

Conversation Hour
Conversation with the Editors

Chair: Gerald P. Koocher

Participants: Adam Winsler, Lynn S. Liben, John W. Hagen, Susanne A. Denham

The focus of this conversation hour was to explain the process for publishing theory-based empirical research or practice and policy issues. Journal missions, objectives, submission requirements, information on editorial procedures, and other relevant information were presented for selected journals. There was an opportunity for discussion between panelists and audience members followed by small-group discussions with editors of journals represented on the panel. A list of other relevant child development, education, and child care journals was also available.
