Footnote 3: The annual TANF expenditures are calculations in spending during the fiscal year from all of the open grant year reports. Current reporting may reflect adjustments for prior years. If negative adjustments exceed current year spending, a state may show negative expenditures for an expenditure category. If negative adjustments do not exceed current year spending, reported expenditures would understate actual expenditures. Conversely, if there are positive adjustments from prior periods, reported expenditures would exceed actual expenditures for the year.

Footnote 5: Contingency Funds are additional federal funds available to states, at their request, when unfavorable economic conditions exist. They are considered provisional payments, according to section 403(b)(3)(A) of the Social Security Act because the exact amount of Contingency Funds that the state may actually keep is not determined until after the fiscal year ends. Unlike TANF funds under Section 403(a), Contingency Funds are not available until expended, i.e., they must be expended by the end of the fiscal year.
