The Latest from OPRE...

In this issue: Three new resources for measures of quality of relationships between families & ECE providers/teachers, a look at the Tribal Health Profession Opportunity Grants Program and education/training and employment in Tribal communities, and more.

Featured Research and Reports

Family and Provider/Teacher Relationship Quality (FPTRQ) Project Releases Three New Briefs

Interested in learning more about the FPTRQ project? Three new briefs explore different aspects of the measures developed from the project. [The first is a brief introduction to the FPTRQ users guide](#) as well as the administration and analysis of the measures. [The second describes the process used in measuring cultural sensitivity in the FPTRQ](#), and [the third helps program directors, practitioners, and policymakers learn more about the measures](#) and how to use them to complement the *Strengthening Families™* and *Head Start Parent, Family and Community Engagement* frameworks and self-assessments.

Higher Education & Workforce Development in Tribal Communities & the Role of Tribal HPOG

What do we know about post-secondary education in tribal communities, and how does the Tribal Health Profession Opportunity Grants (HPOG) Program bridge gaps between education/training and employment? [Explore this brief](#) to learn more about post-secondary education for American Indian and Alaska Native students and how the HPOG program promotes education, training, and employment opportunities in tribal communities.

The Intersection Between Prevention Science & Evidence-Based Policy

In a [commentary in the latest issue of Prevention Science](#), our Lauren Supplee and Aleta Meyer discuss how the revised Society for Prevention Research standards of evidence provide a framework for high-quality evaluations to support evidence-based policy and for implementation of prevention programs at scale.
