

At-risk students

DO I BELONG?

Am I good enough?

Charles Thompson, M.Ed.
Director, HPOG/CATCH
Edmonds Community College
Edmonds, Washington

“Few at-risk students quit because they lack ability. Many believe they are not good enough or belong in school.”

DAVID YEAGER, UNIVERSITY OF TEXAS

Bill McCullough, Vanessa Brewer “Who Gets to Graduate?”, New York Times, May 15, 2014

DO I BELONG?

AM I SMART ENOUGH?

ENTITY THEORY OF INTELLIGENCE

The belief that intelligence is a fixed quality that can't be improved through practice or study

“We don’t prevent bad things. Instead, we try to change the meaning of them so that they don’t mean to the student that things are never going to get better.”

DAVID YEAGER, UNIVERSITY OF TEXAS

Bill McCullough, Vanessa Brewer “Who Gets to Graduate?”, New York Times, May 15, 2014

“We as interveners don’t (deserve credit). And that’s the best way to intervene. Ultimately a person has within themselves some kind of capital, some kind of asset, like knowledge or confidence. And if we can help bring that out, they then carry that asset with them to the next difficulty in life.”

DAVID YEAGER, UNIVERSITY OF TEXAS

Bill McCullough, Vanessa Brewer “Who Gets to Graduate?”, New York Times, May 15, 2014

THIS IS YOUR CHALLENGE

Recognize where our students are

Recognize what skills, talents, habits and experiences they bring

Recognize skills, talents, habits or experiences they need

Coach their ability to be confident and self-sufficient
