Decline in Expenditures

Expenditures for 17 service categories decreased from 2006 to 2010. There have been declines of 20% or more in expenditures for education and training, recreational services, independent/transitional living services, and congregate meals services during the past 5 years.

- Expenditures for education and training decreased by 49%, from \$20 million (16 States) in 2006 to \$10 million (14 States) in 2010.
- Expenditures for recreational services decreased by 44%, from \$1.5 million (8 States) in 2006 to \$813,762 (7 States) in 2010.
- Expenditures for independent/transitional living services decreased by 22%, from \$9 million (18 States) in 2006 to \$7 million (17 States) in 2010.
- Expenditures for congregate meal services decreased by 21%, from \$6 million (12 States) in 2006 to \$5 million (13 States) in 2010.

Increase in Expenditures

Expenditures for 12 service categories increased from 2006 to 2010. In addition to increases in expenditures for child day care services, and case management described above, there have been increases of more than 30% in expenditures for special services—youth at risk, adult day care services, prevention and intervention, and other services during the past 5 years.

- Expenditures for special services—youth at risk increased by 148%, from \$17 million (16 States) in 2006 to \$41 million (16 States) in 2010.
- Expenditures for adult day care services increased by 55%, from \$16 million (22 States) in 2006 to \$25 million (20 States) in 2010.
- Expenditures for prevention and intervention services increased by 33%, from \$135 million (36 States) in 2006 to \$179 million (28 States) in 2010.
- Expenditures for other services increased by 27%, from \$126 million (24 States) in 2006 to \$160 million (28 States) in 2010.

SSBG Service Expenditures, 2010

This section provides information on the number of States that reported expenditures for each of the 29 service categories. This section also reports the following information and analyses about expenditures and recipients for each of the 29 service categories:

- The amount of SSBG expenditures for a particular service and the State that accounted for the greatest percentage of this amount
- The amount of TANF transfer funds used to support the service and the number of States that reported expenditures of TANF transfer funds for the service
- The States that reported at least 25% of their SSBG expenditures for the service, if any, or the State that reported the highest percentage of its expenditures for the service
- The number of individuals who received the service, and the proportion of children and adults served, including all the individuals who received services funded, in whole or in part, by the SSBG program

Appendix F, tables F-3, F-6, F-7, and F-8, provide greater detail regarding the funding and recipients of specific social services within each State.

Adoption Services

Twenty-two States reported SSBG expenditures for adoption services:

- SSBG expenditures for adoption services were \$31 million; Alaska accounted for 13% of this amount.
- TANF transfer expenditures accounted for 31% (\$10 million) of SSBG expenditures for adoption services; 13 States reported TANF transfer expenditures for this service.

- Three States reported using up to 25% of their SSBG expenditures for adoption services— New Mexico (25%), Alaska (45%) and South Dakota (49%).
- Approximately 68,804 children received adoption services funded by the SSBG program.²⁴

Case Management Services

Twenty-eight States reported SSBG expenditures for case management:

- SSBG expenditures for case management services were \$204 million; Missouri accounted for 16% of this amount.
- TANF transfer expenditures accounted for 36% (\$74 million) of SSBG expenditures for case management services; 13 States reported TANF transfer expenditures for this service.
- Ten States reported using more than 25% of their SSBG expenditures for case management services—Missouri (61%), Puerto Rico (55%), Vermont (54%), New Jersey (48%), Iowa (42%), Tennessee (39%), Idaho (36%), Utah (32%), Nebraska (29%), and Rhode Island (27%).
- Approximately 4 million individuals (44% children, 56% adults) received case management services funded by the SSBG program.

Congregate Meals

Thirteen States reported SSBG expenditures for congregational meals:

- SSBG expenditures for congregational meals were \$5 million; Oklahoma accounted for 59% of this amount.
- TANF transfer expenditures accounted for 1% (\$34,088) of SSBG expenditures for congregational meals; three States reported TANF transfer expenditures for this service.
- In Oklahoma, 8% of SSBG expenditures were for congregational meals.
- Approximately 110,002 individuals (12% children, 88% adults) benefited from congregational meals funded by the SSBG program.

Counseling Services

Nineteen States reported SSBG expenditures for counseling services:

- SSBG expenditures for counseling services were \$26 million; Illinois accounted for 20% of this amount.

²⁴ Arkansas, Maryland, Minnesota, North Carolina, Ohio, Utah and Virginia reported a total of 11,724 adults who received adoption services. These adults may have been biological or adoptive parents of children who received services.

- TANF transfer expenditures accounted for 9% (\$2.4 million) of SSBG expenditures for counseling services; six States reported TANF transfer expenditures for this service.
- In North Dakota, 100% of SSBG expenditures were for counseling services.
- Approximately 189,624 individuals (32% children, 68% adults) accessed counseling services funded by the SSBG program.

Day Care— Adults

Twenty States reported SSBG expenditures for adult day care:

- SSBG expenditures for adult day care were \$25 million; Texas accounted for 58% of this amount.
- TANF transfer expenditures accounted for less than 1% (\$11,425) of SSBG expenditures for adult day care; two States reported TANF transfer expenditures for this service.
- In Texas, 9% of SSBG expenditures were for adult day care.
- Approximately 61,094 adults attended adult day care programs funded by the SSBG program.

Day Care— Children

Thirty-seven States reported SSBG expenditures for child day care:

- SSBG expenditures for child day care were \$371 million; California accounted for 64% of this amount.
- TANF transfer expenditures accounted for 75% (\$276 million) of SSBG expenditures for child day care; 15 States reported TANF transfer expenditures for this service.
- Four States reported using more than 25% of their SSBG expenditures for child day care—Delaware (52%), California (45%), Connecticut (35%), and Pennsylvania (31%).
- Approximately 4 million children attended child day care programs funded by the SSBG program.²⁵

²⁵ *Minnesota reported that a total of 24 adults received child day care services. These adults may have been parents who received some additional services from the child care centers in which their children were enrolled.*

Education and Training Services

Fourteen States reported SSBG expenditures for education and training services:

- SSBG expenditures for education and training services were \$10 million; Florida accounted for 41% of this amount.
- TANF transfer expenditures accounted for 29% (\$3 million) of SSBG expenditures for education and training services; six States reported TANF transfer expenditures for this service.
- Four States reported using 3% of SSBG expenditures for education and training services—Alaska, Florida, South Carolina, and Utah.
- Approximately 146,195 individuals (32% children, 68% adults) received education and training services funded by the SSBG program.

Employment Services

Eleven States reported SSBG expenditures for employment services:

- SSBG expenditures for employment services were \$12 million; Ohio accounted for 55% of this amount.
- TANF transfer expenditures accounted for 2% (\$225,976) of SSBG expenditures for employment services; three States reported TANF transfer expenditures for this service.
- Two States reporting using 6% of SSBG expenditures for employment services—Mississippi and Nevada.
- Approximately 35,013 individuals (5% children, 95% adults) received employment services funded by the SSBG program.

Family Planning Services

Thirteen States reported SSBG expenditures for family planning services:

- SSBG expenditures for family planning services were \$31 million; Texas accounted for 72% of this amount.
- TANF transfer expenditures accounted for 69% (\$22 million) of SSBG expenditures for family planning services; six States reported TANF transfer expenditures for this service.
- In Texas, 14% of SSBG expenditures were for family planning services.
- Approximately 499,673 individuals (9% children, 91% adults) accessed family planning services funded by the SSBG program.

Foster Care Services—Adults

Fourteen States reported SSBG expenditures for adult foster care:

- SSBG expenditures for adult foster care were \$43 million; Michigan accounted for 38% of this amount.
- TANF transfer expenditures accounted for 20% (\$9 million) of SSBG expenditures for adult foster care; five States reported TANF transfer expenditures for this service.
- In Puerto Rico, 45% of SSBG expenditures were for adult foster care.
- Approximately 57,721 adults received adult foster care services funded by the SSBG program.

Foster Care Services—Children

Thirty-five States reported SSBG expenditures for child foster care:

- SSBG expenditures for child foster care were \$377 million; California accounted for 18% of this amount.
- TANF transfer expenditures accounted for 66% (\$249 million) of SSBG expenditures for child foster care; 22 States reported TANF transfer expenditures for this service.
- Thirteen States reported using more than 25% of their SSBG expenditures for this service—Colorado (94%), Arizona (61%), Kansas (59%), Louisiana (51%), Washington (38%), Virginia (37%), Nevada (37%), Wyoming (37%), Michigan (34%), New Mexico (30%), Georgia (29%), Massachusetts (26%), and Maryland (26%).
- Approximately 472,564 children received child foster care services funded by the SSBG program.²⁶

Health-Related Services

Fifteen States reported SSBG expenditures for health-related services:

- SSBG expenditures for health-related services were \$17 million; Florida accounted for 40% of this amount.
- TANF transfer expenditures accounted for 11% (\$2 million) of SSBG expenditures for health-related services; six States reported TANF transfer expenditures for this service.
- In Wisconsin, 8% of SSBG expenditures were for health-related services.
- Approximately 310,046 individuals (61% children, 39% adults) received health-related services funded by the SSBG program.

²⁶ Massachusetts and North Carolina reported a total of 3,006 adult recipients for child foster care services. These adults may have been prospective foster parents who received services such as assessment, training, monitoring, and recruitment.

Home-Based Services

Thirty-four States reported SSBG expenditures for home-based services:

- SSBG expenditures for home-based services were \$183 million; Illinois accounted for 29% of this amount.
- TANF transfer expenditures accounted for 11% (\$20 million) of SSBG expenditures for home-based services; nine States reported TANF transfer expenditures for this service.
- Three States reported using more than 25% of their SSBG expenditures for this service—Illinois (54%), New Hampshire (36%), and Texas (26%).
- Approximately 283,250 individuals (31% children, 69% adults) benefited from home-based services funded by the SSBG program.

Home-Delivered Meals

Eighteen States reported SSBG expenditures for home-delivered meals:

- SSBG expenditures for home-delivered meals were \$27 million; Texas accounted for 63% of this amount.
- TANF transfer expenditures accounted for 2% (\$417,132) of SSBG expenditures for home-delivered meals; four States reported TANF transfer expenditures for this service.
- In New Hampshire, 16% of SSBG expenditures were for home-delivered meals.
- Approximately 84,520 adults received home-delivered meals funded by the SSBG program.

Housing Services

Eleven States reported SSBG expenditures for housing services:

- SSBG expenditures for housing services were \$15 million; New Jersey accounted for 30% of this amount.
- TANF transfer expenditures accounted for 29% (\$4 million) of SSBG expenditures for housing services; four States reported TANF transfer expenditures for this service.
- In New Jersey, 7% of SSBG expenditures were for housing services.
- Approximately 395,009 individuals (52% children, 48% adults) received housing services funded by the SSBG program.

Independent/ Transitional Living Services

Seventeen States reported SSBG expenditures for independent/transitional living services:

- SSBG expenditures for independent/transitional living services were \$7 million; Connecticut accounted for 67% of this amount.
- TANF transfer expenditures accounted for 13% (\$946,726) of SSBG expenditures for independent/transitional living services; eight States reported TANF transfer expenditures for this service.
- In Connecticut, 10% of SSBG expenditures were for independent/transitional living services.
- Approximately 37,473 individuals (25% children, 75% adults) participated in independent/transitional living programs funded by the SSBG program.

Information and Referral Services

Sixteen States reported SSBG expenditures for information and referral services:

- SSBG expenditures for information and referral services were \$16 million; New Jersey accounted for 29% of this amount.
- TANF transfer expenditures accounted for 26% (\$4 million) of SSBG expenditures for information and referral services; five States reported TANF transfer expenditures for this service.
- In Minnesota, 9% of SSBG expenditures were for information and referral services.
- Approximately 1.5 million individuals (38% children, 62% adults) received information and referral services funded by the SSBG program.

Legal Services

Sixteen States reported SSBG expenditures for legal services:

- SSBG expenditures for legal services were \$15 million; Florida accounted for 30% of this amount.
- TANF transfer expenditures accounted for 4% (\$648,506) of SSBG expenditures for legal services; five States reported TANF transfer expenditures for this service.
- In Pennsylvania, 5% of SSBG expenditures were for legal services.
- Approximately 122,585 individuals (53% children, 47% adults) received legal services funded by the SSBG program.

Pregnancy and Parenting Services

Six States reported SSBG expenditures for pregnancy and parenting services:

- SSBG expenditures for pregnancy and parenting services were \$9 million; Illinois accounted for 78% of this amount.
- TANF transfer expenditures accounted for 19% (\$2 million) of SSBG expenditures for pregnancy and parenting services; two States reported TANF transfer expenditures for this service.
- In Illinois, 7% of SSBG expenditures were for pregnancy and parenting services.
- Approximately 139,270 individuals (21% children, 79% adults) accessed pregnancy and parenting services funded by the SSBG program.

Prevention and Intervention Services

Twenty-eight States reported SSBG expenditures for prevention and intervention services:

- SSBG expenditures for prevention and intervention services were \$179 million; New York accounted for 65% of this amount.
- TANF transfer expenditures accounted for 77% (\$137 million) of SSBG expenditures for prevention and intervention services; 14 States reported TANF transfer expenditures for this service.
- Three States reported using 25% or more of their SSBG expenditures for prevention and intervention services—Oregon (49%), Maine (45%), and New York (38%).
- Approximately 6 million individuals (32% children, 68% adults) benefited from prevention and intervention services funded by the SSBG program.

Protective Services—Adults

Thirty-four States reported SSBG expenditures for adult protective services:

- SSBG expenditures for adult protective services were \$180 million; New York accounted for 37% of this amount.
- TANF transfer expenditures accounted for 4% (\$7 million) of SSBG expenditures for adult protective services; ten States reported TANF transfer expenditures for this service.
- In the District of Columbia, 31% of their SSBG expenditures were for adult protective services.
- Approximately 527,112 adults received adult protective services funded by the SSBG program.²⁷

²⁷ Illinois and Minnesota reported a total of 3,271 children as recipients of adult protective services. These children may have been family members of adult service recipients, who received related services.

Protective Services—Children

Thirty-nine States reported SSBG expenditures for child protective services:

- SSBG expenditures for child protective services were \$290 million; New York accounted for 19% of this amount.
- TANF transfer expenditures accounted for 59% (\$171 million) of SSBG expenditures for child protective services; 22 States reported TANF transfer expenditures for this service.
- Nine States reported using more than 25% of their SSBG expenditures for child protective services—Hawaii (74%), Kentucky (62%), Oklahoma (57%), Mississippi (44%), West Virginia (42%), Oregon (40%), Nebraska (39%), Michigan (31%), and South Carolina (30%).
- Approximately 2 million children received child protective services funded by the SSBG program.²⁸

Recreational Services

Seven States reported SSBG expenditures for recreational services:

- SSBG expenditures for recreational services were \$813,762; Ohio accounted for 36% of this amount.
- TANF transfer expenditures accounted for 7% (\$60,555) of SSBG expenditures for recreational services; two States reported TANF transfer expenditures for this service.
- In Arkansas, 1% of SSBG expenditures were for recreational services.
- Approximately 33,612 individuals (16% children, 84% adults) participated in recreational programs funded by the SSBG program.

Residential Treatment Services

Twenty-one States reported SSBG expenditures for residential treatment services:

- SSBG expenditures for residential treatment services were \$97 million; Massachusetts accounted for 49% of this amount.
- TANF transfer expenditures accounted for 46% (\$45 million) of SSBG expenditures for residential treatment services; 11 States reported TANF transfer expenditures for this service.

²⁸ *Illinois, Minnesota, and Texas reported a total of 462,759 adults as recipients of child protective services. These adults may have been family members of child service recipients, who received related services.*

- Three States reported using more than 25% of their SSBG expenditures for residential treatment services—Massachusetts (58%), Wyoming (30%), and Kentucky (26%).
- Approximately 22,864 individuals (57% children, 43% adults) were cared for in residential treatment programs funded by the SSBG program.

Special Services for Individuals with Disabilities

Twenty-three States reported SSBG expenditures for special services for individuals with disabilities:

- SSBG expenditures for special services for individuals with disabilities were \$345 million; California accounted for 60% of this amount.
- TANF transfer expenditures accounted for 20% (\$67 million) of SSBG expenditures for special services for individuals with disabilities; seven States reported TANF transfer expenditures for this service.
- Five States reported using more than 25% of their SSBG expenditures for special services for individuals with disabilities—Montana (66%), Georgia (50%), Iowa (42%), California (39%), and Florida (31%).
- Approximately 912,403 individuals with disabilities (21% children, 79% adults) benefited from special services funded by the SSBG program.

Special Services—Youth at Risk

Sixteen States reported SSBG expenditures for special services for youth at risk:

- SSBG expenditures for special services for youth at risk were \$41 million; Florida accounted for 36% of this amount.
- TANF transfer expenditures accounted for 9% (\$3 million) of SSBG expenditures for special services for youth at risk; four States reported TANF transfer expenditures for this service.
- In Arkansas, 24% of SSBG expenditures were for special services for youth at risk.
- Approximately 162,526 at-risk youth and their families (96% children, 4% adults) received special services funded by the SSBG program.

Substance Abuse Services

Thirteen States reported SSBG expenditures for substance abuse services:

- SSBG expenditures for substance abuse services were \$6 million; Connecticut accounted for 25% of this amount.
- TANF transfer expenditures accounted for 17% (\$1 million) of SSBG expenditures for substance abuse services; three States reported TANF transfer expenditures for this service.
- Two States reported using 4% of SSBG expenditures for substance abuse services—Arkansas and Nevada.
- Approximately 73,810 individuals (4% children, 96% adults) participated in substance abuse treatment or prevention programs funded by the SSBG program.

Transportation Services

Twenty-two States reported SSBG expenditures for transportation services:

- SSBG expenditures for transportation services were \$17 million; Ohio accounted for 27% of this amount.
- TANF transfer expenditures accounted for 13% (\$2 million) of SSBG expenditures for transportation services; six States reported TANF transfer expenditures for this service.
- In Maine, 9% of SSBG expenditures were for transportation services.
- Approximately 191,021 individuals (22% children, 78% adults) benefited from transportation services funded by the SSBG program.

Other Services

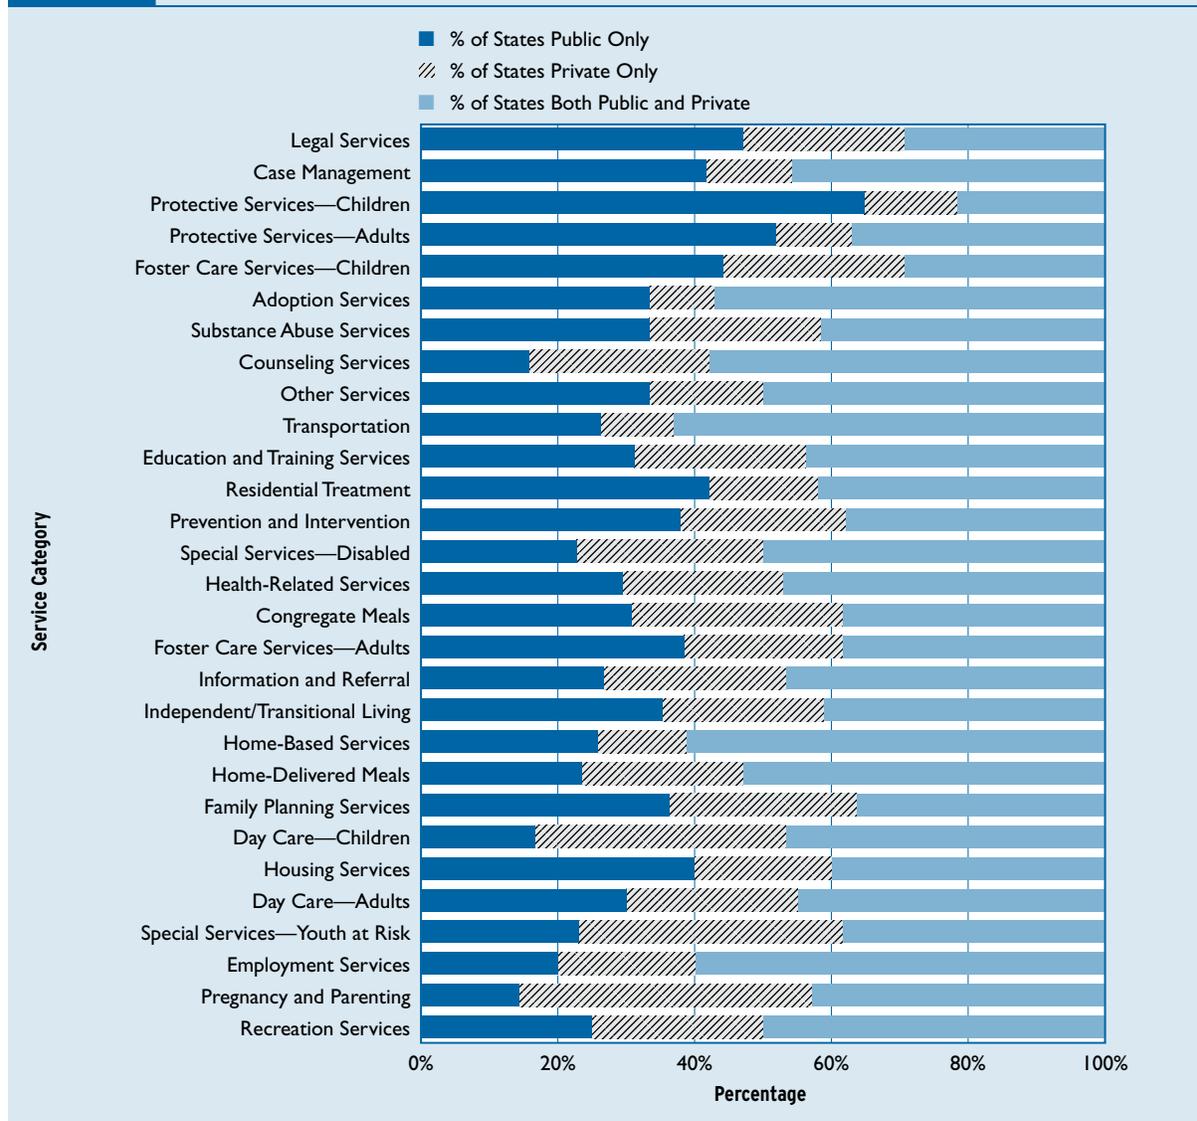

Twenty-eight States reported SSBG expenditures for other services, a category that includes services that fall outside the definitions of the other 28 services. States reported a range of services within this category, including volunteer services, migrant services, summer enrichment activities, and outreach activities:

- SSBG expenditures for other services were \$160 million; Ohio accounted for 22% of this amount.
- TANF transfer expenditures accounted for 34% (\$54 million) of SSBG expenditures for other services; 12 States reported TANF transfer expenditures for this service.
- Six States reported using 25% or more of their SSBG expenditures for other services—Alabama (71%), District of Columbia (57%), Indiana (36%), Wisconsin (25%), Washington (25%), and Ohio (25%).
- Approximately 742,692 individuals (40% children, 60% adults) received other services funded by the SSBG program.

Service Delivery Methods, 2010

Forty-six States reported whether services were provided by public agencies, private agencies, or both. Figure 4–6 illustrates, for each service category, the percentage of States that reported these various delivery methods. The analysis only includes States that reported the delivery methods used for SSBG-funded services.

FIGURE 4-6 Service Delivery Methods by Service Category, 2010

The services most frequently provided by public agencies only, by private contractors only, or by a combination of the two are presented below. For five services, the most commonly reported mode of service delivery was through public agencies only. These services included child protective services (24 of 39 reporting States), child foster care services (15 of 35 reporting States), adult protective services (14 of 34 reporting States), legal services (8 of 16 reporting States), and case management services (10 of 28 reporting States). For two services, the most frequently reported mode of service delivery was through private contractors only. These services included pregnancy and parenting (3 of 6 reporting States), and special services for youth at risk (5 of 16 reporting States). For the remaining 22 services, the most frequently reported mode of service delivery was through a combination of public and private sources.

Appendix F, tables F-3, F-6, F-7, F-8, and F-9, provide supporting data for this chapter.

CHAPTER 5. PROGRAM ASSESSMENT

The Social Services Block Grant (SSBG) program continues to work with the Office of Management and Budget (OMB) to improve performance management and assessment, including establishing long-term and annual performance measures. The goal of the development of performance measures is to ensure that SSBG funds are spent effectively and efficiently while maintaining the program’s intrinsic flexibility as a block grant. Toward this goal, the SSBG program conducts an analysis of States’ pre-expenditure and post-expenditure reports to determine the extent to which funds were spent in a manner consistent with their intended use as required by 42. U.S.C. §1397e(a). The SSBG program has also implemented an efficiency measure designed to decrease the percentage of SSBG funds identified as “administrative costs” in the post-expenditure reports by States to 9% or less. This chapter discusses the implementation and outcomes of these strategies.

Overview Of Pre- Expenditure Reports

In order to receive its annual SSBG allotment, each State is required to develop and submit an annual pre-expenditure report that describes how the State plans to administer its SSBG funds for the coming year. This report is to be submitted 30 days prior to the start of the fiscal year (June 1 if the State operates on a July–June fiscal year, or September 1 if the State operates on the Federal fiscal year). The intended uses of SSBG funds must be provided, including the types of activities to be supported and the categories and characteristics of individuals to be served. States are required to submit a revised intended use plan if the planned use of SSBG funds changes during the year.²⁹

Pre-expenditure reports vary in their scope and level of detail, because there is no required format. The pre-expenditure reports provide each State an opportunity to document its planning processes and outline its goals and objectives for SSBG service provision during the coming year. In this report, States are requested to estimate expenditures and recipients, by service category, for the upcoming year. In 2008, the Office of Community Services (OCS) issued

²⁹ 42 U.S.C. 1397c.

an information memorandum to States regarding use of the post-expenditure reporting form to estimate expenditures and recipients as part of the required pre-expenditure report.³⁰ In 2010, OCS provided additional guidance on pre-expenditure reporting in an information memorandum that included a sample pre-expenditure report and checklist of critical elements of the report.³¹ Analysis of the expenditure of funds, provision of services, and intended recipients will be enhanced as more States implement the use of the post-expenditure reporting form to estimate expenditures and recipients.

Comparison Of Pre-Expenditure And Post-Expenditure Reports

Thirty-five States used a form that has the same or similar format as the post-expenditure reporting form to report their planned SSBG expenditures and intended recipients.³² An additional 9 States submitted pre-expenditure reports in a format that enabled a comparison to their post-expenditure reports regarding planned and implemented services.³³ The SSBG program provided technical assistance in the form of site visits, webinars, and an Information Memorandum (IM) to help States improve their reporting. The remaining 8 States submitted pre-expenditure reports in formats that could not be compared with the post-expenditure reports.³⁴

Service category data on pre-expenditure and post-expenditure reports were compared in the 44 States where comparison was possible. The reports for each State were analyzed to determine how many services were included on the pre-expenditure report but not on the post-expenditure report. An analysis was also conducted to determine how many services were on the post-expenditure report but not on the pre-expenditure report. Of the 44 States where comparison was possible, 20 States (46%) showed no changes between the reports. Sixteen

³⁰ Office of Community Services. (December 31, 2008). Linking the Social Services Block Grant (SSBG) Pre- and Post-Expenditure Reports. Transmittal No. 01–2010. Retrieved November 2, 2010 from http://www.acf.hhs.gov/programs/ocs/ssbg/procedures/IM_01_2010.html.

³¹ Office of Community Services. (June 7, 2010). Pre- and Post-Expenditure Reporting for the SSBG Program. Transmittal No. 01–2010. Retrieved November 2, 2010 from <http://www.acf.hhs.gov/programs/ocs/ssbg/procedures/im10-01.html>.

³² These States were: Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, North Dakota, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Vermont, Washington, Wisconsin, and Wyoming.

³³ These States were: Alabama, California, Georgia, Iowa, Kansas, Montana, New York, South Dakota and West Virginia.

³⁴ These States were: Michigan, New Hampshire, North Carolina, Ohio, Puerto Rico, Rhode Island, Utah and Virginia.

States (36%) showed only one or two changes between the reports. Eight States (18%) showed three or more changes between their pre-expenditure and post-expenditure reports. These eight States ranged from having 3 to 6 changes across reports. Overall, 82% of the 44 States included in the comparison reported two or fewer changes in their planned and actual expenditures, while the remaining 18% reported more substantial changes. Appendix G provides a comparison between the pre-expenditure and post-expenditure reports for each State.

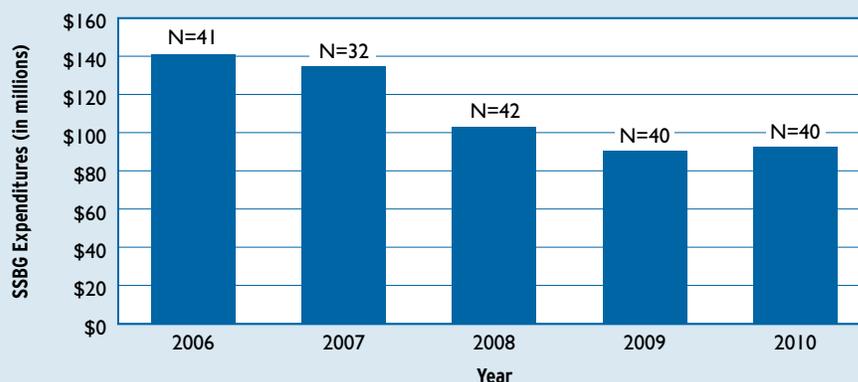

Administrative Costs Efficiency Measure

States may use SSBG funds for administrative costs such as training, licensing activities, and the overhead costs of providing services. States may pay for these administrative functions entirely with SSBG funds or may use a number of funding sources.

The efficiency measure implemented by OCS is designed to decrease the percentage of SSBG funds identified as administrative costs in the post-expenditure reports to 9% or less. By ensuring that administrative costs do not exceed 9%, maximum SSBG funds will be available for the provision of direct services. The target date to meet this goal was September 30, 2008.³⁵

From 2006 to 2010, there has been a continual decrease in expenditures for administrative costs. Expenditures for administrative costs have declined by 34% in the past 5 years, from \$141 million (42 States) in 2006 to \$92 million (40 States) in 2010. (See figure 5-1.)

FIGURE 5-1 Administrative Costs, SSBG Expenditures, 2006–2010

NOTE: Appendix F, tables F-9 and F-10, contain supporting data for this figure. N = Number of States.

³⁵ Office of Community Services. (June 15, 2007). *Implementing a new performance measure to enhance efficiency*. Transmittal No. 04-2007. Retrieved November 2, 2010 from http://www.acf.hhs.gov/programs/ocs/ssbg/procedures/ssbg_im_04_2007.html.

In 2010, the SSBG program exceeded the program goal of ensuring that expenditures for administrative costs do not exceed 9%. During 2010, States reported spending nearly \$92 million for administrative costs, which is approximately 3% of SSBG expenditures. Twelve States reported that they did not use any portion of SSBG funds for administrative expenses. In the remaining 40 States, expenditures for administrative costs accounted for 5% of SSBG expenditures. Appendix F, table F–10, provides data on administrative costs for each State.

Appendix F, table F–10, and Appendix G provide supporting data for this chapter.

APPENDIX C. INSTRUCTIONS FOR SSBG REPORTING FORM¹

The Paperwork Reduction Act of 1995 (Pub. L. 104-13). Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. Respondents may direct comments concerning this estimate to: Office of Community Services, Administration for Children and Families, U. S. Department of Health and Human Services, 370 L'Enfant Promenade, SW, Washington, DC 20447.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Overview. States must use this form as the reporting instrument to satisfy the requirements of 45 CFR 96.74(a)(1) through (4).

States are to report on their expenditures for and recipients of services within 29 service areas that are defined in the Uniform Definitions of Services (see attached). If the State's definition of a service differs from the Uniform Definitions, the State should clearly explain this in the pre-expenditure report.

State. Enter the name of the State submitting the form.

Fiscal Year. Enter the fiscal year for which the form is being submitted. States can report on either the State or Federal fiscal year. The report is due either 6 months after the end of the reporting period or at the time that the State submits the pre-expenditure report for the reporting period beginning after that 6-month period. For example, if the report covers the State fiscal year, which ends on June 30, 2004, the FY 2004 report must be submitted either on or before December 31, 2004 or with submission of the 2007 pre-expenditure report. If the report covers the Federal fiscal year, which ends on September 30, 2004, the FY 2004 report must be submitted either on or before March 31, 2005 or with submission of the 2007 pre-expenditure report.

¹ *Appendix B to 45 CFR Part 96—SSBG Reporting Form and Instructions, Federal Register, Volume 58, Number 218, Monday, November 15, 1993.*

Report Period. Enter the month and year of the beginning and end of the fiscal year—e.g., 07/04 to 06/05.

Contact Person. Enter the name of the contact person who can answer questions about the data.

Title. Enter the title for the contact person.

Agency. Enter the agency of the contact person.

Phone Number. Enter the telephone number of the contact person.

E-mail Address. Enter the e-mail address of the contact person.

Submission Date. Enter the date the report is being submitted.

Part A. Expenditures and Provision Method

States are required to submit expenditure data for each service that is supported in whole or in part by SSBG Expenditures. A State reports on the total of expended funds as of the close of the reporting year. This amount may include funds appropriated in previous years.

For each service that is supported with SSBG Expenditures in the State, States are to report on the Total Expenditures from all sources of funds for that service. A State reports the amount of SSBG Allocation, the amount of Funds Transferred into SSBG, and the combined amount of All Other Federal, State, and Local Funds spent for that service. By reporting on expenditures of all sources of funds for each service, States can provide an accurate picture of the role that SSBG Expenditures plays in supporting services.

Column: Service Supported with SSBG Expenditures. In cases where no fit is possible between the State-defined services and the Uniform Definitions of Services, use item 29, “other services.” Please sum all expenditures for these “other services” and enter the amounts in item 29. In the space below the table, indicate the types of services included in “other services.”

Any expenditures that cannot be attributed to service recipients should be entered in item 31, “Administrative Costs,” not as expenditures for “other services.” “Administrative Costs” should include all other non-service uses of SSBG Expenditures (e.g., training, administrative support, or overhead costs).

The sum of all expenditures for services should be entered in the row after item 29.

Column: SSBG Expenditures. Enter the SSBG Expenditures for each service.

Subcolumn: SSBG Allocation. Expenditures may include dollars from the current year and the previous year's allocation. The total of this column may differ from the total amount of the annual SSBG Allocation if the full amount of the allocation was not expended during the fiscal year during which it was allocated, or if a portion of the SSBG Allocation from the previous year were expended during the reporting year.

Subcolumn: Funds Transferred into SSBG. Enter any funds expended that were transferred from other block grants into SSBG. The total of this column may differ from the total amount of the transfer if the full transfer was not expended during the fiscal year during which it was transferred or if funds transferred during an earlier year were expended during this year.

In the space below the table, indicate the block grant(s) from which these funds were transferred.

Column: Expenditures of All Other Federal, State, and Local Funds. Enter all funds expended for each service from other Federal, State, and local sources. In the space below the table, indicate the sources of these funds. If SSBG Expenditures are not reported for a particular service, do not report Expenditures of All Other Federal, State, and Local Funds for the service.

Column: Total Expenditures. In this column enter the Total Expenditures for each service. This amount should equal the sum of the three columns across the table (i.e., SSBG Allocation; Funds Transferred into SSBG; and Expenditures of All Other Federal, State, and Local Funds). If SSBG Expenditures are not reported for a particular service, do not report Total Expenditures for the service.

Column: Provision Method. If the service was provided by a public agency, put an "X" in the column marked Public. If the service was provided by a private agency, put an "X" in the column marked Private. Both columns may be marked if the service was provided by both public and private agencies.

Part B. Recipients

States are required to submit recipient data (actual or estimated) for each service for which SSBG Expenditures are reported in Part A. The total number of recipients is all recipients of services supported by the Total Expenditures, which includes SSBG Expenditures (including Funds Transferred into SSBG) and All Other Federal, State, and Local Funds.

States should, if possible, provide unduplicated counts of service recipients. That is, if an individual received a service during the reporting period, then discontinued the service, and then received the service again, the individual should only be counted once.

Recipients are reported in four age categories—Children, Adults Age 59 Years and Younger, Adults Age 60 Years and Older, and Adults of Unknown Age. The numbers of Total Adults and Total recipients are reported as well.

The sum of recipients of all service categories should be entered in the row after item 29.

Column: Children. For each service, enter the actual or estimated number of children who have received the service.

Column: Adults. For each service, enter the actual or estimated number of adults who have received the service. The sum of the three subcolumns should equal the total number of adults who have received each service (indicated in the Total Adults column).

Subcolumn: Adults Age 59 Years and Younger. Enter the actual or estimated number of adults age 59 years and younger who have received each service.

Subcolumn: Adults Age 60 Years and Older. Enter the actual or estimated number of adults age 60 years and older who have received each service.

Subcolumn: Adults of Unknown Age. Enter the actual or estimated number of adults of unknown age who have received each service.

Column: Total Adults. For each service, enter the total number of adult recipients. The amount in this column should be the sum of the three adult subcolumns—Adults Age 59 Years and Younger, Adults Age 60 Years and Older, and Adults of Unknown Age.

Column: Total. For each service, enter the total number of recipients. This should be the sum of the adults and children reported in the Children and Total Adults columns.

**Electronic
Report
Submission**

States are encouraged to submit these data electronically in addition to the paper copy form. An electronic version of the form, in Microsoft Excel format, can be downloaded from the SSBG Web site at: <http://www.acf.hhs.gov/programs/ocs/ssbg>.

Reports may be submitted via e-mail to Marsha Werner at mwerner@acf.hhs.gov.

The mailing address is:

APPENDIX D. UNIFORM DEFINITIONS OF SERVICES²

1. Adoption Services

Adoption services are those services or activities provided to assist in bringing about the adoption of a child. Component services and activities may include, but are not limited to, counseling the biological parent(s), recruitment of adoptive homes, and pre- and post-placement training and/or counseling.

2. Case Management Services

Case management services are services or activities for the arrangement, coordination, and monitoring of services to meet the needs of individuals and families. Component services and activities may include individual service plan development; counseling; monitoring, developing, securing, and coordinating services; monitoring and evaluating client progress; and assuring that clients' rights are protected.

3. Congregate Meals

Congregate meals are those services or activities designed to prepare and serve one or more meals a day to individuals in central dining areas in order to prevent institutionalization, malnutrition, and feelings of isolation. Component services or activities may include the cost of personnel, equipment, and food; assessment of nutritional and dietary needs; nutritional education and counseling; socialization; and other services such as transportation and information and referral.

4. Counseling Services

Counseling services are those services or activities that apply therapeutic processes to personal, family, situational, or occupational problems in order to bring about a positive resolution of the problem or improved individual or family functioning or circumstances. Problem areas may include family and marital relationships, parent-child problems, or drug abuse.

² *Appendix A to 45 CFR Part 96—Uniform Definition of Services, Federal Register, Volume 58, Number 218, Monday, November 15, 1993.*

5. Day Care Services—Adults

Day care services for adults are those services or activities provided to adults who require care and supervision in a protective setting for a portion of a 24-hour day. Component services or activities may include opportunity for social interaction, companionship, and self-education; health support or assistance in obtaining health services; counseling; recreation and general leisure time activities; meals; personal care services; plan development; and transportation.

6. Day Care Services—Children

Day care services for children (including infants, preschoolers, and school age children) are services or activities provided in a setting that meets applicable standards of State and local law, in a center or in a home, for a portion of a 24-hour day. Component services or activities may include a comprehensive and coordinated set of appropriate developmental activities for children, recreation, meals and snacks, transportation, health support services, social service counseling for parents, plan development, and licensing and monitoring of child care homes and facilities.

7. Education and Training Services

Education and training services are those services provided to improve knowledge or daily living skills and to enhance cultural opportunities. Services may include instruction or training in, but are not limited to, such issues as consumer education, health education, community protection and safety education, literacy education, English as a second language, and General Educational Development (G.E.D.). Component services or activities may include screening, assessment, and testing; individual or group instruction; tutoring; provision of books, supplies, and instructional material; counseling; transportation; and referral to community resources.

8. Employment Services

Employment services are those services or activities provided to assist individuals in securing employment or acquiring or learning skills that promote opportunities for employment. Component services or activities may include employment screening, assessment, or testing; structured job skills and job seeking skills; specialized therapy (occupational, speech, physical); special training and tutoring, including literacy training and pre-vocational training; provision of books, supplies, and instructional material; counseling; transportation; and referral to community resources.

9. Family Planning Services

Family planning services are those educational, comprehensive medical, or social services or activities that enable individuals, including minors, to determine freely the number and spacing of their children and to select the means by which this may be achieved. These services and activities include a broad range of acceptable and effective methods and services to limit or enhance fertility, including contraceptive methods (including natural family planning and abstinence), and the management of infertility (including referral to adoption). Specific component services and activities may include preconceptional counseling, education, and general reproductive health care, including diagnosis and treatment of infections that threaten reproductive capability. Family planning services do not include pregnancy care (including obstetric or prenatal care).

10. Foster Care Services—Adults

Foster care services for adults are those services or activities that assess the need and arrange for the substitute care and alternate living situation of adults in a setting suitable to the individual's needs. Individuals may need such services because of social, physical, or mental disabilities, or as a consequence of abuse or neglect. Care may be provided in a community-based setting, or such services may arrange for institutionalization when necessary. Component services or activities include assessment of the individual's needs; case planning and case management to assure that the individual receives proper care in the placement; counseling to help with personal problems and adjusting to new situations; assistance in obtaining other necessary supportive services; determining, through periodic reviews, the continued appropriateness of and need for placement; and recruitment and licensing of foster care homes and facilities.

11. Foster Care Services—Children

Foster care services for children are those services or activities associated with the provision of an alternative family life experience for abused, neglected, or dependent children, between birth and the age of majority, on the basis of a court commitment or a voluntary placement agreement signed by the parents or guardians. Services may be provided to children in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, pre-adoptive homes, or a supervised independent living situation. Component services or activities may include assessment of the child's needs; case planning and case management to assure that the child receives proper care in the placement; medical care as an integral but subordinate part of the service; counseling of the child, the child's parents, and the foster parents; referral and assistance in obtaining other necessary supportive services; periodic reviews to determine the continued appropriateness and need for placement; and recruitment and licensing of foster homes and child care institutions.

12. Health-Related and Home Health Services

Health-related and home health services are those in-home or out-of-home services or activities designed to assist individuals and families to attain and maintain a favorable condition of health. Component services and activities may include providing an analysis or assessment of an individual's health problems and the development of a treatment plan; assisting individuals to identify and understand their health needs; assisting individuals to locate, provide, or secure and utilize appropriate medical treatment, preventive medical care, and health maintenance services, including in-home health services and emergency medical services; and providing followup services as needed.

13. Home-Based Services

Home-based services are those in-home services or activities provided to individuals or families to assist with household or personal care activities that improve or maintain adequate family well-being. These services may be provided for reasons of illness, incapacity, frailty, absence of a caretaker relative, or to prevent abuse and neglect of a child or adult. Major service components include homemaker services, chore services, home maintenance services, and household management services. Component services or activities may include protective supervision of adults and/or children to help prevent abuse, temporary nonmedical personal care, house-cleaning, essential shopping, simple household repairs, yard maintenance, teaching of homemaking skills, training in self-help and self-care skills, assistance with meal planning and preparation, sanitation, budgeting, and general household management.

14. Home-Delivered Meals

Home-delivered meals are those services or activities designed to prepare and deliver one or more meals a day to an individual's residence in order to prevent institutionalization, malnutrition, and feelings of isolation. Component services or activities may include the cost of personnel, equipment, and food; assessment of nutritional and dietary needs; nutritional education and counseling; socialization services; and information and referral.

15. Housing Services

Housing services are those services or activities designed to assist individuals or families in locating, obtaining, or retaining suitable housing. Component services or activities may include tenant counseling; helping individuals and families to identify and correct substandard housing conditions on behalf of individuals and families who are unable to protect their own interests; and assisting individuals and families to understand leases, secure utilities, and make moving arrangements and minor renovations.

16. Independent and Transitional Living Services

Independent and transitional living services are those services and activities designed to help older youth in foster care or homeless youth make the transition to independent living, or to help adults make the transition from an institution, or from homelessness, to independent living. Component services or activities may include educational and employment assistance, training in daily living skills, and housing assistance. Specific component services and activities may include supervised practice living and post-foster care services.

17. Information and Referral Services

Information and referral services are those services or activities designed to provide information about services provided by public and private service providers and a brief assessment of client needs (but not diagnosis and evaluation) to facilitate appropriate referral to these community resources.

18. Legal Services

Legal services are those services or activities provided by a lawyer or other person(s) under the supervision of a lawyer to assist individuals in seeking or obtaining legal help in civil matters such as housing, divorce, child support, guardianship, paternity, and legal separation. Component services or activities may include receiving and preparing cases for trial, provision of legal advice, representation at hearings, and counseling.

19. Pregnancy and Parenting Services for Young Parents

Pregnancy and parenting services are those services or activities for married or unmarried adolescent parents and their families designed to assist young parents in coping with the social, emotional, and economic problems related to pregnancy and in planning for the future. Component services or activities may include securing necessary health care and living arrangements; obtaining legal services; and providing counseling, child care education, and training in and development of parenting skills.

20. Prevention and Intervention Services

Prevention and intervention services are those services or activities designed to provide early identification and/or timely intervention to support families and prevent or ameliorate the consequences of abuse, neglect, or family violence, or to assist in making arrangement for alternate placements or living arrangements where necessary. Such services may also be provided to prevent the removal of a child or adult from the home. Component services and activities may include investigation; assessment and/or evaluation of the extent of the problem;

counseling, including mental health counseling or therapy as needed; developmental and parenting skills training; respite care; and other services including supervision, case management, and transportation.

21. Protective Services—Adults

Protective services for adults are those services or activities designed to prevent or remedy abuse, neglect, or exploitation of adults who are unable to protect their own interests. Examples of situations that may require protective services are injury due to maltreatment or family violence; lack of adequate food, clothing, or shelter; lack of essential medical treatment or rehabilitation services; and lack of necessary financial or other resources. Component services or activities may include investigation; immediate intervention; emergency medical services; emergency shelter; developing case plans; initiation of legal action (if needed); counseling for the individual and the family; assessment/evaluation of family circumstances; making alternative or improved living arrangements; preparing for foster placement, if needed; and case management and referral to service providers.

22. Protective Services—Children

Protective services for children are those services or activities designed to prevent or remedy abuse, neglect, or exploitation of children who may be harmed through physical or mental injury, sexual abuse or exploitation, and negligent treatment or maltreatment, including failure to be provided with adequate food, clothing, shelter, or medical care. Component services or activities may include immediate investigation and intervention; emergency medical services; emergency shelter; developing case plans; initiation of legal action (if needed); counseling for the child and the family; assessment/evaluation of family circumstances; arranging alternative living arrangements; preparing for foster placement, if needed; and case management and referral to service providers.

23. Recreational Services

Recreational services are those services or activities designed to provide or assist individuals to take advantage of individual or group activities directed towards promoting physical, cultural, and/or social development.

24. Residential Treatment Services

Residential treatment services provide short-term residential care and comprehensive treatment and services for children or adults whose problems are so severe or are such that they cannot be cared for at home or in foster care and need the specialized services provided by specialized facilities. Component services and activities may include diagnosis and psychological evaluation;

alcohol and drug detoxification services; individual, family, and group therapy and counseling; remedial education and GED preparation; vocational or pre-vocational training; training in activities of daily living; supervised recreational and social activities; case management; transportation; and referral to and utilization of other services.

25. Special Services for Persons With Developmental or Physical Disabilities, or Persons With Visual or Auditory Impairments

Special services for persons with developmental or physical disabilities, or persons with visual or auditory impairments, are services or activities to maximize the potential of persons with disabilities; help alleviate the effects of physical, mental, or emotional disabilities; and to enable these persons to live in the least restrictive environment possible. Component services or activities may include personal and family counseling; respite care; family support; recreation; transportation; aid to assist with independent functioning in the community; and training in mobility, communication skills, the use of special aids and appliances, and self-sufficiency skills. Residential and medical services may be included only as an integral but subordinate part of the services.

26. Special Services for Youth Involved in or at Risk of Involvement with Criminal Activity

Special services for youth involved in or at risk of involvement with criminal activity are those services or activities for youth who are, or who may become, involved with the juvenile justice system, and for their families. Component services or activities are designed to enhance family functioning and/or modify the youth's behavior with the goal of developing socially appropriate behavior and may include counseling, intervention therapy, and residential and medical services if included as an integral but subordinate part of the service.

27. Substance Abuse Services

Substance abuse services are those services or activities that are primarily designed to deter, reduce, or eliminate substance abuse or chemical dependence. Except for initial detoxification services, medical and residential services may be included but only as an integral but subordinate part of the service. Component substance abuse services or activities may include a comprehensive range of personal and family counseling methods, methadone treatment for opiate abusers, or detoxification treatment for alcohol abusers. Services may be provided in alternative living arrangements such as institutional settings and community-based halfway houses.

28. Transportation Services

Transportation services are those services or activities that provide or arrange for the travel, including travel costs, of individuals in order to access services, or obtain medical care or employment. Component services or activities may include special travel arrangements such as special modes of transportation and personnel to accompany or assist individuals or families to utilize transportation.

29. Other Services

Other Services are services that do not fall within the definitions of the preceding 28 services. The definition used by the State for each of these services should appear elsewhere in the annual report.

APPENDIX E. STATE AND TERRITORY DATA PAGES

The following State and Territory data pages contain the data submitted by each State on their post-expenditure reports for FFY 2010. The format of these pages differs from the format of the reports, but the information on them is essentially the same.

Each State was contacted to review its data and to confirm the methodology used to report on each of the data items. In some cases, data were corrected or revised as a result of these discussions. In addition, if a State reported on recipients or total expenditures for a service not funded by the SSBG in that State, these recipient and total expenditure data were deleted from analyses and from these State data pages.

Note that the sum of the SSBG allocation column may not equal the SSBG appropriation for FFY 2010 due to the carry over or carry forward of SSBG appropriation funds.

SUM OF EXPENDITURES FOR SERVICES & ADMIN. COSTS	\$ 108,352,141	\$ 200,755,328							

NOTES: Amounts included in administrative costs are training, EDP costs, administrative support, and indirect overhead costs. Other Services include Day Services, Clinical Services, Emergency Goods, Social GRP for Senior Citizens and Title IV-B Child Welfare Services. This report includes expenditures in six services categories—child day care, prevention/intervention, adult protective, child protective, 5% training carry forward, and other services—which pertain to FY 2008 and were paid during FY 2009. These amounts have been included in the total expenditures column. Recipient counts unavailable for information & referral services.

APPENDIX F. SUPPLEMENTARY DATA TABLES

The following pages contain additional supplementary data tables. Please note the following:

- “0%” indicates a value of less than 0.5 percent, but greater than 0.0 percent
- Total percentages may exceed 100 percent due to rounding
- When no value is listed, data were not reported

The tables are as follows:

- Table F–1 SSBG Allocations and Expenditures by State, 2010
- Table F–2 SSBG Appropriations and Per Capita Expenditures by State, 2010
- Table F–3 SSBG Expenditures by Service Category, 2010
- Table F–4 Proportion of SSBG and Other Support for Services, 2010
- Table F–5 Number of SSBG Service Recipients by Age and State, 2010
- Table F–6 Number of SSBG Service Recipients by Age and Service Category, 2010
- Table F–7 Percentage of State SSBG Expenditures by Service Category, 2010
- Table F–8 Percentage of SSBG Service Category Expenditures by State, 2010
- Table F–9 SSBG Expenditures for All Service Categories, 2006–2010
- Table F–10 SSBG Administrative Costs by State, 2010

TABLE F-1 SSBG Allocation and Expenditures by State, 2010

STATE	EXPENDITURES				TOTAL EXPENDITURES
	SSBG Allocation	TANF Transfer	SSBG Expenditures	Other Federal, State, and Local Funds	
Alabama	\$ 24,665,213	\$ 9,431,257	\$ 34,096,470	\$ 421,261,319	\$ 455,357,789
Alaska	\$ 3,819,426	\$ 4,993,956	\$ 8,813,382	\$ 96,621,384	\$ 105,434,766

APPENDIX G. COMPARISON OF PRE-EXPENDITURE AND POST-EXPENDITURE REPORTS

The following pages contain a comparison of 2010 pre-expenditure and post-expenditure service categories reported by the States. If a State used a pre-expenditure reporting form that differed from the standard SSBG post-expenditure reporting form, the States were asked follow-up questions to make a comparison possible.
