

Head Start Grantee Competition
Blair County, Pennsylvania
HHS-2013-ACF-OHS-CH-R03-0467

The following questions have been received as of June 6, 2012. The answers have been provided by the Office of Head Start.

Question: These questions are all regarding the RFP for Blair County, Pennsylvania:
If we are a current Head Start grantee who submits Single Audit reports through the audit clearinghouse, will ACF obtain copies of those reports, or do we have to send that information as part of our application package?
If we are required to provide the documents, are they required to be placed in the Appendices, or may they be sent as separate documents?
Is ACF providing access to the Internal Control-Integrated Framework (COSO Report) as referenced in the Phase Two information? This is the first time our agency has seen this document referenced.

Response: Applicants are responsible for providing the requested materials. Please refer to Section IV.2 Content and Form of Application Submission and Section - Page Limitations and Content of The Project Description and Appendices for All Application Formats, for the content and allotment for appendices.

The COSO Internal Control - Integrated Framework is referenced in the OMB Circular A-133 compliance supplement - Part 6. Applicants should visit http://www.whitehouse.gov/omb/circulars/a133_compliance_supplement_2011 to view Part 6 regarding the compliance supplement and the related framework.
