

**MIECE Annual Survey of Home Visiting Program Site Supervisors**

DRAFT

11/7/2011

## Annual Survey of Home Visiting Program Site Supervisors

The supervisor survey instrument is the nearly the same as the home visitor survey instrument. The following list describes areas of difference.

- Section A      Demographic and Background Characteristics**
  - Same as home visitor survey
  
- Section B      Employment and Supervision**
  - Same as home visitor survey except as follows: 1) Items 3, 5, and 6 are modified to reflect supervisor activities and caseloads; 2) Item 9 is modified to reflect supervision of staff rather than direct service; 3) Items 13-15 are modified to reflect supervision of the supervisor; 4) Items 16a – 16c and 20 – 21 are omitted.
  
- Section C      Psychological Well-being**
  - Same as home visitor survey
  
- Section D      Organizational Social Context**
  - Same as home visitor survey
  
- Section E      Program Outcomes**
  - Same as home visitor survey
  
- Section F      Program Referrals**
  - Section is omitted
  
- Sections G-N   Home Visitor Roles and Responsibilities**
  - Section i of G-N is the same as home visitor survey except that column headings are modified to reflect the supervisor’s belief that activities are essential for the home visitor’s role; the supervisor rates her own training as excellent for supervising staff in carrying out the activities; and the supervisor believes she is highly skilled to supervise staff in carrying out the activities. Section ii of G-N is modified to reflect the supervisor’s ratings of her own ability to secure supervision and professional consultation in each area.
  
- Section O      Knowledge of Child Development**
  - Section is omitted.
  
- Section P      Response to Common Home Visit Situation**
  - Section is omitted.
