General Instructions:

Each State must provide the information indicated below on its TANF program regardless of the funding source -- i.e., no matter whether the State used segregated Federal TANF funds, segregated State TANF funds, or commingled funds to pay for the benefit or service.

If the State elects to report on other benefits or activities provided through other program funding streams, please mention it after the TANF-funded benefits or activities for each item.

1. The State's definition of each work activity.

Iowa's TANF work and training program is titled PROMISE JOBS. Refer to Section I, Countable Work Activities, of Iowa's Work Verification Plan submitted on November 1, 2010, to the Administration for Children and Families for approval, for definitions and descriptions of work activities in the PROMISE JOBS program that apply to the 12 categories.

2. A description of the transitional services provided to families no longer receiving assistance due to employment.

Iowa provides other services to families that stop receiving TANF cash assistance due to employment, as described in the TANF State Plan; however, the state does not consider these as transitional services per se, because the service is provided only under very limited circumstances or because the service is not limited to families with employment. For example, Family Development and Self-sufficiency (FaDSS) services described on page 14 of the State Plan, are available for a short period to some families after they cease to receive TANF cash assistance under the Family Investment Program. Also, child care assistance, transitional medical assistance and food assistance (Supplemental Nutrition Assistance Program) are available through mainstream programs for families who meet the qualifications of these programs.

3. A description of how a State will reduce the amount of assistance payable to a family when an individual refuses to engage in work without good cause pursuant to 45 CFR 261.14 of this chapter.

Refer to Iowa's TANF State Plan, pages 24 – 25, (iii) Ensure that parents and caretakers receiving assistance under the program engage in work activities in accordance with Section 407.

4. The average monthly number of payments for child care services made by the State through the use of disregards, by the following types of child care providers:

i. Licensed/regulated in-home child care: 0

ii. Licensed/regulated family child care: 0

iii. Licensed/regulated group home child care: 0

iv. Licensed/regulated center-based child care: 0

v. Legally operating (i.e., no license category available in State or locality) in-home child care provided by a non-relative: 0

The only program funded with TANF designed specifically to provide nonrecurring lump sum benefits is the Family Self-Sufficiency Grant (FSSG) program described on pages 15 – 16.
