

Head Start Data Archive

Project Overview

The Data Archive maintains data sets collected on Head Start research and evaluation projects. The data sets are archived by [Research Connections](#), a web-based clearinghouse that offers a collection of more than 10,000 resources from the many disciplines related to child care and early education.

Data Sets Available

The following datasets are now available:

- Head Start Family and Child Experience Survey (1997 and 2000 cohorts)
- Evaluation of the Comprehensive Child Development Program
- National Head Start/Public School Early Childhood Transition Demonstration Study.

Data Archive Contact

These data sets can be obtained by contacting Research Connections at contact@childcareresearch.org.
