1. Remove Questions from Section B (UIFSA) of the IRG State Profile (OCSE Ref. # CLI-6665)

1.1 Summary of Changes

We updated the Intergovernmental Reference Guide (IRG) application to remove irrelevant questions from section B in the state profile UIFSA section.

1.2 Background

This change is in response to legislation that was passed making some questions in section B of the [IRG](#) no longer relevant for states. As a result, the Division of Policy and Training agreed to remove the irrelevant questions and answers.

1.3 Description of Changes

We removed questions and answers for B.1, B.3, and B.3.1 and renumbered the remaining questions in that section.

1.4 Impact on States

States do not need to change their systems to take advantage of this enhancement.

1.5 State Testing

No testing required.

1.6 Page Enhancements

Figure 1-1 shows an example of the new section B of the IRG.

Figure 1-1: Updated UIFSA Questions

The screenshot displays the Alabama State Child Support Website interface. At the top, the word "Alabama" is prominently displayed in blue, next to a red outline of the state of Alabama. Below this, a navigation bar includes tabs for "Profile", "Contact", "OCSE Matrix", "MSFIDM Matrix", "General Admin", and "Reports". The "Profile" tab is currently selected. Underneath the navigation bar, there is a dropdown menu for "Program Category" set to "B. UIFSA". To the right of this menu, it shows the last update and certification dates: "Updated On: 20 Jun 2018" and "Certified On: 10 Aug 2018", along with a "Download Profile" button. The main content area is titled "B. UIFSA" and contains two questions, B1 and B2, each with a text area for the answer. Question B1 asks for the statutory citation for the state's UIFSA, with the answer provided as "Section 30-3D-101 through -902 Codes of Alabama 1975. For Additional Information - For Additional Information - http://alisondb.legislature.state.al.us/alison/codeofAlabama/1975/coatoc.htm". Question B2 asks for the number of copies or sets of documents needed for an intergovernmental case referral, with the answer "2 copies, including one certified copy of the order to be registered and also including any modification of the order". At the bottom of the question area, there is a note: "** Signifies a Hague profile question". "Edit" and "Certify" buttons are visible at the top right and bottom center of the question area.

2. Decommission of the InterAct Application (OCSE Ref. # CSP-7187)

2.1 Summary of Changes

We removed the InterAct application and its links from the Portal for the pilot states.

2.2 Background

We introduced the InterAct application as a pilot to the following states: AR, CA, HI, ID, IL, IN, NJ, TN, and VI. InterAct allowed authorized users to complete the following tasks:

- Invite another authorized user to a one-on-one chat
- Invite multiple authorized users to a chat
- Share personally identifiable information and other sensitive information securely

2.3 Description of Changes

As a result of the pilot findings and state-recommended enhancements, we decided to decommission the InterAct application. This change is the outcome of our periodic evaluation of an application's needs and usage. The InterAct application will no longer be accessible from the Portal.

2.4 Impact on States

States do not need to change their systems. We recommend the pilot states remove the 'S8' InterAct role from their users' Portal profile.

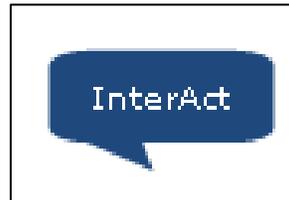

2.5 State Testing

No testing required.

2.6 Page Enhancements

Figure 2-1 shows the 'InterAct' button, which no longer appears at the bottom right side on the Portal pages. You no longer see InterAct in the drop-down menu on the Portal homepage.

5. QUICK Modernization (OCSE Ref. # CLI-7226)

5.1 Summary of Changes

We enhanced the Query Interstate Cases for Kids (QUICK) application to offer a modern user interface for a better user experience and increased efficiency. The new QUICK application offers a simple, efficient, and easy way to navigate the user interface with enhanced features that improve system interaction.

5.2 Background

We modernized the application using the latest technology framework developed for Child Support Portal applications. After upgrades, QUICK will resemble other updated pages on the Portal.

5.3 Description of Changes

The QUICK Technology Modernization Project is primarily a technology upgrade initiative. We redesigned the QUICK application web pages with modern web standards to enhance the user experience. We added no new data fields to the application, but you will see that some elements were moved to new pages or consolidated on existing pages.

We made the following changes to the QUICK application:

- Modernized the web pages
- Improved data viewing with data sorting capabilities
- Reorganized information displays
- Improved general error handling by displaying specific error identifiers on the user interface so the OCSE technical team can troubleshoot issues that states report
- Removed the InterAct link as part of the InterAct decommissioning task

5.4 Impact on States

States do not need to change their systems to use the modernized QUICK application.

5.5 State Testing

Optional state testing in the User Acceptance Testing (UAT) environment began on November 20, 2018. All states were invited to participate. States were advised to contact the Portal Help Desk at CSPortal@acf.hhs.gov with feedback.

7. Implement Solicit User Feedback on Portal (OCSE Ref. # CSP-7290)

7.1 Summary of Changes

We enhanced the Child Support Portal to include a user feedback feature.

7.2 Background

We had no way for Portal users to enter online comments. However, we want to collect your feedback so we can optimize your Portal experience. This enhancement allows us to obtain and evaluate your feedback.

7.3 Description of Changes

We added a link to the Portal allowing users to give feedback. When the user selects 'FEEDBACK,' a screen appears for the user to enter comments and their email address and select the related application.

7.4 Impact on States

States do not need to change their systems to take advantage of this enhancement.

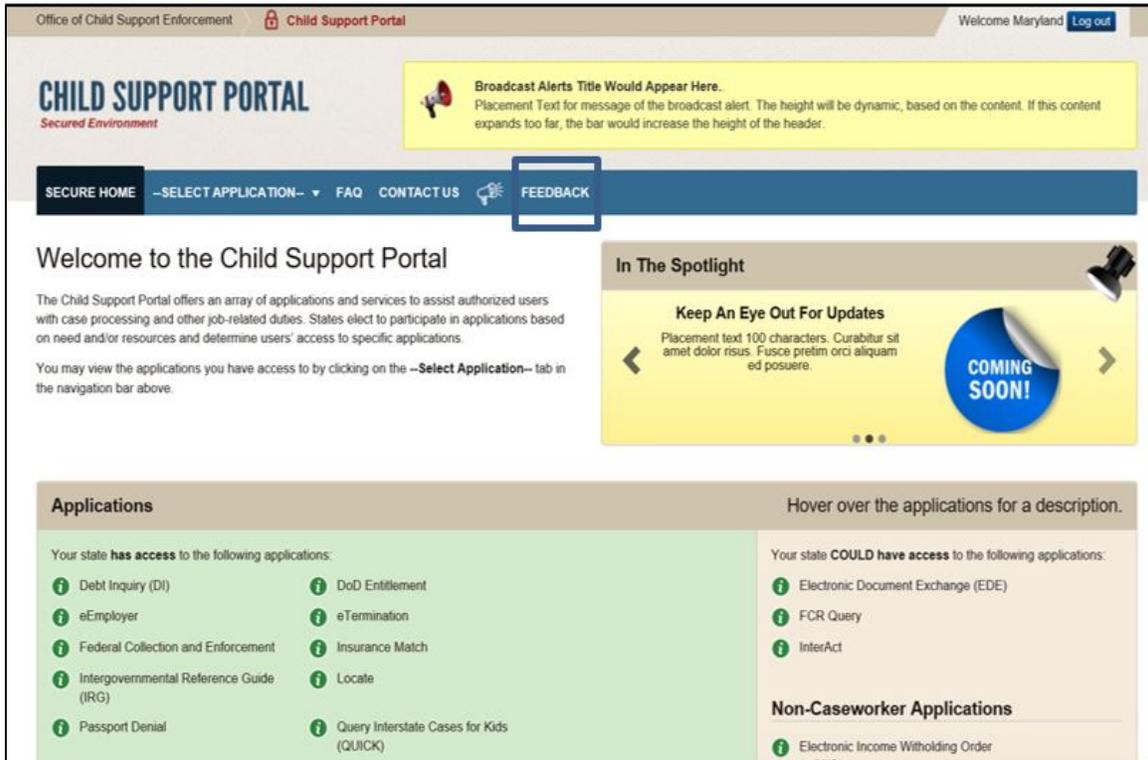

7.5 State Testing

No testing required.

7.6 Page Enhancements

Figure 7-1 shows the 'FEEDBACK' link that allows states to submit suggestions through the Portal.

Figure 7-1: Portal Welcome Screen – FEEDBACK Link

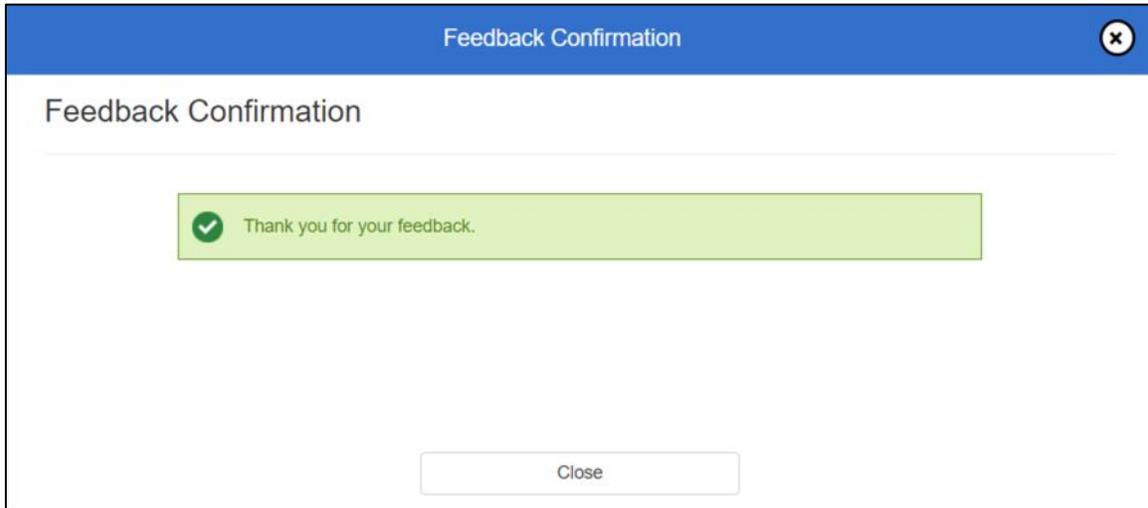

When you select 'FEEDBACK,' a screen appears for you to enter your information; see Figure 7-2. You can send feedback on any application by selecting it in the Application drop-down list.

Figure 7-2: Feedback Screen

The screenshot shows a web form titled "Feedback" with a close button in the top right corner. A red asterisk indicates required fields. The "Select Application" dropdown menu is set to "Federal Collection and Enforcement". A blue information box states: "You must enter either an Email Address or Phone Number." Below this, there are two input fields: "Email Address" containing "James.Smith@state.gov" and "Phone Number" containing "123-123-1234". A large text area for "Feedback" is present, with a character count of "Characters Remaining: 250". A second blue information box states: "Do not enter Personally Identifiable Information (PII) or Federal Tax Information (FTI)." At the bottom, there are three buttons: "Submit" (dark blue), "Clear" (light blue), and "Cancel" (white with grey border).

When you click Submit, a confirmation screen appears; see Figure 7-3.
