This cover sheet and the subsequent annotated questionnaire are marked where deviations are recommended from the version of the questionnaire administered in the Design Phase feasibility test. Skip pattern changes required to stay consistent with the feasibility test instrument are not marked.

General Comments

1) This document represents the demand survey as it was administered at the end of the feasibility test. The introduction of C2a_1 and C2a_2 substantially reduced the overall administration time to approximately 50 minutes per interview. A further reduction of approximately 25% would be desirable from a fielding perspective. The edits proposed in this document are constructed to generate such a timing reduction.

2) Topics/items that we have previously considered adding to this instrument, but that do not currently appear, include:
   a. Sibling-care (in more detail than exists currently)
   b. Attitudes about self-care. (self-care itself is collected after parental employment schedules).
   c. Summer/holiday care history
   d. Lifetime longitudinal information, especially regarding stability of arrangements (e.g., age at first care, number of arrangements ever, etc.)
   e. Total weekly child care costs (as a check against the by-arrangement/by-child details)
   f. Consumption measures (as a better measure of household’s financial circumstances, for example, from the Consumer Expenditure Survey). This is especially important for very low income families whose income measures are not reliable.
   g. Recent parental employment and care use histories to track job changes with child care changes and potentially to measure impact of recession
   h. We do not have questions about late penalties at child care, requesting flexibility from provider, etc.
   i. Parental leave questions.
   j. Consider adding the maternal report items from the HOME scale if they are added to the home-based provider questionnaire as an additional measure of quality.
   k. How parents look to providers to coordinate their children’s care.
Additional Analyses

To further investigate the functioning of the instruments, we performed some additional analyses on the feasibility test data. Two such analyses are presented here, one on cost burden and one on the use of the schedule variables.

Cost Burden Analysis

One of the analyses that people will want to do is to calculate cost burden on families. This requires combining several different items in the demand questionnaire. We completed the exercise to make sure it could be done. This memo first presents the results of our trial analysis. It then discusses the assumptions that were required to complete the analysis. We conclude with an appraisal of how well the proposed NSCCSD data will allow researchers to calculate cost burden, and discuss possible revisions to the questionnaires informed by this exercise.

One major difference between the NSCCSD feasibility test data and other household data on child care expenses is that these data collect costs by arrangement and by child for every age-eligible child and non-parental arrangement being used. Most other household surveys collect a total weekly expenditures, or limit the number of children or arrangements. Because of rounding, reporting error, arithmetic errors, and other response errors, we might expect that these detailed cost numbers might be more problematic for constructing overall cost measures than the typical summary measures. They will be subject to different biases. The aggregate numbers are subject to substantial response bias.

1. Results of cost burden analysis
One hundred respondents completed the demand survey. Among them, 53 provided non-missing data to both child care cost questions and the last month income question (we excluded one case who reported paying $128,000 each month for child care. We believed that it is an entry error and treated it as item nonresponse to child care cost questions). Two partial completed cases also provided non-missing value to child care cost questions and income questions before breaking off the survey.

Using all 55 cases (53 completes and 2 partial completes), we derived monthly child care payment and last month household income. For each case, we calculated a cost burden ratio by dividing the monthly child care payment by last month’s income. We then calculated the mean of this ratio.

Based on all 55 cases, the mean cost burden ratio is 0.16. In other words, on average about 16% of monthly income is used for child care payment. The median cost burden ratio is 0. This is because 36 out of 55 respondents had 0 payment (in other words, the care was provided to them for free).

The demand survey also includes two questions about the cash value of non-cash help and gift to providers. Adding these costs brings the mean cost-burden ratio to 0.17. Again, the median of the cost-burden ratio is 0.

We noticed that 36 cases didn’t provide any data to the child care cost questions. Further investigation found out that all 36 cases had 0 child care arrangements besides formal schooling and/or parental care. 29 of them also provided non-missing data to last month income question. Including these 29 cases as having zero child care payment, the mean cost-burden ratio becomes 0.10 if only payment is considered and 0.11 if non-cash help and gift is included.
2. Data sources and assumptions
Section E in the demand survey concerns the cost of child care for each child and each provider. Specifically, E4, E5, and E7 ask about payment. E10b asks about things/help respondents gave to providers in exchange for child care and E11A asks about gifts to providers.

Income questions are asked in section G. G4 is last month household income. G5a is respondent’s annual income; G5b concerns public assistance/welfare the respondent received. G5c is the child care support the respondent received in the last year. G6a asks about the annual income the respondent’s spouse/partner made and G7a is income from any uncounted source.

The payment questions (E4, E7) first asked about the dollar amount and then the periodicity of the payment. We constructed a monthly payment by using the following formula:

- if the respondent pays by hour, then monthly payment = e7 * 8 * 5 * 4 assuming 8 hours a day, 5 days a week, and 4 weeks a month.
- if the respondent pays by day, then monthly payment = e7 * 5 * 4 assuming 5 days a week, 4 weeks a month.
- if the respondent pays by week, then monthly payment = e7 * 4 assuming 4 weeks a month.
- if the respondent pays every other week, then monthly payment = e7.

The payment can also be converted into an annual amount in a similar vein even though we believe an annual amount is less useful than the monthly figures. The standard in the market rate survey is weekly since most formal providers charge on a weekly basis.

For the non-cash help/gift questions (E10B and E11a), respondents were again first asked to give a dollar amount and followed by another question asking whether the amount is by week or by month. Then the amount can be converted into either a monthly number or an annual number in a similar vein. However, the assumptions made to do the conversion are more questionable than the ones for the payment questions since people don’t always do these things periodically.

Item G4 asks respondents to report the dollar amount of their households’ total income last month. If respondents refused to provide the dollar amount or didn’t know the dollar amount, they were followed up with another question asking them to choose one of the six income ranges that best describes the household’s total income last month. We used the mid-point of the income range (e.g., $2,500 for the “$2,000 to $2,999” range) to calculate the cost-burden ratio.

To construct the annual household income, one can either multiple G4 by 12 or sum up questions G5a, G5b, G5c, G6, and G7a. Both methods have weaknesses. The major weakness of using last month income to derive the annual income is that the last month income might not be representative of the average monthly income and this is especially true for low-income households whose monthly income varies by month. The major weakness of the second method is that we didn’t ask about other adults living in the household who contribute to the total household income.

3. Evaluation of the feasibility test data and proposed revision to the survey
Overall, the feasibility test data are able to allow researchers to conduct cost burden analysis under certain assumptions. The data satisfy the researchers’ basic needs analyze cost burden on...
households. However, we noticed in our trial analysis that some assumptions are less plausible than others. We also see some problems with the data. Below we list the ones we think are problematic and propose possible remedies or revisions to the demand questionnaire items.

a. We assumed that the non-cash help and gift happened periodically when calculating the cost of these non-cash help and gift. This may not be a plausible assumption. A question asking about the frequency of the occurrence of these non-cash help/gift will be helpful in order to determine the cost associated with these non-cash help and gift activities.

b. Income questions suffer comparatively large item nonresponse. In the feasibility test data, about 17% of respondents didn’t provide anything to the last month household income questions even after the follow-up questions. This is not surprising given the sensitive nature of the income questions. However, we believe that the income nonresponse rate will be lower for the main study if the main study is to be conducted in person. Another alternative is to ask about household expenditures instead of household income; questions about expenditures are less intrusive than questions about income.

c. The monthly income varies by month for low-income households. The analysts need to be careful when using it to construct the annual figures. The main study should keep both the last month income question and the annual income questions. However, the main study may want to include a question asking about other adults in the household who also contribute to the household income.

Schedule Analysis
Family policy researchers are interested in the analysis of parental childcare decisions. One valuable input that the NSCCSD provides to this research agenda is the potential to build comprehensive schedules of activities for the children, their parents and other members within the same household. This report describes some basic characteristics of the data that the NSCCSD collects that is relevant to build such time schedules. The data for the analysis comes from the NSCCSD pilot project which surveyed 140 households using the survey instrument.

1. Methodology:
140 respondents completed the demand survey. Out of this data, we analyzed information regarding the respondent (member1), the first child of the respondent (child1), and the other parent of this child if it was also present in the household (member2). The original setup for the data allowed the parents to have up to three work, school attendance and training events per day; while their children could have up to three childcare events per day. In total we have 9 potential events for each parent and 3 events for the children (12 events in total).

For each of the twelve events, we built a set of indicator variables that identifies the 24 hours of the day each day of the week, per each event we were analyzing. The indicators turn from zero to one if the event occurs within the time interval the indicator variable identifies. For instance, our variable ch1_Monday1_13_00_14_00 turns from zero to one if on Monday between 13_00 and 14_00 hours, child1 (ch1) was in some type of child care. Likewise, variable w1_Sunday1_15_00_16_00 turns from zero to one if on Sunday between 15_00 and 16_00 hours, member1 (the respondent) was working.

With the use of these indicator variables we were able to generate frequency plots of the time schedules of non parental childcare for child1. We also generated frequency plots of the time schedules for member1 and member2 per each event they performed. By overlaying the frequency plots of the childcare schedules with the parent’s schedules we have an overall assessment of the
The data allows building a comprehensive schedule for parental and childcare activities. Additionally, we selected 4 families to analyze this same pattern at the household level.

2. Results

Overall pattern for the parental and children schedules:
- The data allows building a comprehensive schedule for parental and childcare activities.
- From Monday to Friday we observe high frequency of events occurring during regular business hours and a very sharp drop in frequency of use during night time; there is a considerable difference in frequency of activities reported from Monday-Friday with respect to Saturday-Sunday.
- The frequency of reported work and childcare events activities was higher on Mondays than on other days of usual work during the week (Tuesday to Friday). People reported to work and keep their children in school about 15% more on Mondays with respect to other non weekend days. This pattern is more evident for the work schedule of the parent who is not the survey respondent.
- Both childcare and work schedules showed their lowest frequency of occurrence during Wednesday.
- More children in care are getting reported than parents working, in school or in training.
- The frequency of occurrence of both schooling and training events of parents is very low.

Child care events:
Among the 140 respondents of the survey, 99 of them reported to have had their children in at least one type of non parental childcare for at least one hour during the week of reference. Subsequently:
- 25 out of this 99 respondents who used some kind of non parental care, answered to have had 2 or more non parental childcare events within the same day for at least one hour during the week of reference
- 3 out of this 25 respondents who used at least 2 types of non parental care, answered to have had 3 or more non parental childcare events within the same day for at least one hour during the week of reference

9:00 am to 3:00 pm are the hours where childcare events are more frequent. 3:00 pm to 5:00 pm is the time when shifts in providers of non-parental care are concentrated.
Work events for the respondent (member1) and the other parent (member2):

**Member1**
Among the 140 respondents of the survey, 62 of them reported to have worked in at least one job for at least one hour during the week of reference. Subsequently:
- 8 out of this 62 respondents who worked in at least one job for at least one hour during the week of reference answered to have had 2 or more job shifts within the same day for at least one day
- Only 1 of the respondents had 3 or more shifts in jobs during the week of reference.

9:00 am to 3:00 pm are the hours where work events are more frequent with a peak at noon. The time of work for the second shifts is concentrated in evening hours.

**Member2**
Among the 140 respondents of the survey, 83 of them reported to live/cohabit with the other parent of child1. Out of these 83 other parents, 61 of them reported to work at least one shift to work at least two shifts and 1 to have worked at least 3 shifts for at least one hour during the week of reference.
The hours pattern in the work schedule for member1 and member2’s are quite similar. Monday has a much higher frequency.

School and training events for the respondent (member1) and the other parent (member2):

8 of the 140 respondents and 5 of the other 83 parents of child 1 in the household are reported as involved in schooling activities. Schooling appears as a full time activity for member1 (more hours) and as a part time/ night activity for member2.
3 of the 140 respondents and also 3 of the other 83 parents of child 1 in the household are reported as involved in some kind of training activity. Training appears as a full time activity held during non-weekend days.

Schedules of Cases:
The following 4 arbitrary cases, illustrate our use of the data to construct joint schedules of parents and children. For each of the 4 household IDs, we detail the activities of the child, Member1 and Member2 of the household.

**Household ID: 10010348**
Child: The child is in non-parental childcare only last Thursday from 8 am to 5 pm.
Member1: worked from 4:00 pm to 11:00 pm Monday to Sunday
Member2: no work, school or training

**Household ID: 10001592**
Child: No event of non-parental childcare
Member1: no work, school or training
Member2: no work, school or training

**Household ID: 10005081**
Child: in childcare from 8 am to 3 pm Monday, Wednesday and Friday; in childcare from 8 am to 6 pm Tuesday and Thursday
Member1: Work from 9:00 am to 5:00 pm Monday and Thursday; and from 9:00 am to 2:00 pm on Tuesday, Wednesday and Friday
Member2: Work from 9:00 am to 2:00 pm Monday, Tuesday and Thursday; and from 9:00 am to 8:00 pm on Wednesday and Friday

Household ID: 10002710
Child: in childcare from 8 am to 6 pm Monday to Friday; in childcare from 10 am to 4 pm Saturday
Member1: Work from 8:00 am to 5:00 pm Monday to Friday. School 6:00 pm to 8:00 pm Monday and Thursday
Member2: Work from 9:00 am to 6:00 pm Monday to Friday
A, INTRO.

We are conducting a study about the experiences and preferences of parents of children under age 13 with regard to the child care or after-school programs that are available for these children. The study is being paid for by the U.S. Department of Health and Human Services, and is designed to help the government understand how private decisions and public policies affect the supply and demand of child and school-age care in our country. We would like to talk with you for approximately 30 minutes about your children under 13 and the child care that you use or would like to use for them.
[if r has 3 or more children under age 13 AND HAS INCENTIVE, ASSGT=1] We know that your time is very valuable. We would like to offer you a $20 thank you if you complete the interview. We would send out the money to you by regular [mail].

[all r’s] Taking part is up to you. You don’t have to answer any question you don’t want to, and you can end the interview at any time. The interview takes a short time and any information you give me will be confidential. There are no risks or benefits to being in this survey. If you have any questions about this survey, I will provide a telephone number for you to call to get more information.

B1a. These next questions are about your family and the other people who live in your household and are 13 years old or older. We will start with you. Can you please state your first name or initials?

Now please tell me the first names or initials of the teenagers and adults who usually live here. IDENTIFY ALL HOUSEHOLD MEMBERS FIRST, THEN ASK QUESTIONS ABOUT EACH PERSON.

Now I have some questions about each person in the HH. Let me start with you.

B1b. How old are you/is (are you/ is [[]])? IF NEEDED: Your best guess is fine.

B1c. (Are you/is [[]]) male or female?

B1d. [IF HHMEM NOT R] What is your relationship to [[]]?
   1 SPOUSE (I.E., LEGALLY MARRIED)
   7 PARTNER (I.E., NOT LEGALLY MARRIED)
   2 PARENT OR PARENT-IN-LAW
   3 CHILD
   4 SIBLING OR SIBLING-IN-LAW
   5 OTHER RELATIVE
   6 NON-RELATIVE (SPECIFY: ___________)

B1e. [if b >= 14 and HHMEM NOT R] Does [[]] have any children under the age of 13 in this household?
   1 YES
   2 NO

B1e_1. [if e=1] Who are [[]’s children in this household?

B1f. [if b>= 14 AND HHMEM NOT R OR R’s spouse/partner AND hhmem has no children in hh]
   Does [[]] ever look after the young children in the household? IF NEEDED: How about for more than 2 hours at a time?

B1F_1. [if f=no] Does [[]] regularly look after any children under age 13 who are not in this household?

B1g. [if b >12] (Do you/Does [[]] have a special need or disability that requires help from others to complete basic daily activities such as eating, dressing, or bathing?
   [if b <=12] (Do you/Does [[]] have a physical, emotional, developmental, or behavioral condition that affects the way you provide care for him/her?)
If HHMEM is not related to R or isn’t the R’s spouse or partner, does not have children under 13 in the HH and does not care for the children under 13 in the household, skip to next person in household. Else, ask the following:

B1h. [if h >= 16] Last week, (were you/was [] working full time, part time, going to school, keeping house, or something else?
  1. Working Full Time
  2. Working Part Time
  3. With a job, but not at work because of temporary illness, vacation, strike
  4. Unemployed, laid off, looking for work
  5. Retired
  6. In School
  7. Keeping House
  8. Other (Specify: __________________________)

B1i. (Do you/Does []) currently attend regular school?
  1. Yes
  2. No
  3. if volunteered: Home-Schooled

B1j. [if B1i = 2 or DK/REF] What is the highest grade or level of schooling that (you have/has) ever completed?
  (READ IF NECESSARY)
  1. 8th Grade or less
  2. 9th-12th Grade no diploma
  3. High school graduate or ged completed
  4. Some college credit but no degree
  5. Associate degree (AA, AS)
  6. Bachelor’s degree (BA, BS, AB)
  7. Graduate or professional degree

[if HHMEM is R and R reported B1d=1, then skip to B1m. If HHMEM is R’s spouse (B1d=1), then skip to B1m. Else if HHMEM is not R or R’s spouse and if B1b=16, then ask B1k.]

B1k. (Are you/Is []) now married, widowed, divorced, separated, or (has/have) (he/she/you) never been married?
  1. Now married
  2. Widowed
  3. Divorced
  4. Separated
  5. Never married

B1l. [if b>=16 and h2d ne 1 hhmem not self and B1k ne 1] Does [] have a partner in the household?
  1. Yes → Who is that? __________
  2. No

B1m. (Are you/Is []) of Hispanic or Latino origin?
  1. Yes
  2. No
B1n. Which of the following (are you/is [[])...SELECT ONE OR MORE
1 White
2 Black or African American
3 Asian
4 Native Hawaiian or Other Pacific Islander
5 American Indian or Alaska Native

B1o_1 (IF B1o answered and NOT "USA"): }
In what year did s/he first come to USA?

ASK B1b-B1o_1 ABOUT ALL REMAINING INDIVIDUALS IN HH.

Now I have some additional questions about your household and other family. These questions are about the whole household and not just individual people.

B2. What language do you usually speak at home?

B3. Do your children have any relatives who live within 45 minutes of your child’s home? Please include relatives on your side of the family as well as relatives of the child’s other parent. IF NEEDED: Please report all relatives, even if they could not or would not provide care for a child.

1 Yes (go to B3a)
2 No (skip to B4)

B3a. How many adult relatives do you have who live within 15 minutes of your child’s home? Count each adult relative separately – even if they live in the same household.

_____ Number of relatives

B3b. Would any of these relatives be able to care for your child/children on a regular basis with no payment or only payment that covers transportation costs?

1 Yes
2 No

B3c. Would any of these relatives be able to care for your child if you were to pay them?

1 Yes
2 No

B4. Do your children have any relatives that live between 15 and 45 minutes of your child's home?

1 Yes (ask B4a)
2 No (Skip to C1)
B4a. How many adult relatives do you have who live between 15 and 45 minutes of your child’s home? Count each adult relative separately – even if they live in the same household.

1 Yes
2 No

Child Care: Types and Hours

C1. [READ FOR FIRST CHILD ONLY:] Next I have some questions about various people who cared for your child/children during the last week (that is, FILL IN DATES FOR LAST MONDAY AND LAST SUNDAY). In addition to a child’s parents, a child may be cared for by other adults in the household, by relatives or friends outside of the household, or by a child-care professional in a center or someone’s home.

[Let’s start with the youngest child (CHILD).] Now let’s talk about (CHILD2/etc.). Please tell me all of the people or organizations that cared for him/her last week, other than you (or your spouse/partner). LIST ALL PROVIDERS CARING FOR CHILD LAST WEEK. LIST ALREADY INCLUDES ‘CHILD HIM/HERSELF,’ AND ‘ALL ADULTS AT HOME.’ IF (CHILD) AGE 5 YEARS OR MORE, ALSO READ: If your child attended regular school for any grade from kindergarten through eighth grade, please tell me the name of that school. If (CHILD) also attended a before or after-school program, either at the school or somewhere else, please mention that program separately.

C1A. Also, please tell me whether this care usually takes place in your home or somewhere else.

C2. Now I’d like to understand your child care schedule last week. Thinking about last Monday (that is, FILL IN DATE FOR LAST MONDAY), other than you (and your [spouse/partner]) who/who else cared for (CHILD)? IF NEEDED: Please tell me about last week, even if it was an unusual week. I’ll ask you other questions about your usual schedule later on.

C2A. [ASK THIS QUESTION ABOUT LAST MONDAY SCHEDULE] What time last Monday did (PROVIDER) start to care for (CHILD)?
(FOR TUESDAY TO SUNDAY: ) Now I’d like to ask about (CHILD)’s schedule for last Tuesday/Wednesday/Thursday/Friday/Saturday/Sunday. Was that day’s schedule the same as the schedule for another day you’ve already told me about?
  1. Yes (ASK C2a_1)
  2. No (ask for full day’s schedule)

C2a_1. What day last week was the same as (CHILD)’s (DAY OF WEEK) schedule last week?
  1. Monday (ASK C2a_2)
  2. Tuesday (ASK C2a_2)
  3. Wednesday (ASK C2a_2)
  4. Thursday (ASK C2a_2)
  5. Friday (ASK C2a_2)
  6. Saturday (ASK C2a_2)
  7. NO IDENTICAL DAY ALREADY REPORTED (ASK For Full Day’s Schedule)

C2a_2. [If day selected] Sometimes a (CHILD)’s schedule on a specific day is different from his/her regular schedule for that day of the week. Was (CHILD)’s schedule last (DAY OF WEEK) identical to (DAY OF WEEK SELECTED IN C2A_1) that week, or were there some differences in when or where s/he spent time those two days?
  1. identical (skip to next day of week in C2A)
  2. some differences (ask for full day’s schedule)

C2B. [IF C1_1 =2] How did (CHILD) get to [provider]?
  1. Walking or bicycle
  2. Car
  3. Public transportation
  4. School bus
  5. Other

C2C. Who took (CHILD) there?
  <select from providers or hhmembers>

C2D. When did the care with (PROVIDER) end on last Monday?

RE-ASK C2 UNTIL ALL PROVIDERS ASKED ABOUT FOR LAST WEEK FOR THIS CHILD.

Comment [A8]: Cut C2b and C2c from the schedule and insert general questions in the C1a series instead. “How did (CHILD) usually get to (provider) last week?” “Who usually took (CHILD) there?” Reduces burden by not asking these items repeatedly for each spell. Also reduces respondent annoyance with apparent unnecessary repetition.

Comment [A9]: See note for C2b.
C3. Does anyone else regularly care for (CHILD), even if they didn’t happen to care for him/her last week? By regularly I mean at least two hours each week.

1. YES
2. NO
7. DON’T KNOW
8. REFUSED

C4 (IF C3=1:) Who usually provides care for (CHILD) but didn’t do so last week? C4a. Does that care usually take place at your home or somewhere else? C4b. How many hours per week does PROVIDER usually care for CHILD?

Provider __________________________________________ Location: ________________ Hours: ________
Provider __________________________________________ Location: ________________ Hours: ________

RETURN TO C1 AND COLLECT FULL CHILD-CARE SCHEDULE LAST WEEK FOR NEXT CHILD, THEN FOR EACH CHILD UNTIL ALL CHILDREN UNDER 13 ASKED ABOUT.

C5. Now I have a few more questions about each person/organization that cares for your child/children.

LOOP THROUGH EACH PROVIDER (LAST WEEK AND REGULAR) FOR EACH CHILD. IF PROVIDER LIVES IN THIS HOUSEHOLD, SKIP TO C9. ELSE ASK C5A. ASK ONLY ONCE ABOUT EACH PROVIDER, REGARDLESS OF HOW MANY CHILDREN ARE CARED FOR BY THAT PROVIDER.

C5A. [IF NOT OBVIOUS] Is (PROVIDER) an individual or an organization?
1 INDIVIDUAL -> GO TO C5B
2 INDIVIDUAL WITH FAMILY DAY CARE -> GO TO C6
3 ORGANIZATION ->GO TO C6

C5B. Is [provider] male or female?
1 MALE
2 FEMALE

C5C. Did you have a personal relationship with (PROVIDER) before s/he began caring for your child/children?
1 Yes
2 No

C5CA. What is your relationship to (PROVIDER)?
1. FORMER SPOUSE/PARTNER -> GO TO C5D
2. CHILD/SON/DAUGHTER-IN-LAW -> GO TO C5D
3. BROTHER OR SISTER OR BROTHER OR SISTER-IN-LAW ->GO TO C5D
4. OTHER RELATIVE->GO TO C5D
5. FRIEND->GO TO C5D
6. NEIGHBOR -> GO TO C5E

Comment [A10]: Five hours each week.

Comment [A11]: The functionality to report that child’s day was like child’s day was not implemented in the feasibility test and would likely considerably reduce administration time of the schedule and respondent annoyance with repetition. Also, this approach reduces apparent differences in children’s schedules due to response error from variability in parent’s reports.

Comment [A12]: Clarify categories, such as, R is provider’s former spouse/partner, R is provider’s child or child-in-law, etc. Consider asking a confirmatory question for selection of categories 2 and 4 to make sure that a grandparent provider is not being mis-coded.
C5D (IF NOT OBVIOUS). Does this individual live in this household?
  1. YES
  2. NO

C5E. Does (PROVIDER) usually care for children from other families while caring for your
child/children? Don't count his/her own children if they are around as well.
  1 Yes (skip to C6)
  2 No
  If C5E=2 and C5D=2, skip to C6
  If C5E=2 and C5D=1, skip to C9

C6. What is the full name of (provider)? ______________

IF ORGANIZATION, ASK C7. ELSE GO TO C8.

C7. [I have a list of most child care providers in the area, and I'll see if this program is on my list. In
that case, I won't have to ask you quite as many questions about their care.] In what city is
(PROVIDER) located? On what street? <LOOK UP IN PROVIDER LIST>
IF PROVIDER FOUND IN LIST, SKIP TO C8_1.

C8. [IF ORGANIZATION: I'm not finding the listing.] Could you tell me the street address where
(s/he lives/they are)? IF NEEDED: Your answers to this and all other questions will be confidential
and released only in statistical form.
  Street Address ________________________________
  City __________ ZIP __________ State _______

IF NEEDED: Could I know just the zip code and the intersection nearest [PROVIDER]? You can just
tell me the two cross-streets and the zip code.
  ZIP __________
  Street 1 ________________
  Street 2 ________________

C8_add1: We are also conducting a survey of child care providers. We would like to offer
him/her/them the opportunity to participate in that survey. Could you tell me a phone number
where he/she/they can be reached? We would not say that you provided their contact information.
(______)_______--________ Phone Number

C8A. INTERVIEWER: CODE OR ASK IF NECESSARY: Does (CHILD) attend regular school grades
kindergarten through eight at (PROVIDER)?
  1 YES
  2 NO

IF PROVIDER TYPE = K-6 OR IF C8a=1, ASK:

C8_1. Last week, what were the hours of the regular school day at (PROVIDER)? IF HOURS VARIED
BY DAY, RECORD LONGEST DAY LAST WEEK.
  Start time: _________
  End time: _________

SKIP TO INSTRUCTION AFTER C9.
C8.2. [IF ORGANIZATION OTHER THAN K-6 SCHOOL] In what kind of building is provider located?
1. Public school
2. Private building used only by provider
3. Church or other religious building
4. Private home that is also a residence
5. Private home where no one lives currently
6. Private building used by provider and other businesses
7. Other

C8.3. [IF ORGANIZATION OTHER THAN K-6 SCHOOL] Some organizations provide a single type of activity for children, that many children may participate in for only a couple of hours each week. These could include tutoring programs, sports, or music or dance lessons. Would you say that [provider] offers a single type of activity or more than one type of activity?
1 SINGLE
2 MORE THAN ONE

C8.4. [IF ORGANIZATION OTHER THAN K-6 SCHOOL] Some organizations offer drop-in care that parents can use on an unscheduled basis and without signing up in advance. Gyms, shopping malls, community centers and churches are some places that can offer drop-in care. Does [CHILD] attend [PROVIDER] on a drop-in basis?
1 YES
2 NO

IF PROVIDER PROVIDED CARE LAST WEEK, ASK C9.

C9. Does [PROVIDER] care for [CHILD] regularly? By regularly, we mean at least two hours each week.
1. YES
2. NO

RETURN TO C5 AND ASK ABOUT NEXT PROVIDER UNTIL ALL PROVIDERS ASKED ABOUT.

These next questions are about your interactions with [PROVIDER] and what you think about your child/ren’s experience with him/her/them. LOOP THROUGH EACH PROVIDER THAT IS NOT A SINGLE ACTIVITY, A DROP-IN PROVIDER OR A K-6 SCHOOL.
Let's start with (PROVIDER).

C11 [IF PROVIDER NOT HHMEMBER] Before (PROVIDER) started caring for your child/ren for the first time, which of the following did you do to learn about (him/her/them) CODE ALL THAT APPLY:

1. Talk to the provider
2. Observe the provider myself
3. See how my child reacts
4. Ask friends and family
5. Ask parents who use the provider
6. Read about the provider in paper or on-line materials
7. Look up quality rating systems
8. Ask teachers
9. Other (specify)

C12 [IF PROVIDER NOT HHMEMBER OR RELATIVE] Do you have any difficulties talking with (PROVIDER/your caregiver at PROVIDER) because both of you aren’t comfortable speaking the same language?

1. Yes (ASK C12A)
2. No (skip to C13)

C12A What language does (PROVIDER/your caregiver at PROVIDER) speak at home?

1. English
2. Spanish
3. Other (SPECIFY__________)
4. Other (DON'T KNOW LANGUAGE)

C13 How many times in the past month have you had conversations with (PROVIDER/ a caregiver at PROVIDER) on the following issues...

- C13A. Your concerns about something your child’s teacher/caregiver is doing with the child or group
  - 1 Never
  - 2 once or twice
  - 3 three or more times
- C13B. Your concerns about the child’s behavior
  - 1 Never
  - 2 once or twice
  - 3 three or more times
- C13C. Your concerns about your child’s development
  - 1 Never
  - 2 once or twice
  - 3 three or more times
- C13D. Seeking direction for how to support children’s learning at home
  - 1 Never
  - 2 once or twice
  - 3 three or more times
- C13E. Seeking direction for how to discipline the child at home
  - 1 Never
  - 2 once or twice
  - 3 three or more times

Comment [A17]: Edit as in home-based provider survey. Remove 'concerns' from wording, ask about program activities, behavior & discipline, development and supporting learning.
[READ FOR FIRST CHILD ONLY:] Sometimes the children can have different experiences with the same provider, even if they receive care at the same time. LOOP THROUGH EACH CHILD RECEIVING CARE WITH THIS PROVIDER. How often would you say that...

C14A. (CHILD) feels completely safe and secure in (PROVIDER)’s care.
1 Rarely
2 Sometimes
3 Usually
4 Frequently
5 Always

C14B. (CHILD) gets a great deal of individual attention while in the care of (PROVIDER).

LOOP THROUGH NEXT CHILD CARED FOR BY PROVIDER BEGINNING WITH C14A. AFTER ALL CHILDREN COMPLETE FOR THIS PROVIDER, RETURN TO C11 AND ASK ABOUT NEXT PROVIDER UNTIL ALL NON-SCHOOL, NON-SINGLE ACTIVITY, NON-DROP-IN PROVIDERS ASKED ABOUT.

C15. Has a child care provider ever provided you with or referred you to any of the following services?

- a. Health screening: medical, dental, vision, hearing, or speech? Y N
- b. Development assessments? Y N
- c. Counseling services for children or parents? Y N
- d. Social services to families such as housing assistance, food stamps, financial aid, or medical care. Y N
**Respondent and Spouse Employment Schedules**

ASK FIRST FOR R, THEN ASK FOR R’S SPOUSE/PARTNER IF ANY IN HOUSEHOLD, THEN ASK FOR ANY HH MEMBER WHO PROVIDED 8 OR MORE HOURS OF CARE LAST WEEK OR DOES SO USUALLY.

D1A. I’m going to ask you about (your/HHMEM’s) current work situation. Last week, did (you/s/he) do any work for pay? IF NEEDED: Please include freelance work, work in the military, work for a family-owned business even if (you/s/he) did not get paid, and work on (your/his/her) own business or farm.
   1. YES
   2. NO

D1B. Last week, (were you/was s/he) enrolled in a high school, college or university?

Child Care Payment and Subsidy to Each Provider

Now I have some more questions about the regular child care arrangements you use for your child/children whether you used them last week or not.

LOOP THROUGH ALL PROVIDERS WHO ARE NOT A PUBLIC SCHOOL, SINGLE-ACTIVITY, OR DROP-IN.

/* HAS THIS PAYMENT FOR THIS CHILD IN THIS ARRANGEMENT ALREADY BEEN COVERED IN A PREVIOUS LOOP’S RESPONSE TO QE4C? IF YES, SKIP TO E12. ELSE, ASK E1*/
E1. (Starting with the youngest child,) Does (PROVIDER FILLED IN FROM Q1) charge you anything directly for the care of (CHILD)? Please include charges even if you are later reimbursed.
   1. YES -> GO TO E6
   2. NO -> GO TO E2

E2. Is the [provider] paid by someone or some place else for the care of (CHILD)? Do not include payments, reimbursements or vouchers that go directly to you.
   1. YES
   2. NO -> GO TO E5
   3. DON'T KNOW
   4. REFUSED

E3. Who pays them? MARK ALL THAT APPLY
   1. WELFARE OR OFFICE OF EMPLOYMENT SERVICES
   2. AGENCY FOR CHILD DEVELOPMENT
   3. LOCAL OR COMMUNITY PROGRAM
   4. COMMUNITY OR RELIGIOUS GROUP
   5. FAMILY OR FRIEND
   6. EMPLOYER
   7. OTHER
   8. DON'T KNOW
   9. REFUSED

E4. In addition to the payments made by (this source/these sources), do you have a co-payment? In other words, do you need to pay [PROVIDER] yourself with money out of your own pocket?
   1. YES
   2. NO -> GO TO E9
   3. DON'T KNOW -> GO TO E9
   4. REFUSED -> GO TO E9

E4A. How much do you pay yourself?

______________________________

E4B. Is that per hour, per day, per week, bi-weekly, monthly, or something else?
   1. PER HOUR
   2. PER DAY
   3. PER WEEK
   4. EVERY OTHER WEEK
   5. PER MONTH
   6. SOMETHING ELSE (SPECIFY:___________)

E4C. (IF R HAS MORE THAN ONE CHILD WHO USES PROVIDER) Is that amount for (CHILD) only, or for more than one child?
   1. CHILD ONLY -> GO TO E9
   2. OTHER CHILDREN (Which children? ____________) -> GO TO E9

Comment [A31]: Consider asking two questions: 1) would you lose your child’s spot at this provider if you lost your job or had your hours cut back? 2) did you work with [LOCAL CCDF AGENCY] to find this provider or arrange for payment?
E5 So this care is provided free by [provider]?  
1. YES -> GO TO E8  
2. NO -> GO TO E2  
7. DON'T KNOW -> GO TO E8  
8. REFUSED -> GO TO E8

E6. Now think about the money you pay for [provider]. Sometimes the amount of money that a parent is charged for a child care arrangement or program depends on how much the family earns. This is sometimes called a sliding fee scale. Is the amount you are charged for the care provided by [provider] determined by how much money you earn?  
1. YES  
2. NO  
7. DON'T KNOW  
8. REFUSED

E7. How much do you pay this [provider]?  
$______

E7A. Is that per hour, per day, per week, bi-weekly, monthly, or something else?  
1. PER HOUR  
2. PER DAY  
3. PER WEEK  
4. EVERY OTHER WEEK  
5. PER MONTH  
6. SOMETHING ELSE (SPECIFY:___________)

E7B. (IF R HAS MORE THAN ONE CHILD WHO USES PROVIDER) Is that amount for (CHILD) only, or for more than one child?  
1. CHILD ONLY  
2. OTHER CHILDREN (Which children? ____________)

E8. Is [provider] also paid or reimbursed directly by any person or program? Do not include payments, reimbursements or vouchers that went directly to you.  
1. YES  
2. NO -> GO TO E9  
7. DON'T KNOW -> GO TO E9  
8. REFUSED -> GO TO E9

E8A. Who pays them? MARK ALL THAT APPLY  
1. WELFARE OR OFFICE OF EMPLOYMENT SERVICES  
2. AGENCY FOR CHILD DEVELOPMENT  
3. LOCAL OR COMMUNITY PROGRAM  
4. COMMUNITY OR RELIGIOUS GROUP  
5. FAMILY OR FRIEND  
6. EMPLOYER  
7. OTHER  
8. DON'T KNOW  
9. REFUSED

Comment [A32]: Consider asking explicitly about Head Start or pre-k if R says 'free' for non-home-based providers of children under age 6. Two programs that might not charge parents for taking care of their young children are Head Start and [LOCAL NAME FOR PRE-K]. Do you happen to know if [provider] is one of these types of programs? Yes/No.
E9. Do you receive payments, reimbursements or vouchers that are paid directly to you to cover some portion of the payments you make to [provider] for (CHILD)’s care?
   1. YES
   2. NO -> GO TO E10
   3. DON’T KNOW -> GO TO E10
   4. REFUSED -> GO TO E10

E9A. How much do you receive in payments, reimbursements or vouchers that are paid directly to you for [provider]?
   $________

E9B. Is that per hour, per day, per week, bi-weekly, monthly, or something else?
   1. PER HOUR
   2. PER DAY
   3. PER WEEK
   4. EVERY OTHER WEEK
   5. PER MONTH
   6. SOMETHING ELSE (SPECIFY:________)

E9C. (IF R HAS MORE THAN ONE CHILD WHO USES PROVIDER) Is that amount for (CHILD) only, or for more than one child?
   1. CHILD ONLY
   2. OTHER CHILDREN (Which children? ________________)

[ASK E10 AND E11 FOR FIRST CHILD WITH EACH PROVIDER ONLY.]
E10. Do you (also) give [provider] anything other than money in exchange for caring for [CHILD]?
   For example, do you provide groceries or transportation, or do work such as caring for children or small repair jobs in exchange for the care that () receives?
   1 YES
   2 NO -> GO TO E11

E10A. What do you give [provider] in exchange for caring for your (child/children)?
   1 groceries
   2 transportation
   3 services such as child-care or small repair jobs

E10B. What does it cost you to provide these things? $ __________

E10B1. Is that per week, per month, or something else?
   1 Per week
   2 Per month
   3 Something else ________________

E10B2. How much time do you spend providing these things? ________ Hours

E10B3. Is that per week, per month, or something else?
   1 Per week
   2 Per month
   3 Something else ________________

Comment [A33]: Delete E10B1, E10B3, E11a1, E11a3 and instead ask, “How often do you give these things?” Revise E10B and E10B2 and E11a and E11a2 to “What does it cost you to provide these things each time you give them?” and “How much time do you spend providing these things each time you give them?”
E11. Do you occasionally give gifts or help out [provider] even if it’s not regular payment for caring for your (child/children)?
   1 Yes
   2 No -> GO TO INSTRUCTION BEFORE E12

E11A. What does it cost you to provide these gifts or help? $______

Non-Parental Child Care Search

F1. These next questions are about how you view different types of childcare or after-school care. Please think about the type of care in general, not any specific program you know of. The types of care I will ask you about are: center care, for example, preschools, Head Start or an after-school program at school; relative or friend care, where a relative or close family friend cares for a child in the relative’s home or the child’s home; family day care, where an individual has a child care business in his or her own home and cares for a few or several children there; and parental care, where the parents are the only care providers a child has.

Let’s start with center care. How would you rate it on having a nurturing environment for children? Would you say: very good, somewhat good, or not very good. CONTINUE WITH OTHER CATEGORIES FOR CENTER CARE. THEN ASK ABOUT OTHER FORMS OF CARE.

F1A. These characteristics of care may be more or less important for different children depending on the age or personality of the child. How important are each of these characteristics in a child-care arrangement for your children.

Let’s begin with your youngest child (CHILD). How important is a nurturing environment for him/her. Would you say very important, somewhat important, or not very important? CONTINUE WITH OTHER CATEGORIES FOR YOUNGEST CHILD. THEN ASK FULL LIST FOR OTHER CHILDREN.

H3 (SUGGESTED SCRIPT) State government program records can provide additional information
about the child care and financial assistance for care that a child may be receiving. For example, some
pre-schools or after-school programs may be receiving government subsidies that parents are not aware
of. These subsidies would be recorded in state program data on child care subsidies or such child care-
related programs as Head Start or Universal Pre-Kindergarten. NORC requests your permission to search
child-care related government program records for information about your child or about the providers
who serve your children. We would not provide the state agency with any of the answers you’ve told me
today, other than your name and the name(s) of your child/ren, and enough information to find them in
state records.

All information about your child and your child’s care provider is held in strict confidence and used for
study purposes only. Any names of children, as well as any names of childcare providers, will not be
used in reporting the study results. We will never release any information that may identify you or your
child. The information will be reported in statistical form to the U.S. Department of Health and Human
Services as part of the results of this study.
